

negative regulation of chromosome segregation

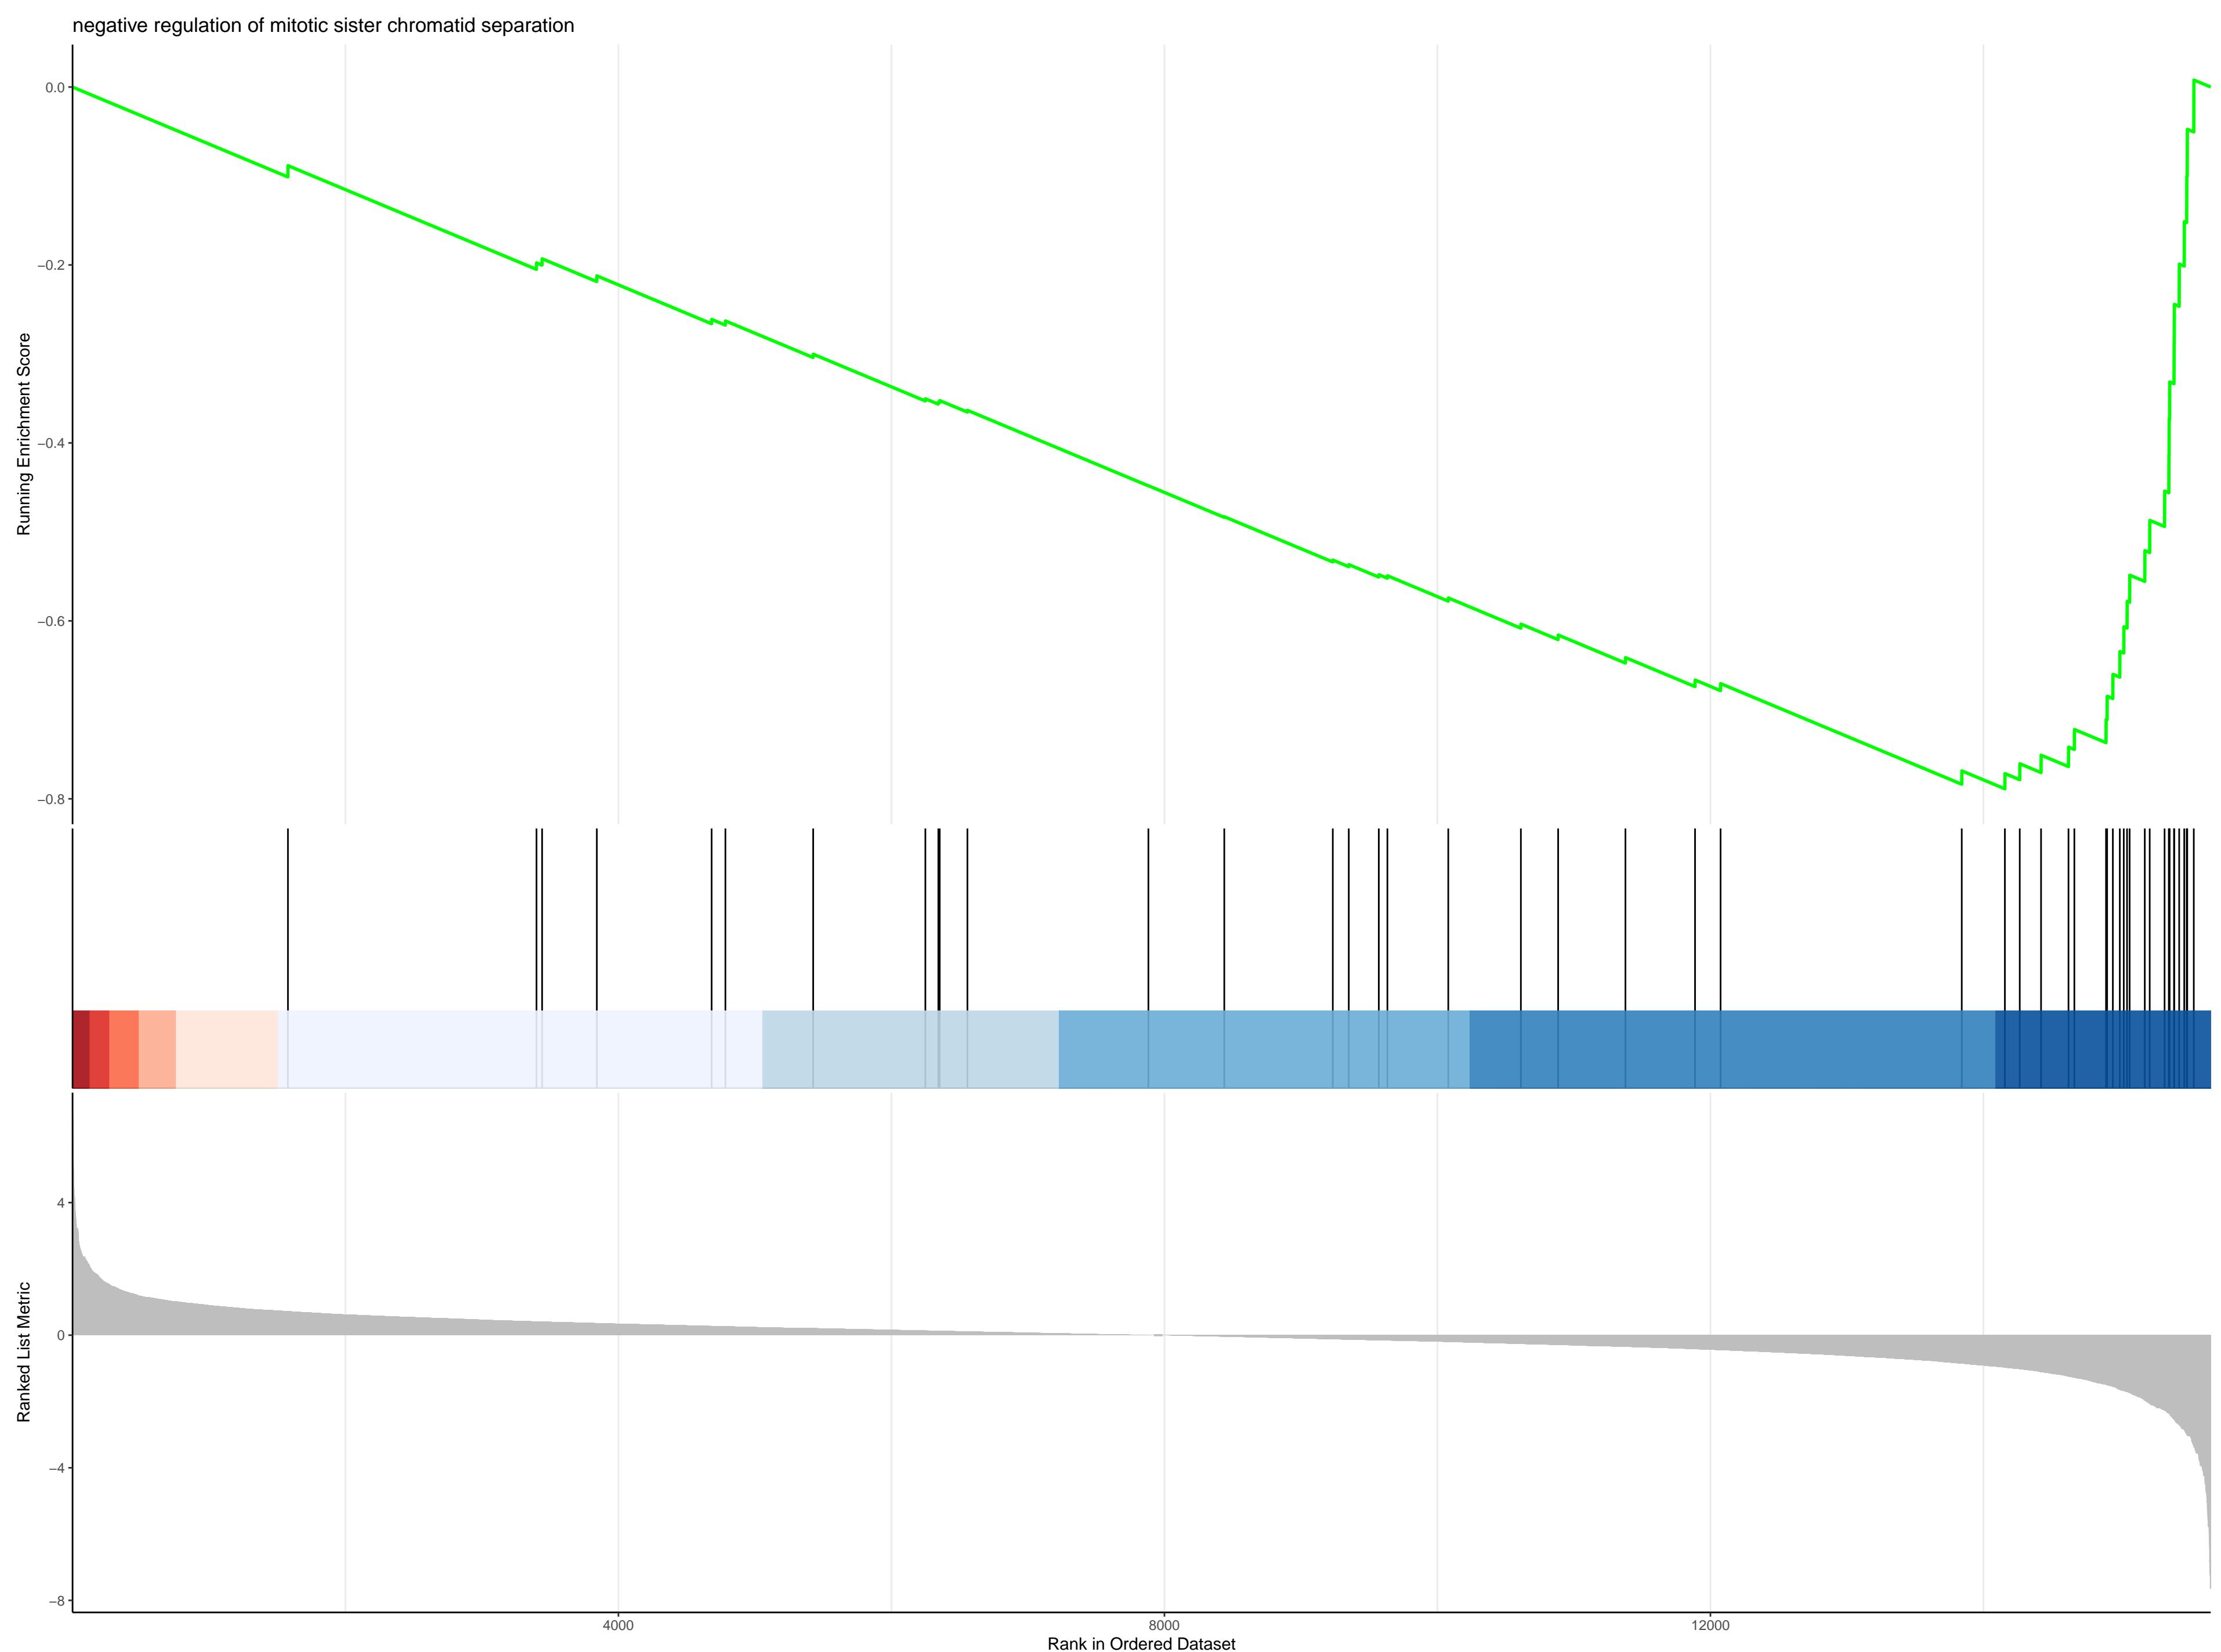

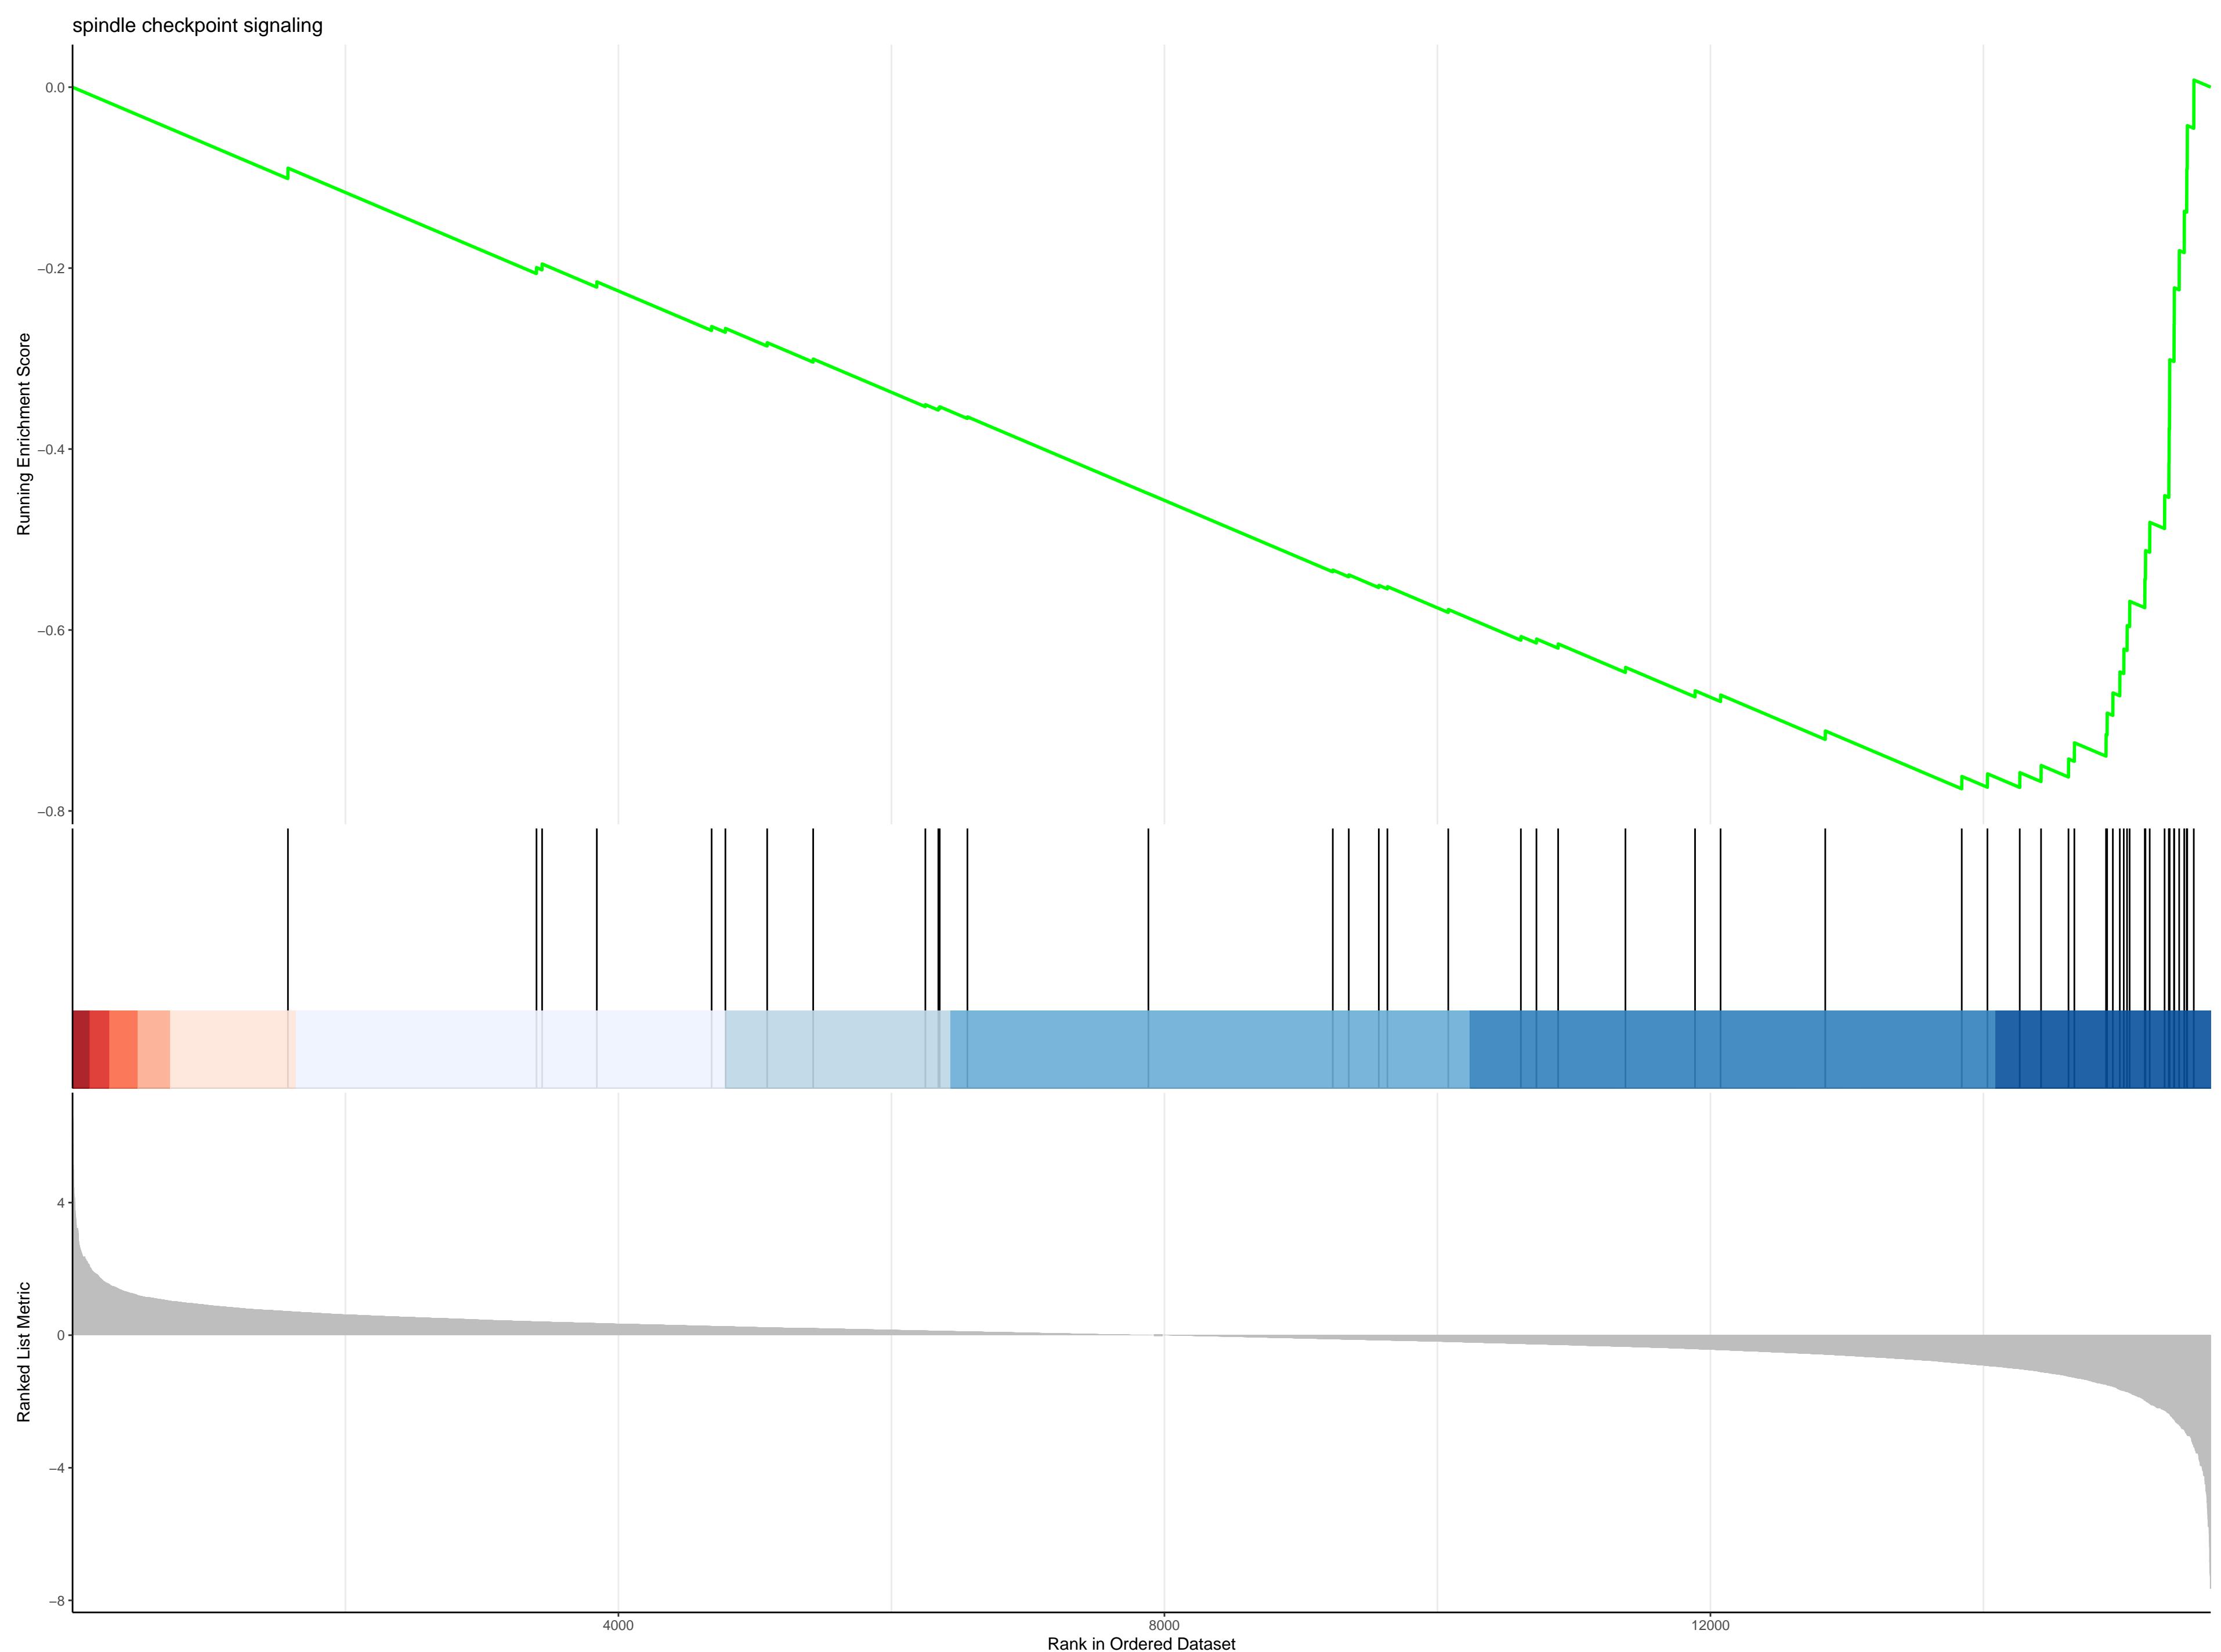

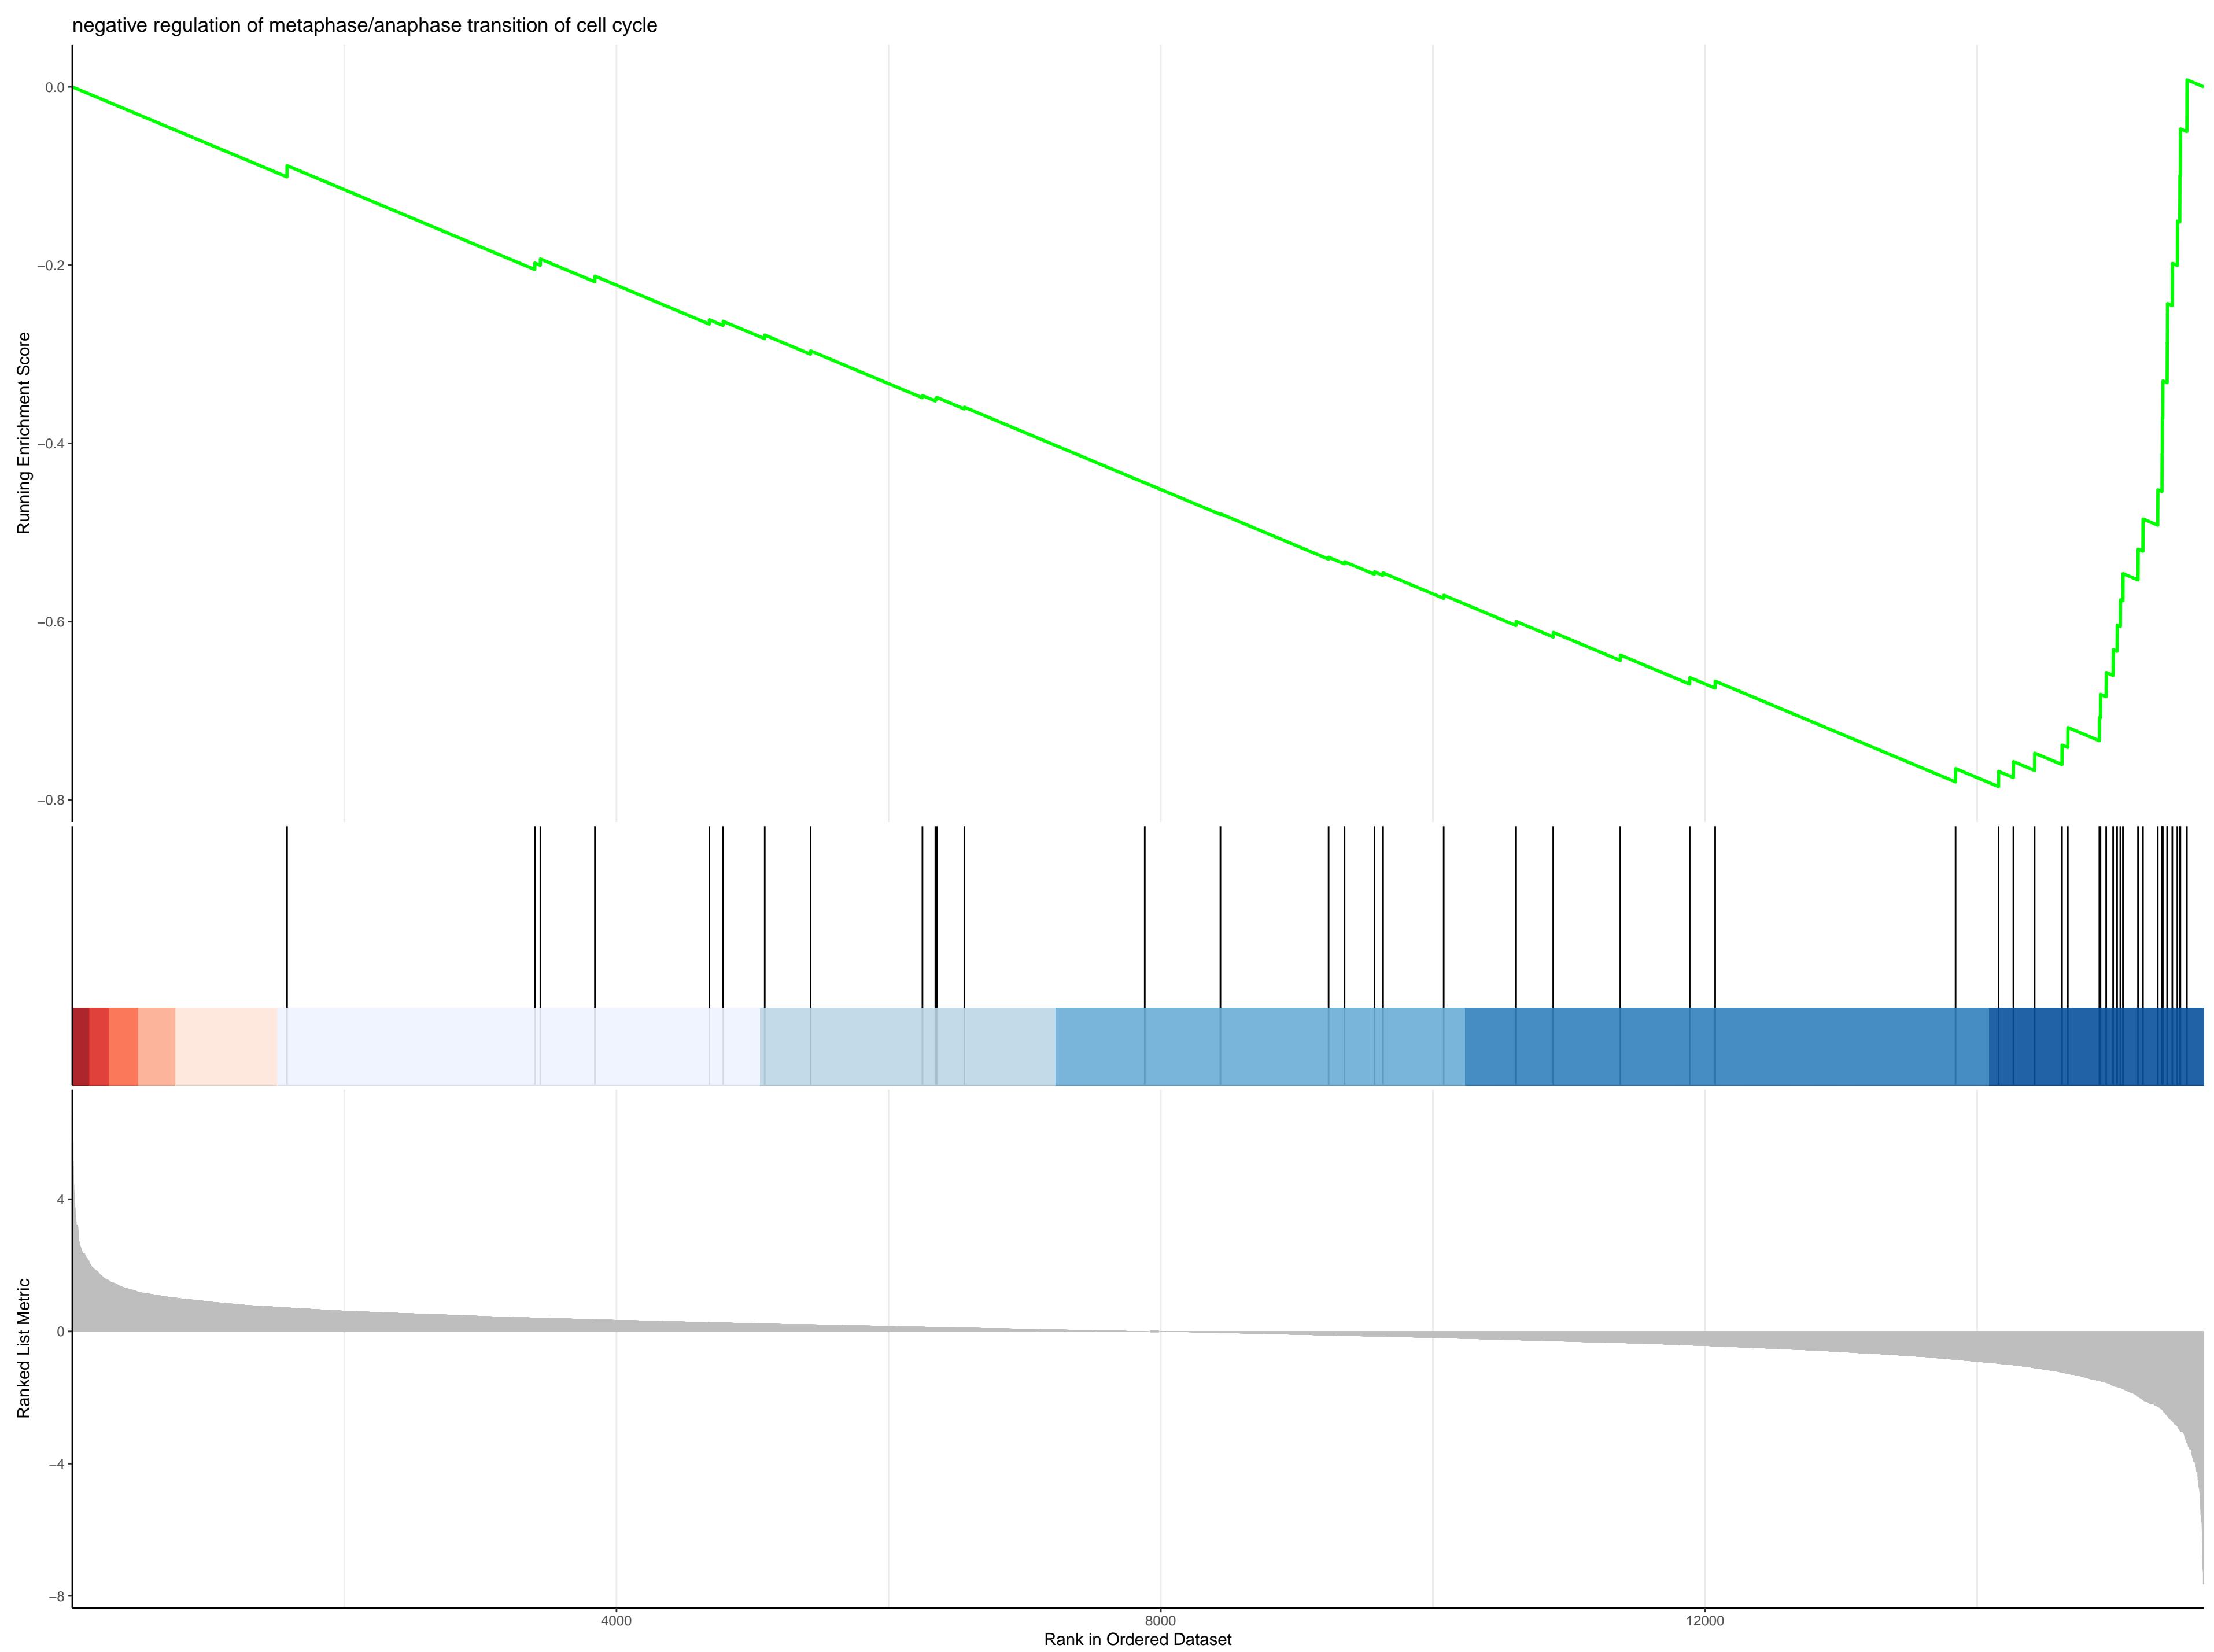

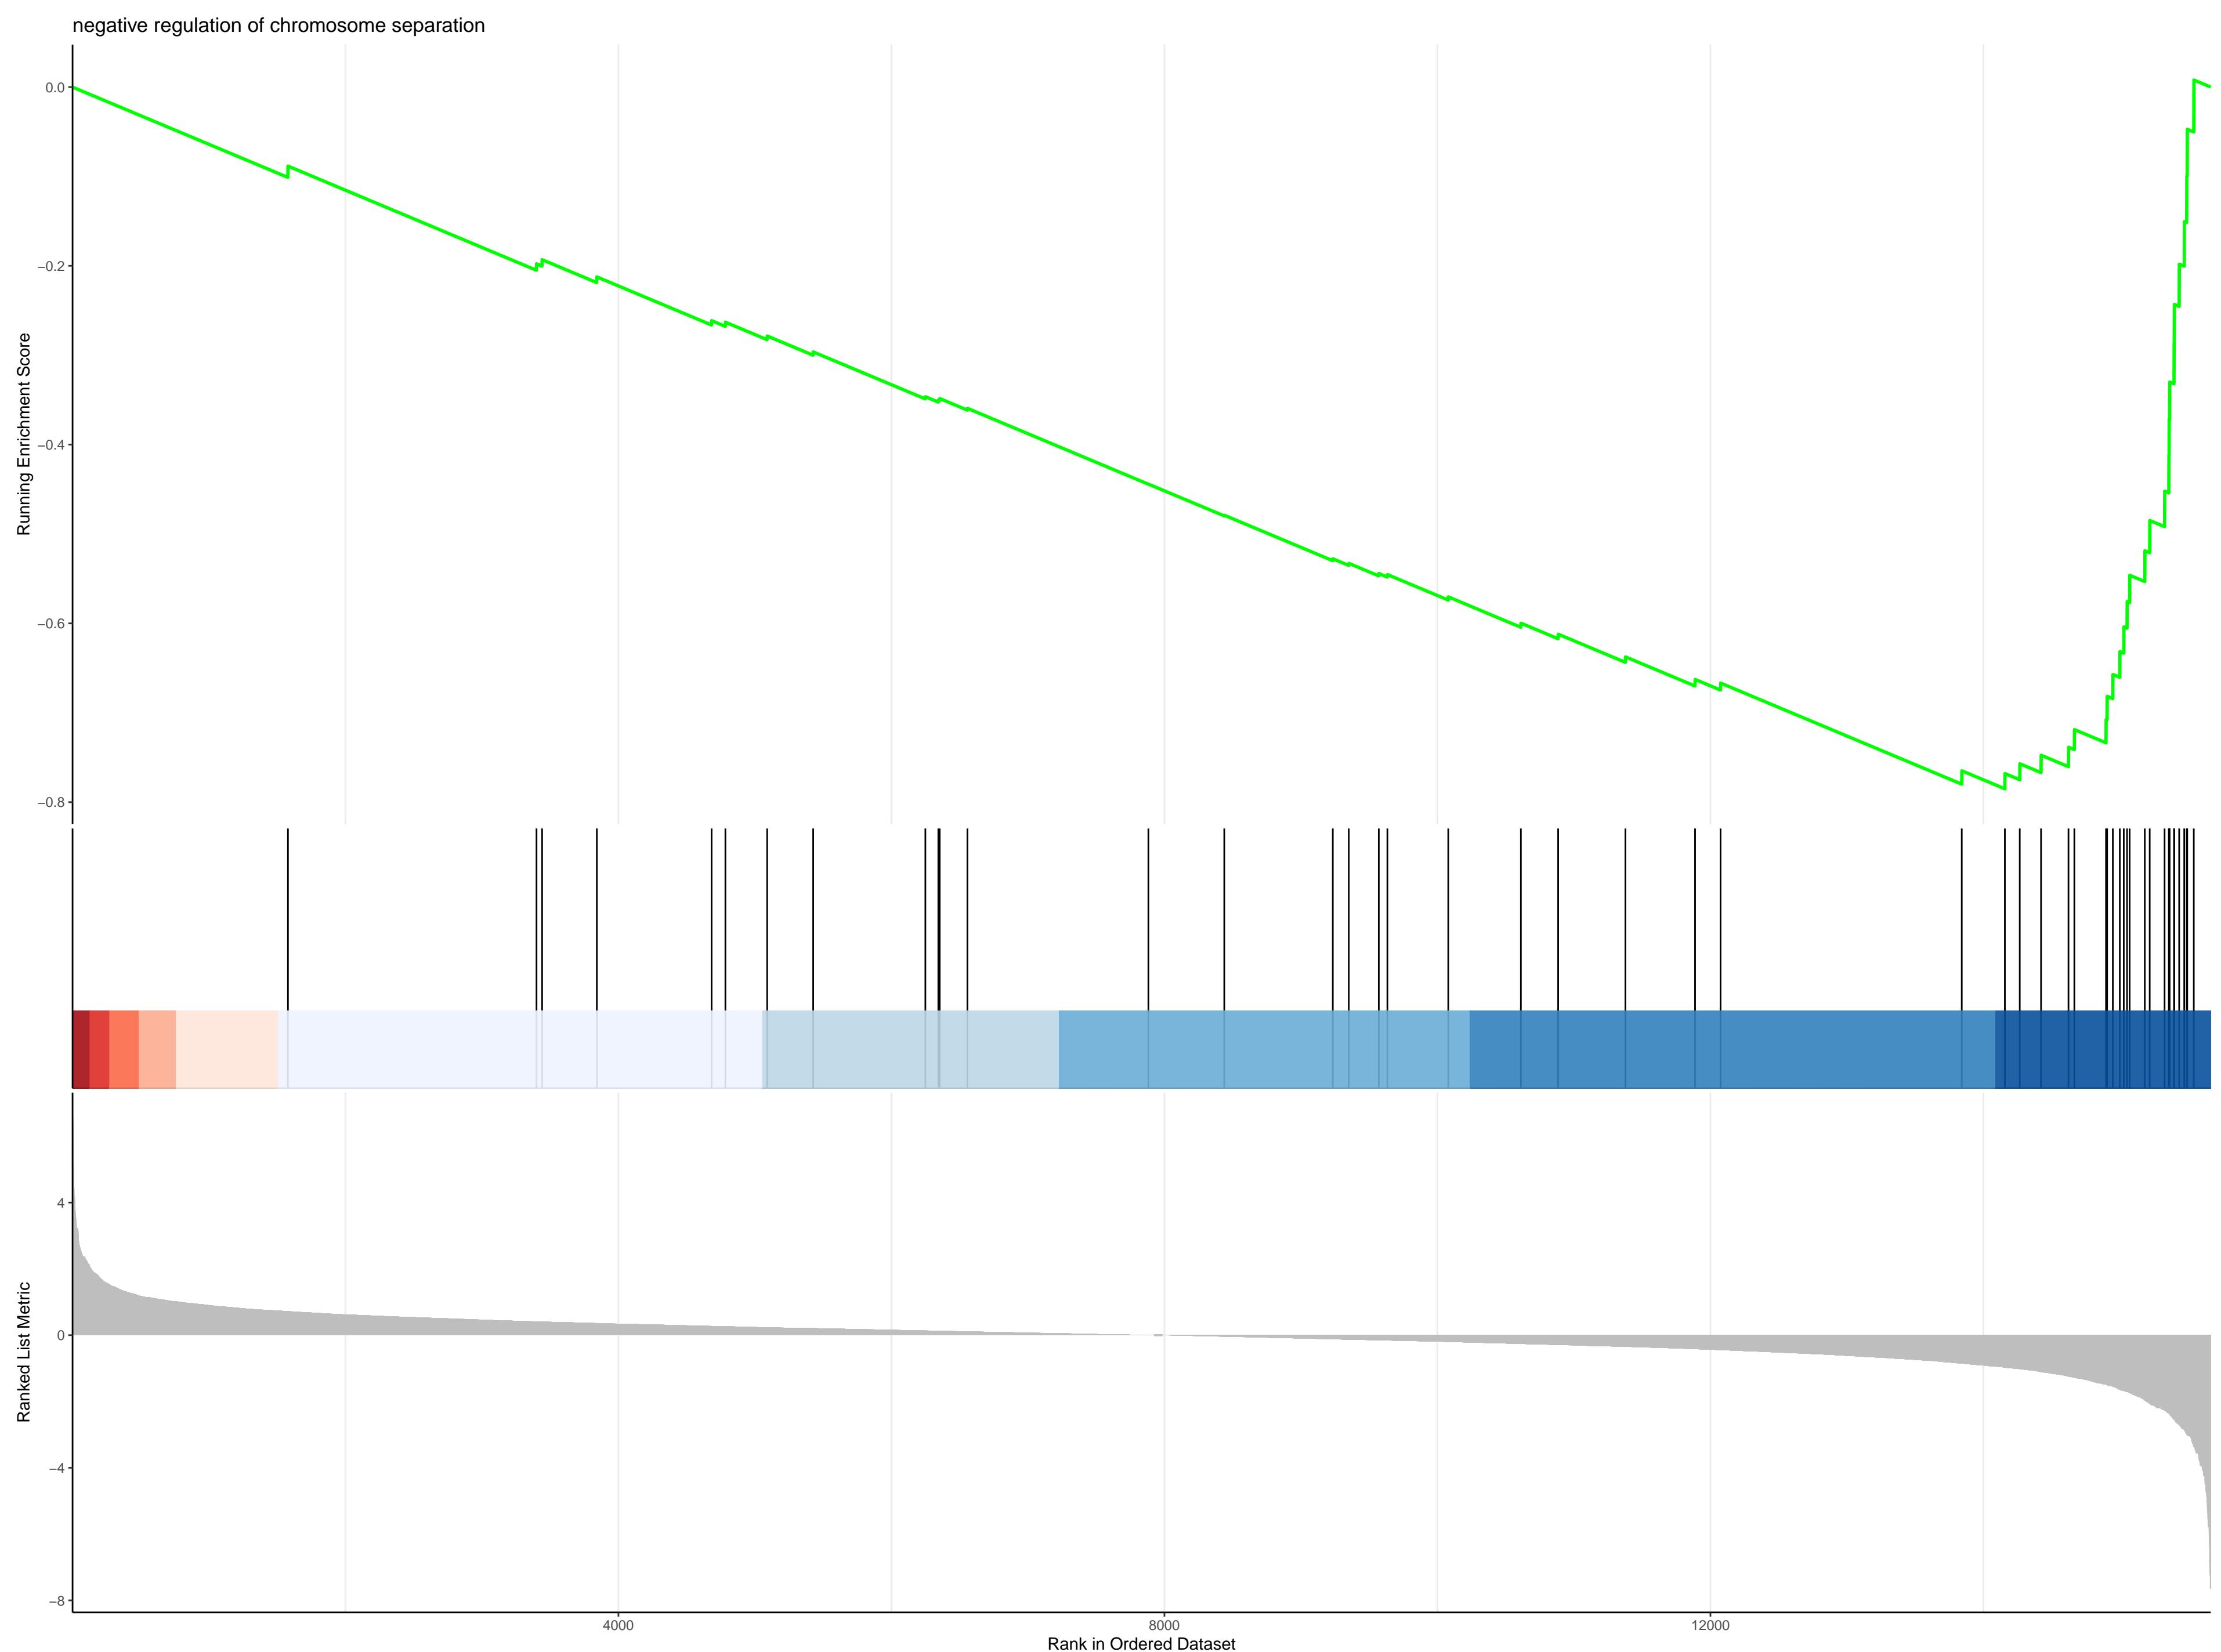

negative regulation of mitotic metaphase/anaphase transition

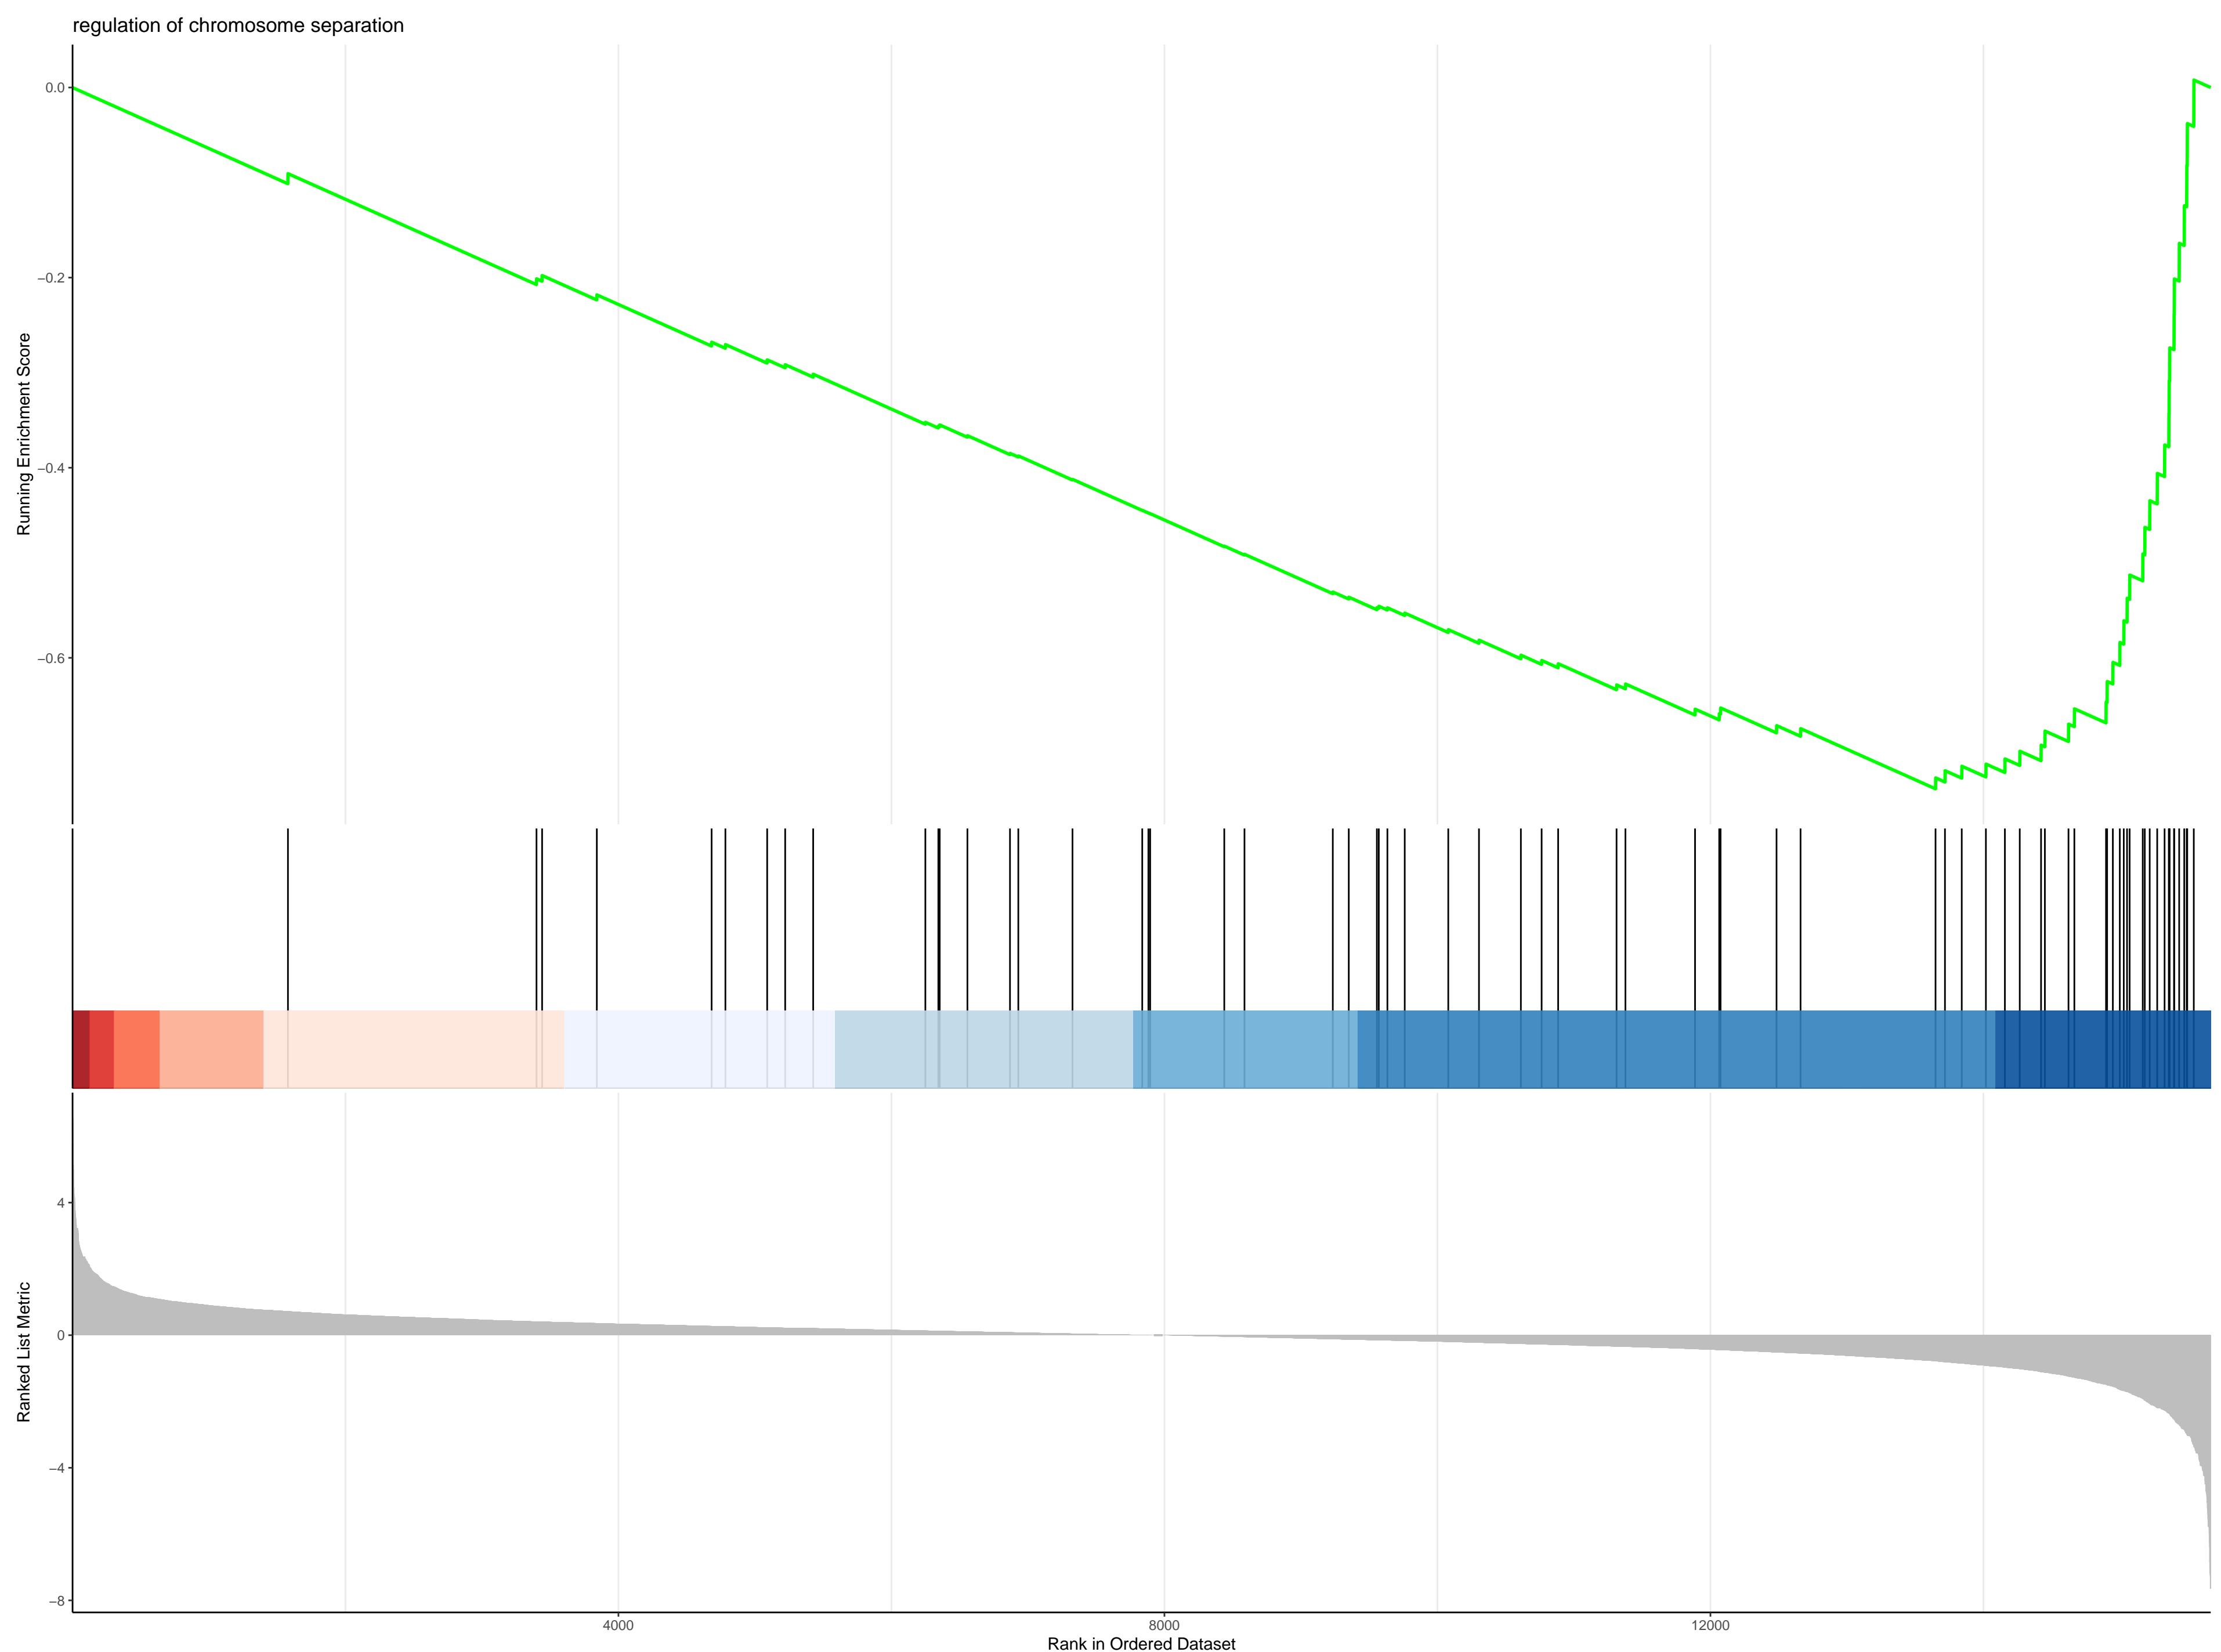

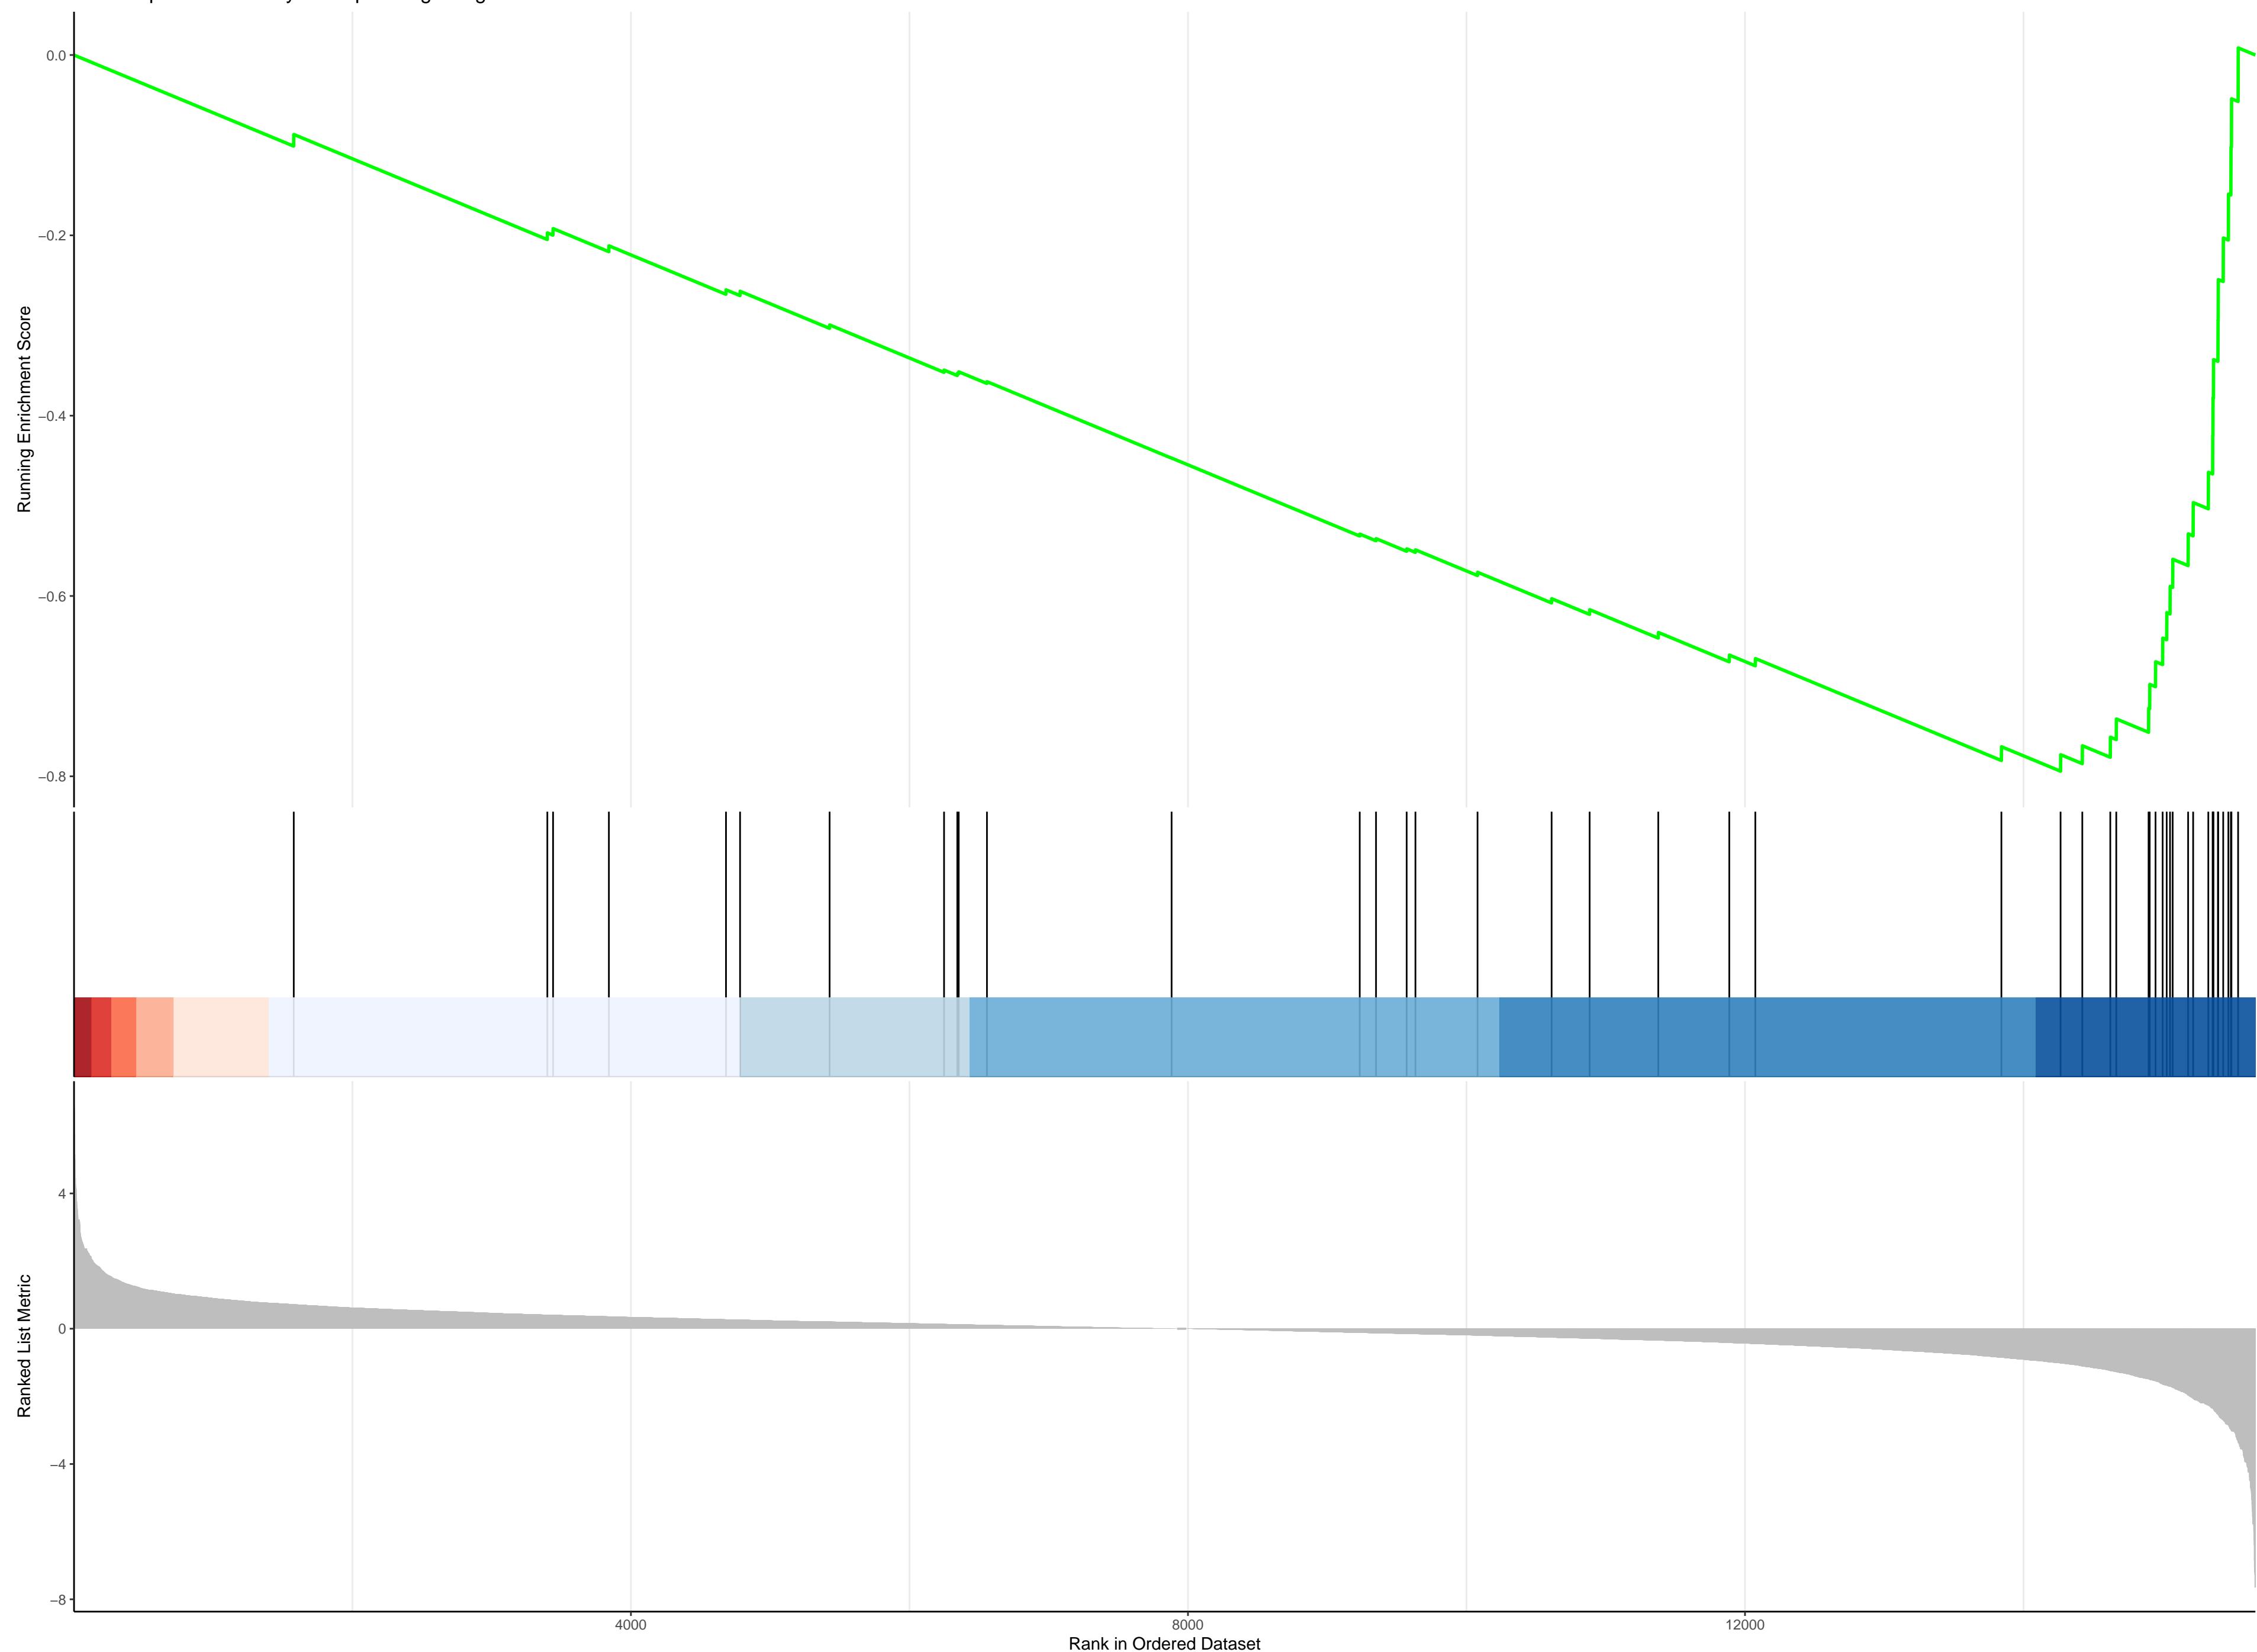

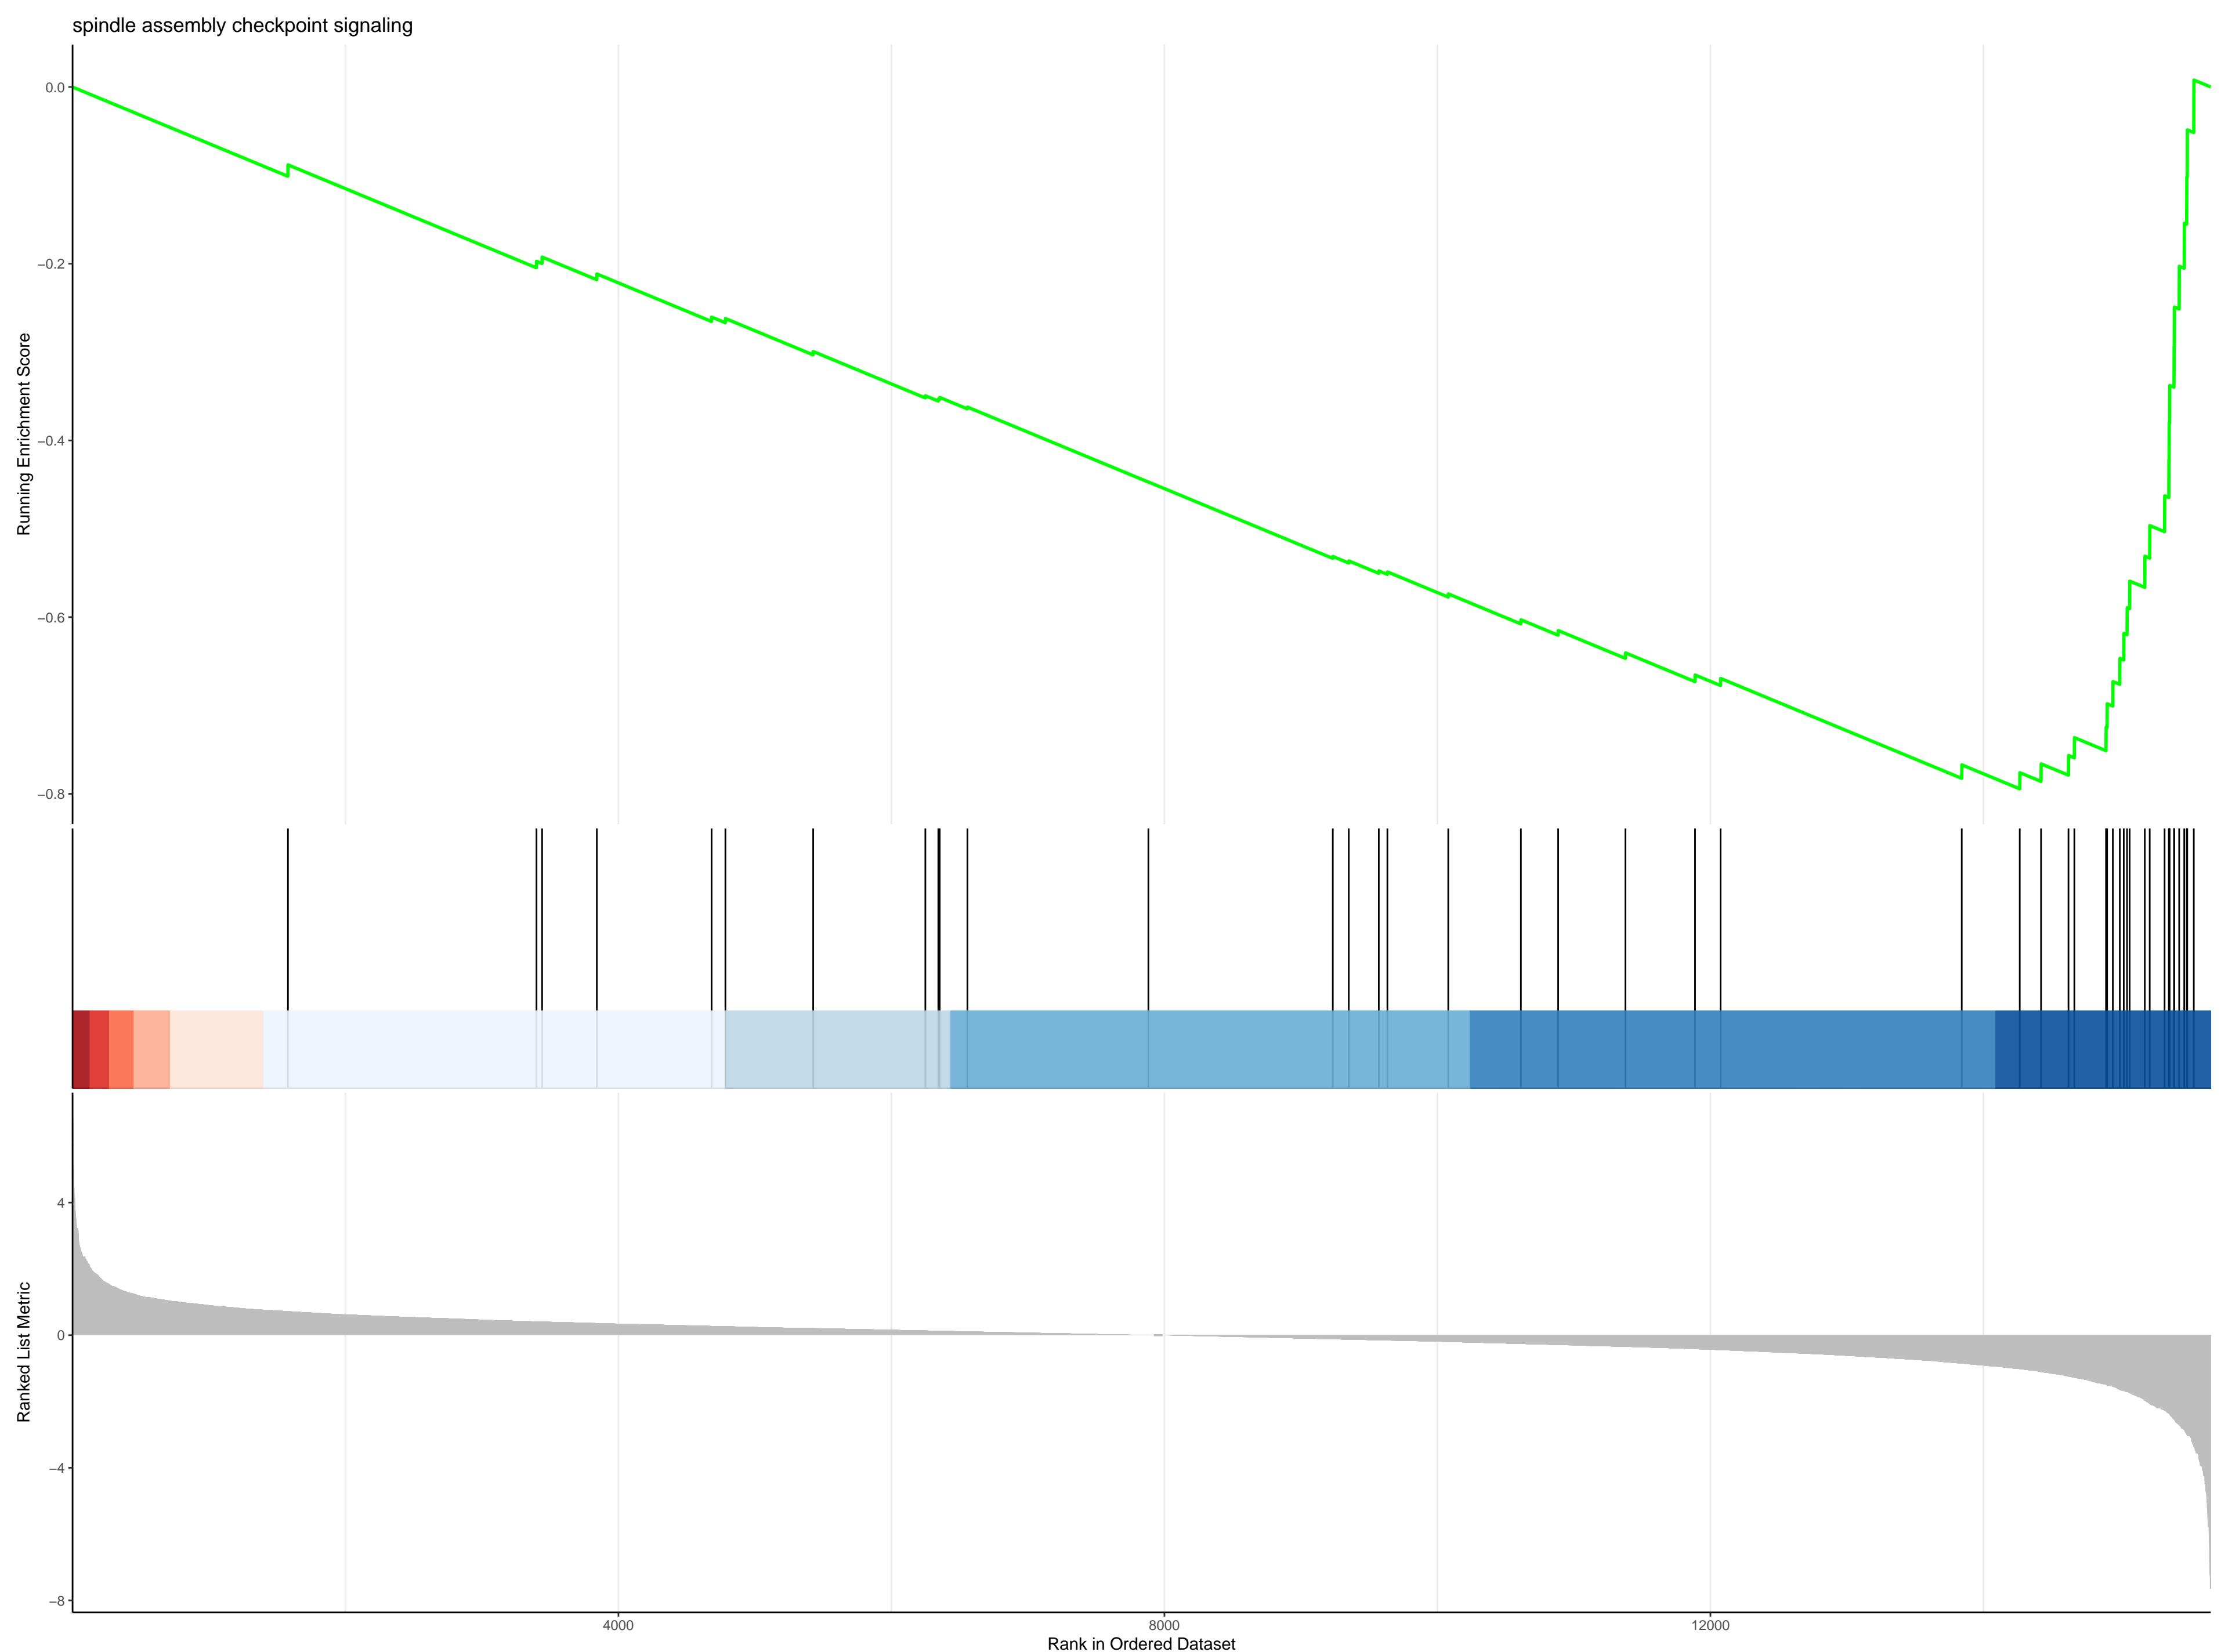

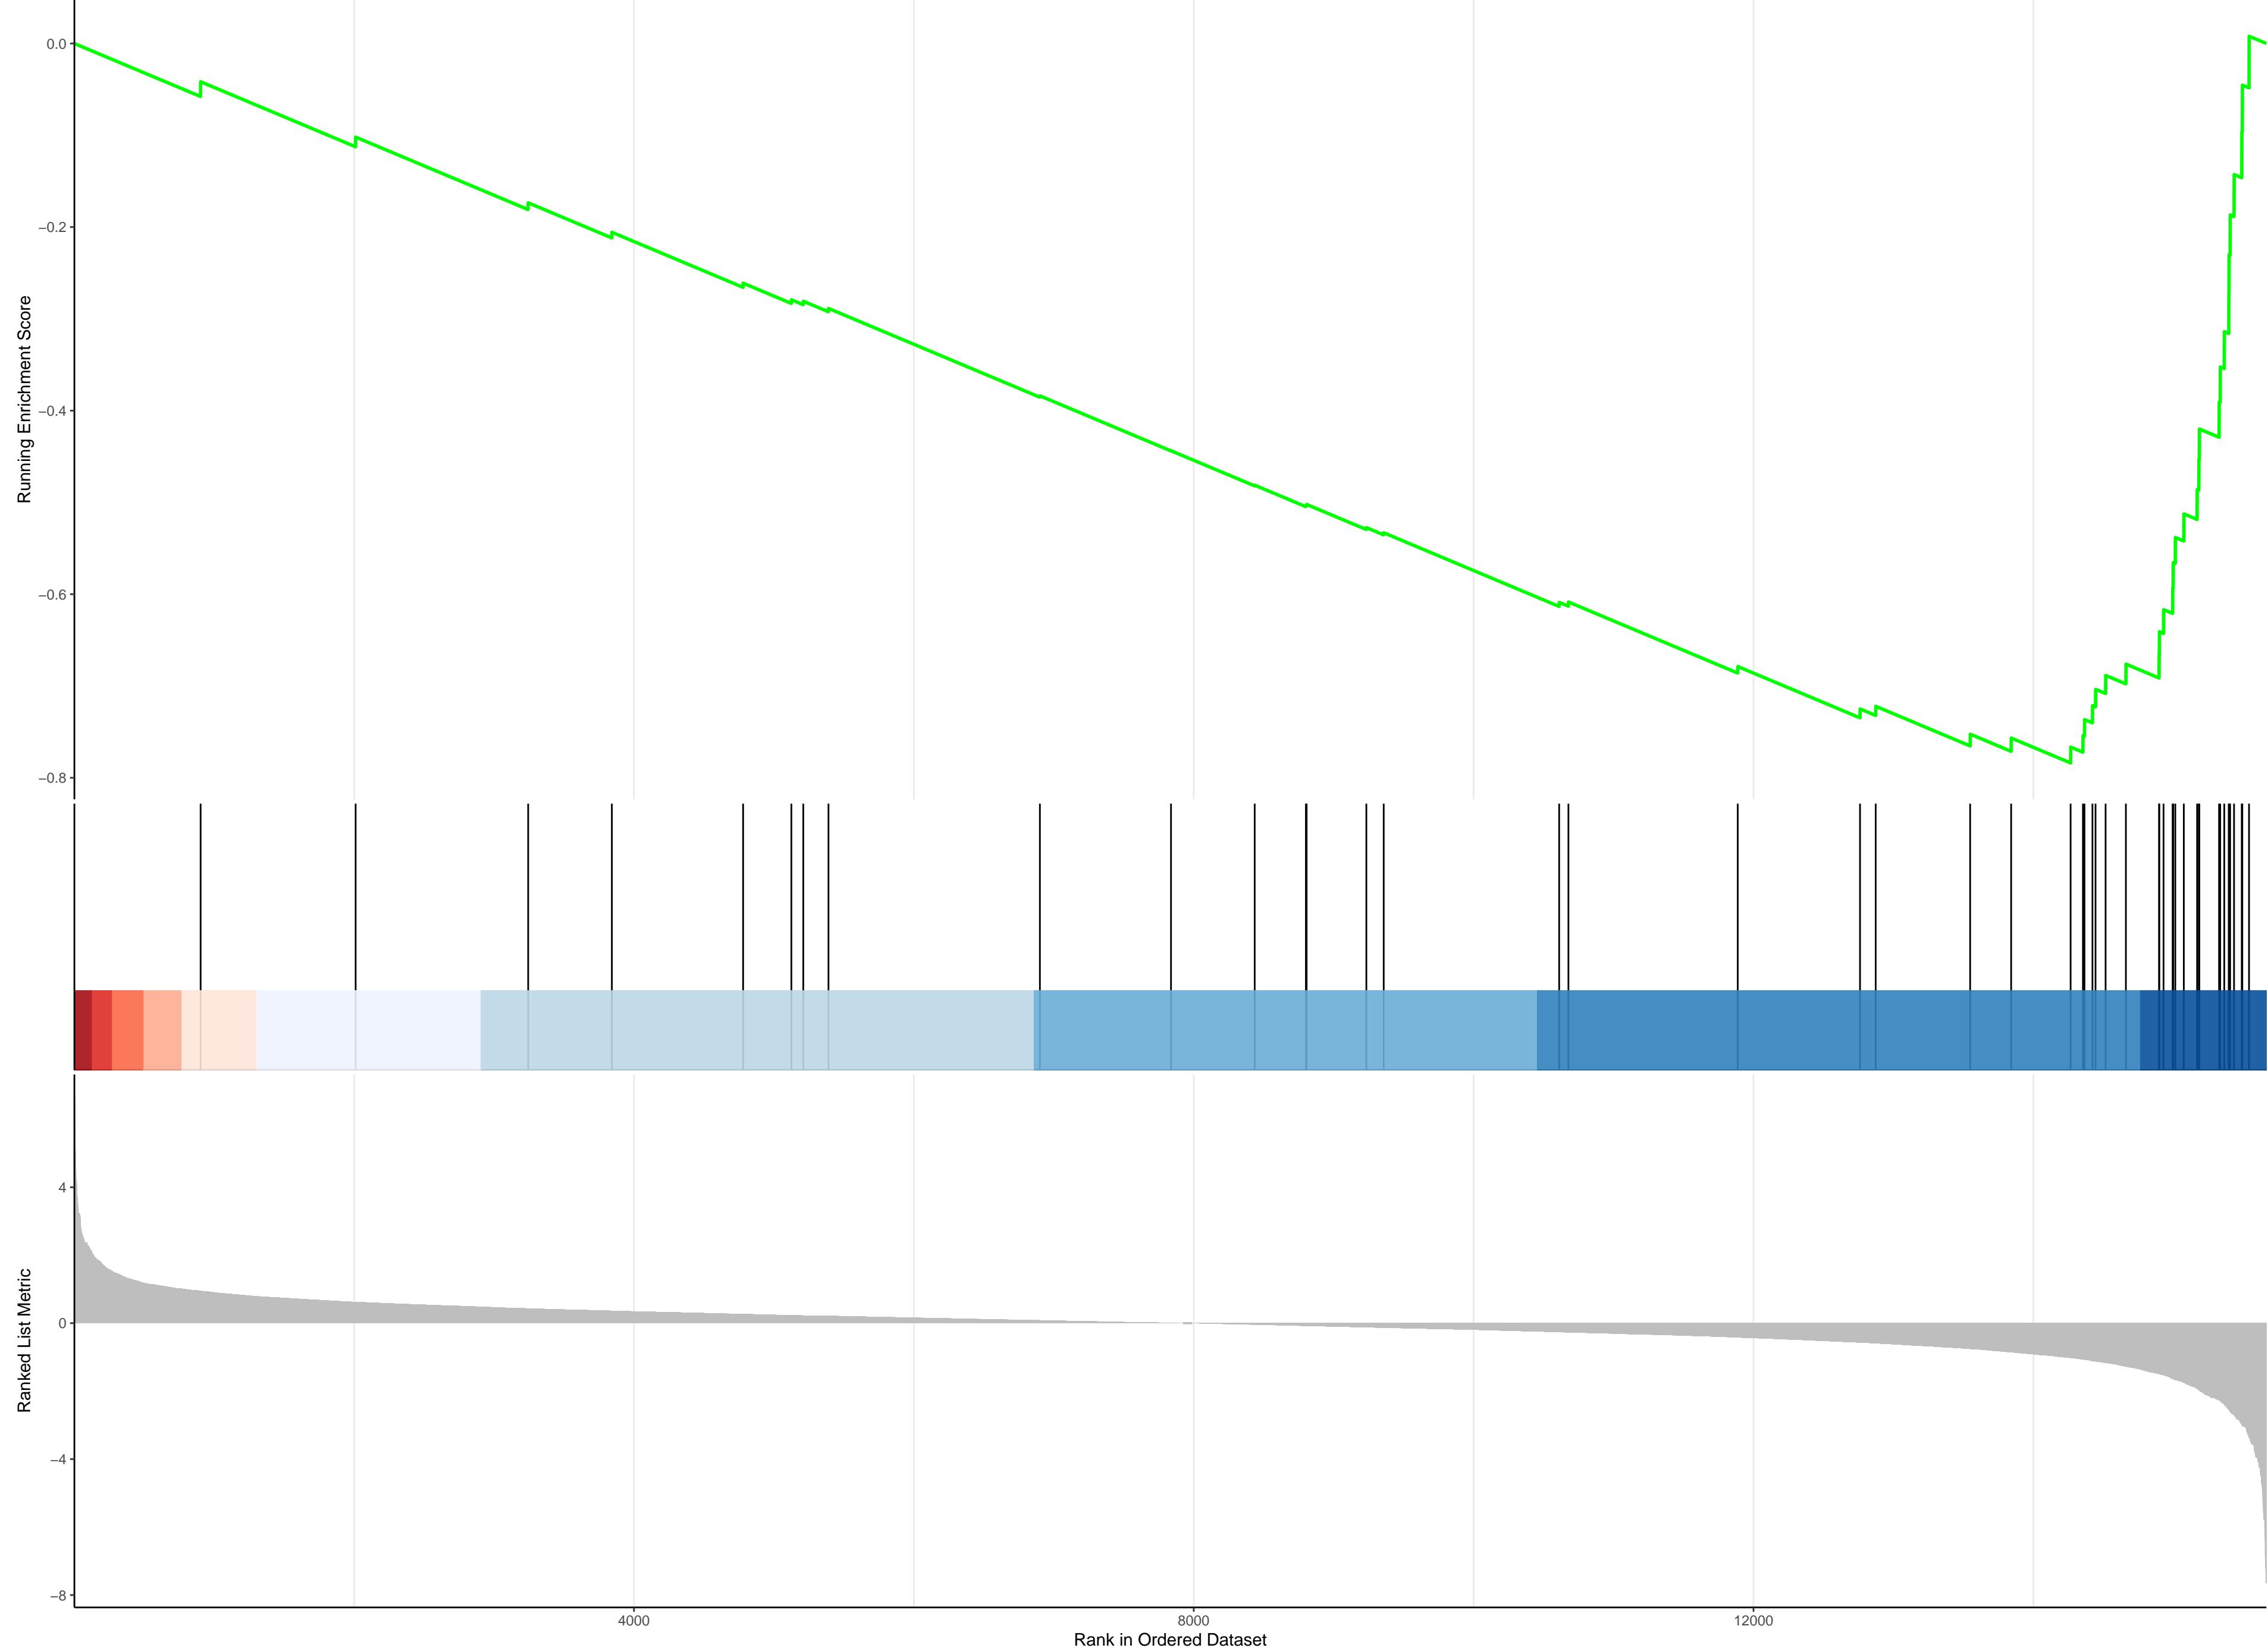

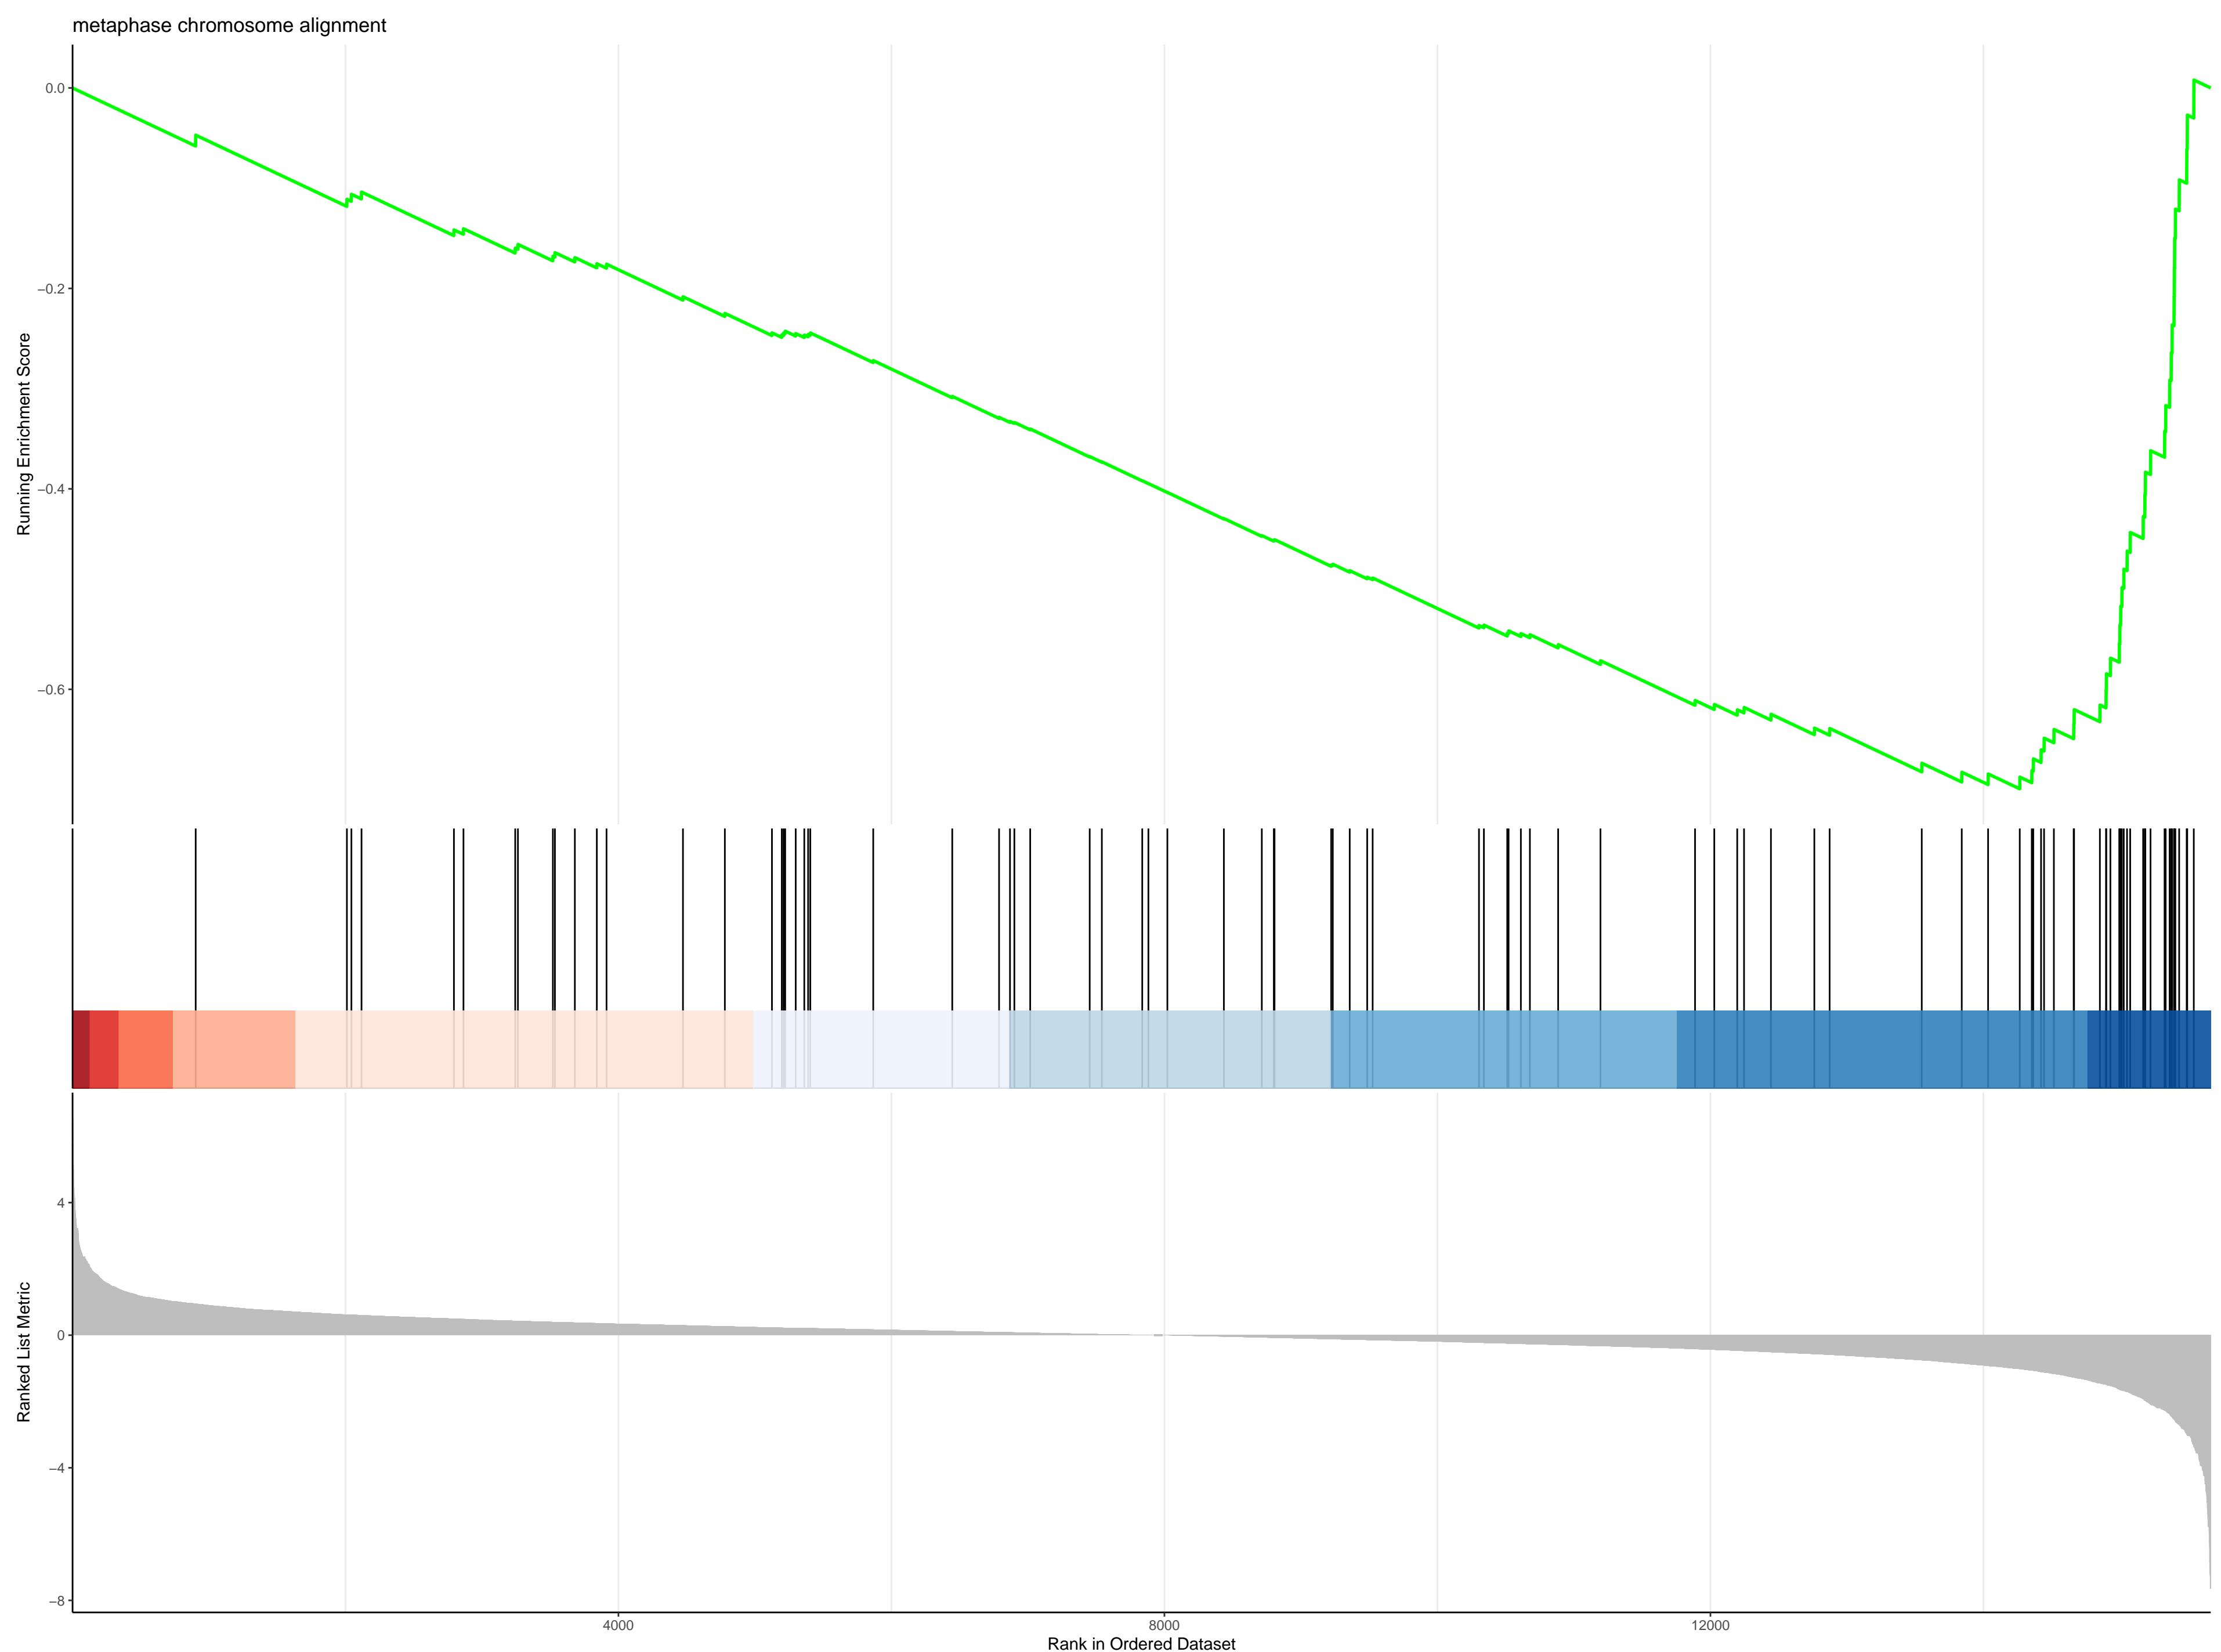

mitotic spindle assembly checkpoint signaling

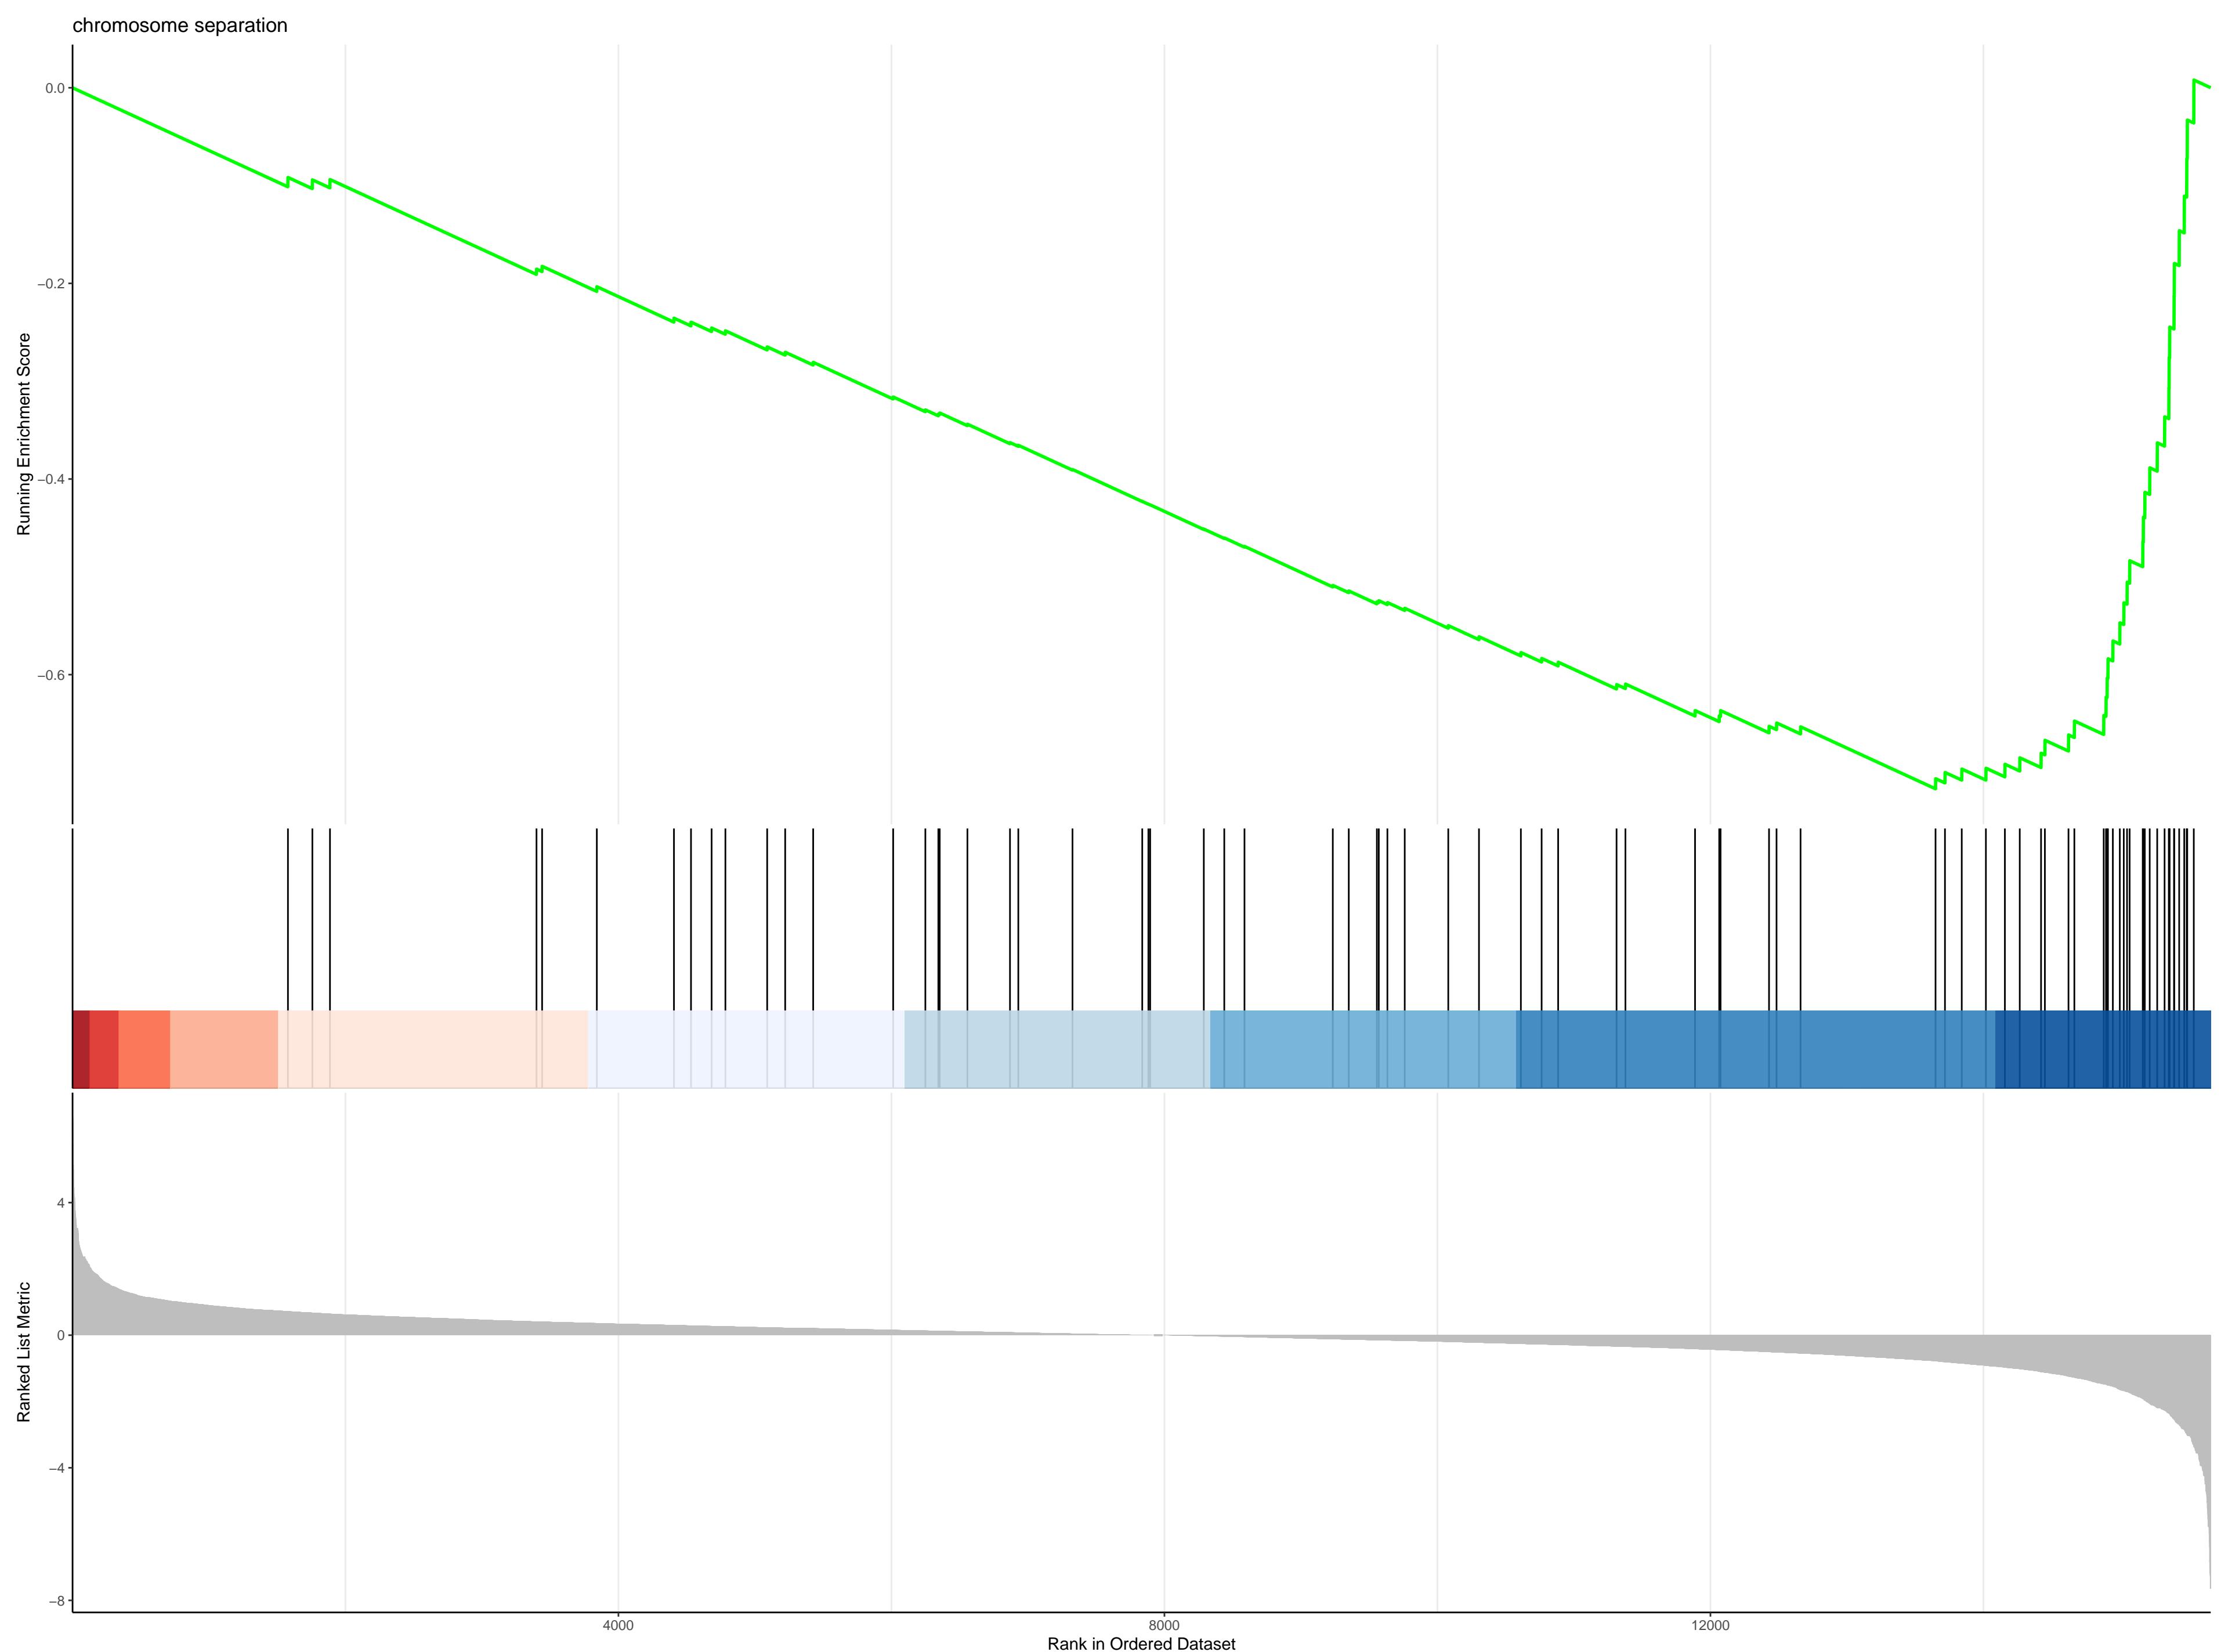

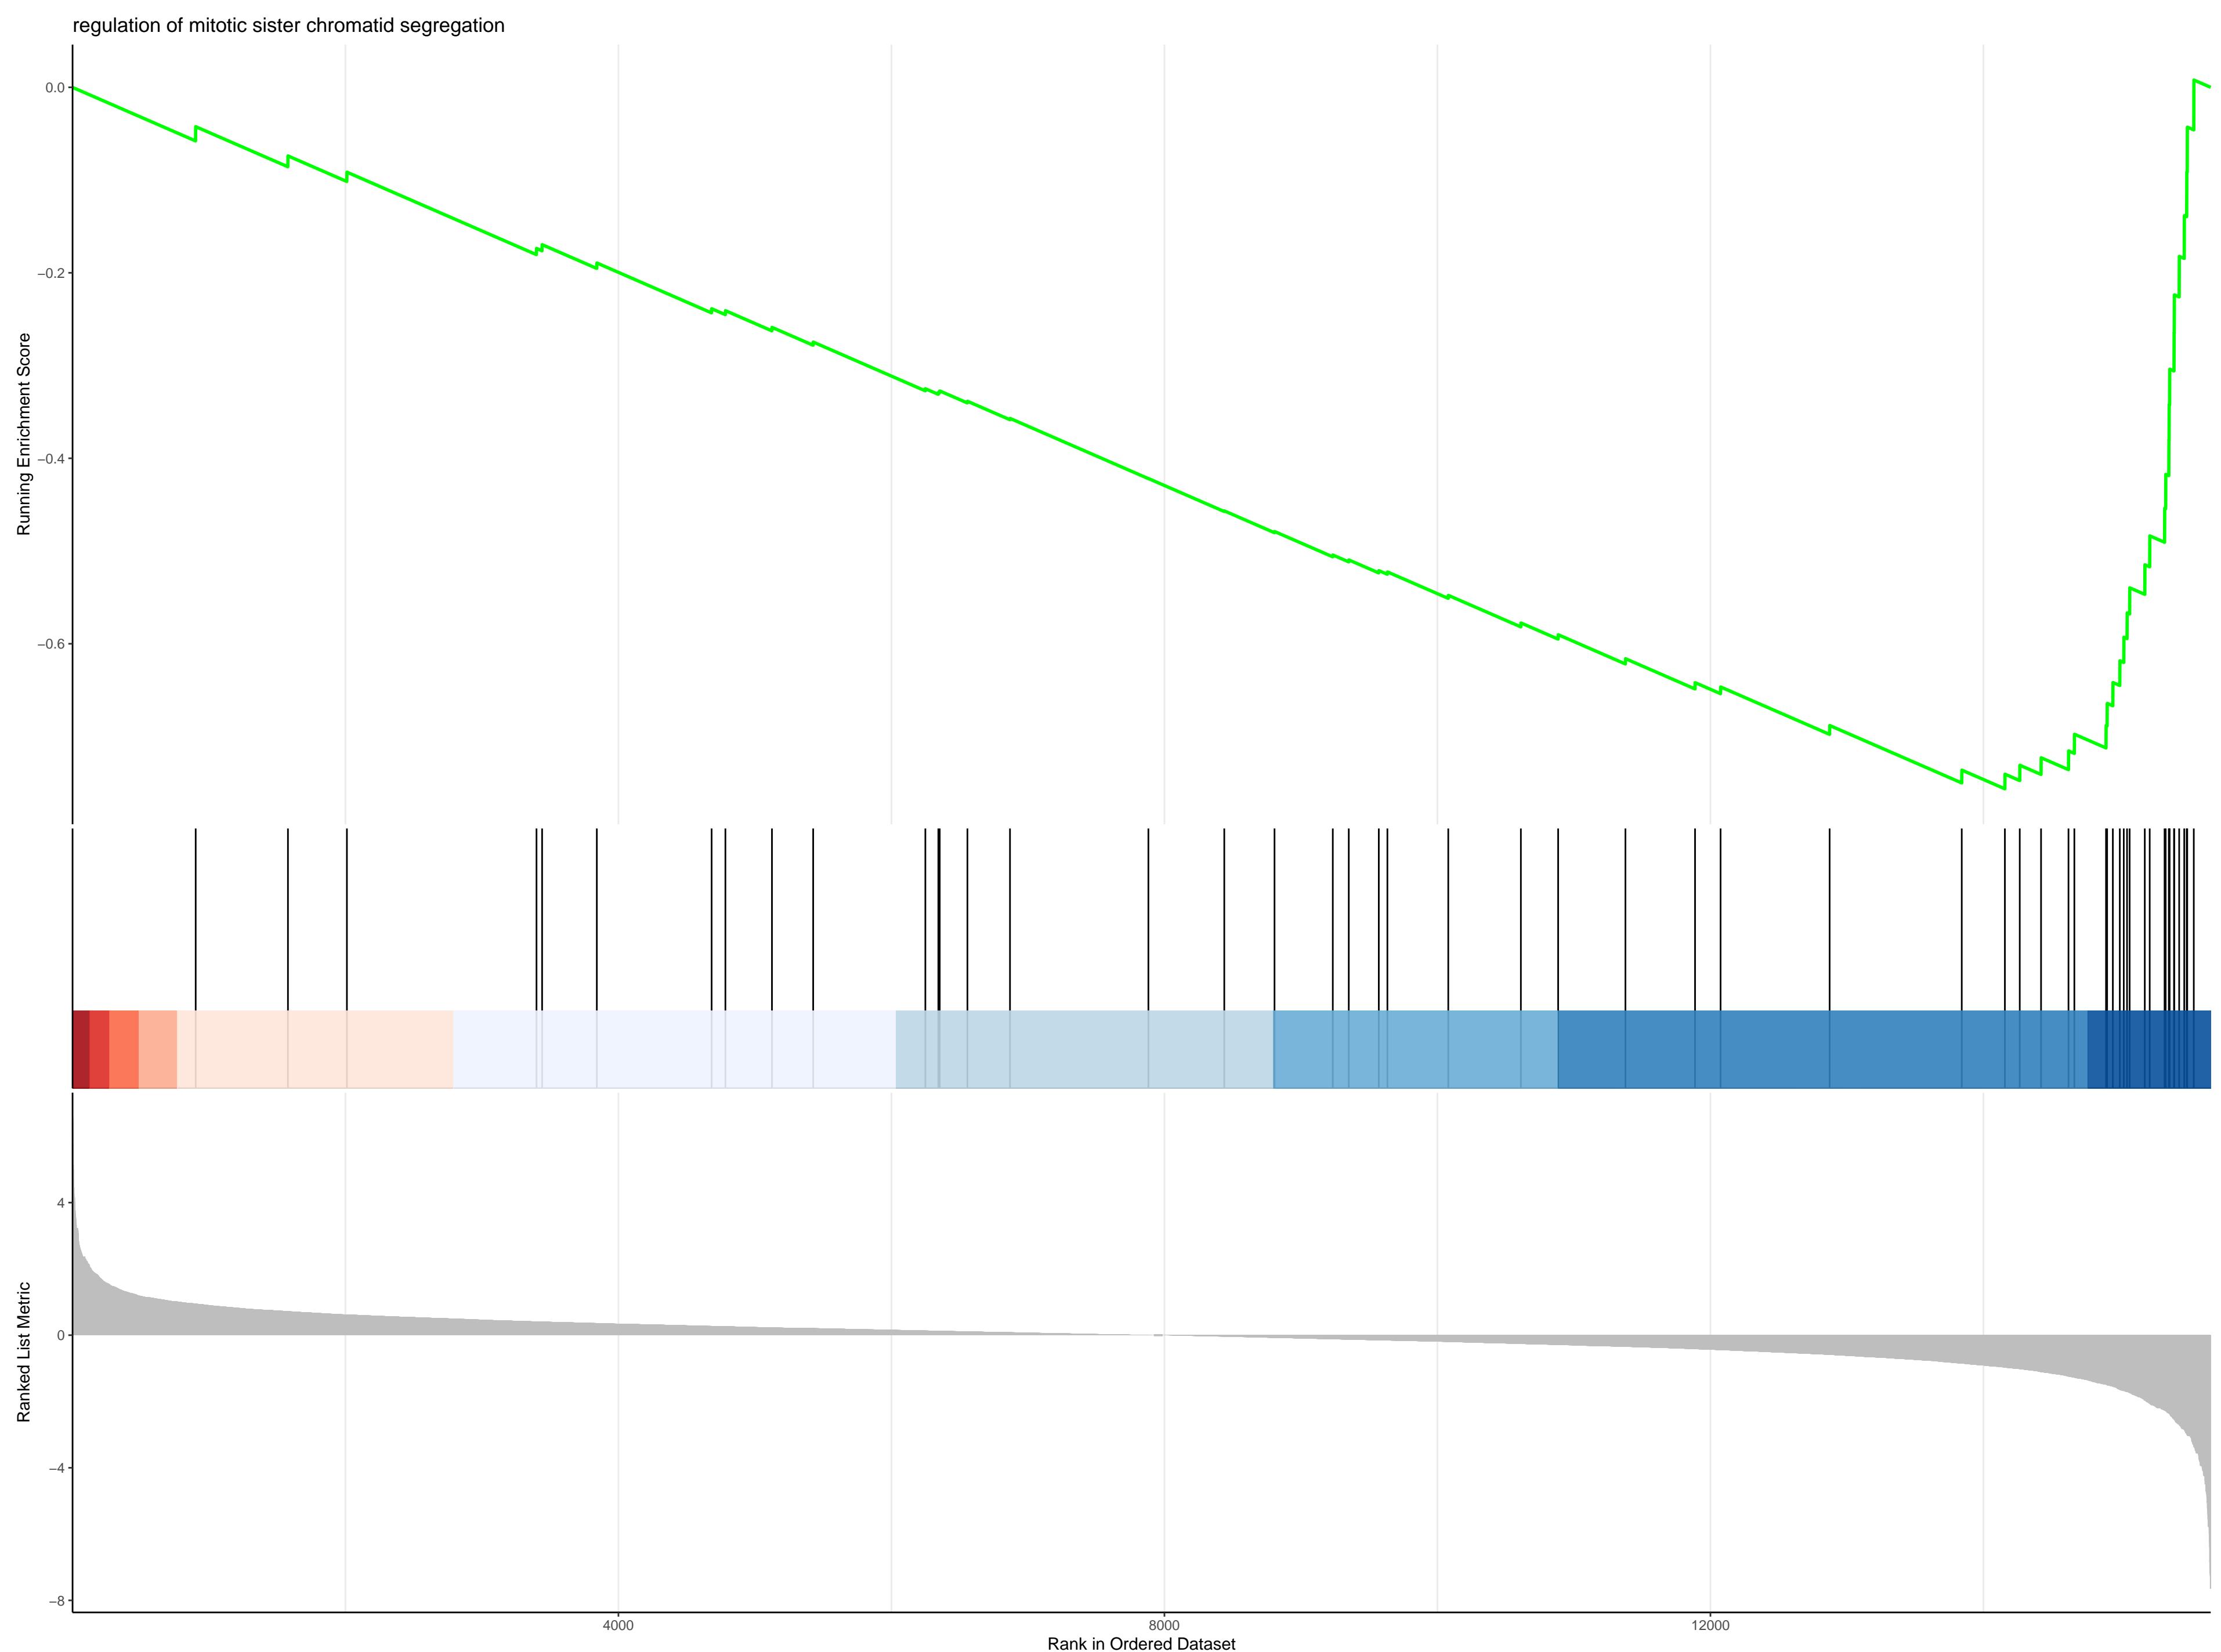

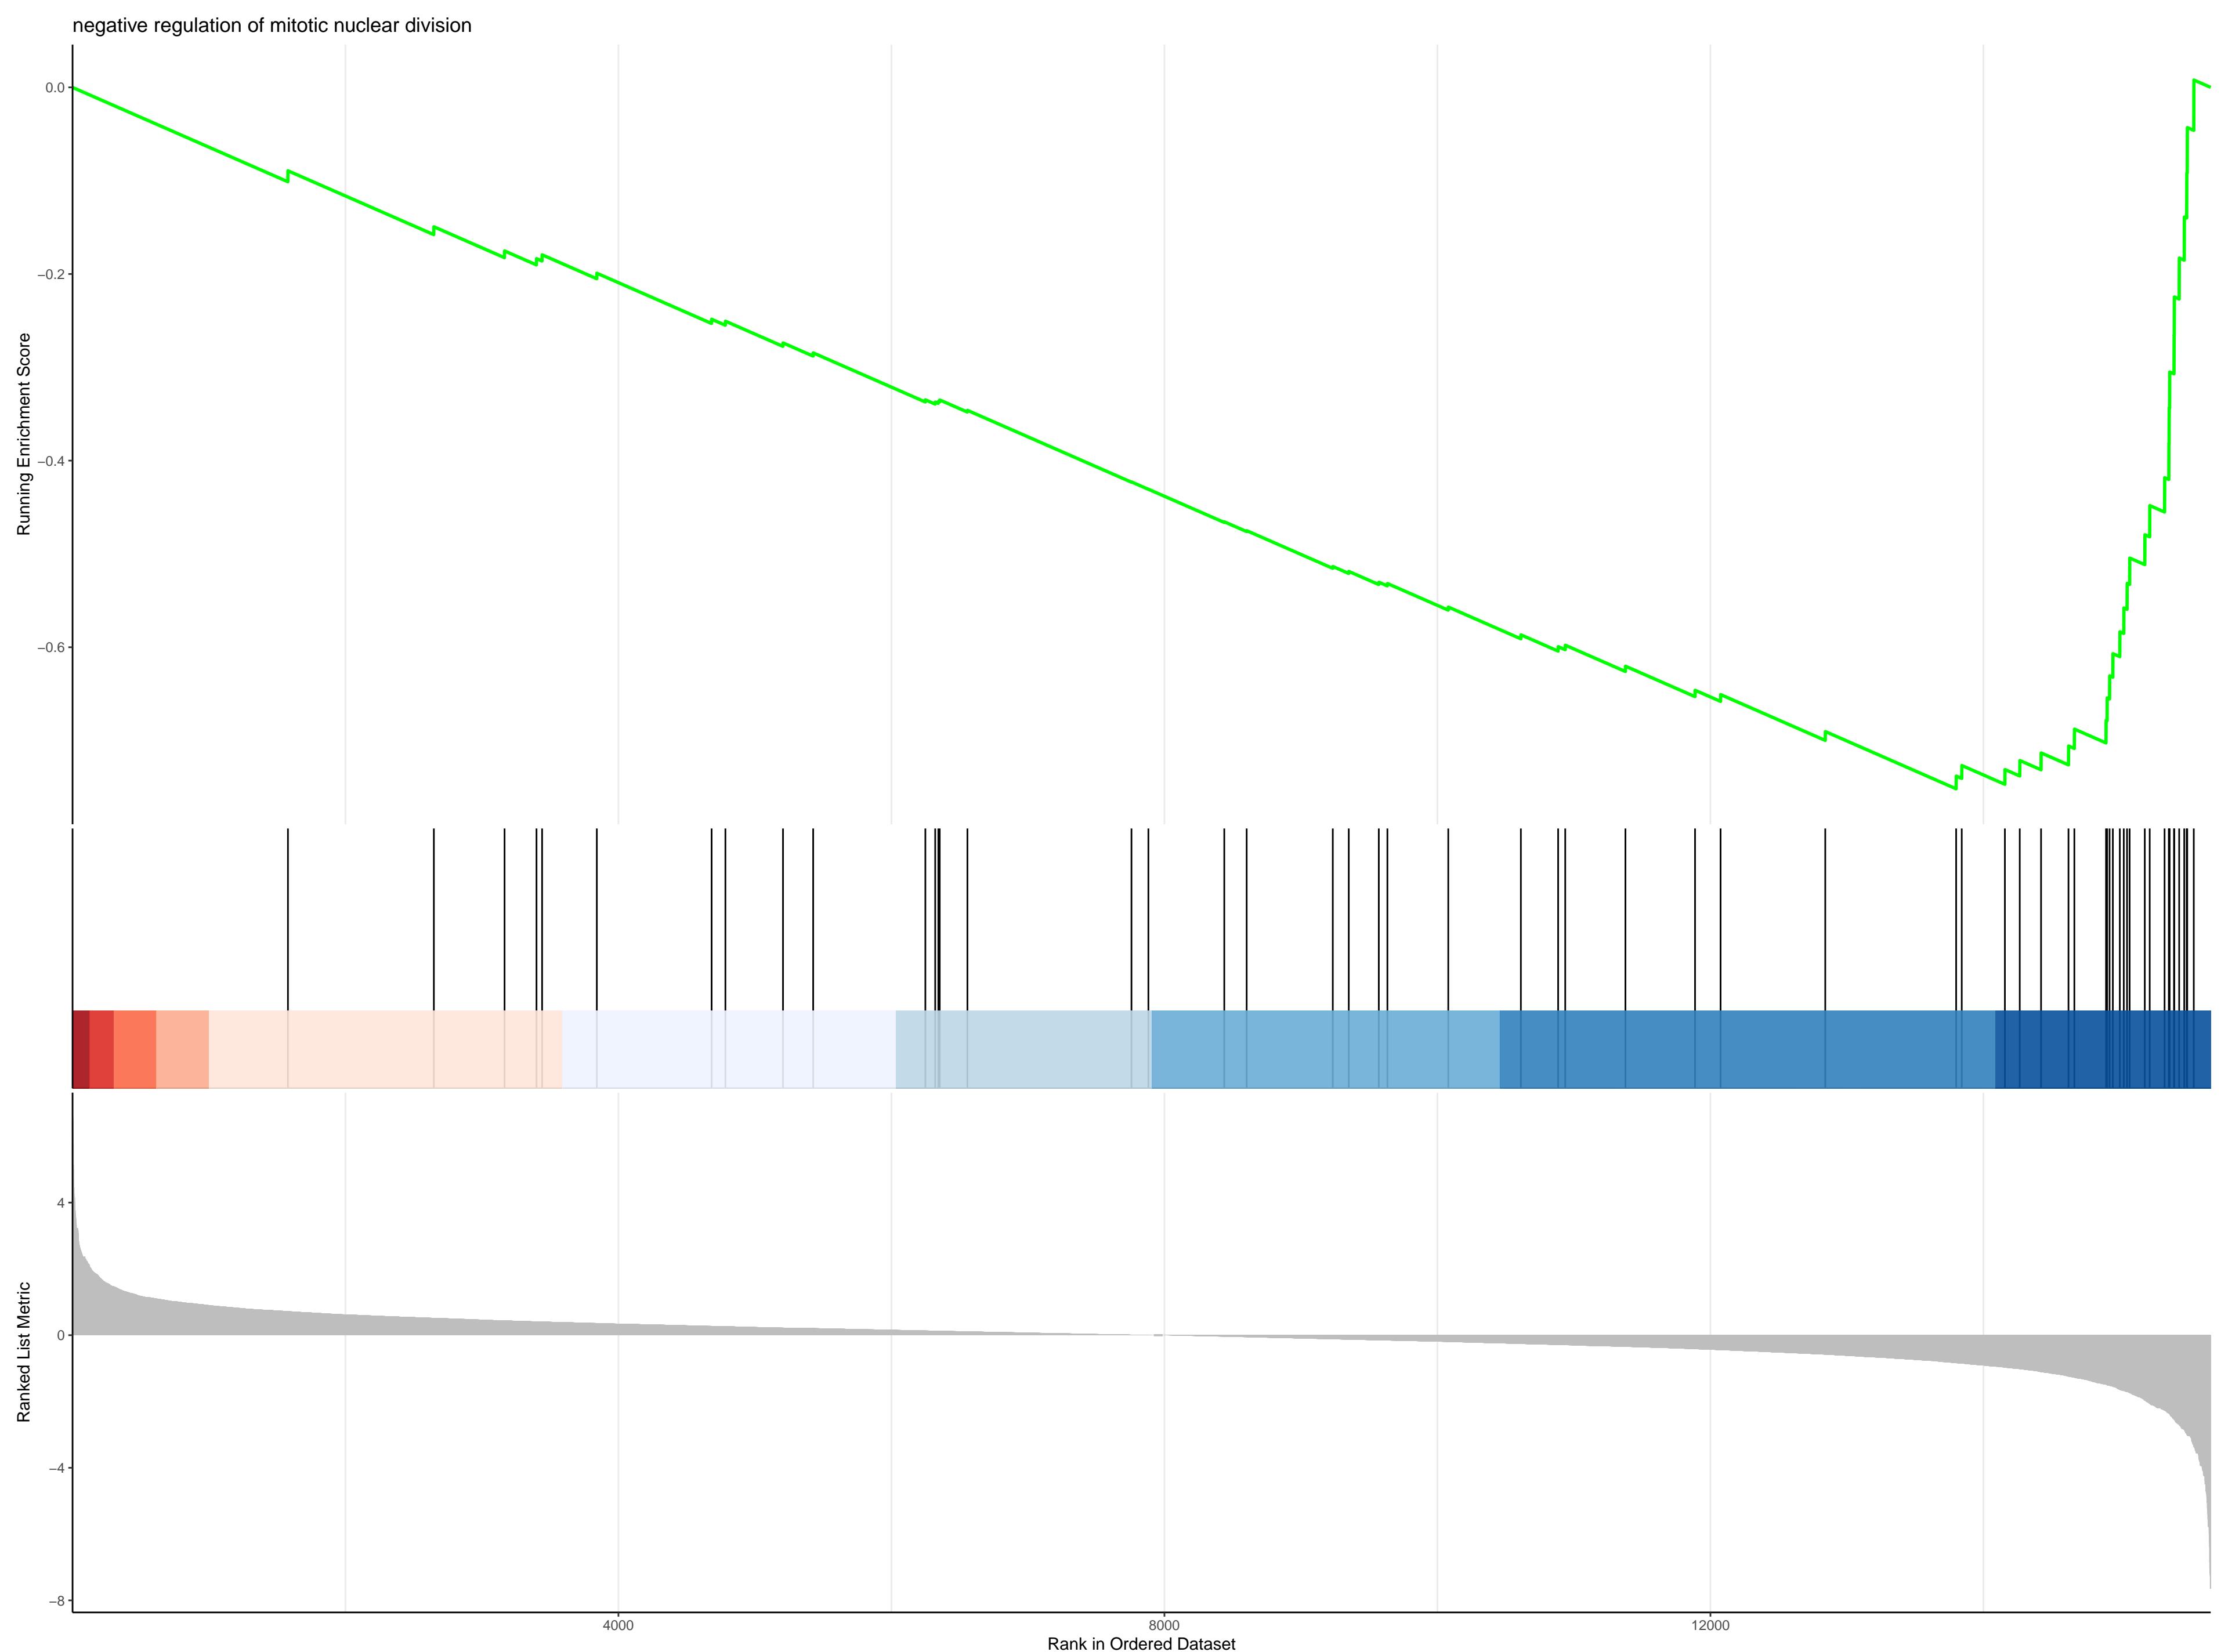

attachment of spindle microtubules to kinetochore

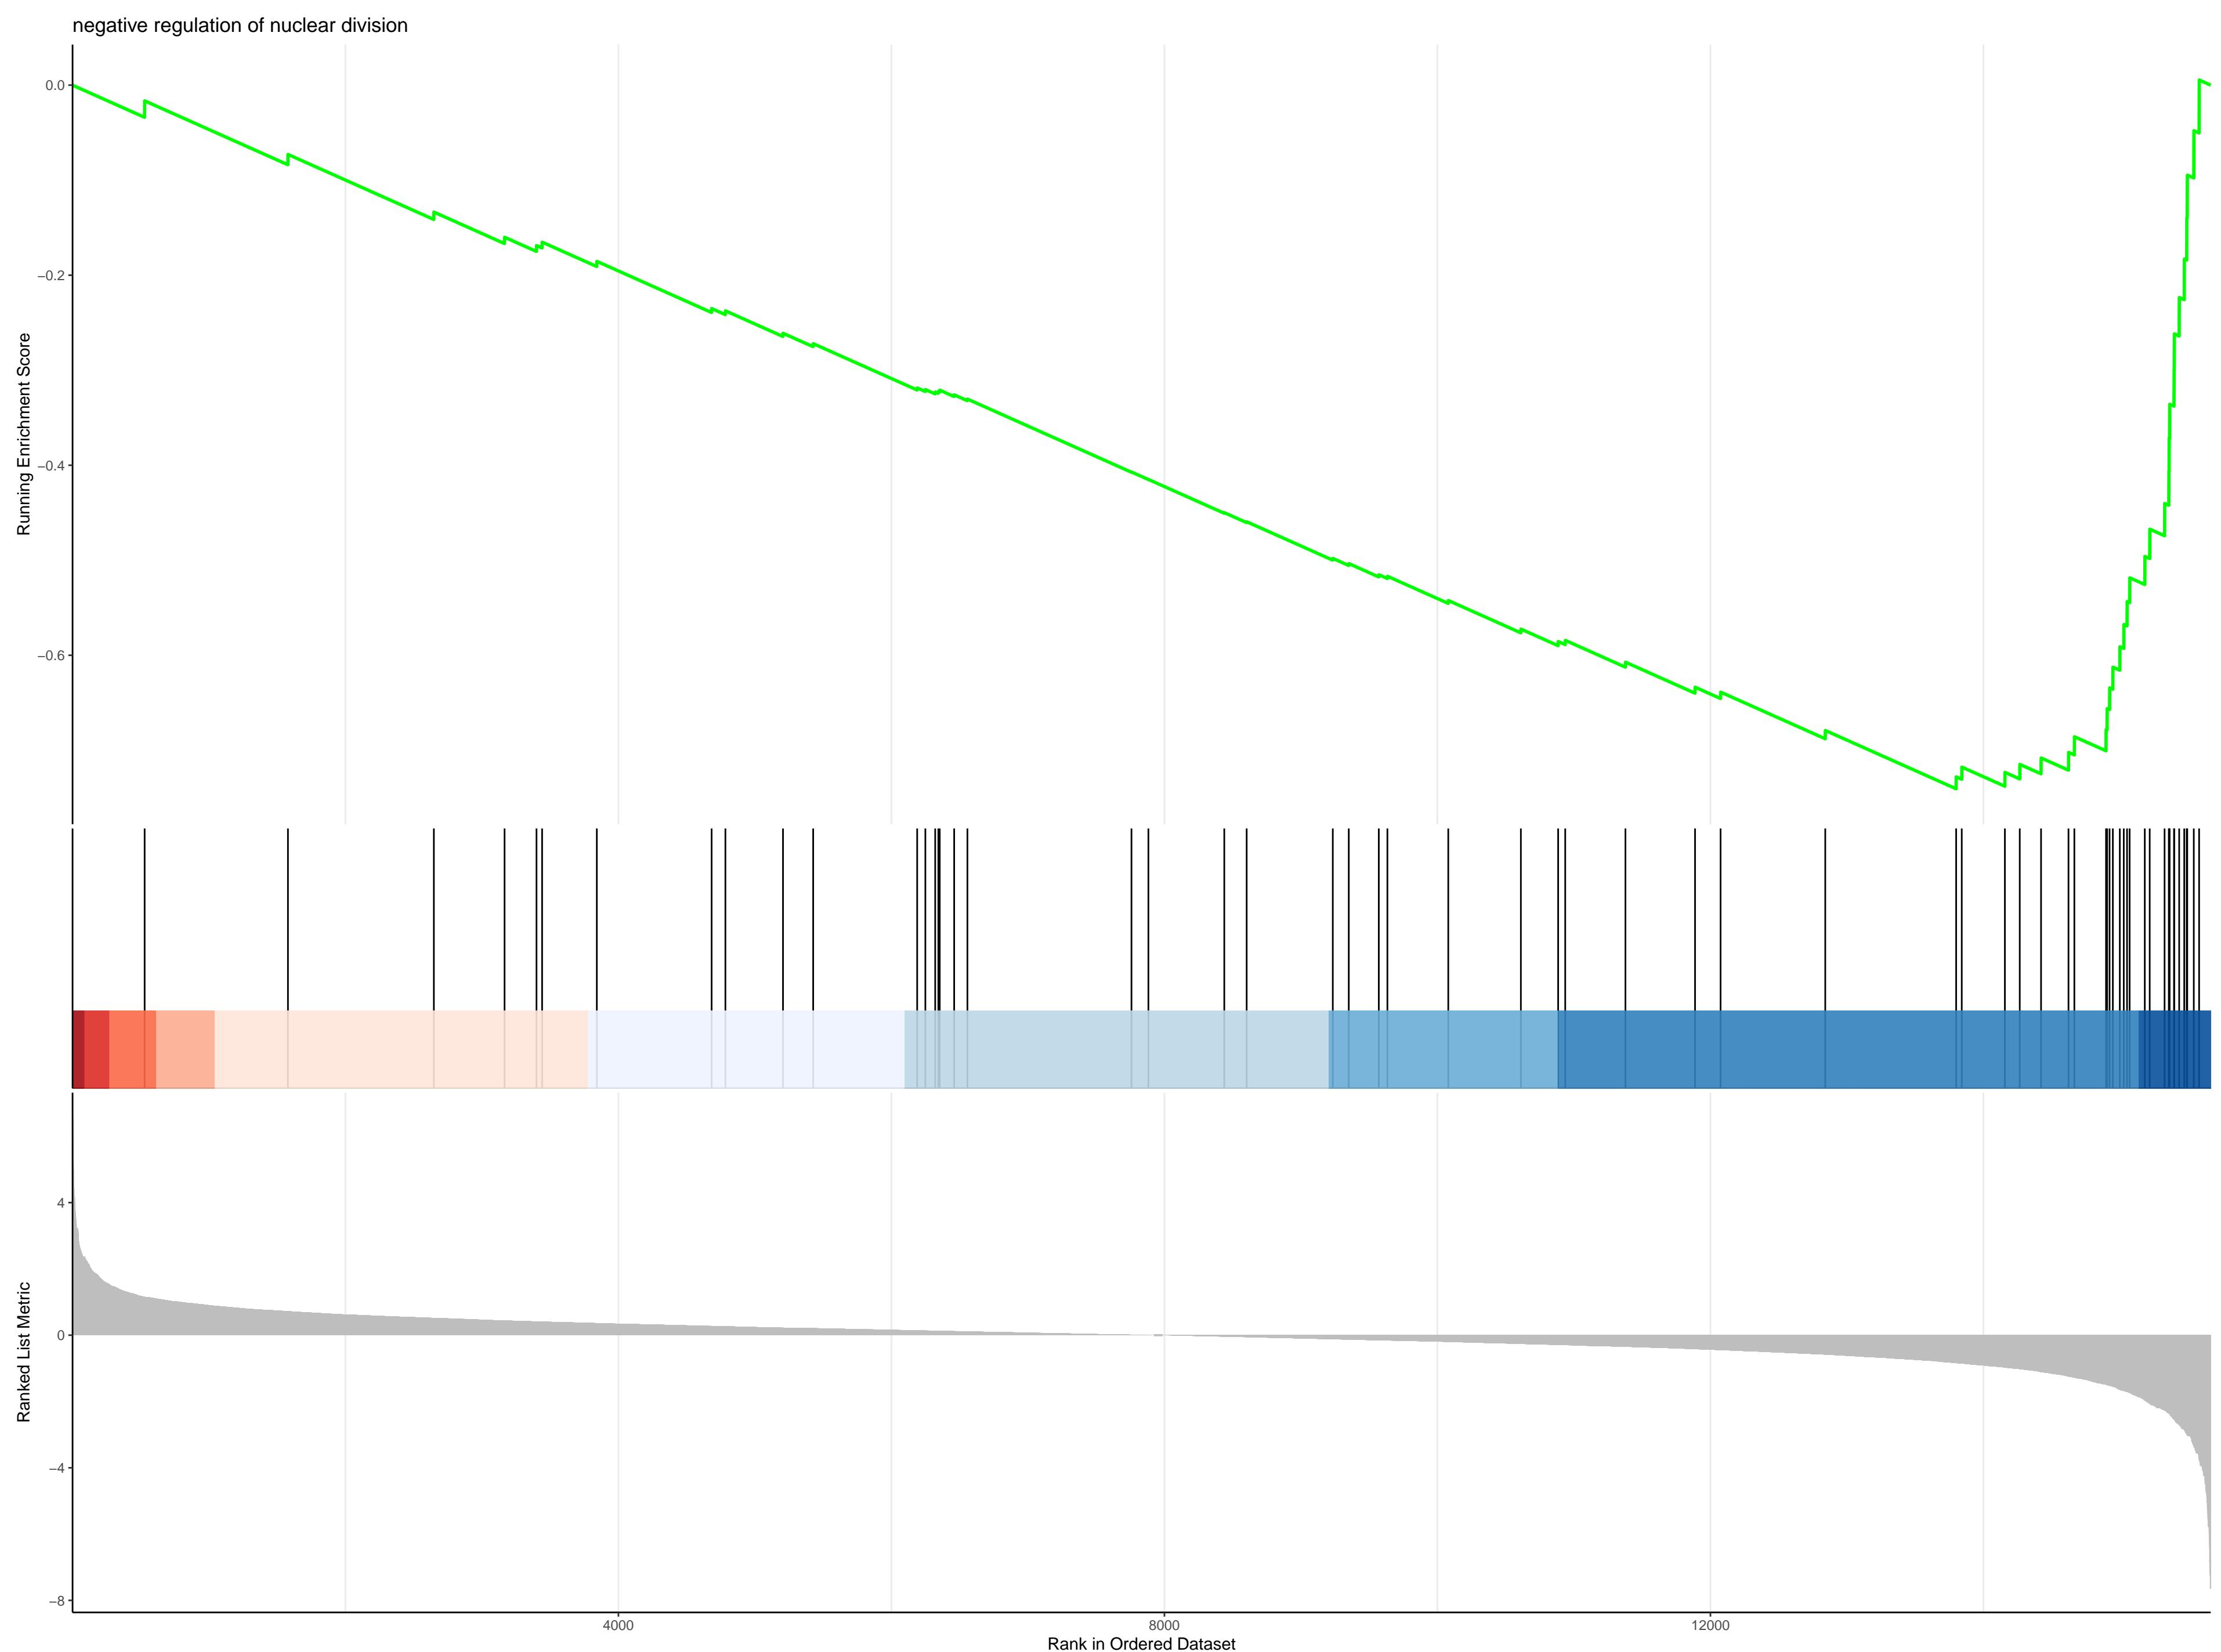

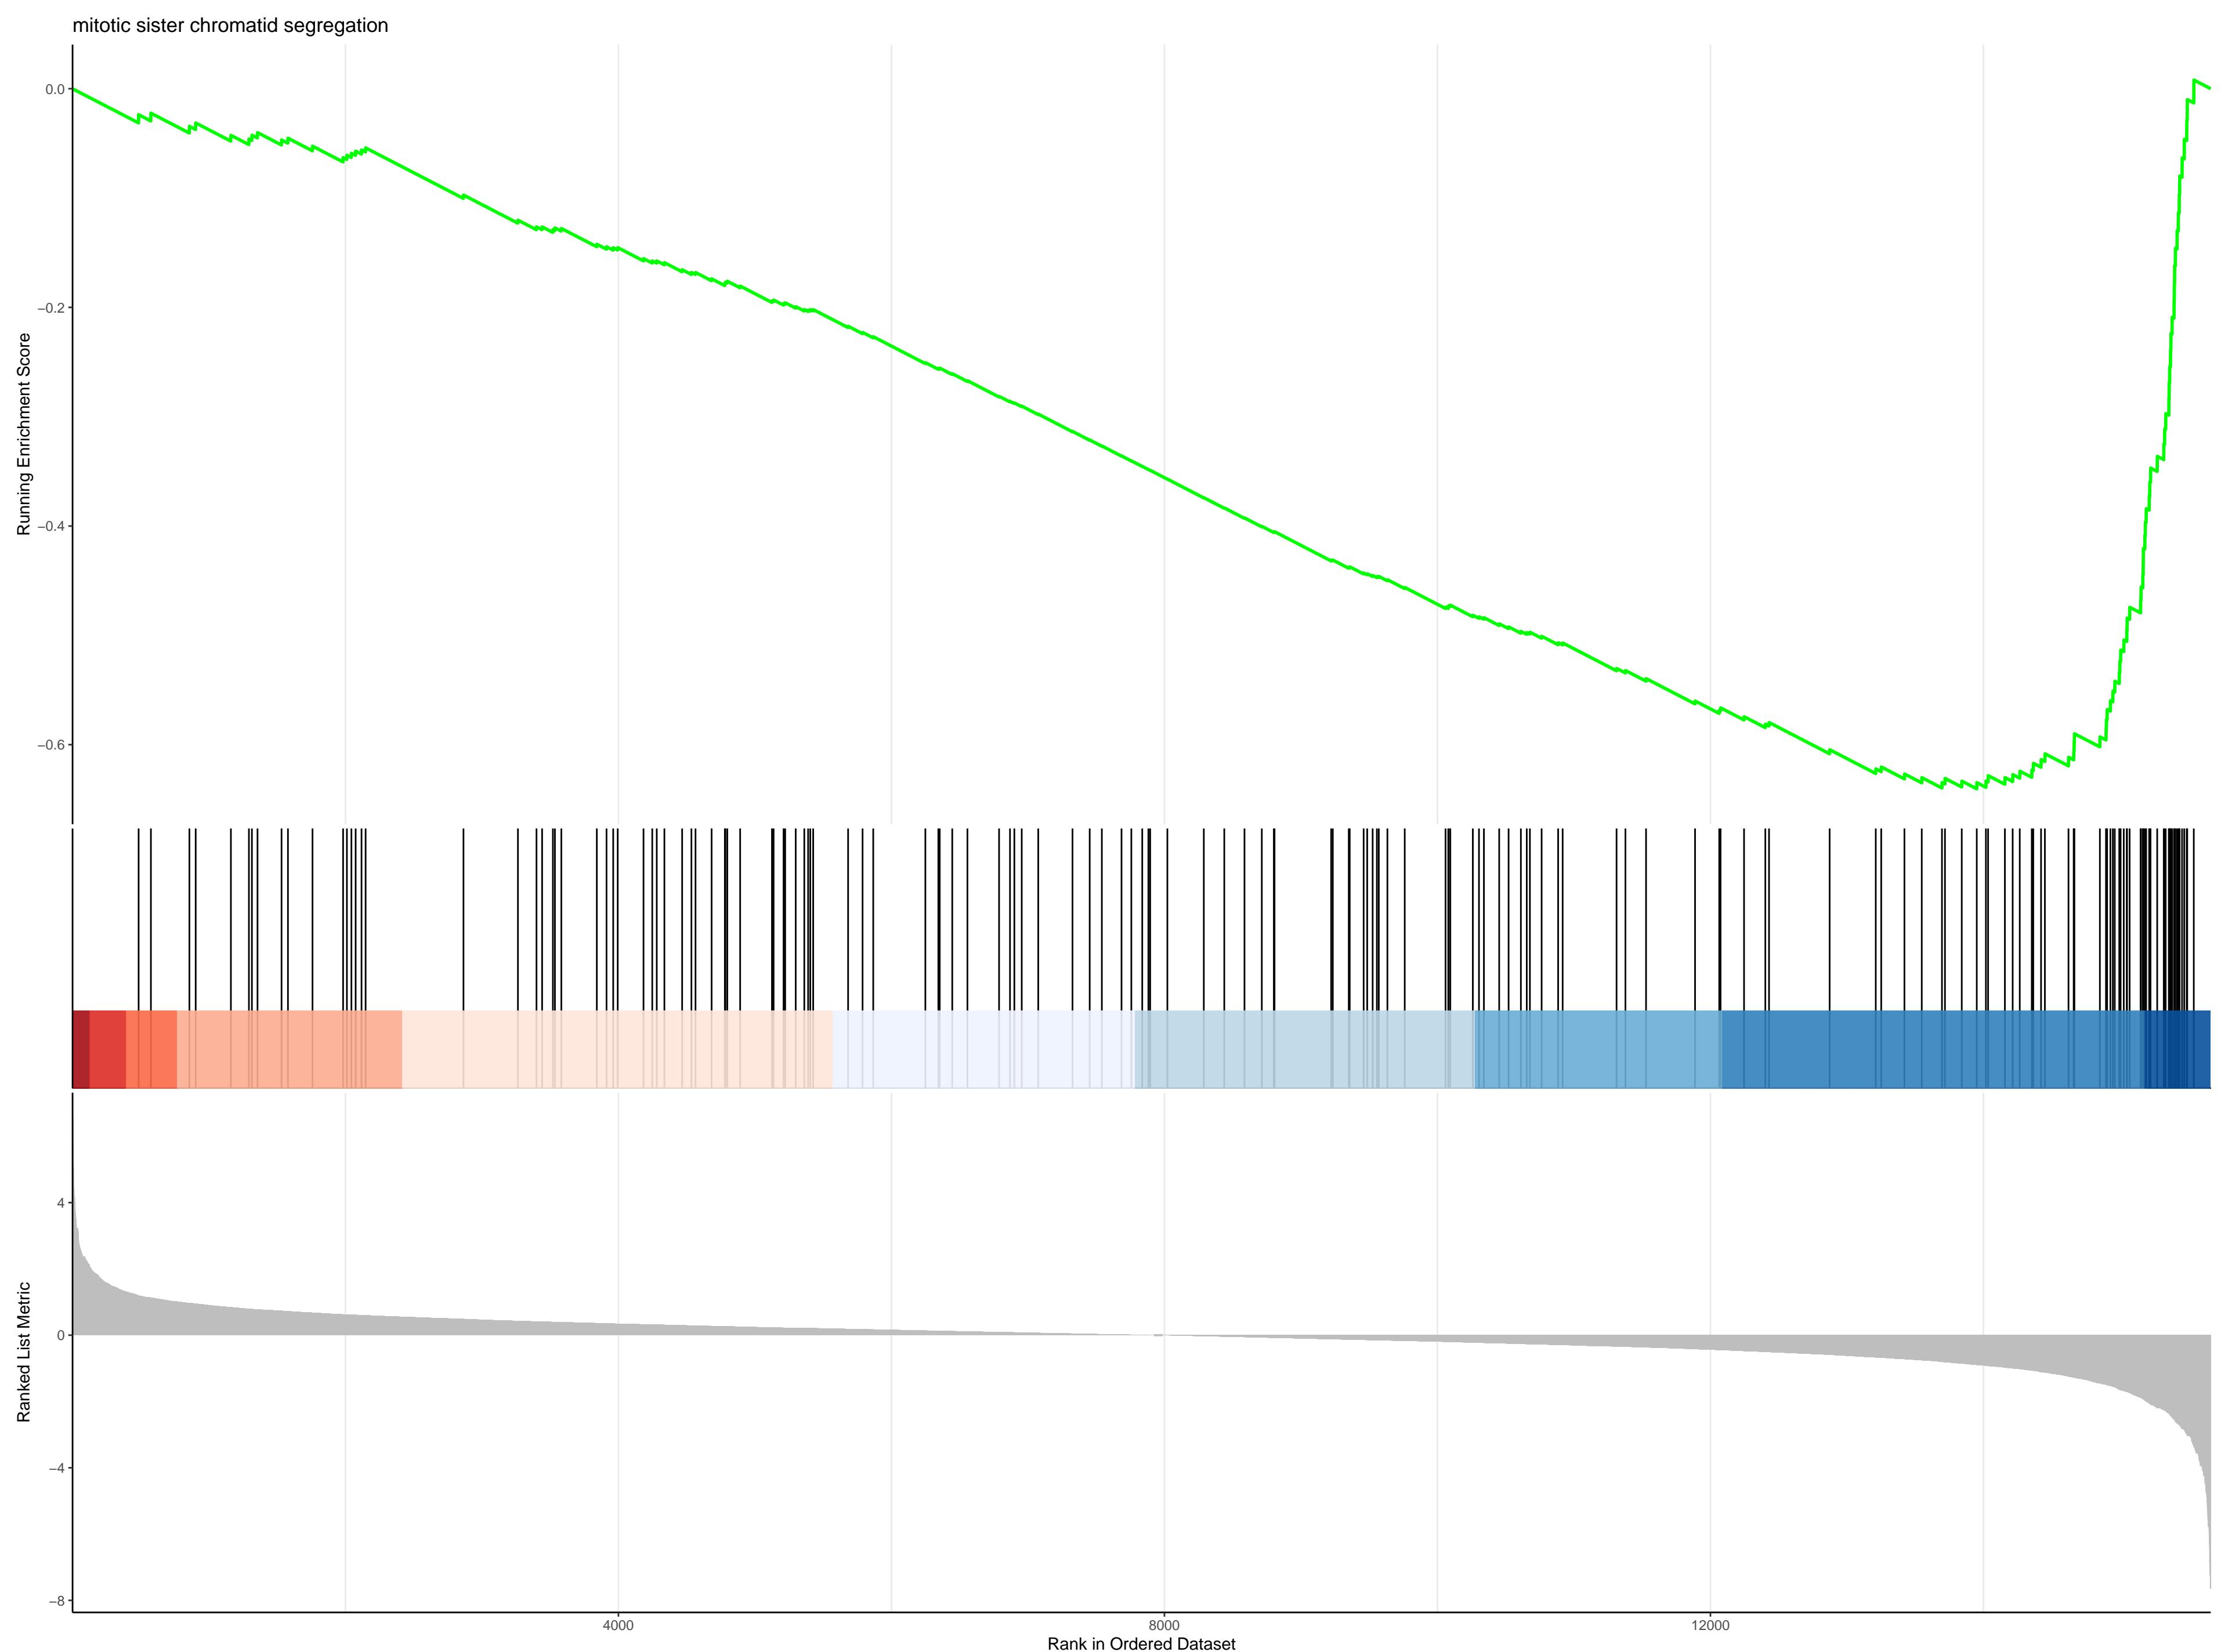

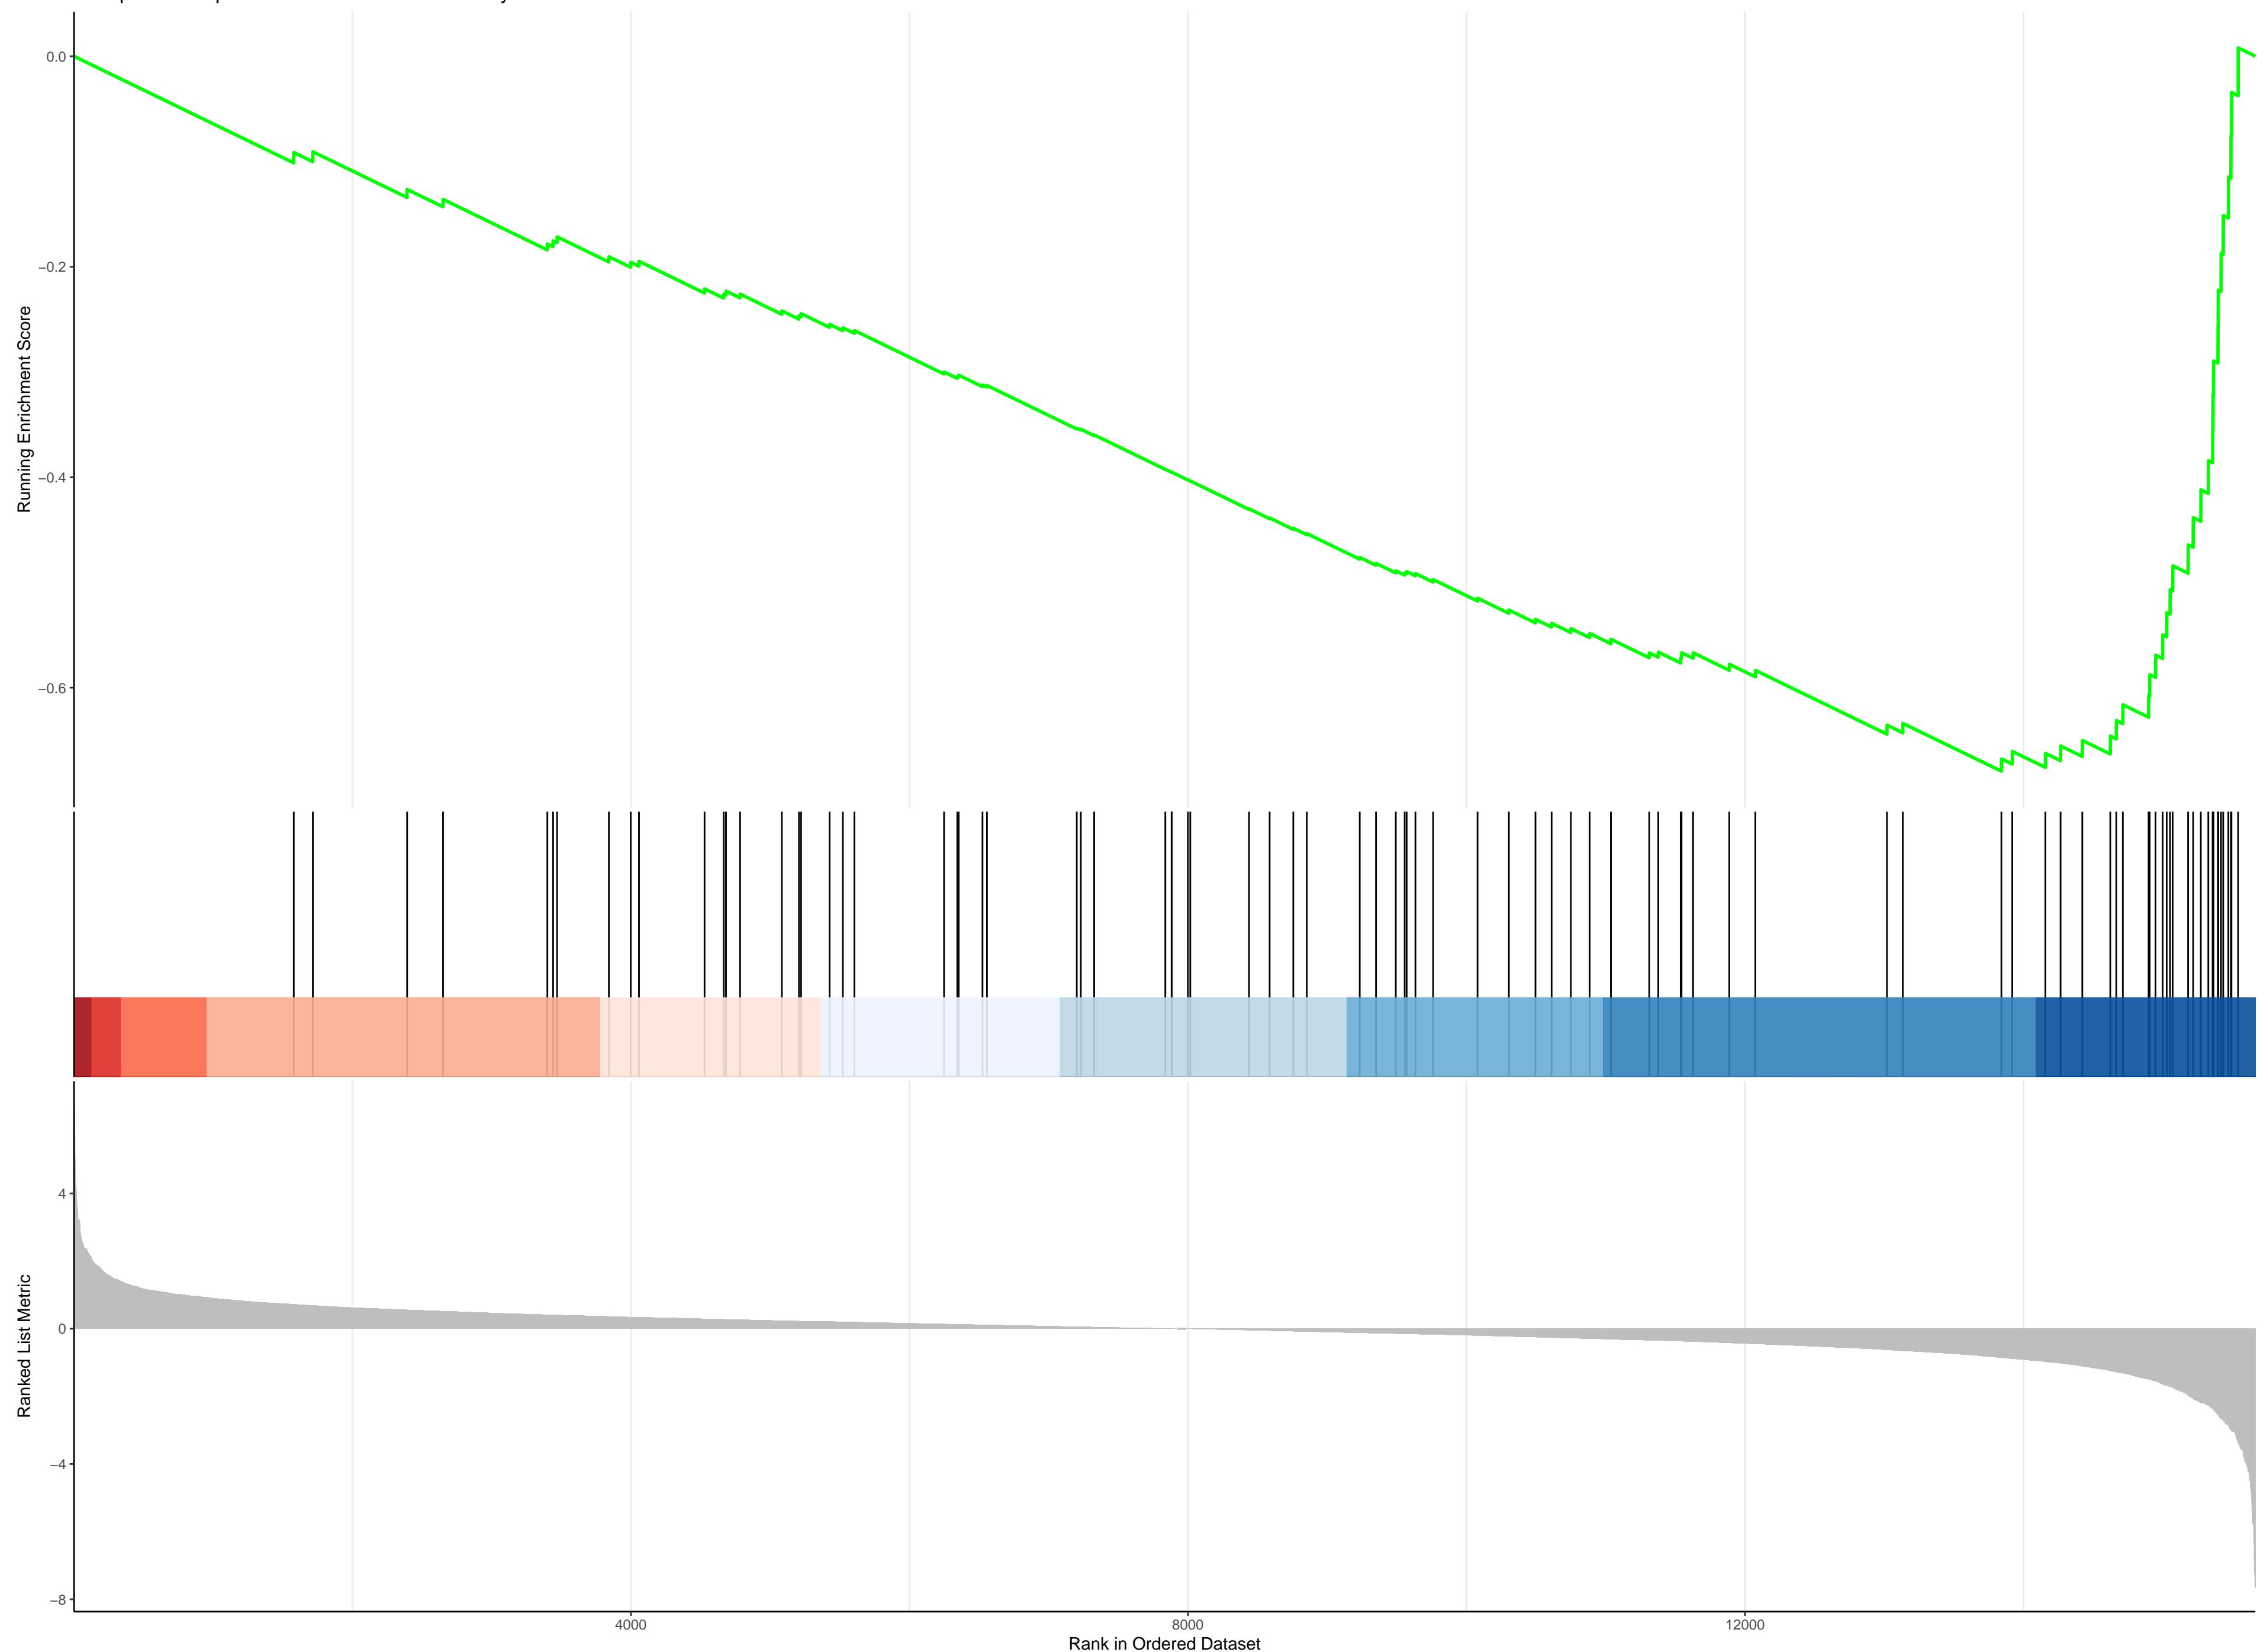

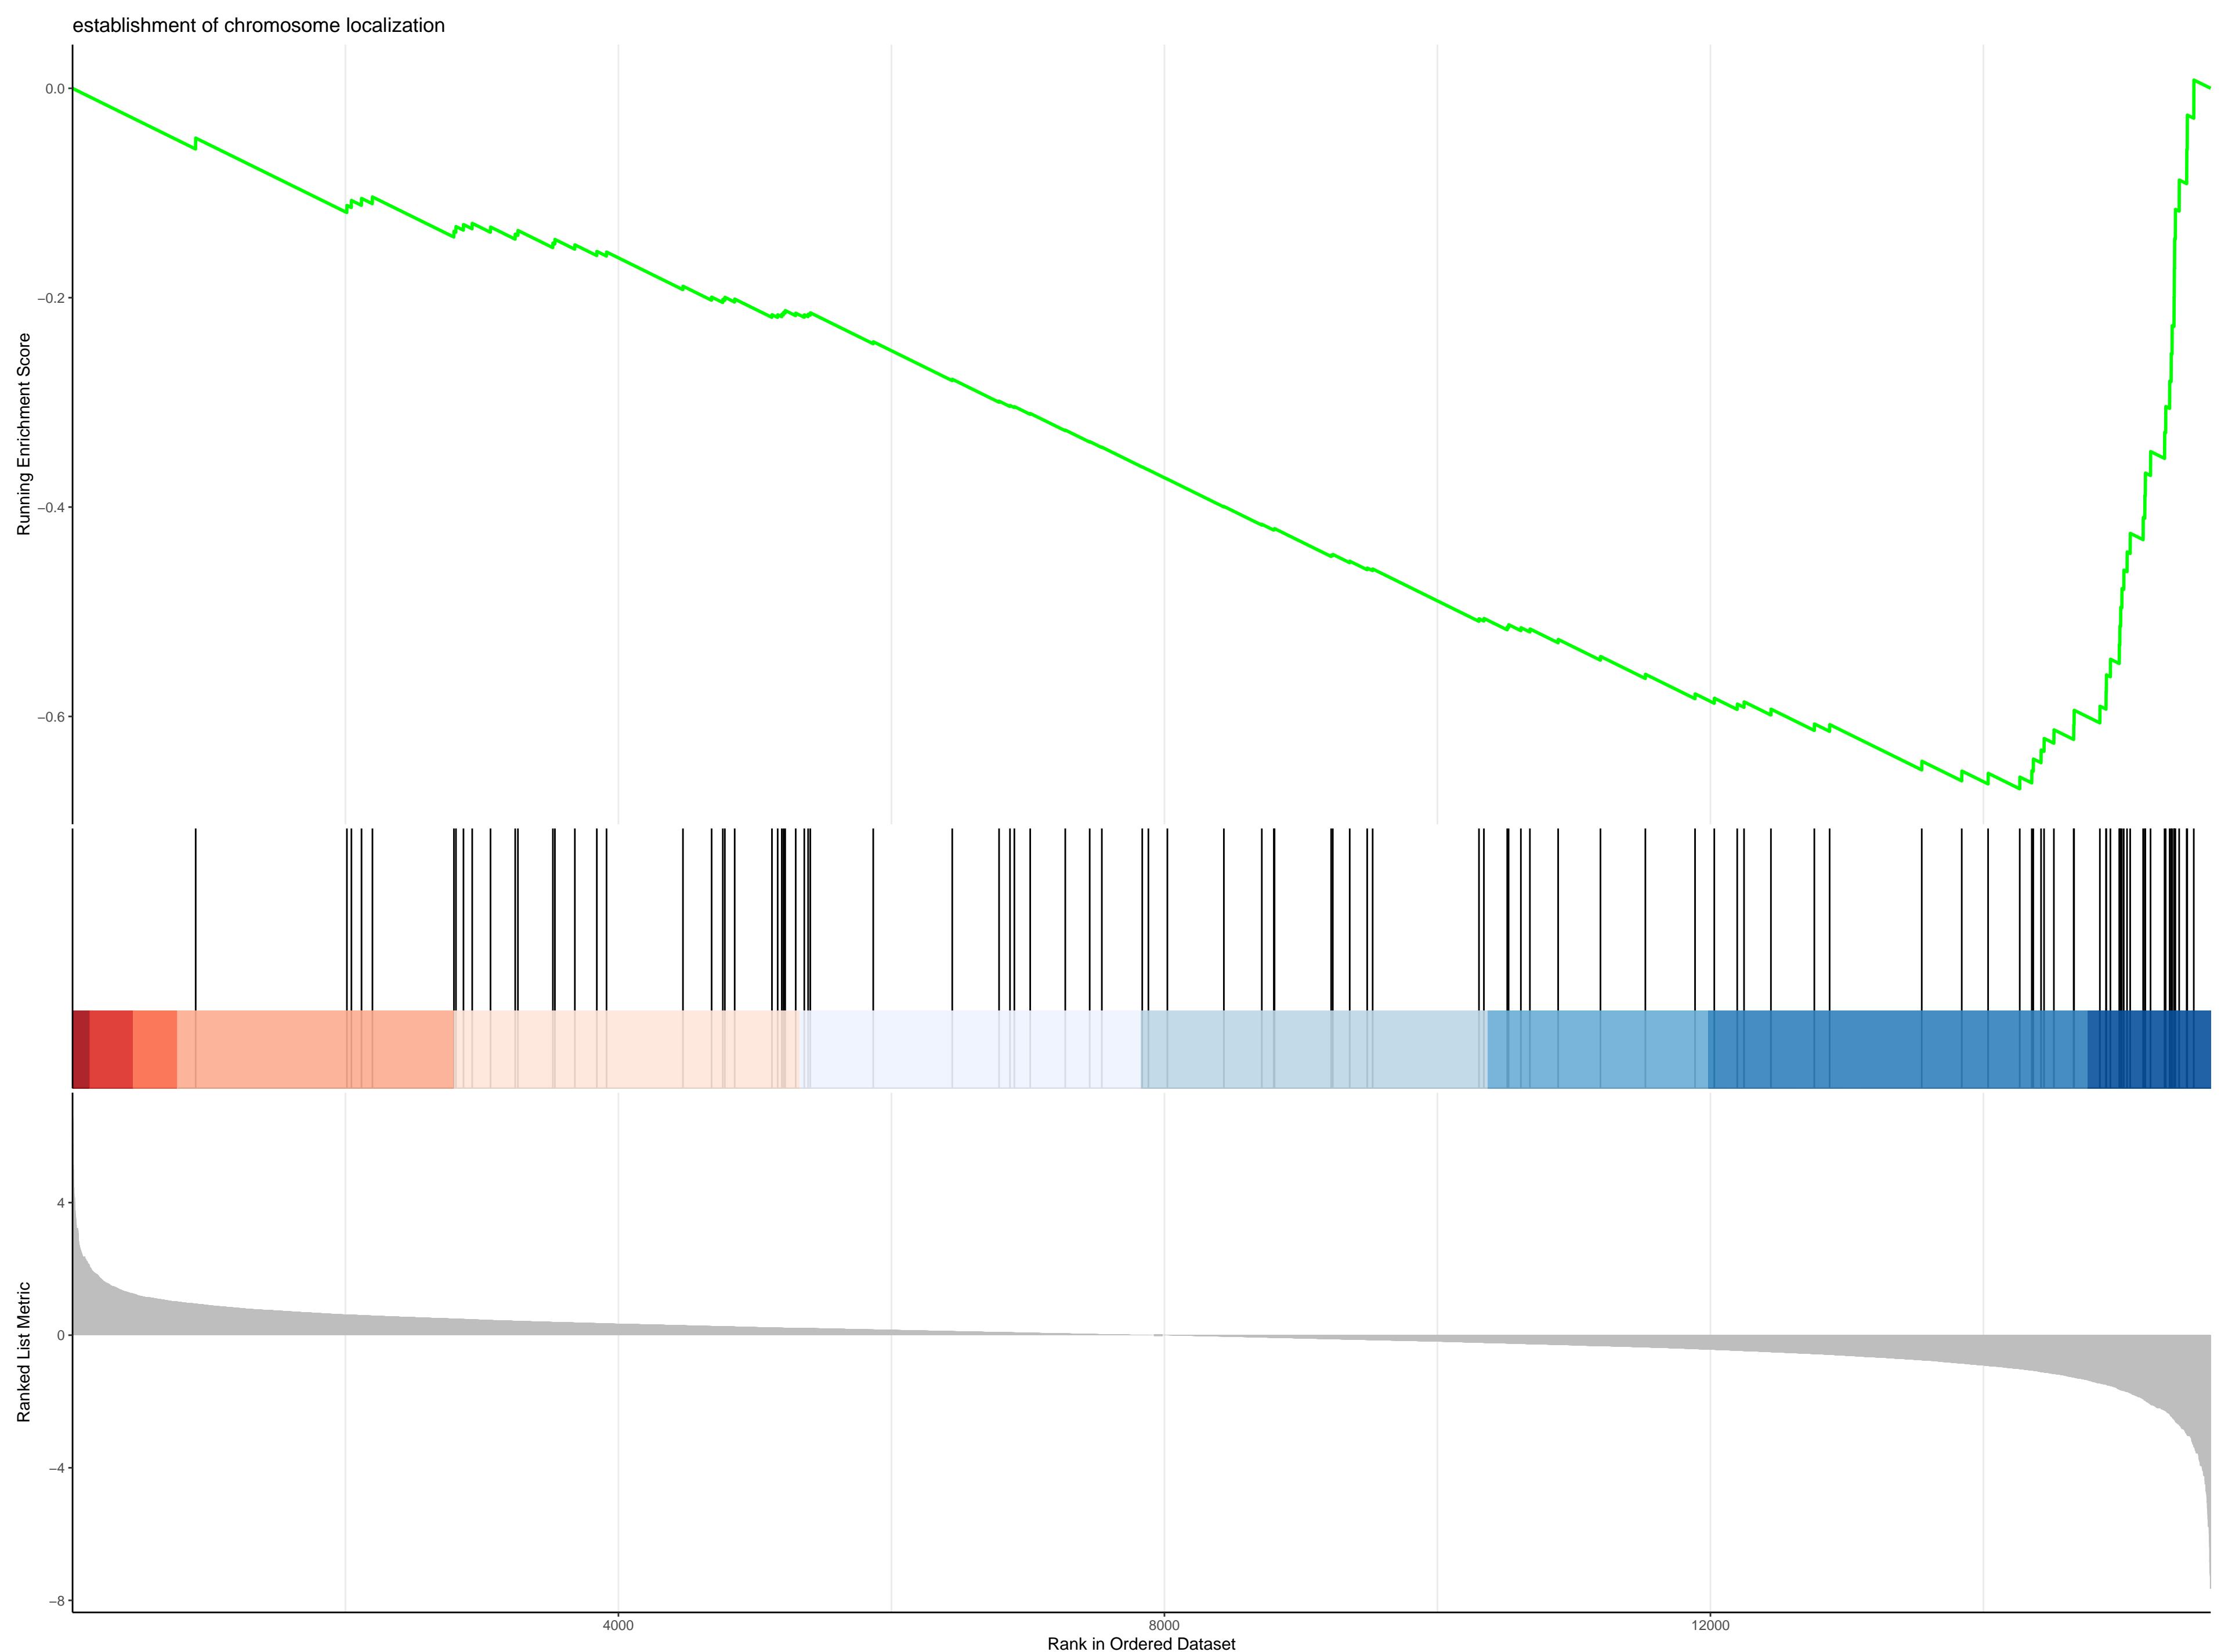

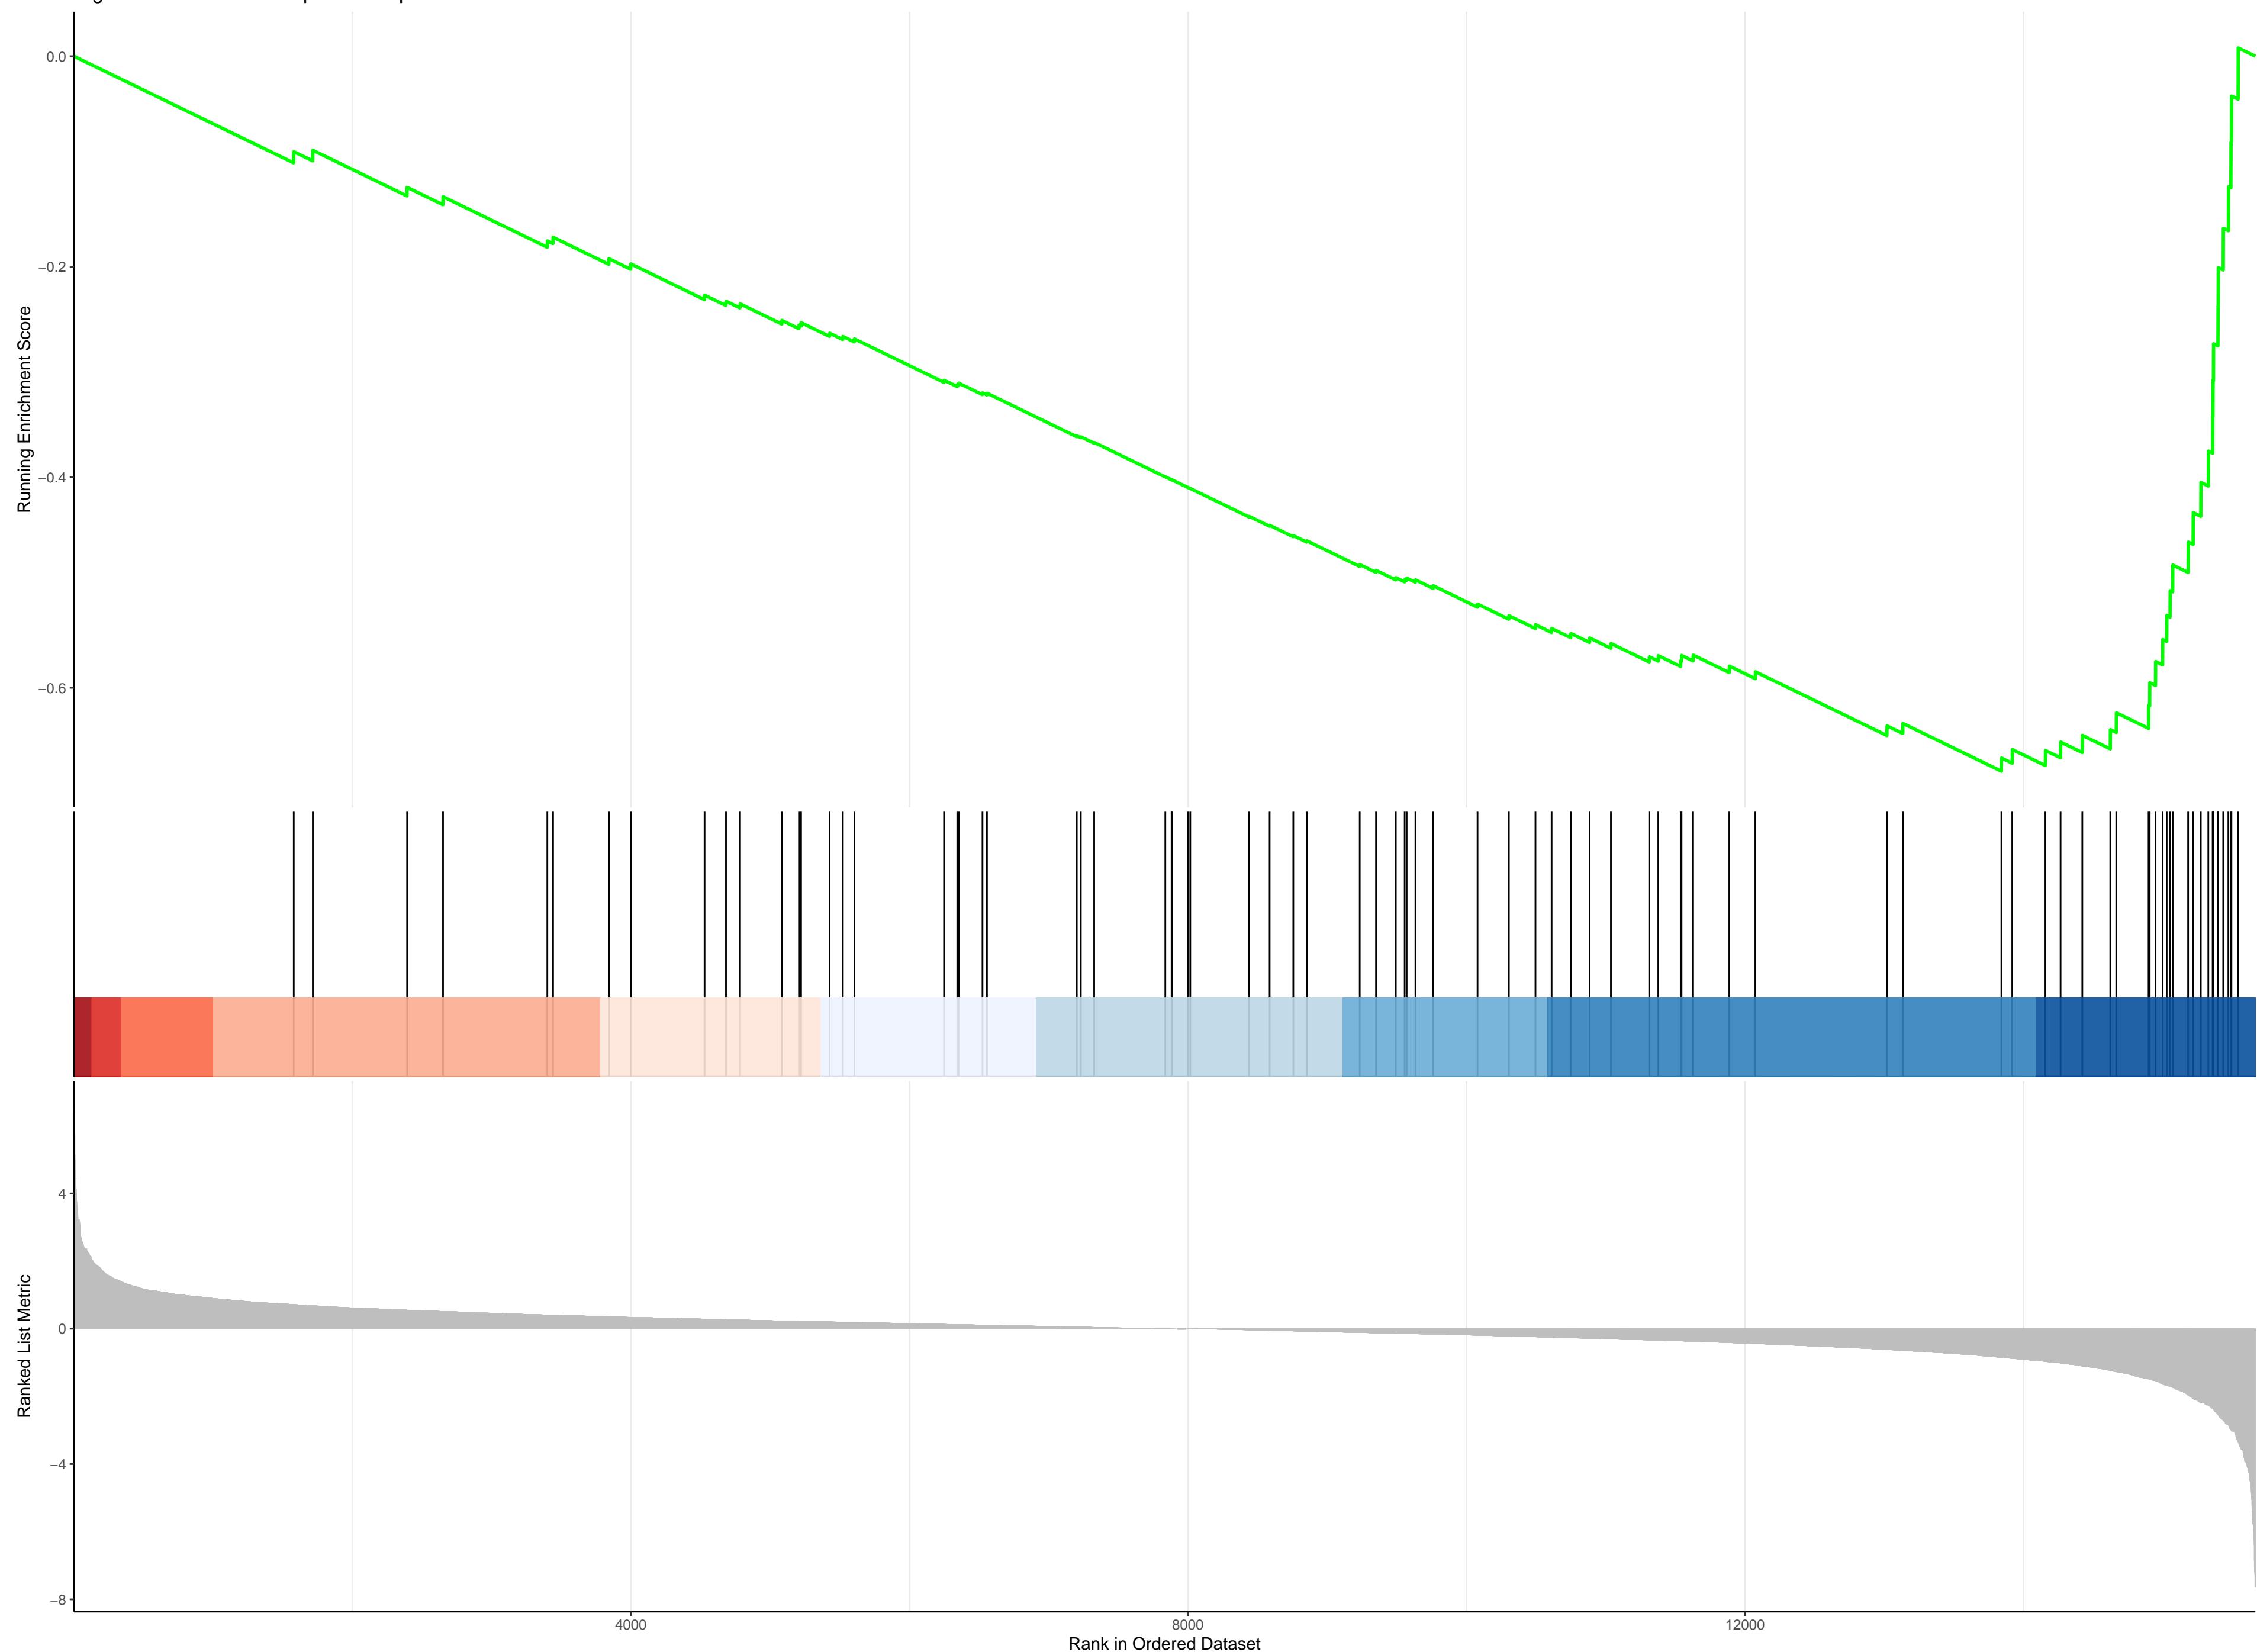

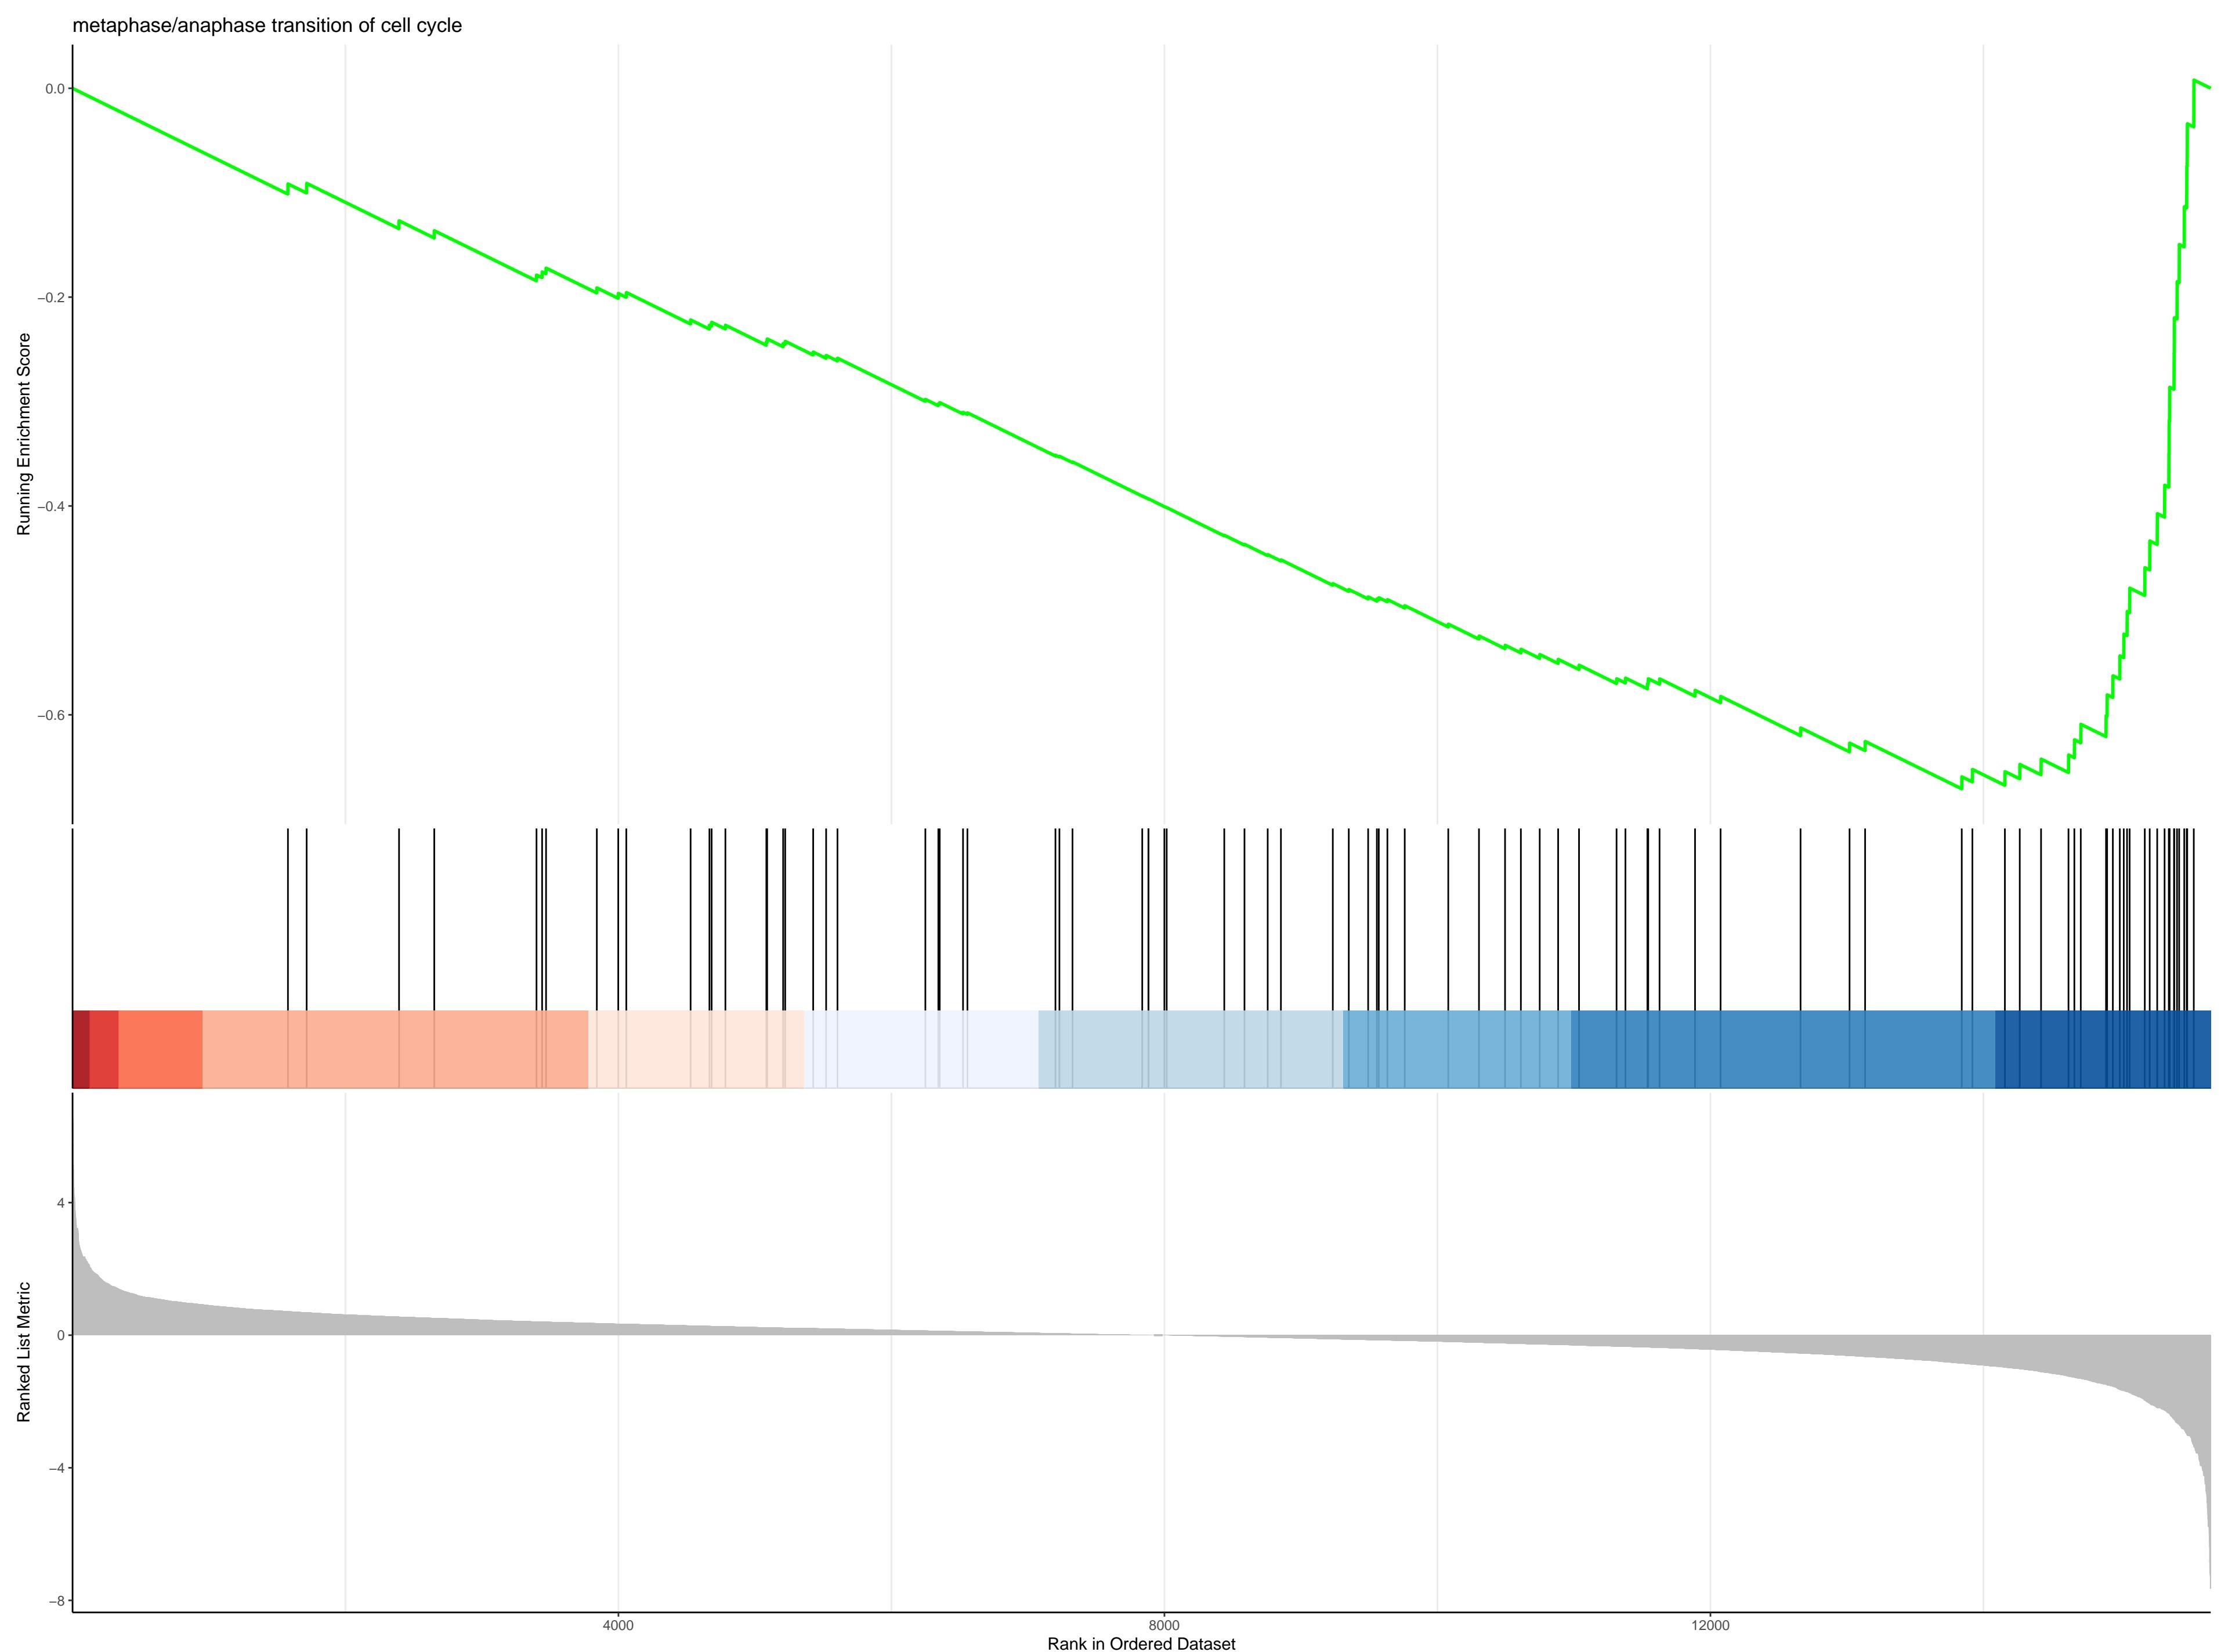

metaphase/anaphase transition of mitotic cell cycle

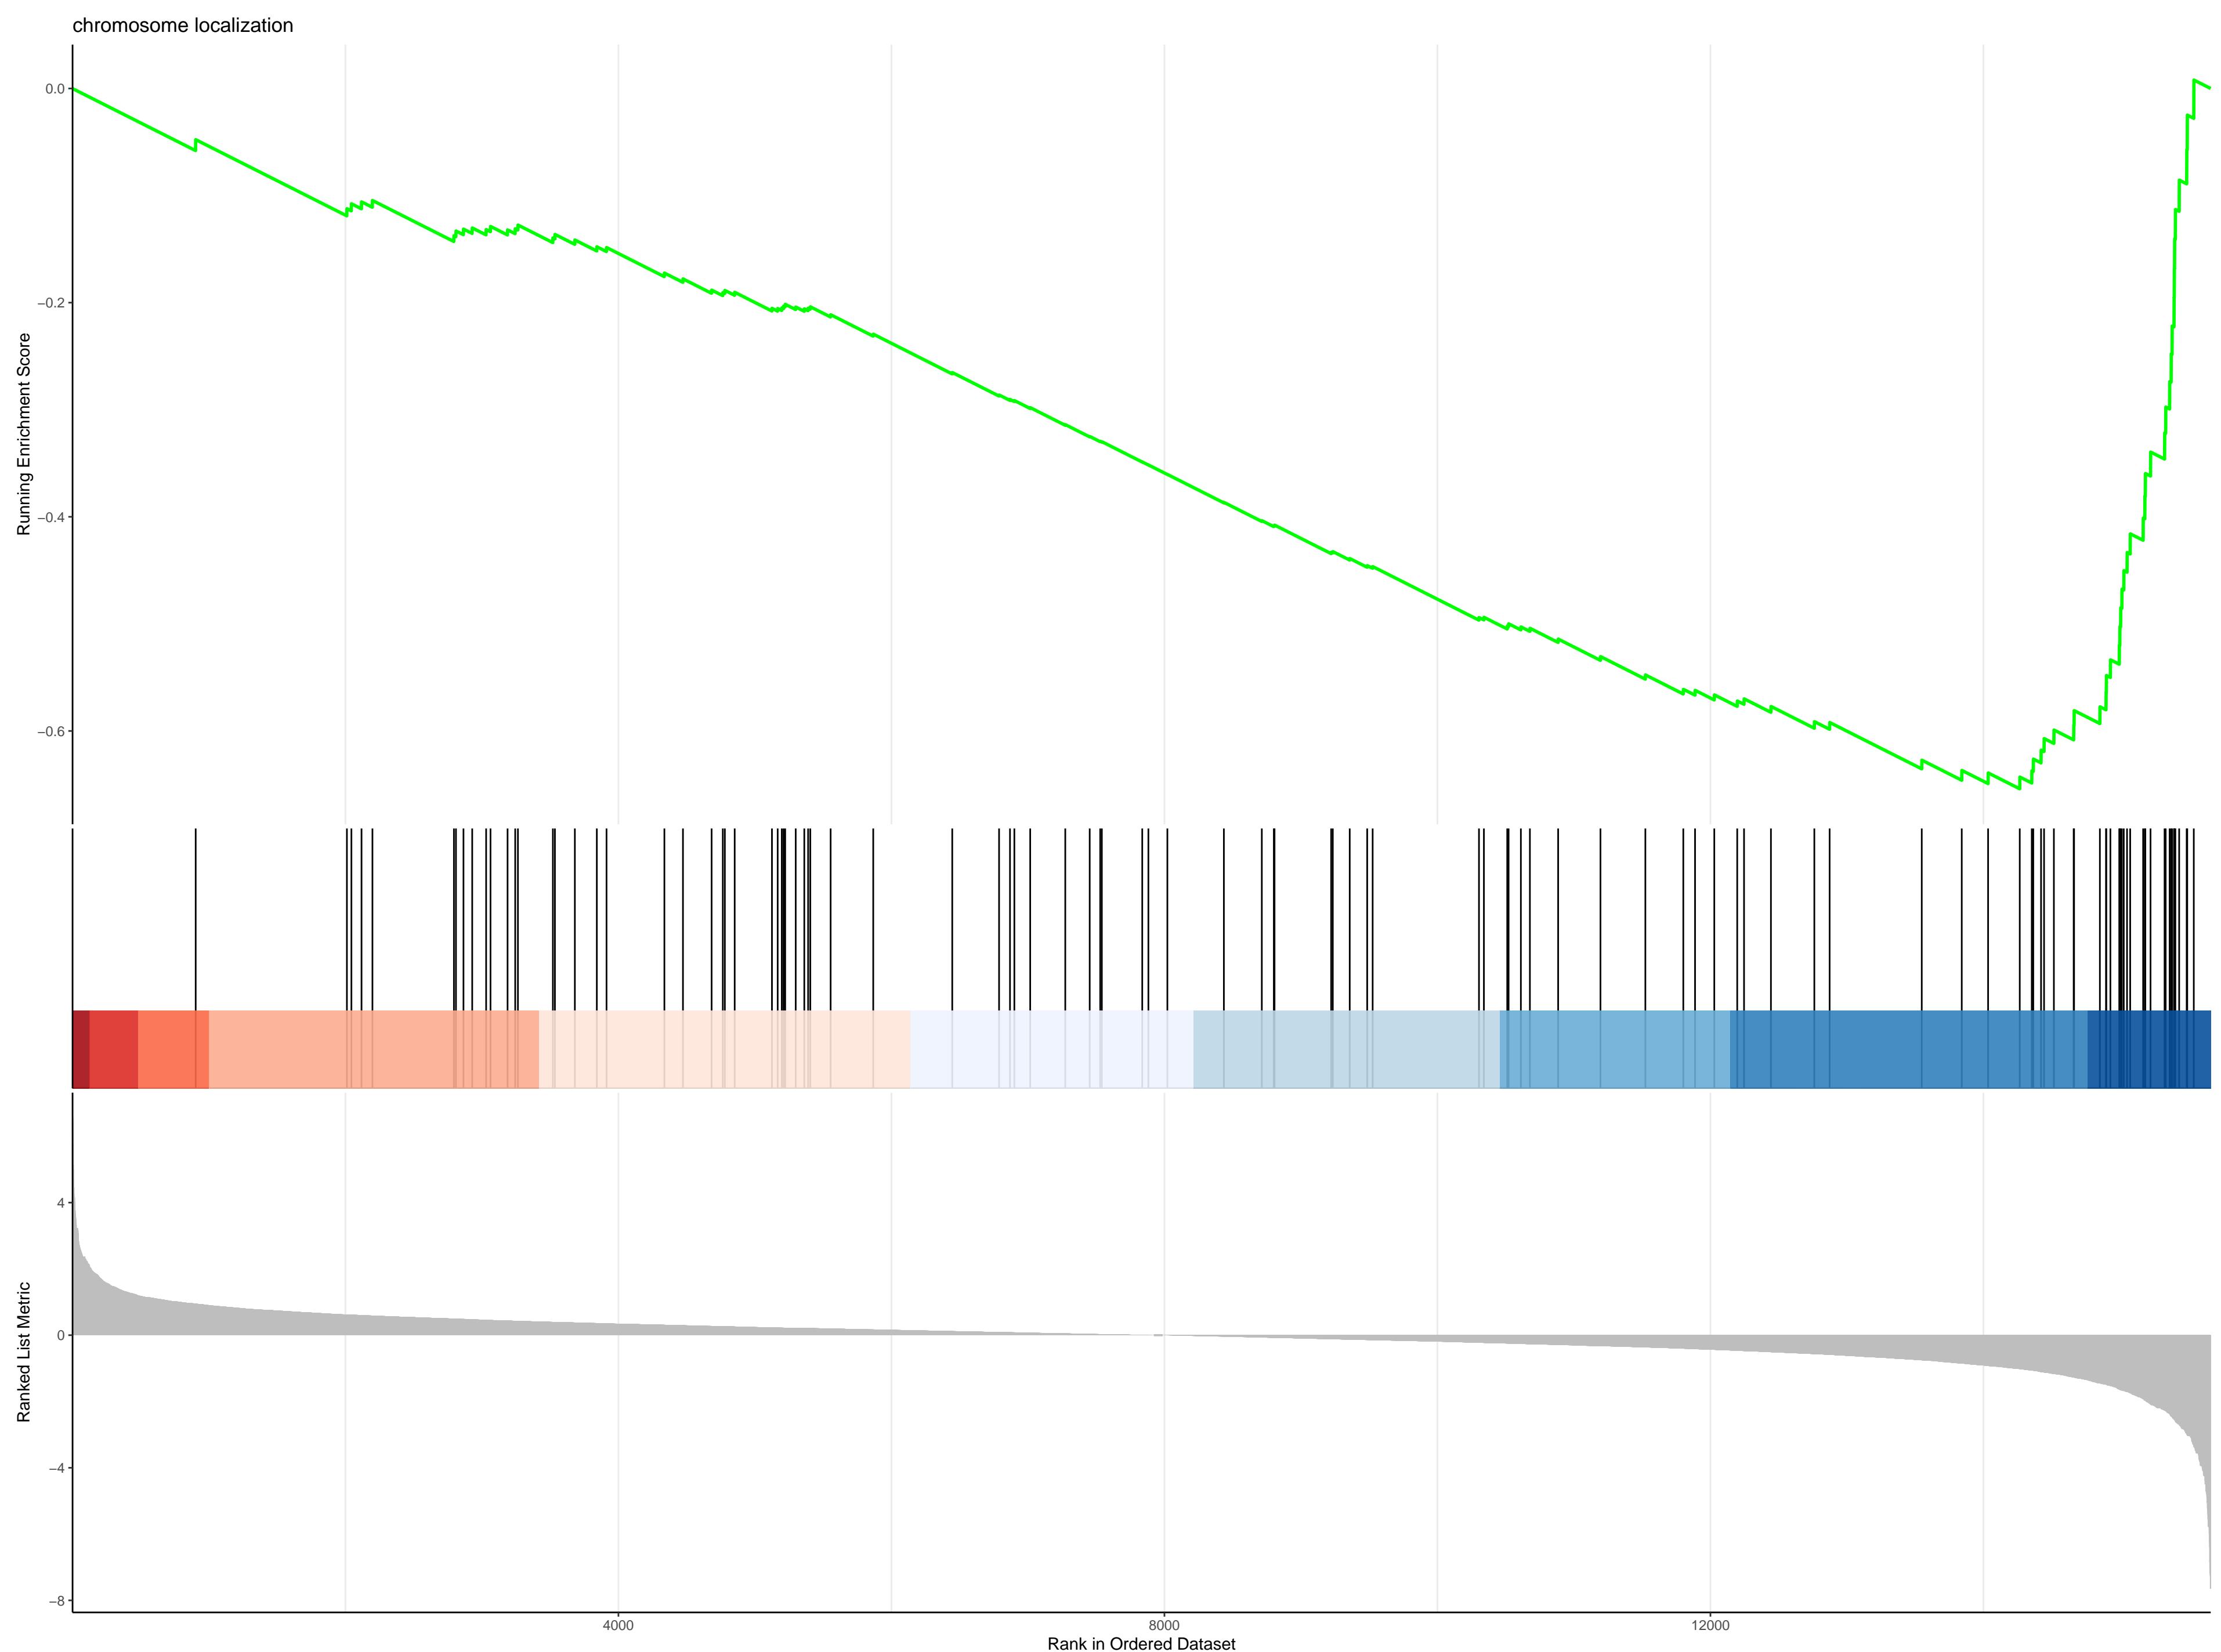

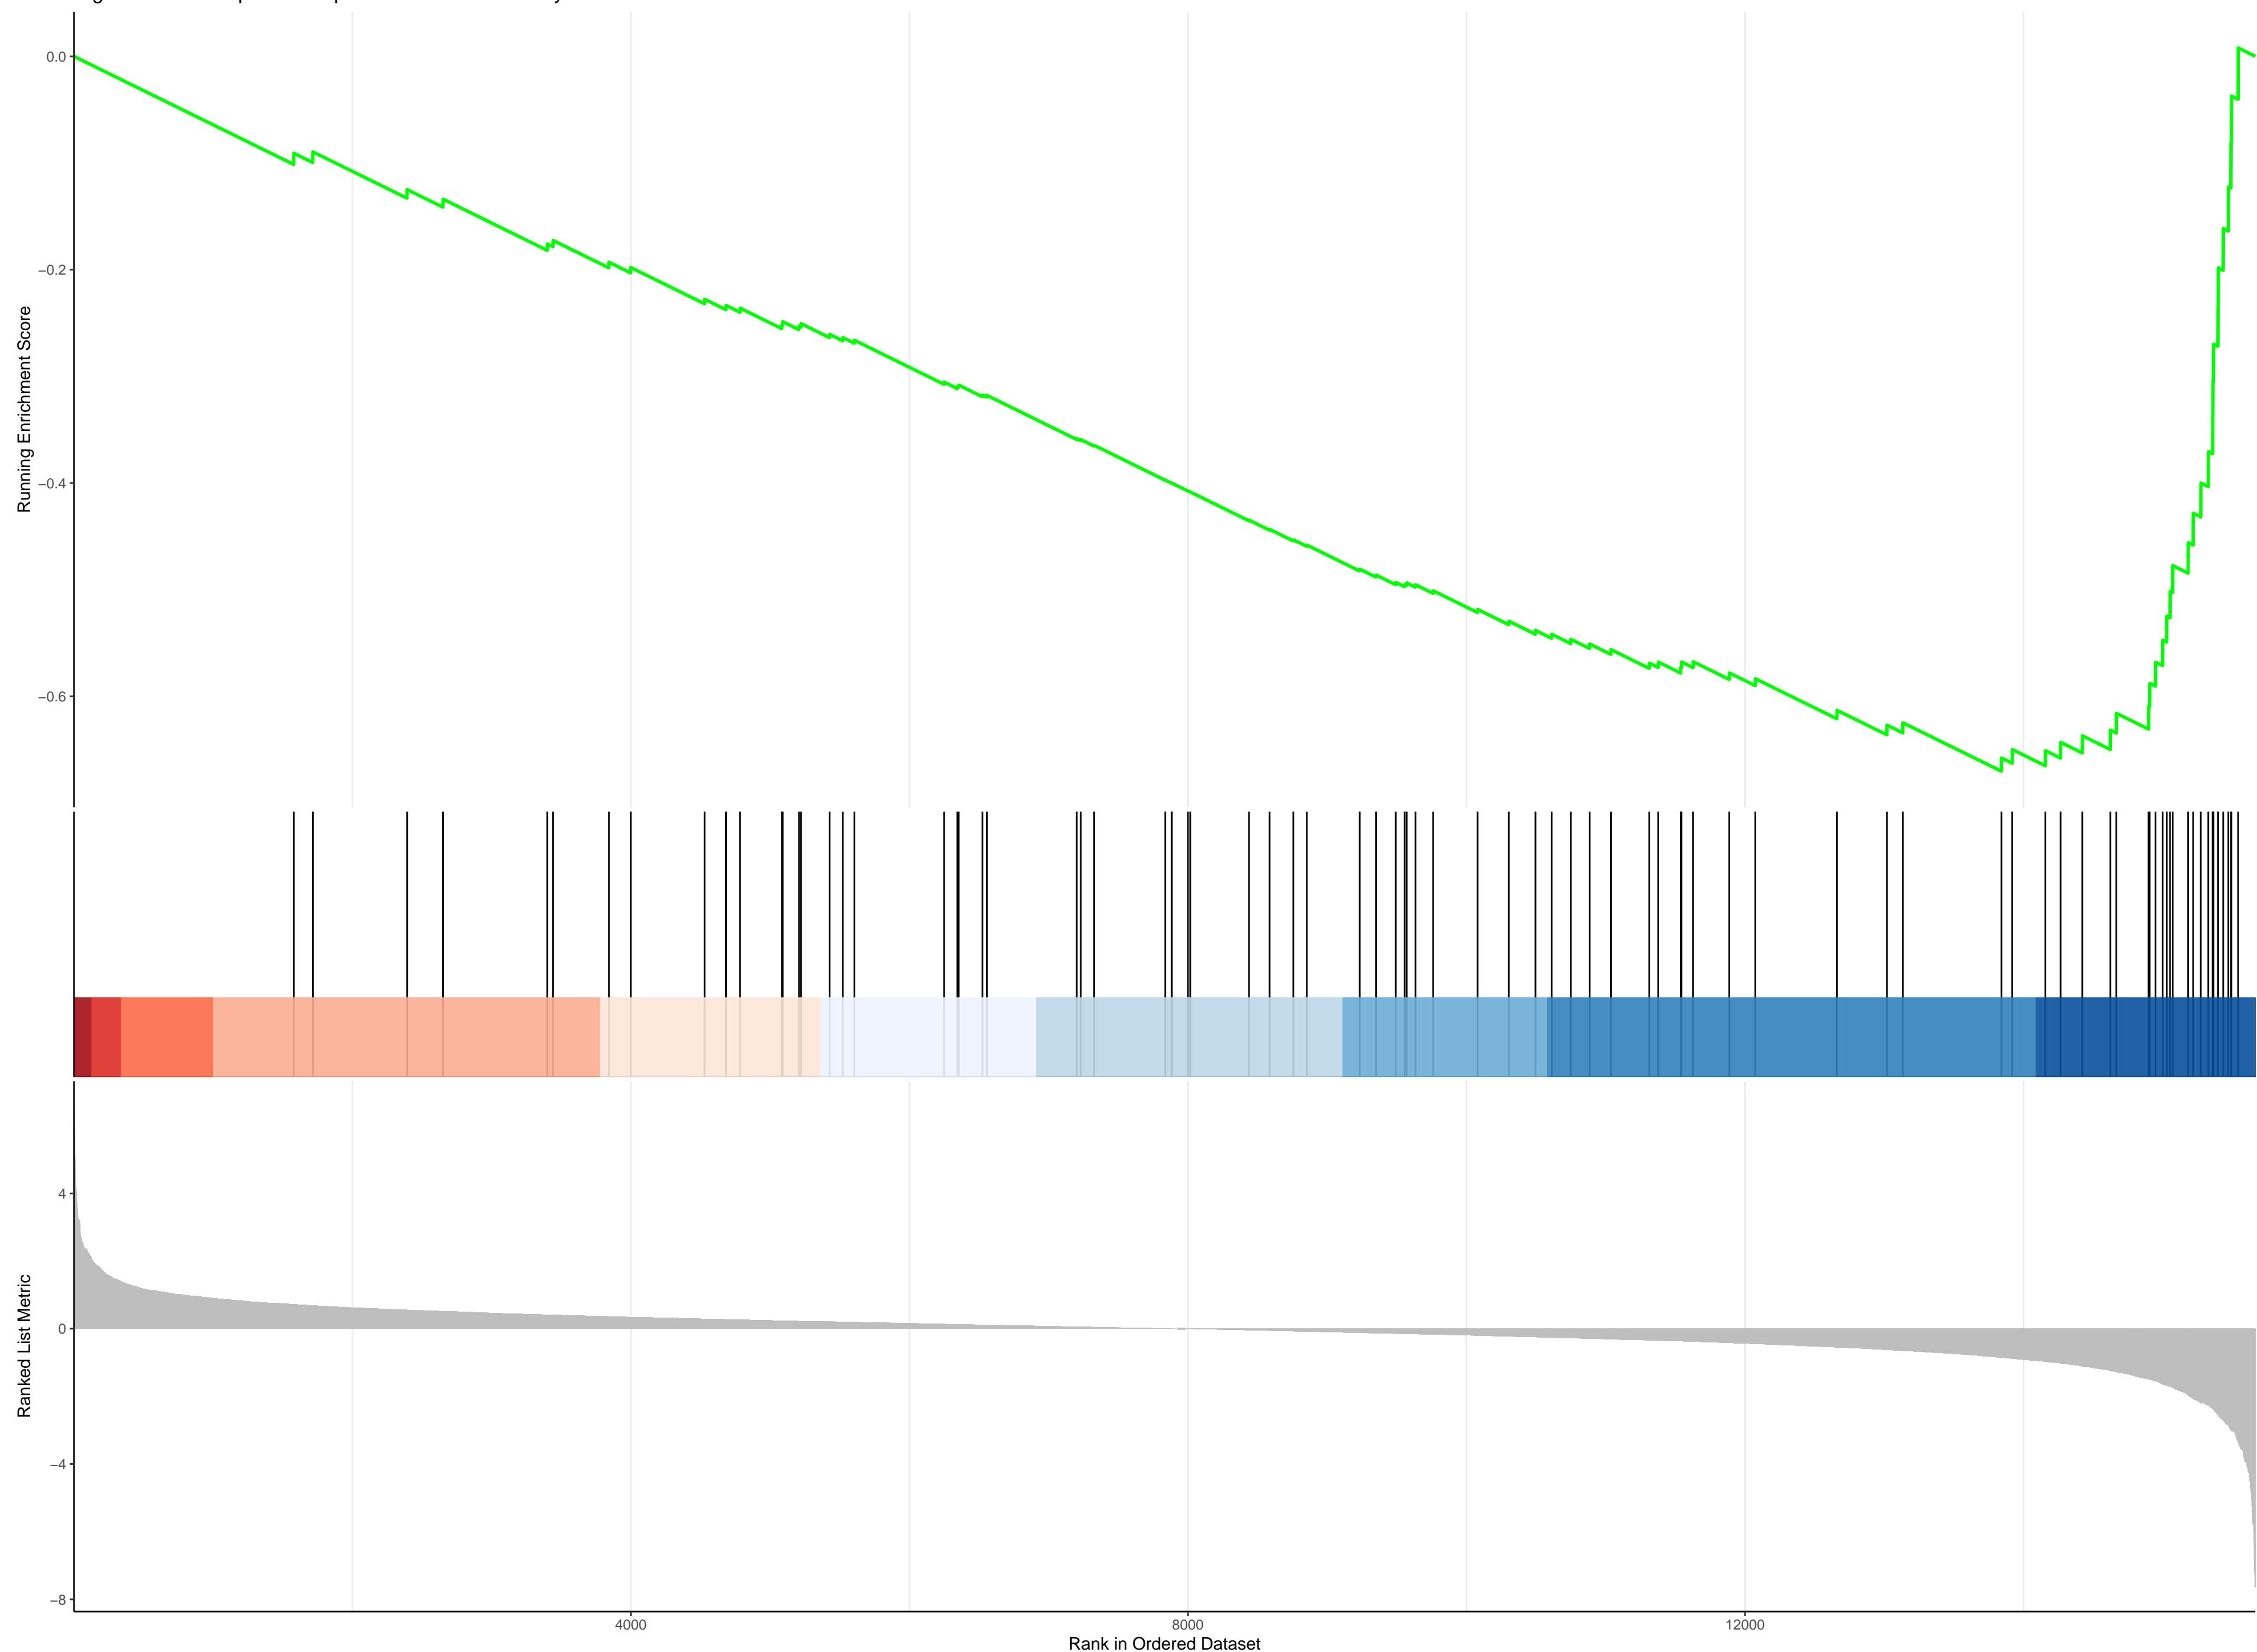

regulation of mitotic metaphase/anaphase transition

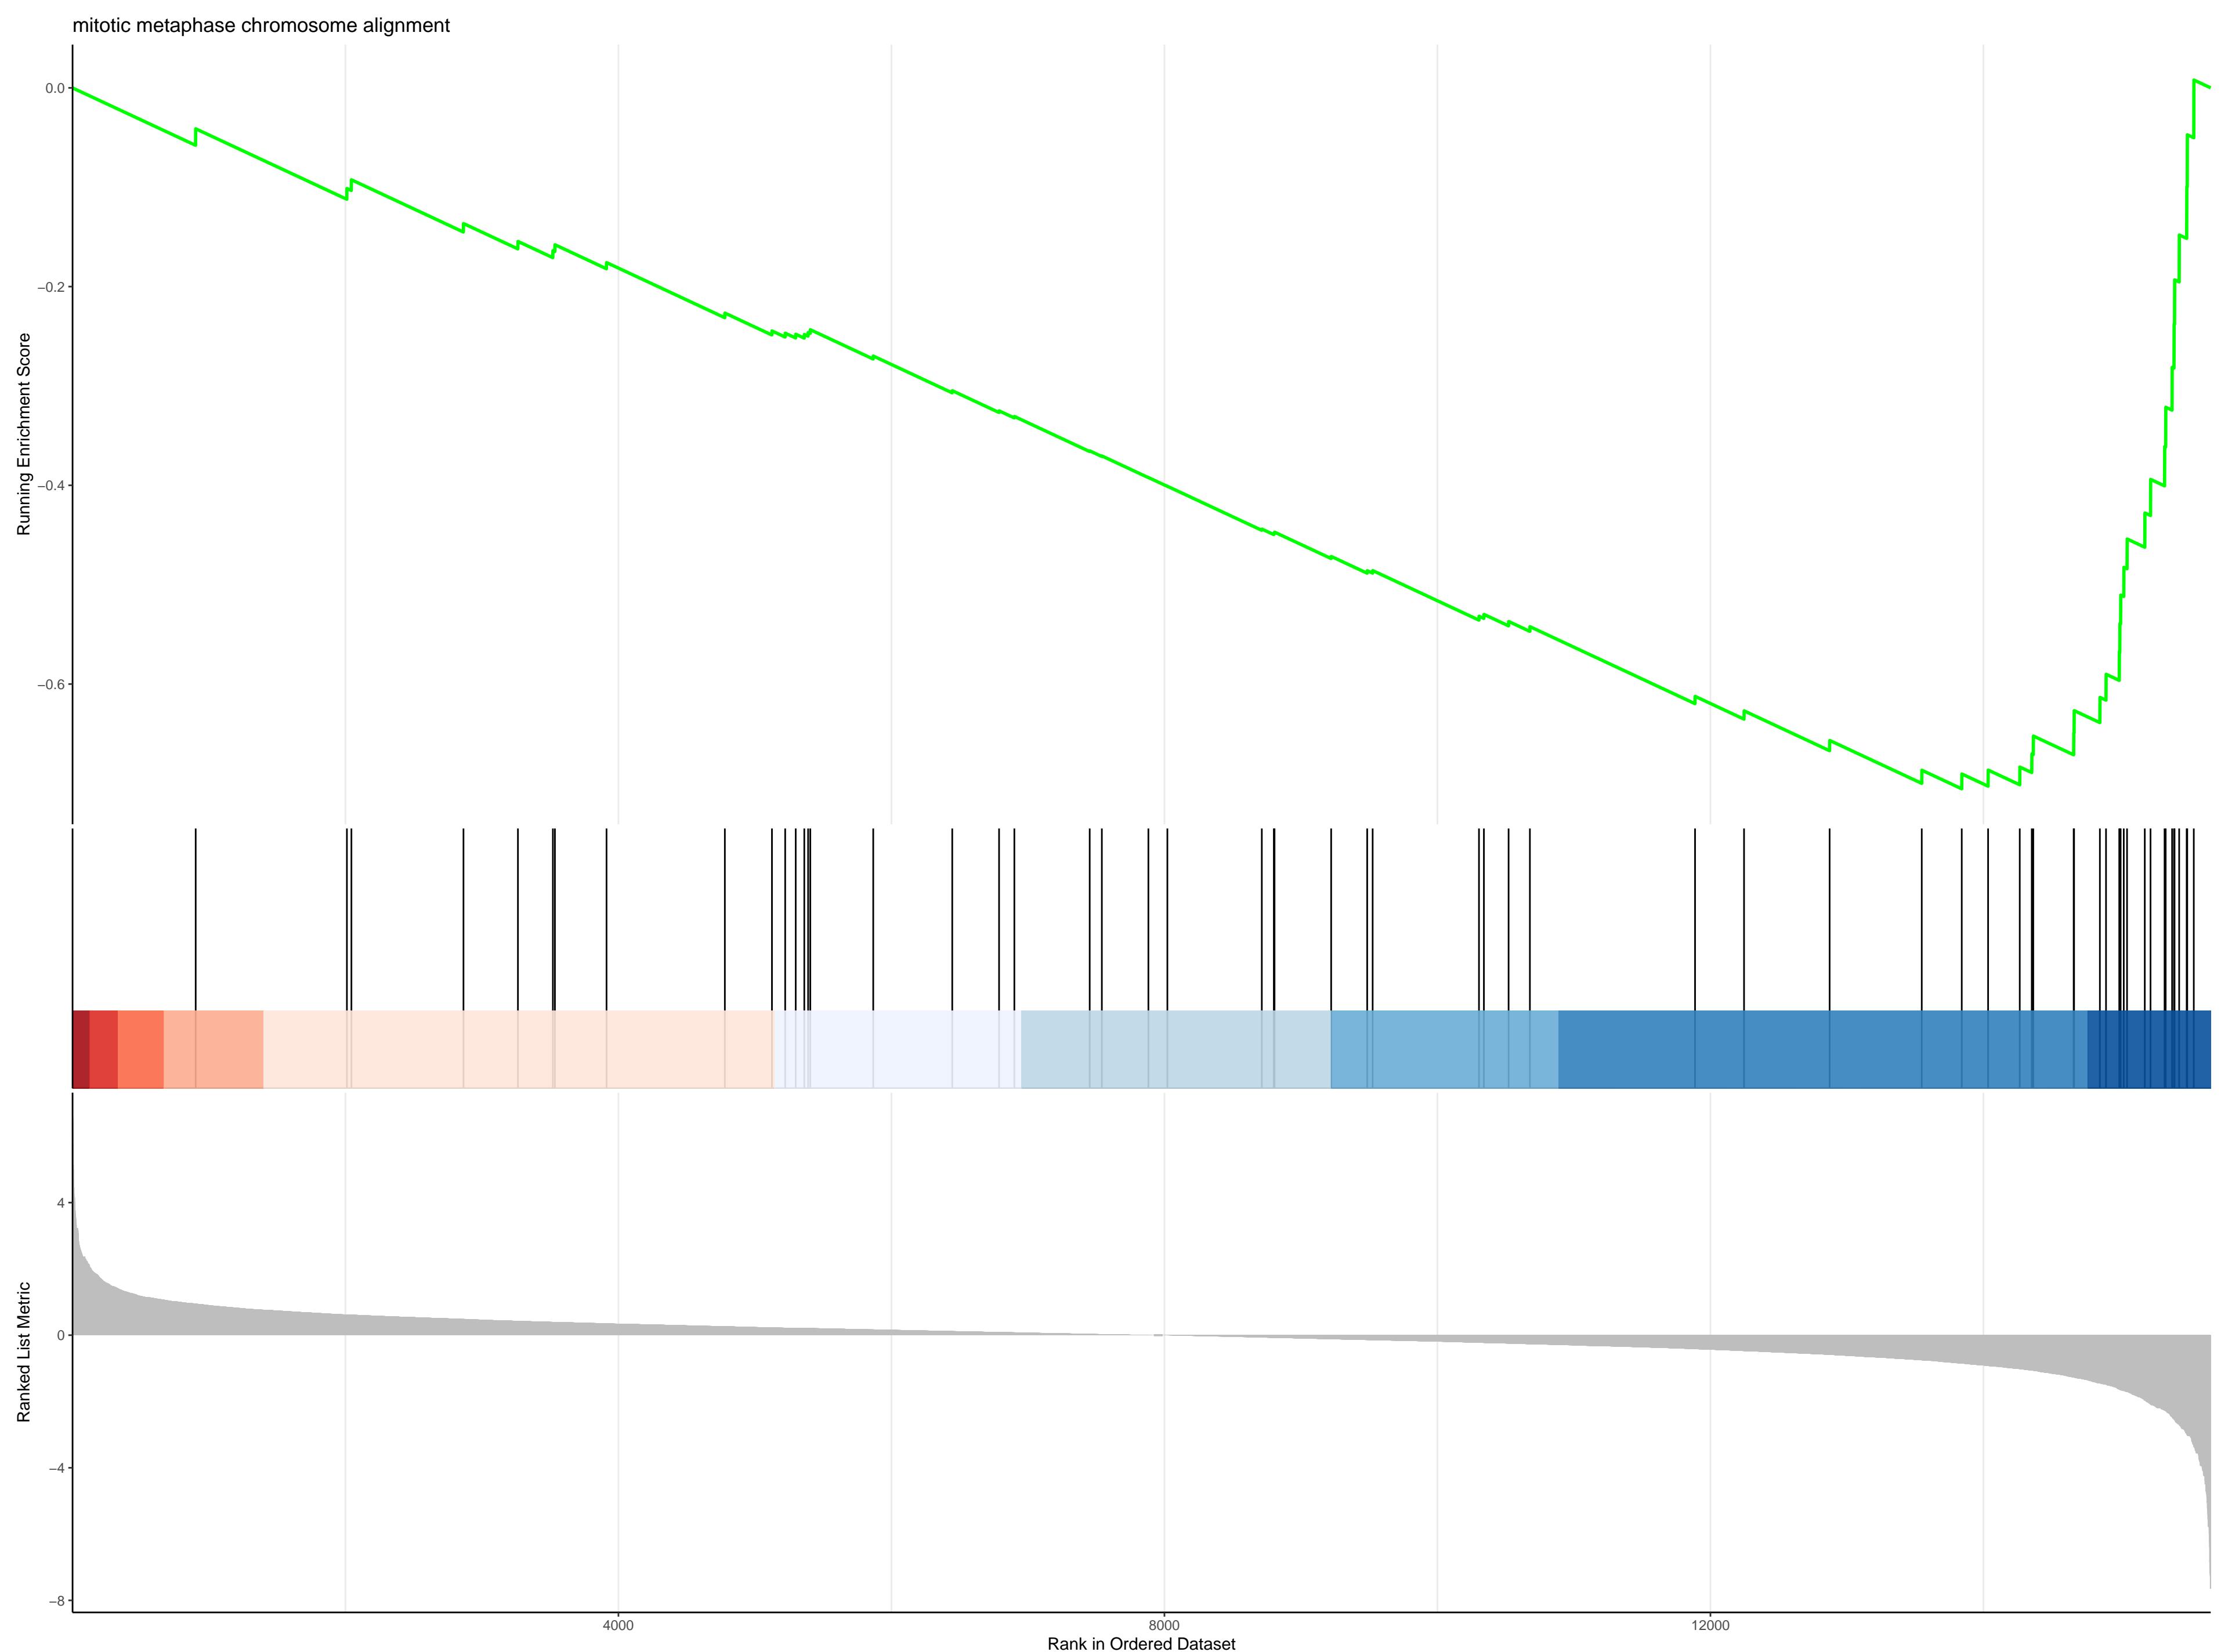

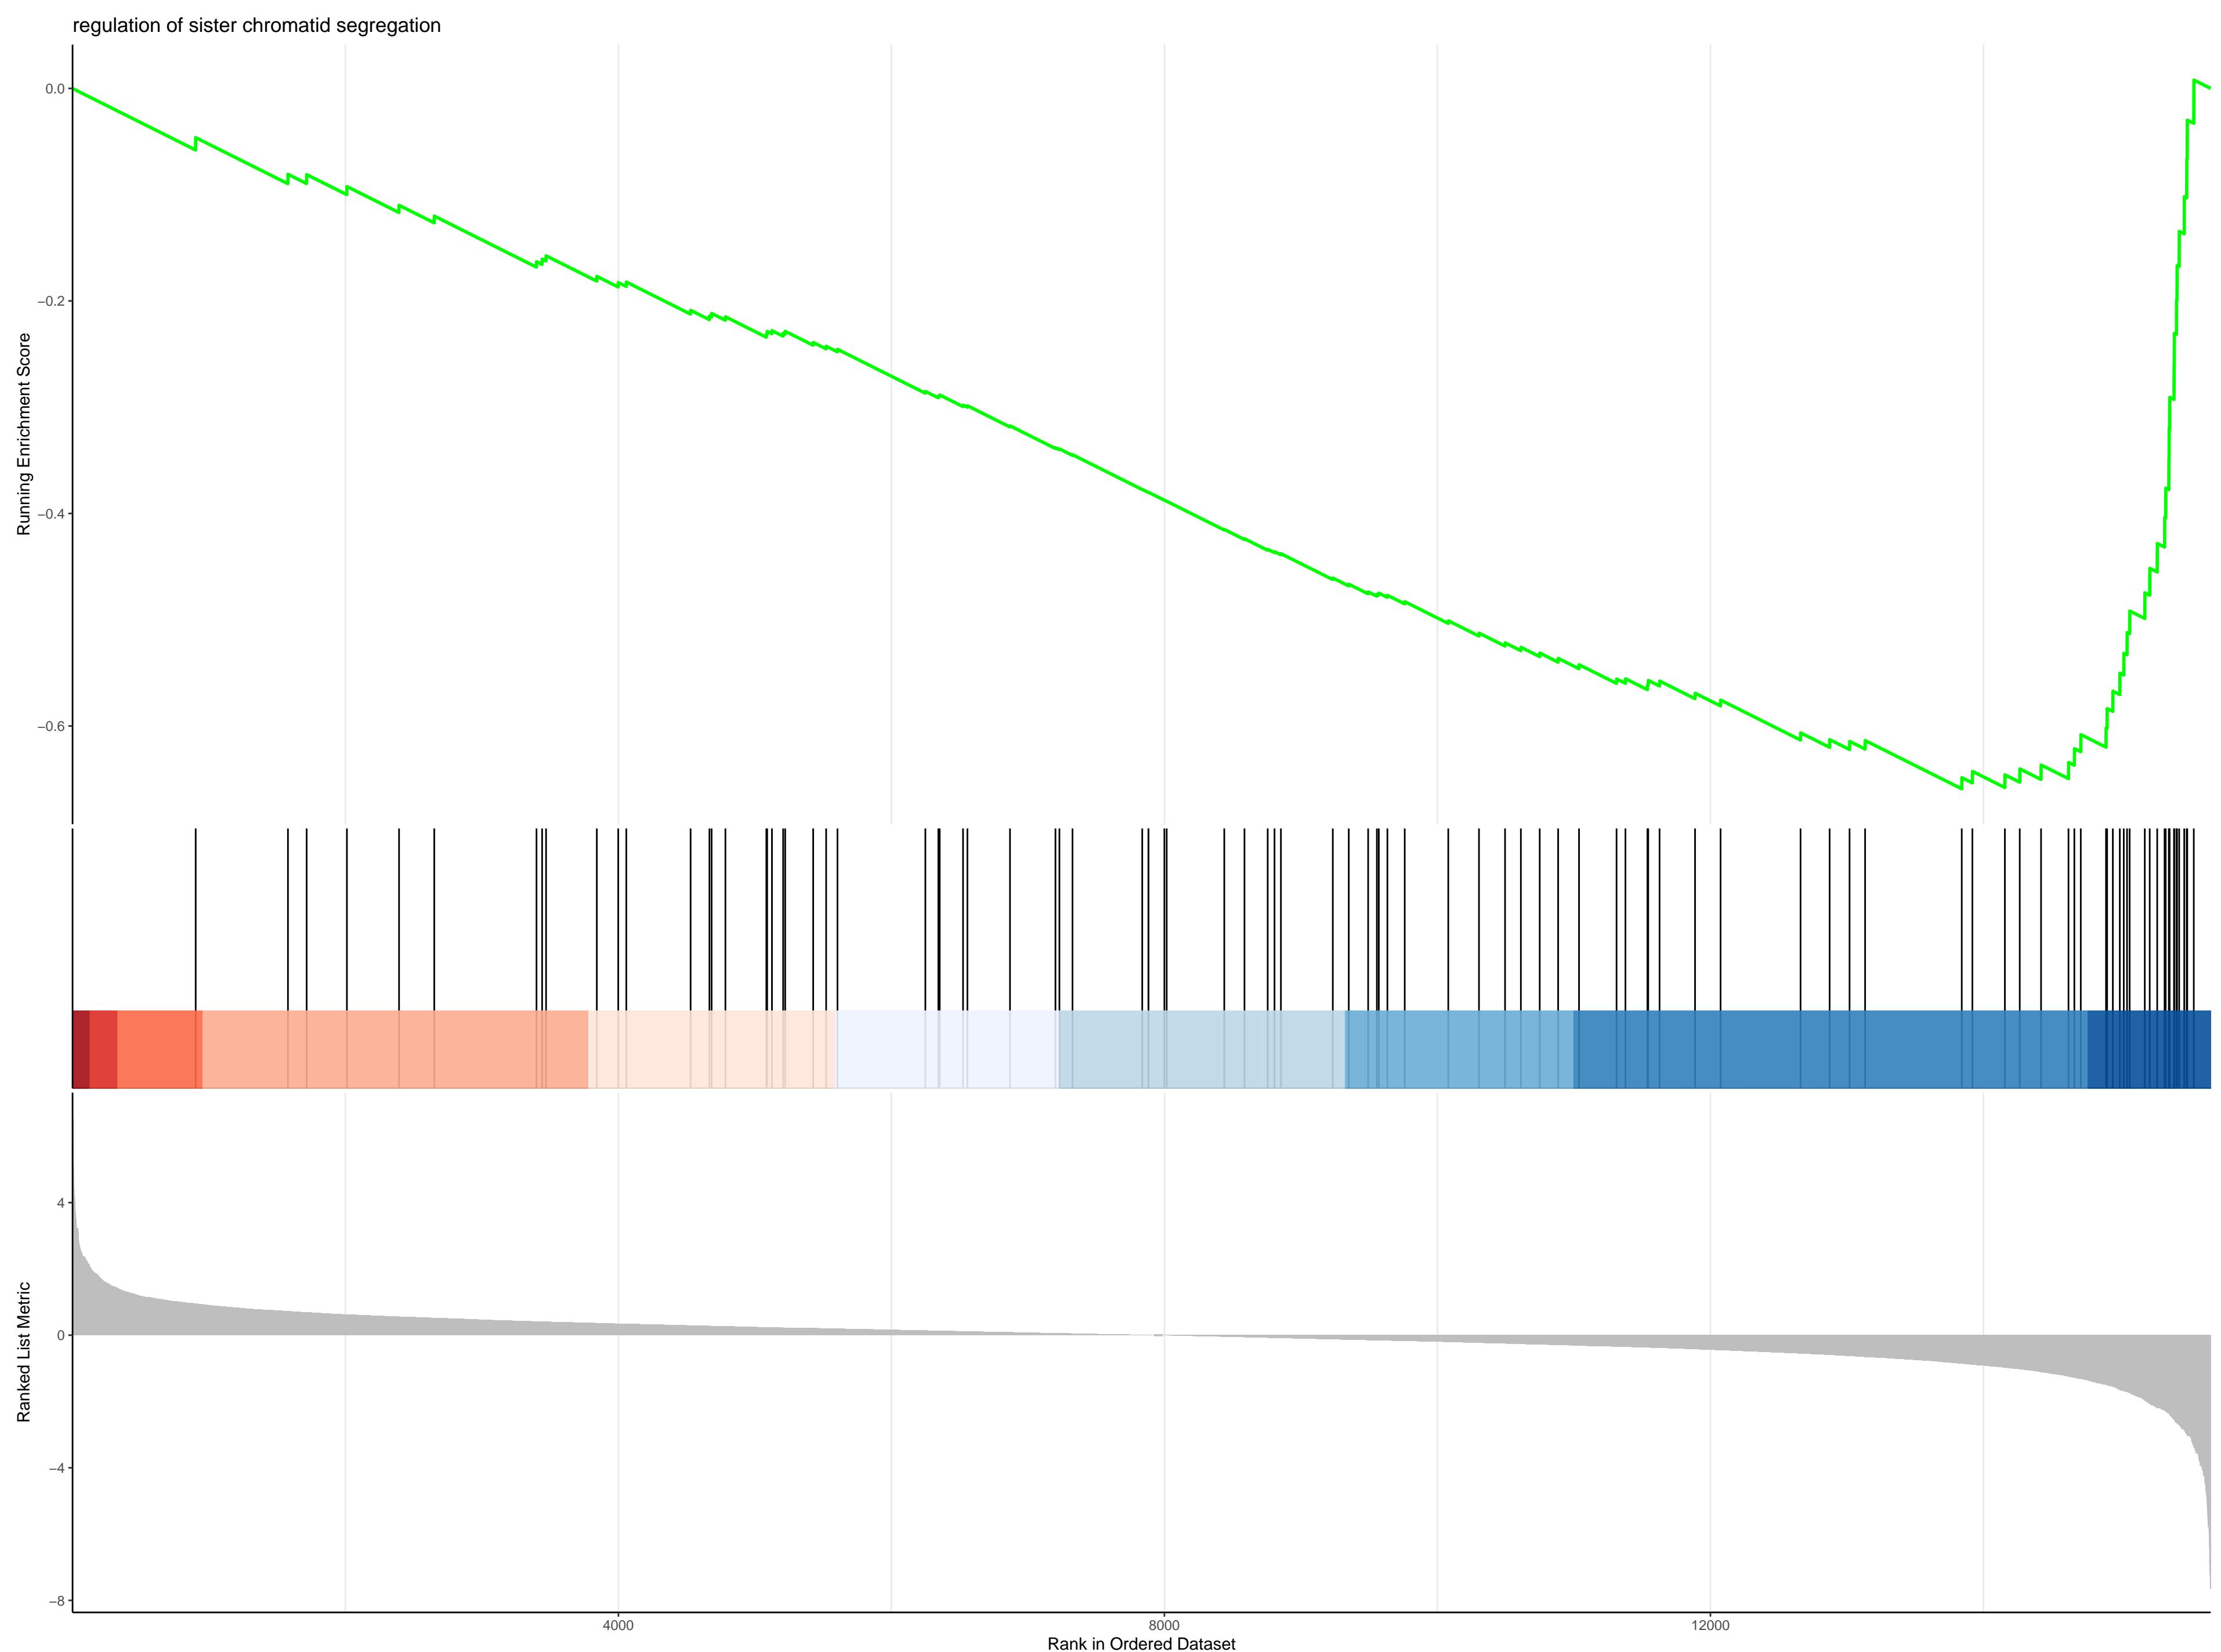

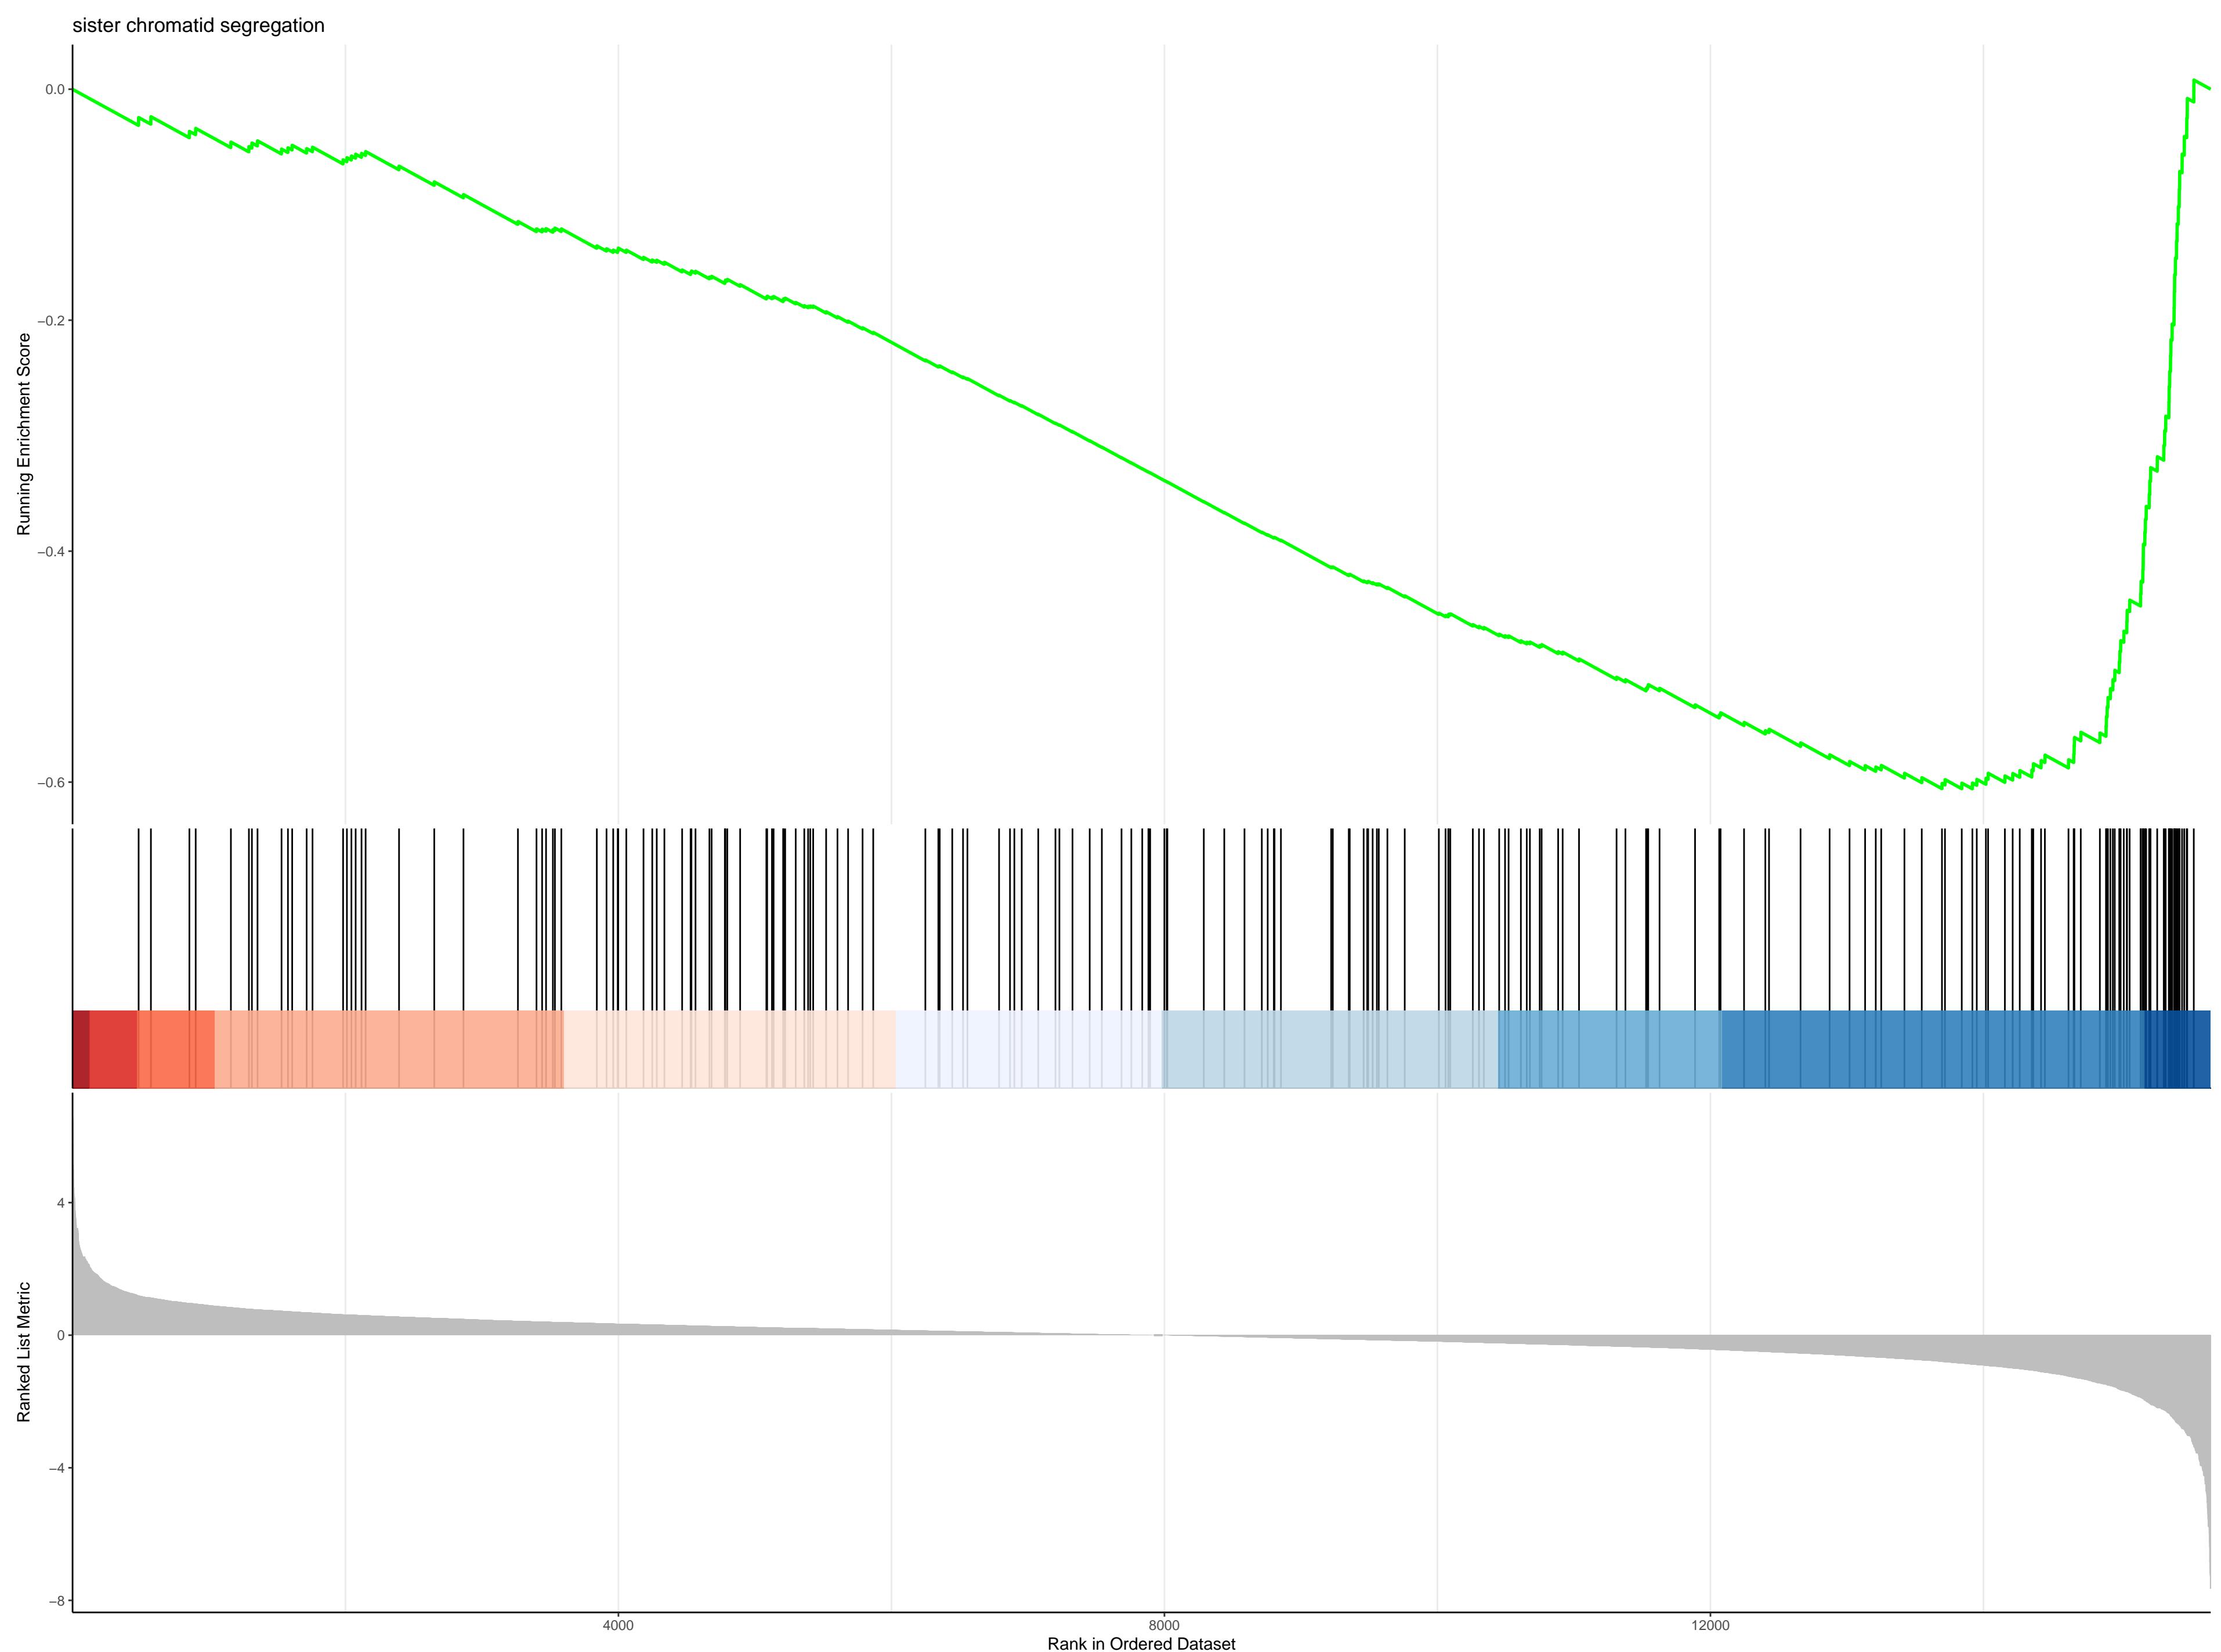

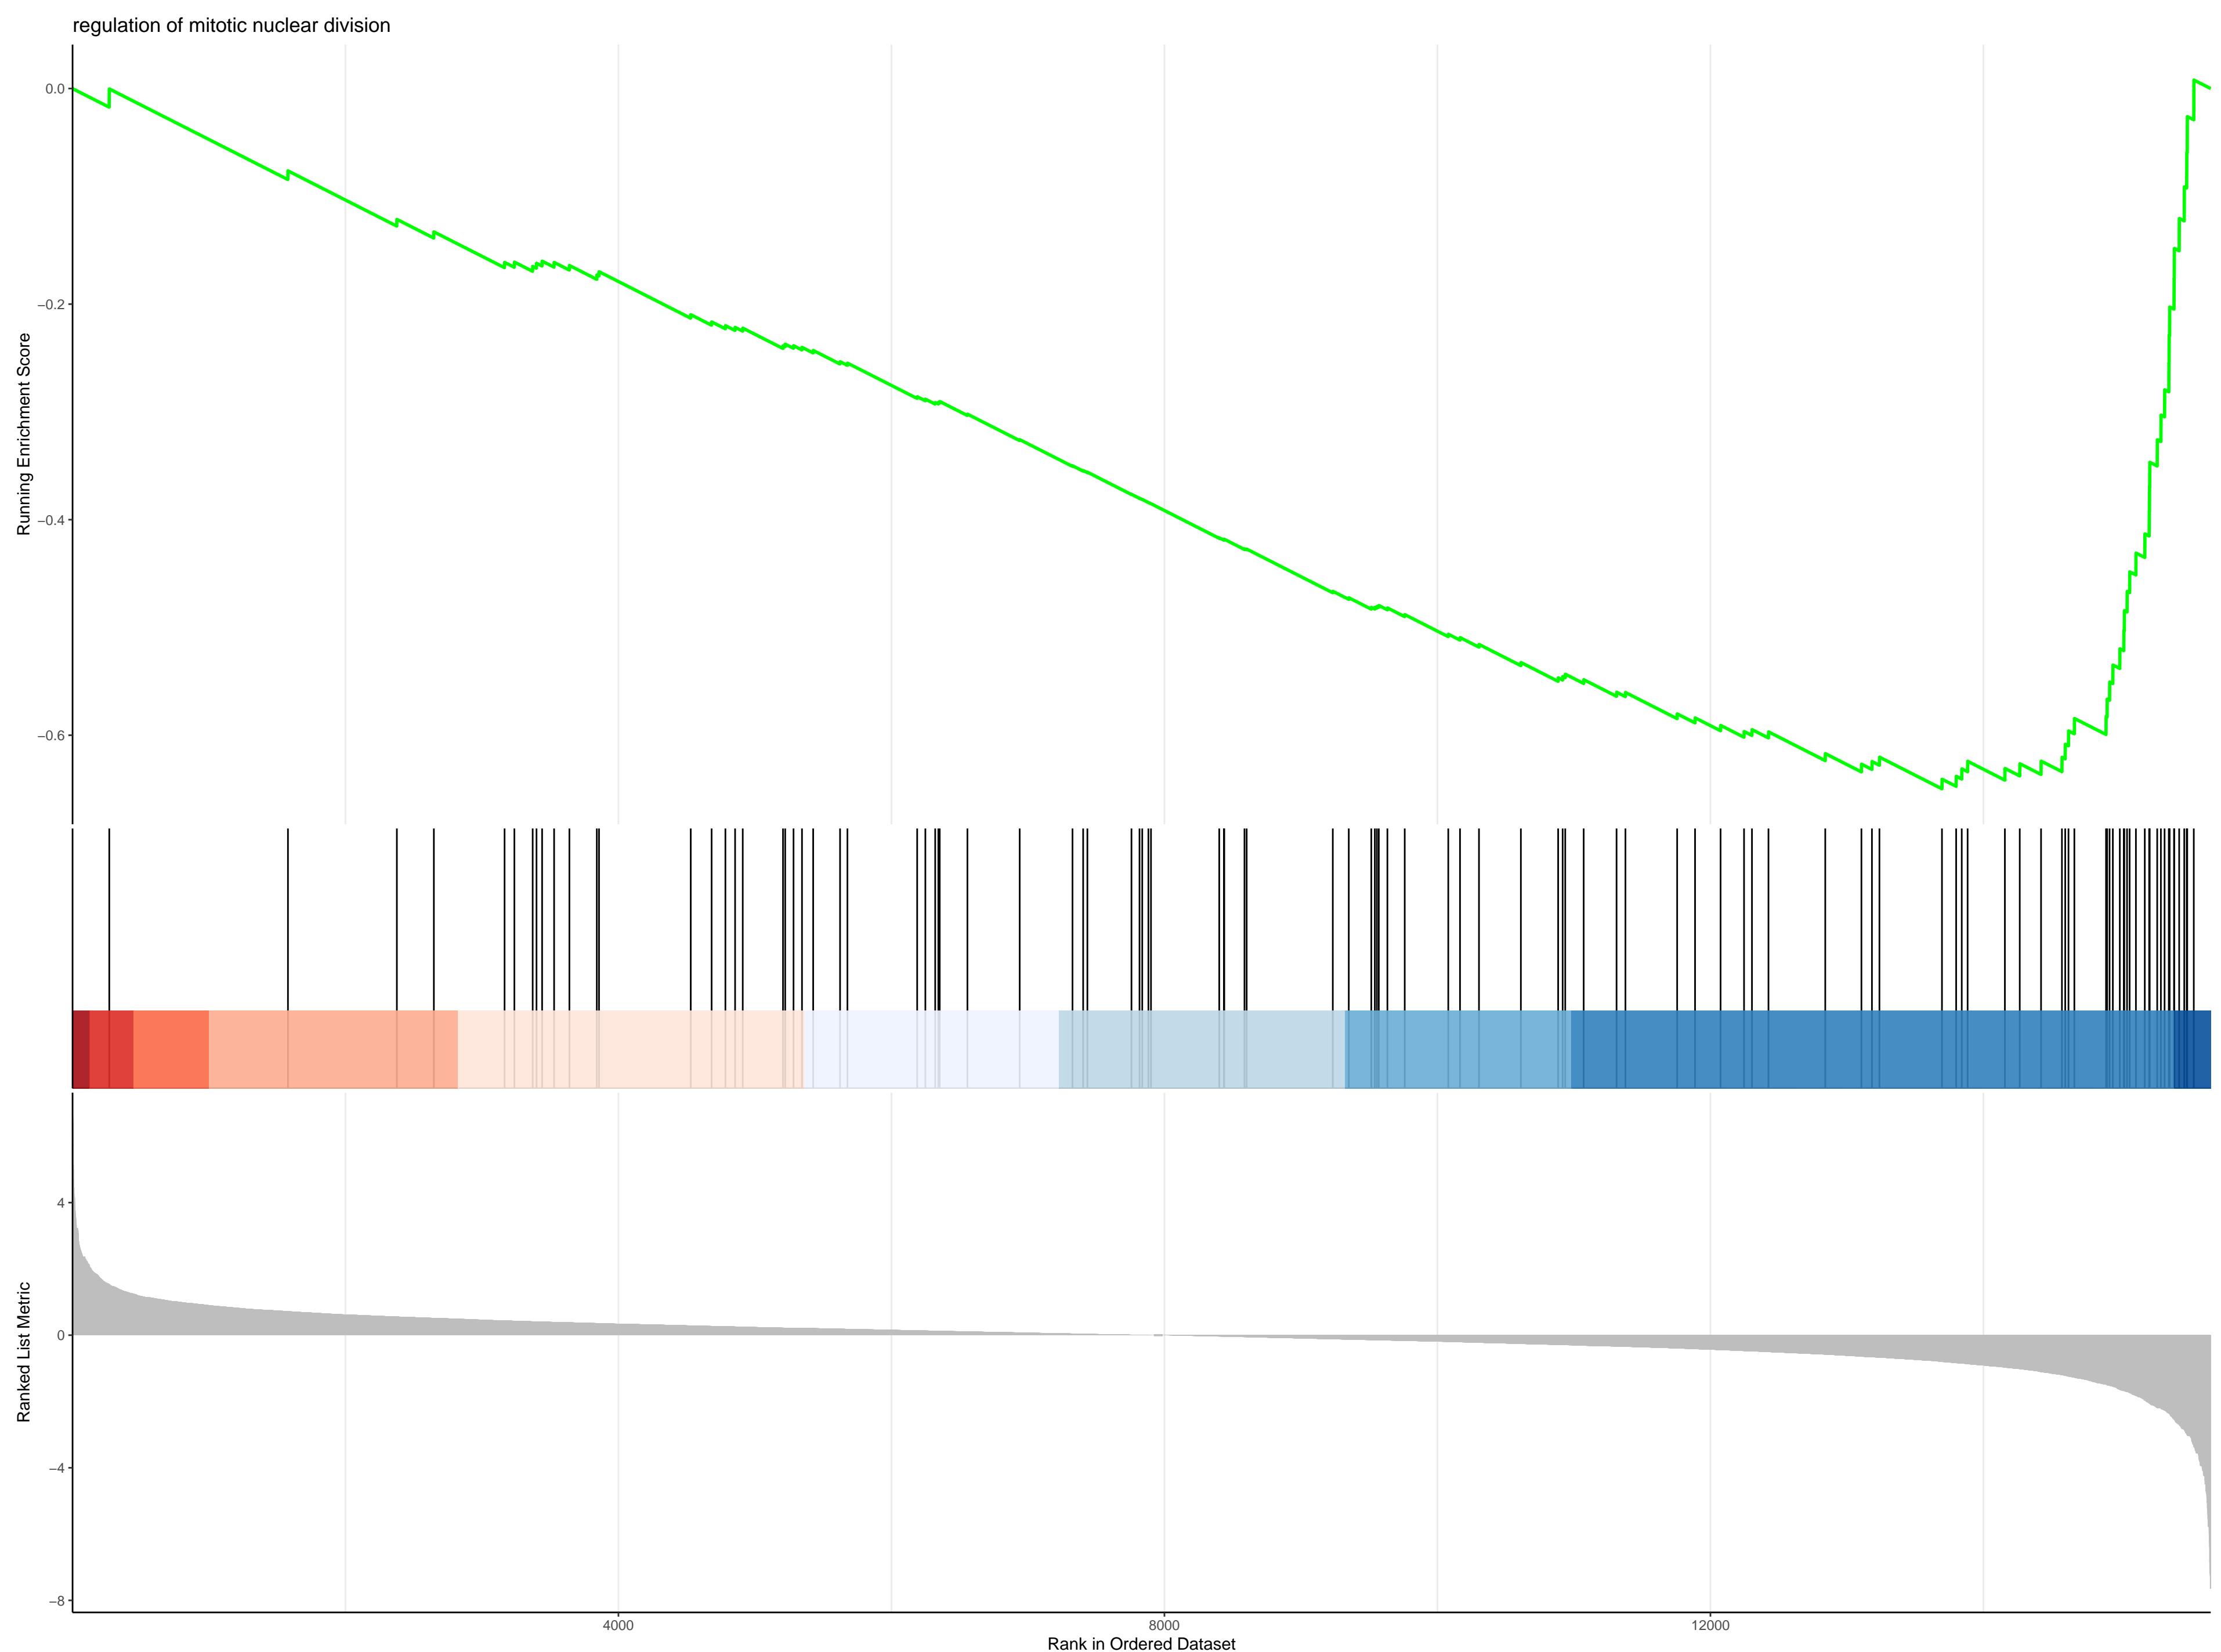

regulation of metaphase/anaphase transition of cell cycle

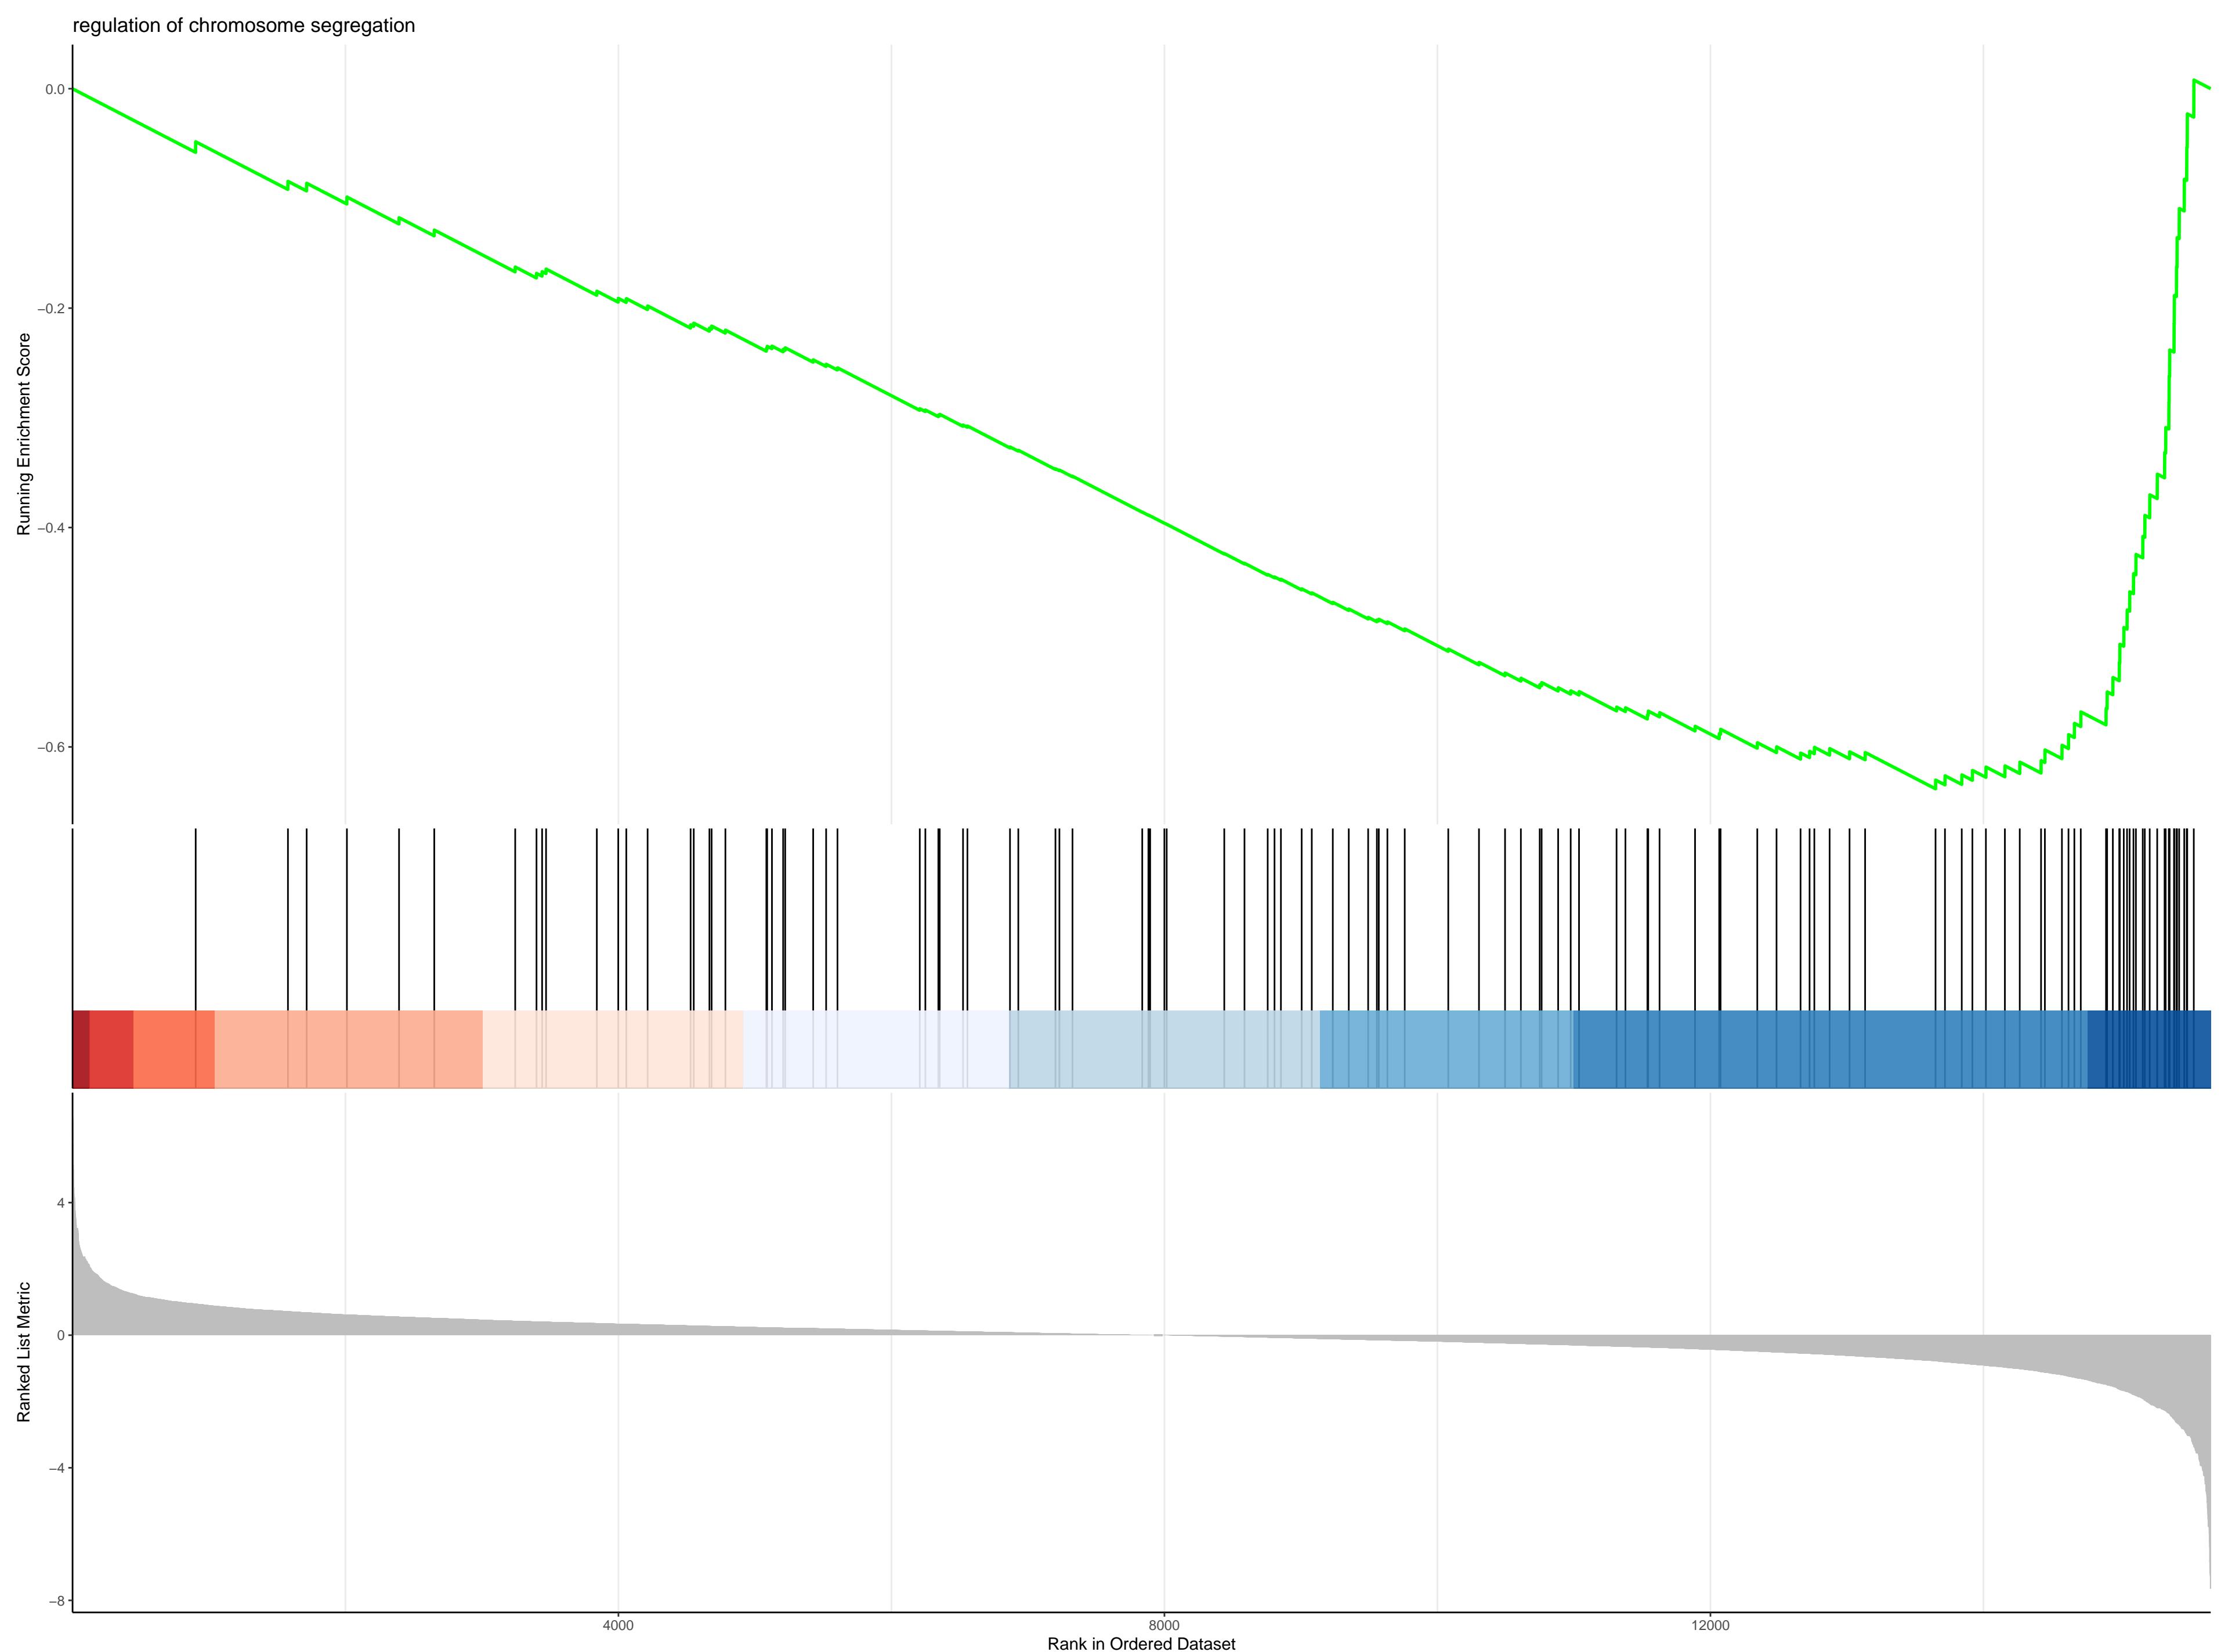

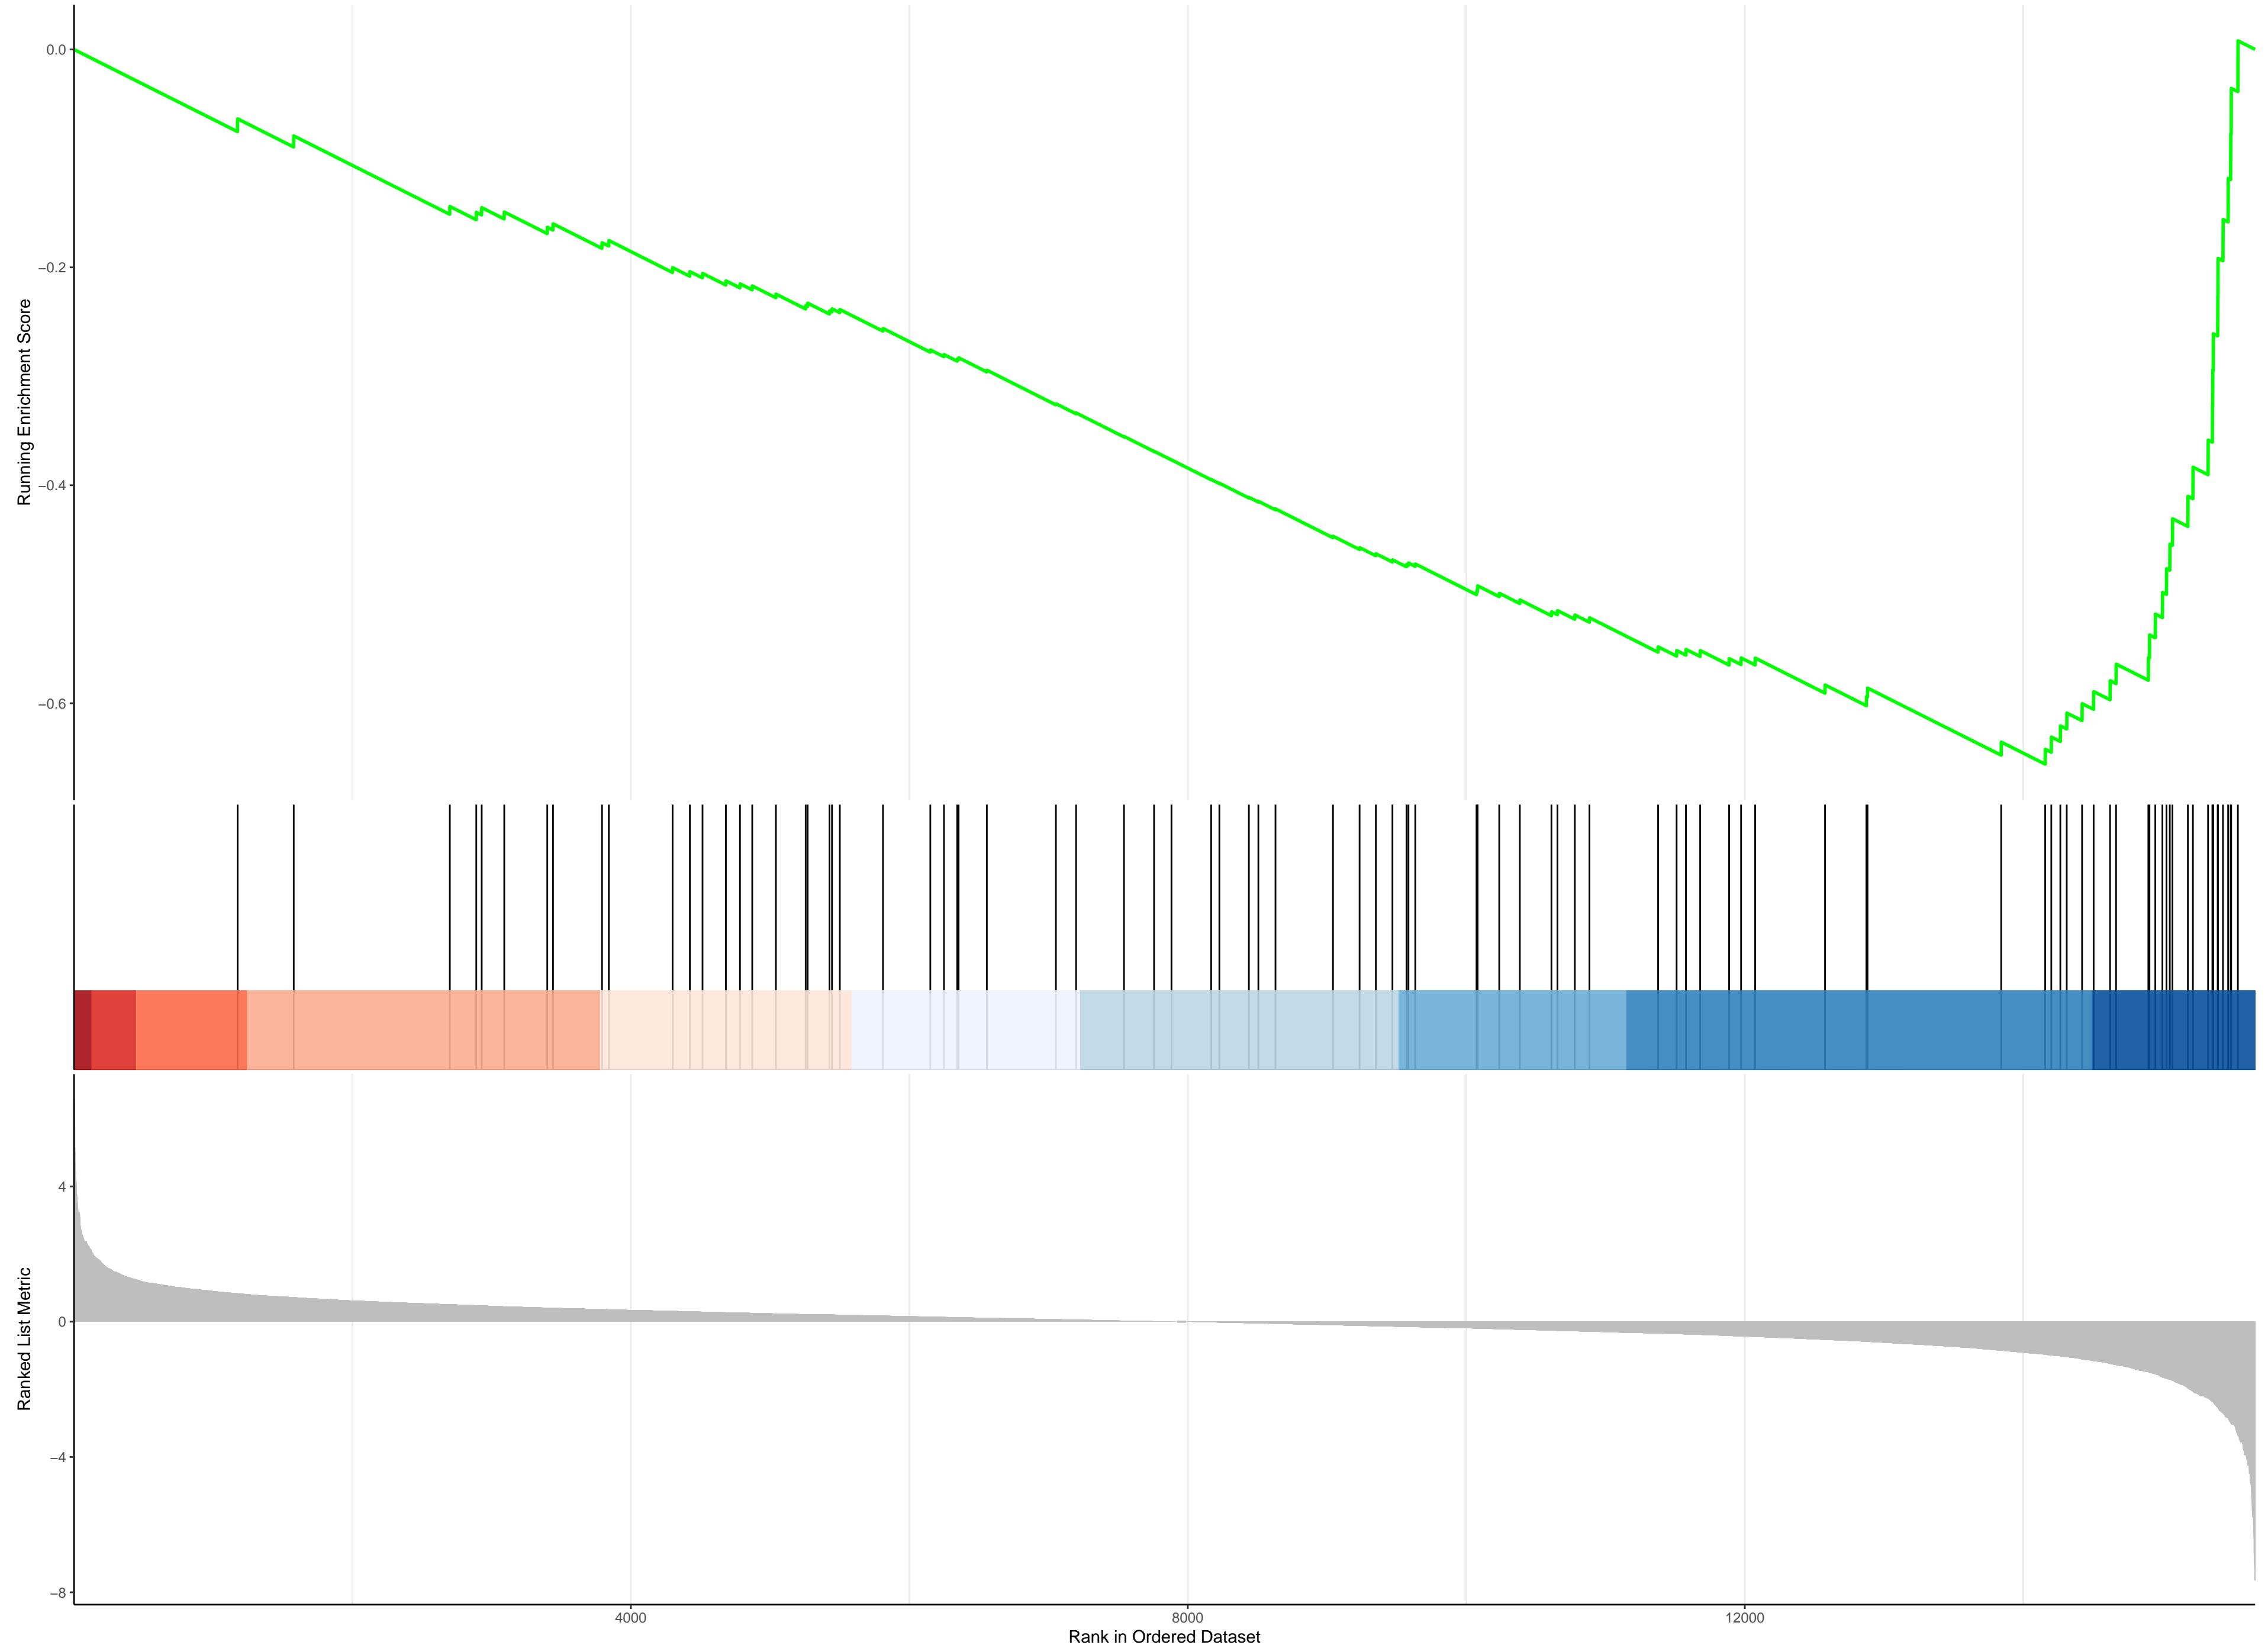

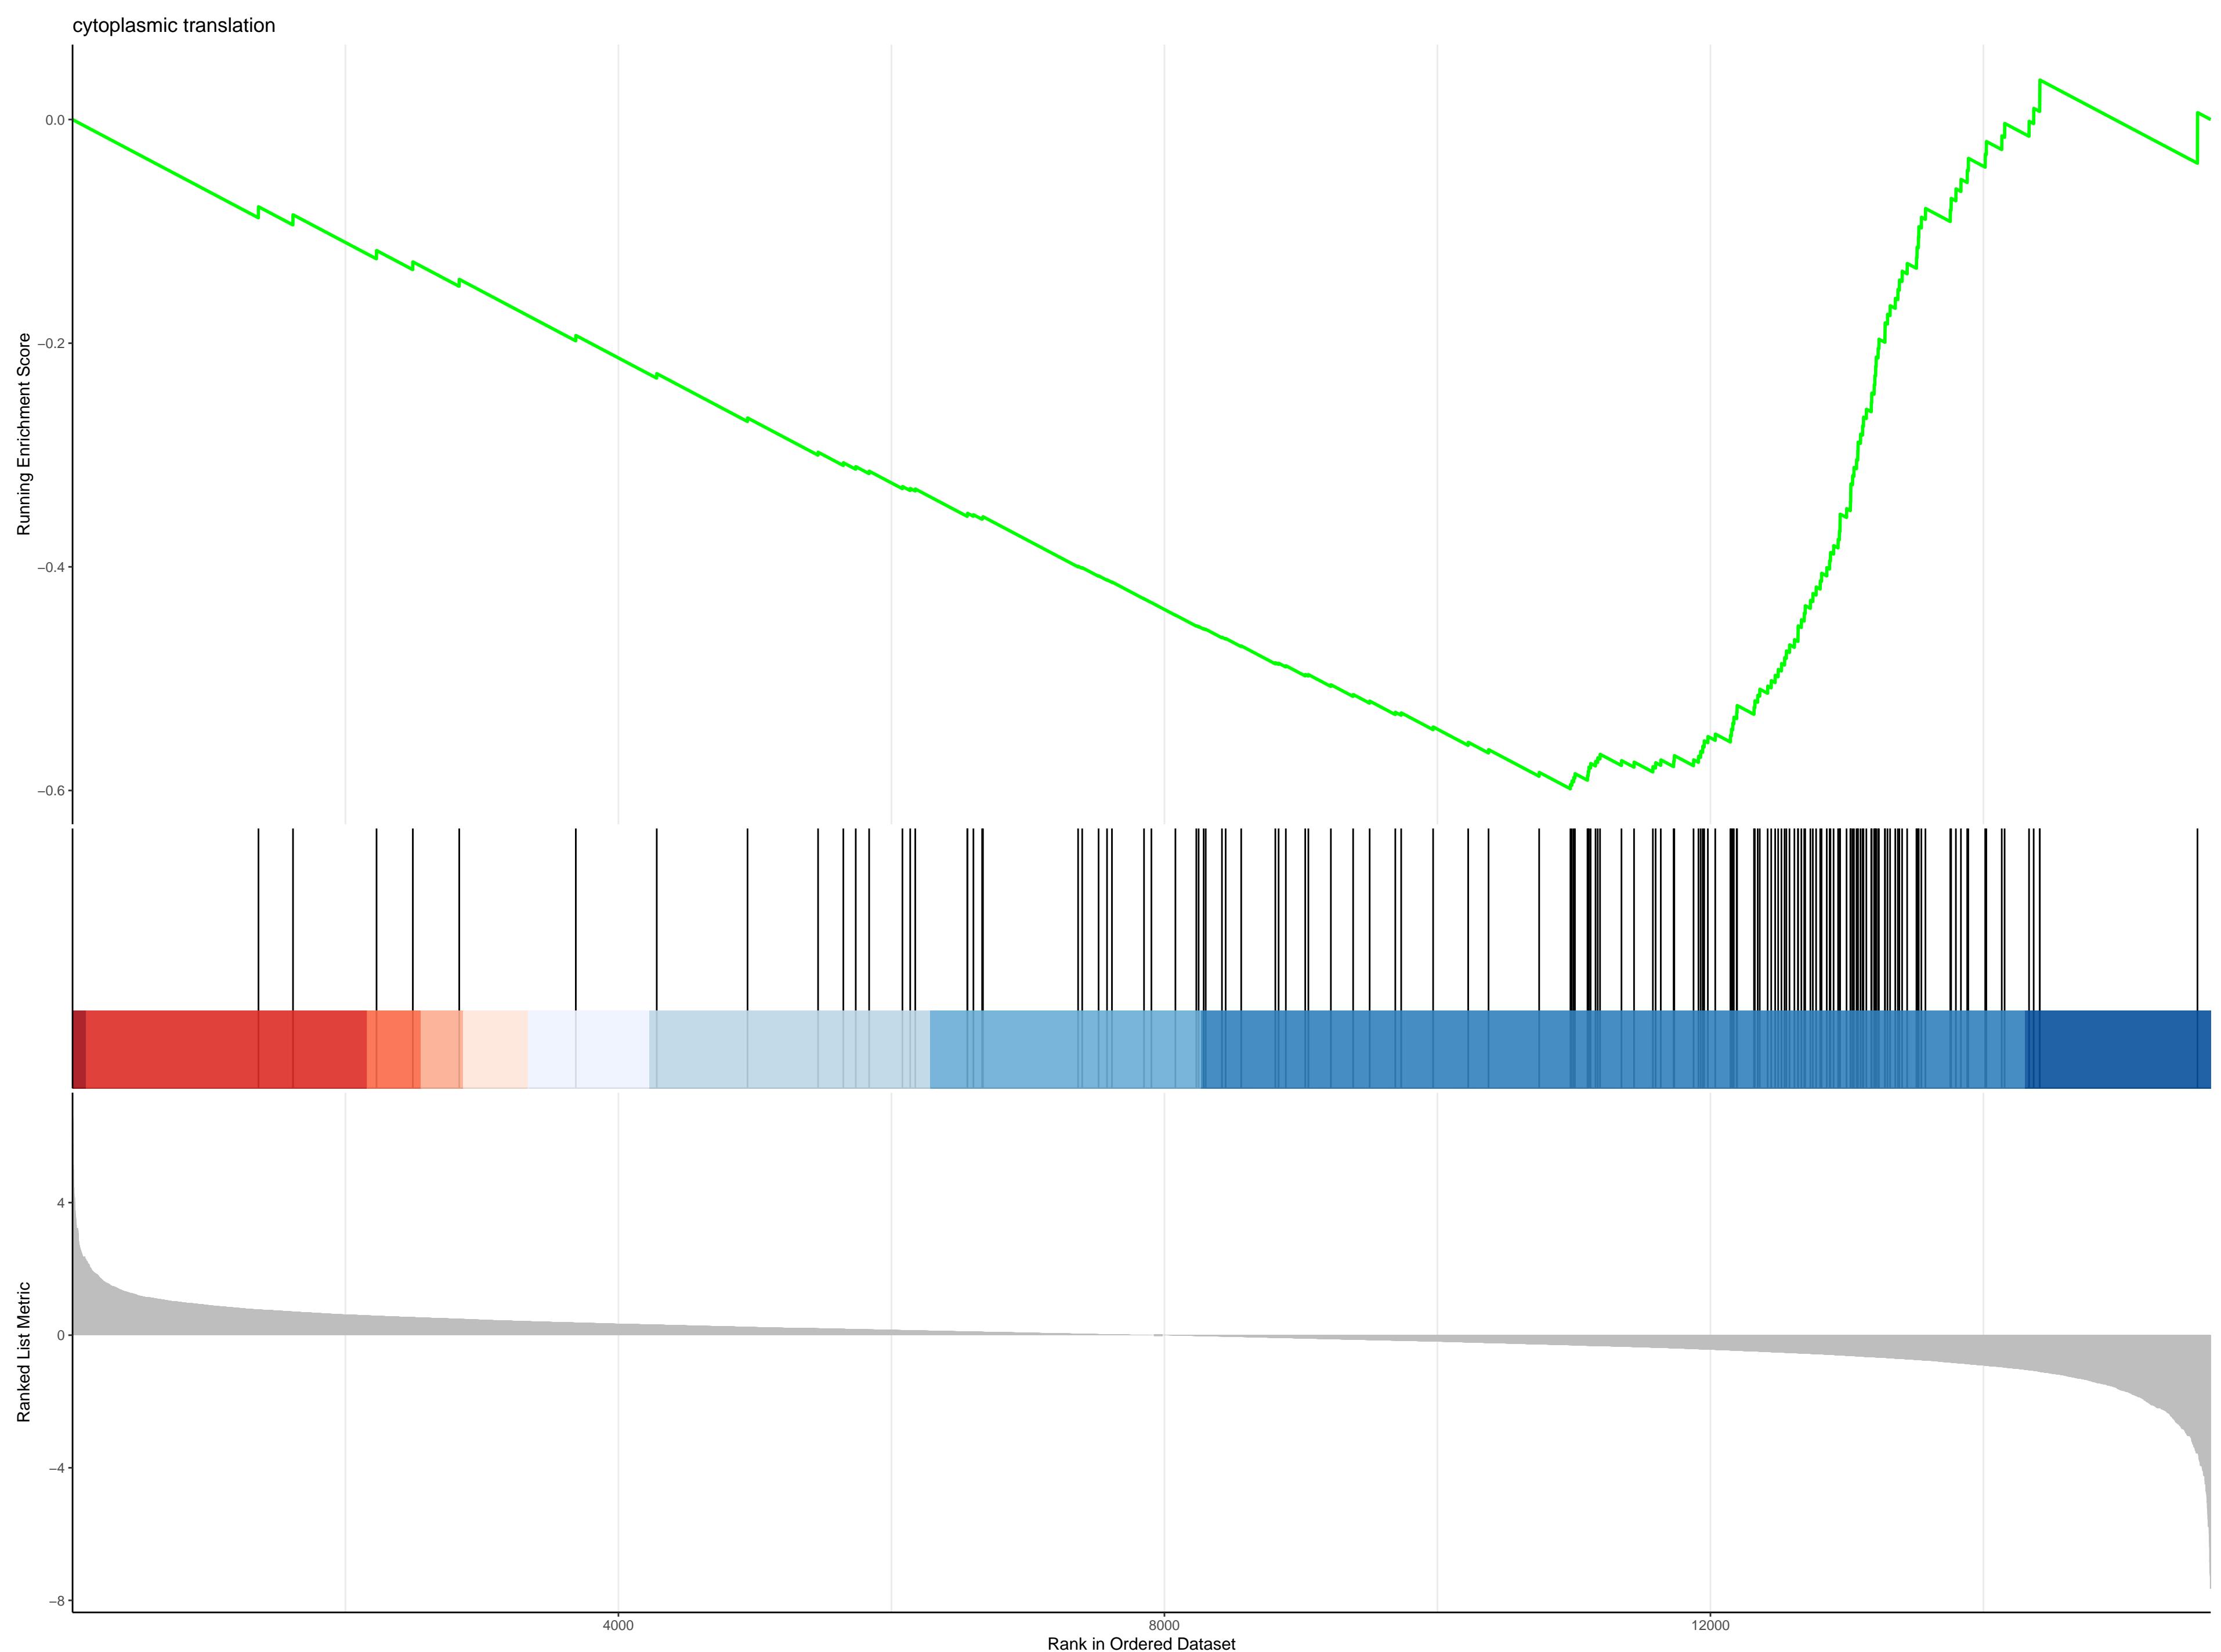

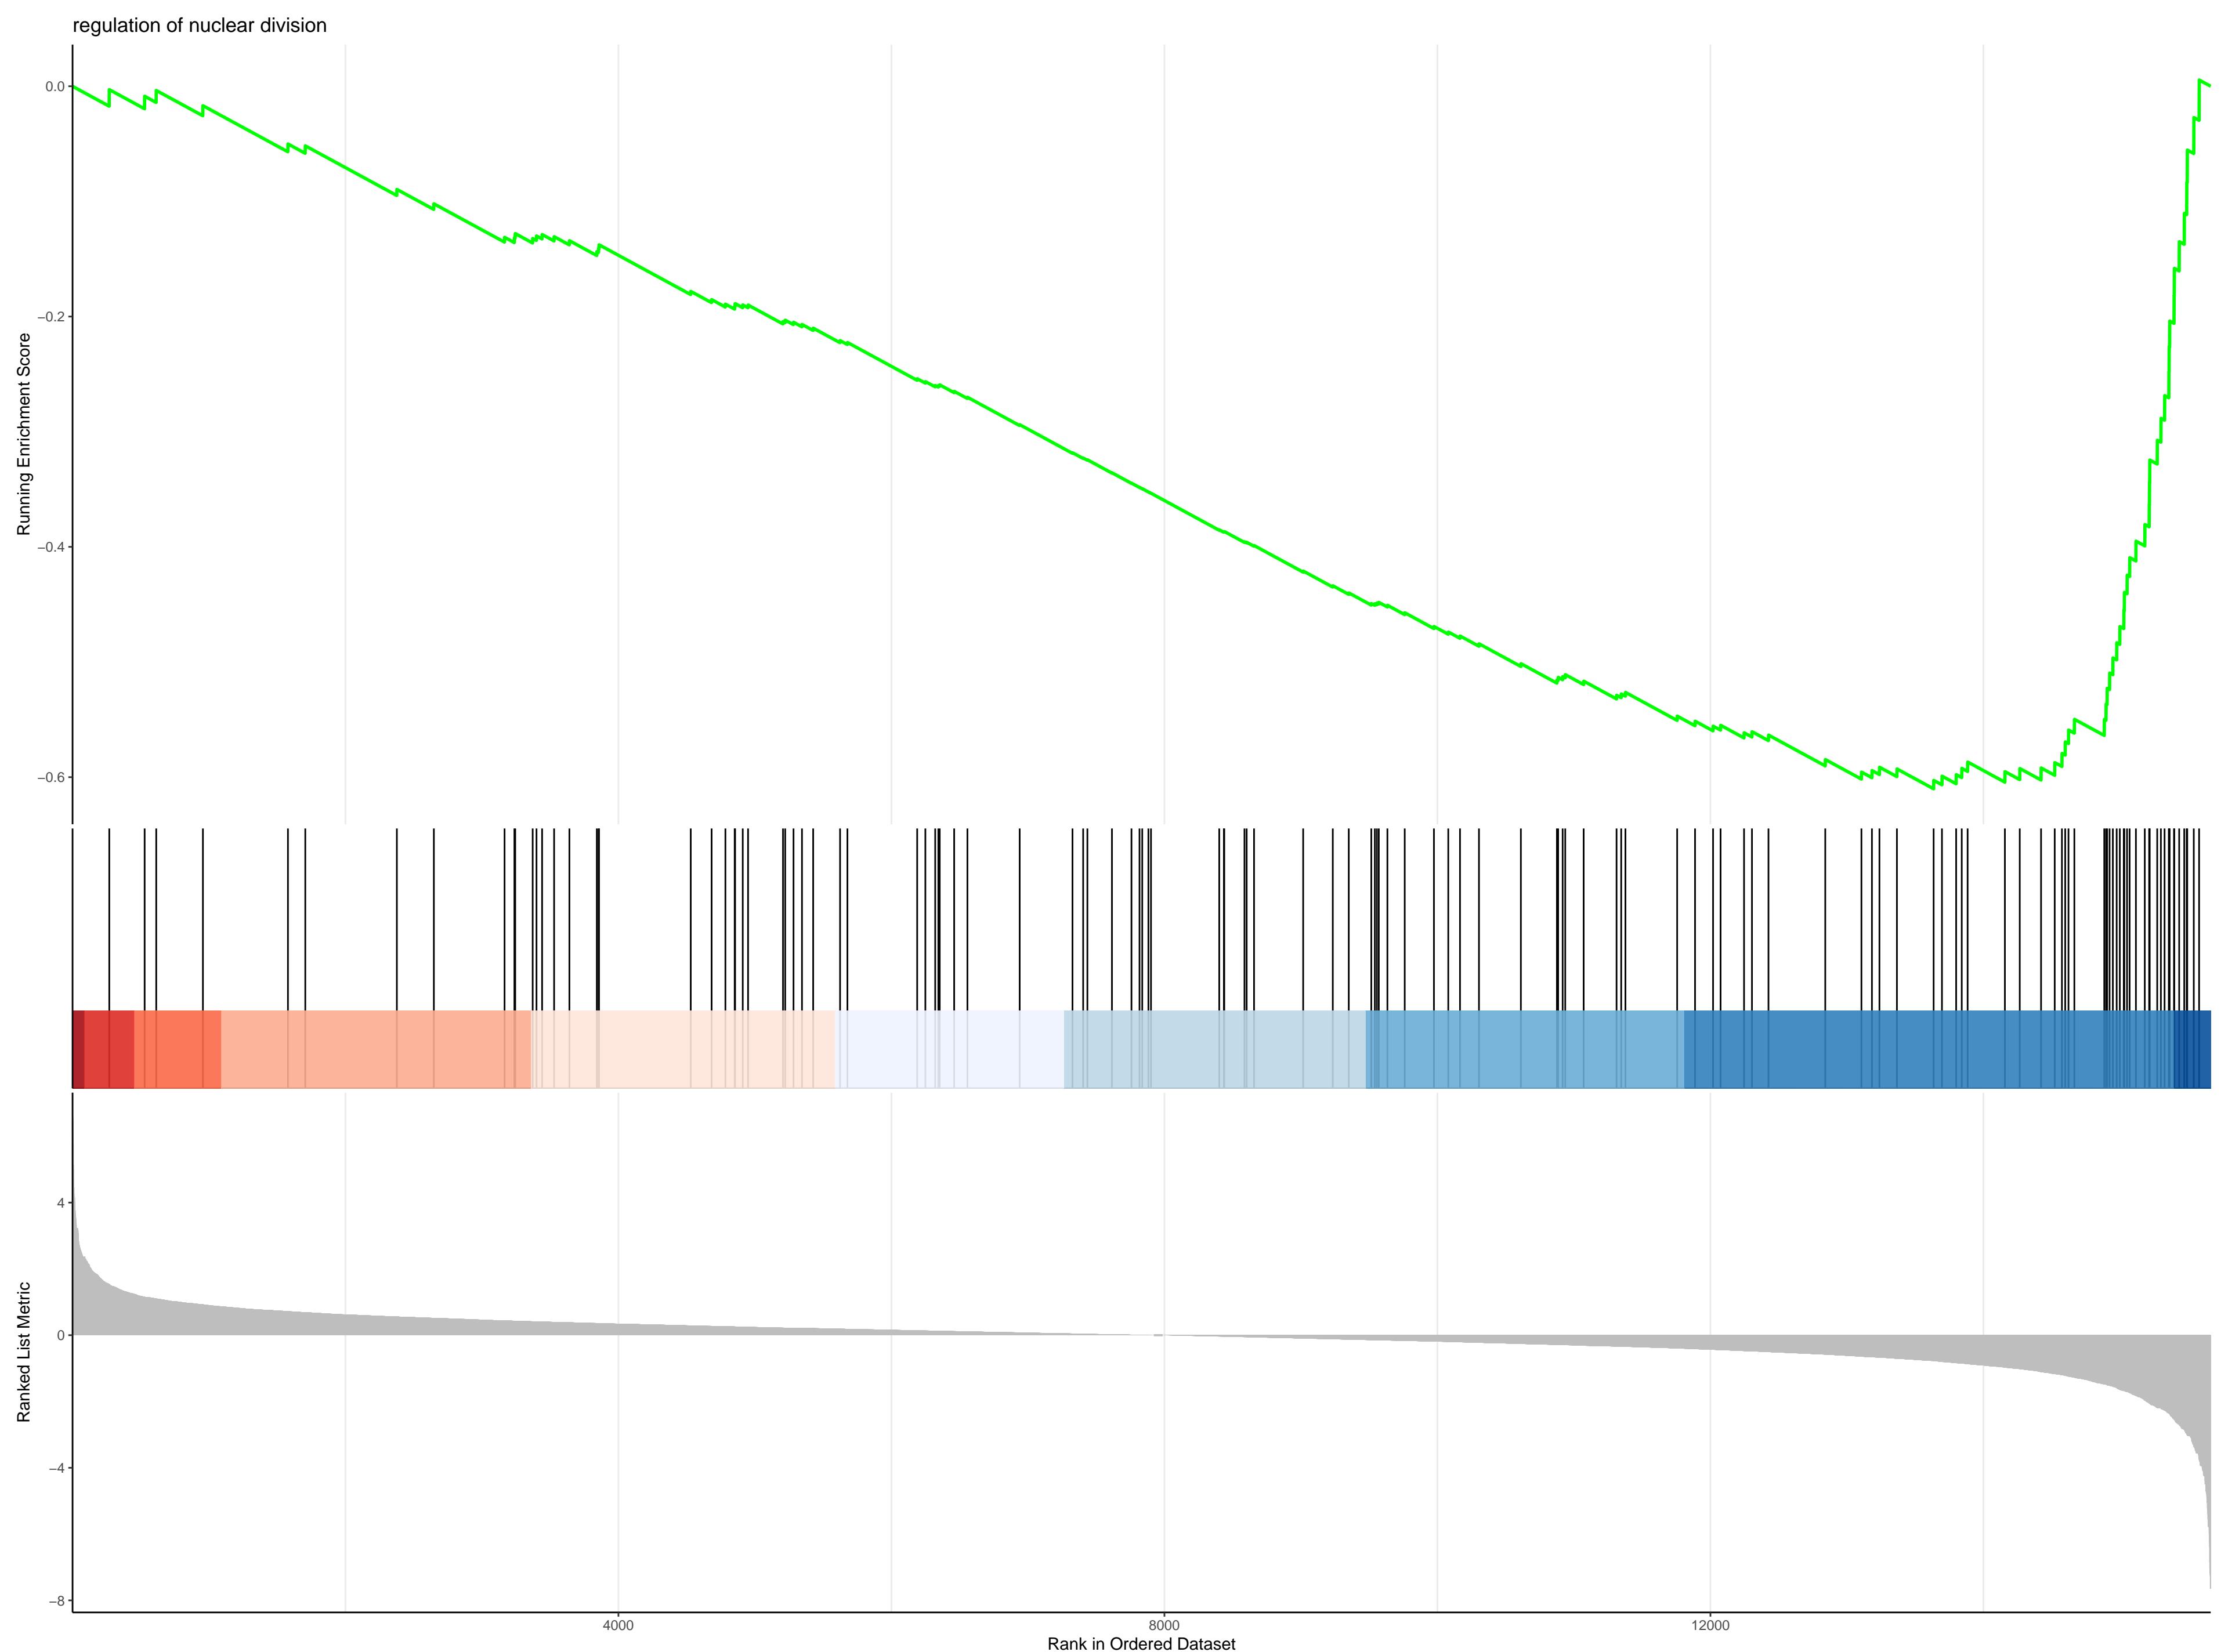

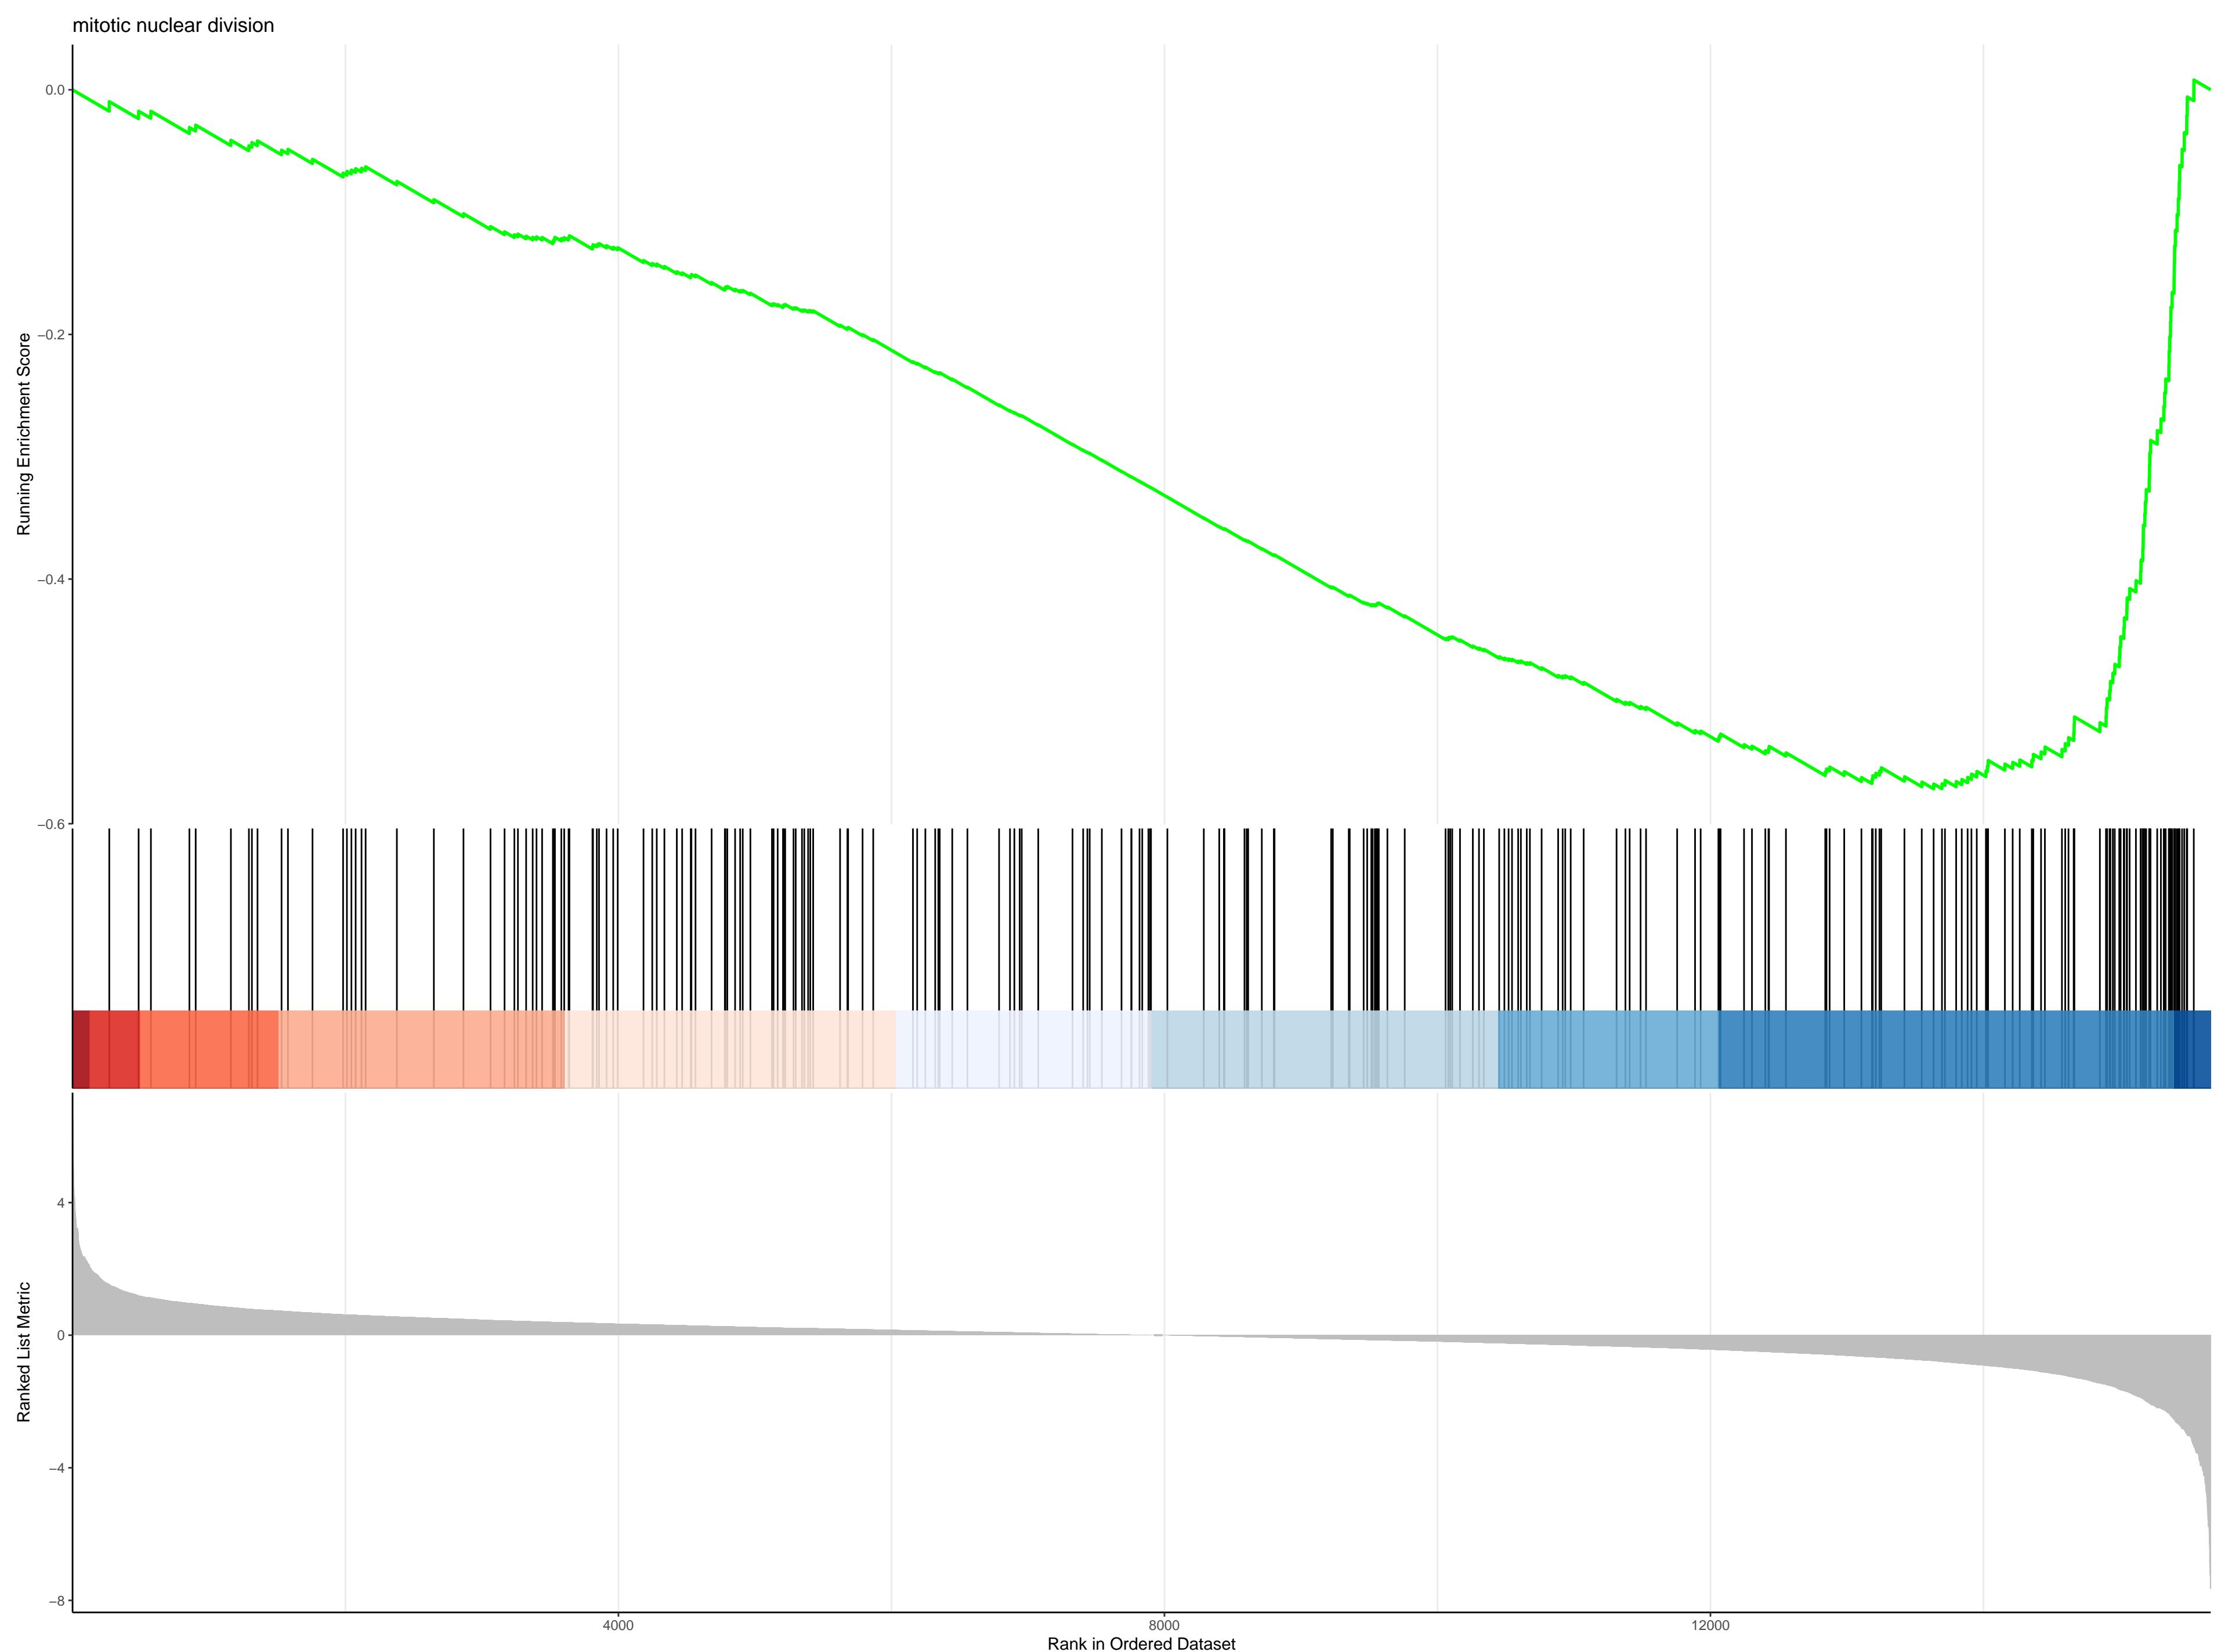

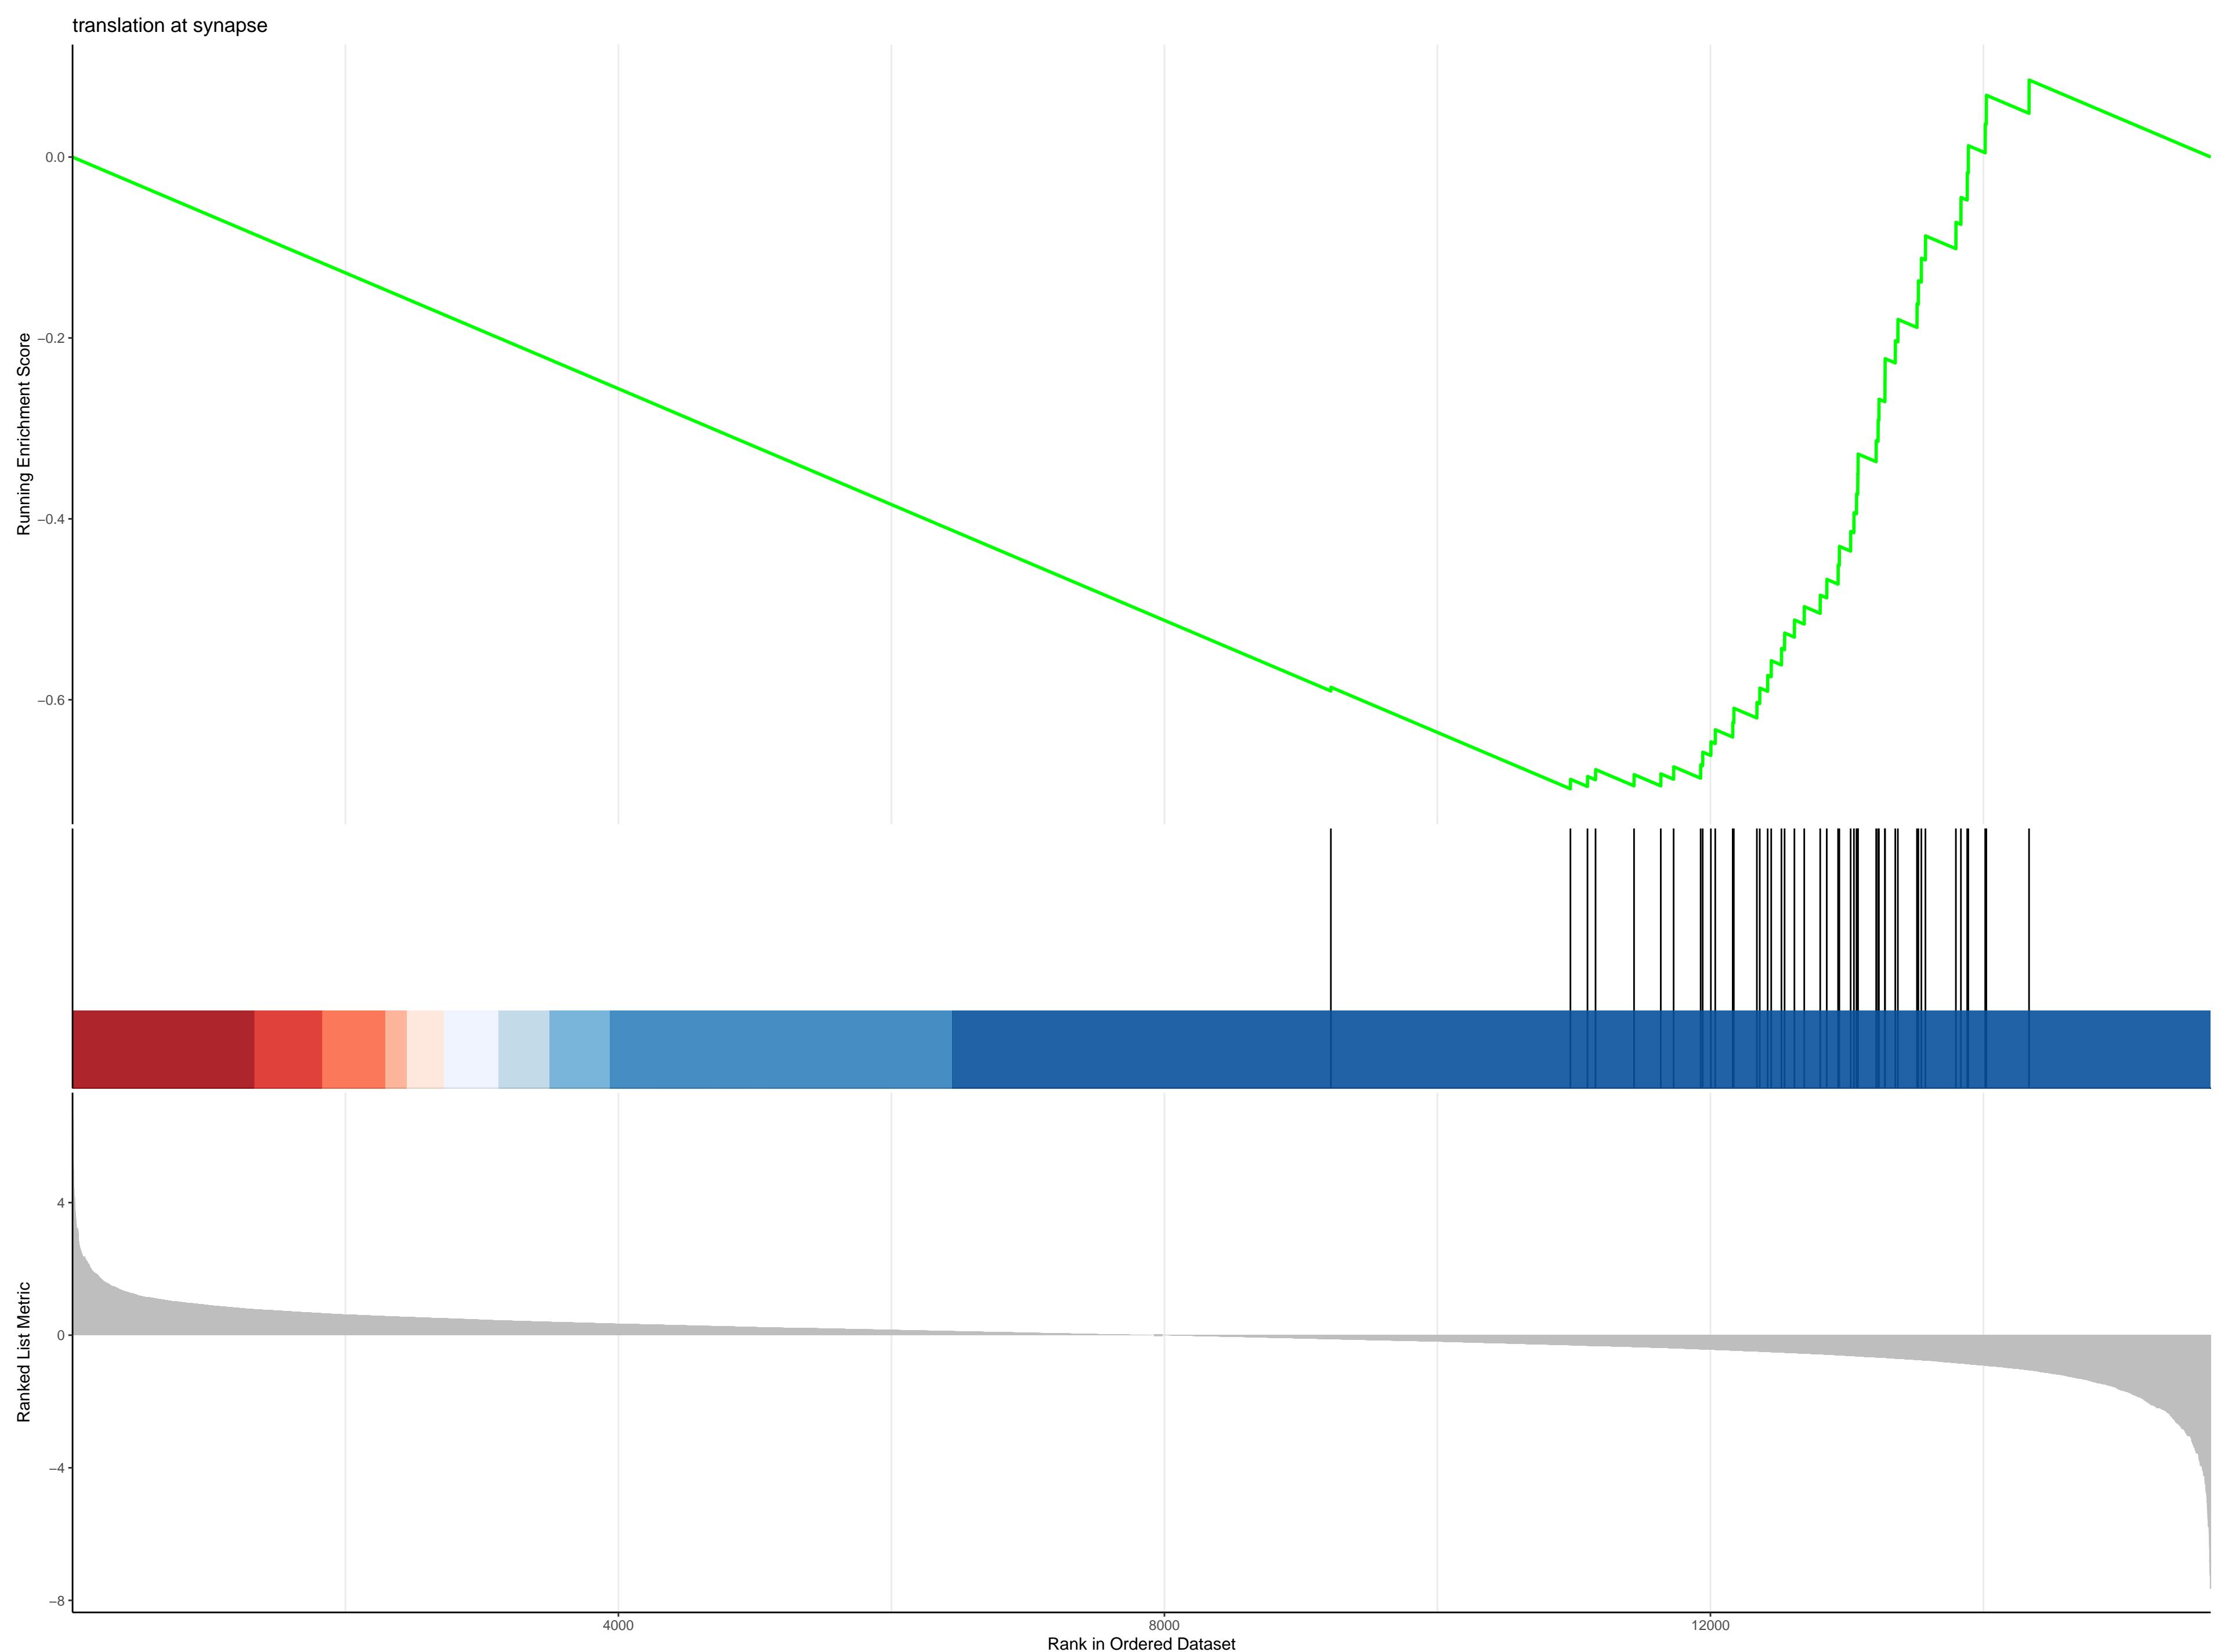

negative regulation of chromosome organization

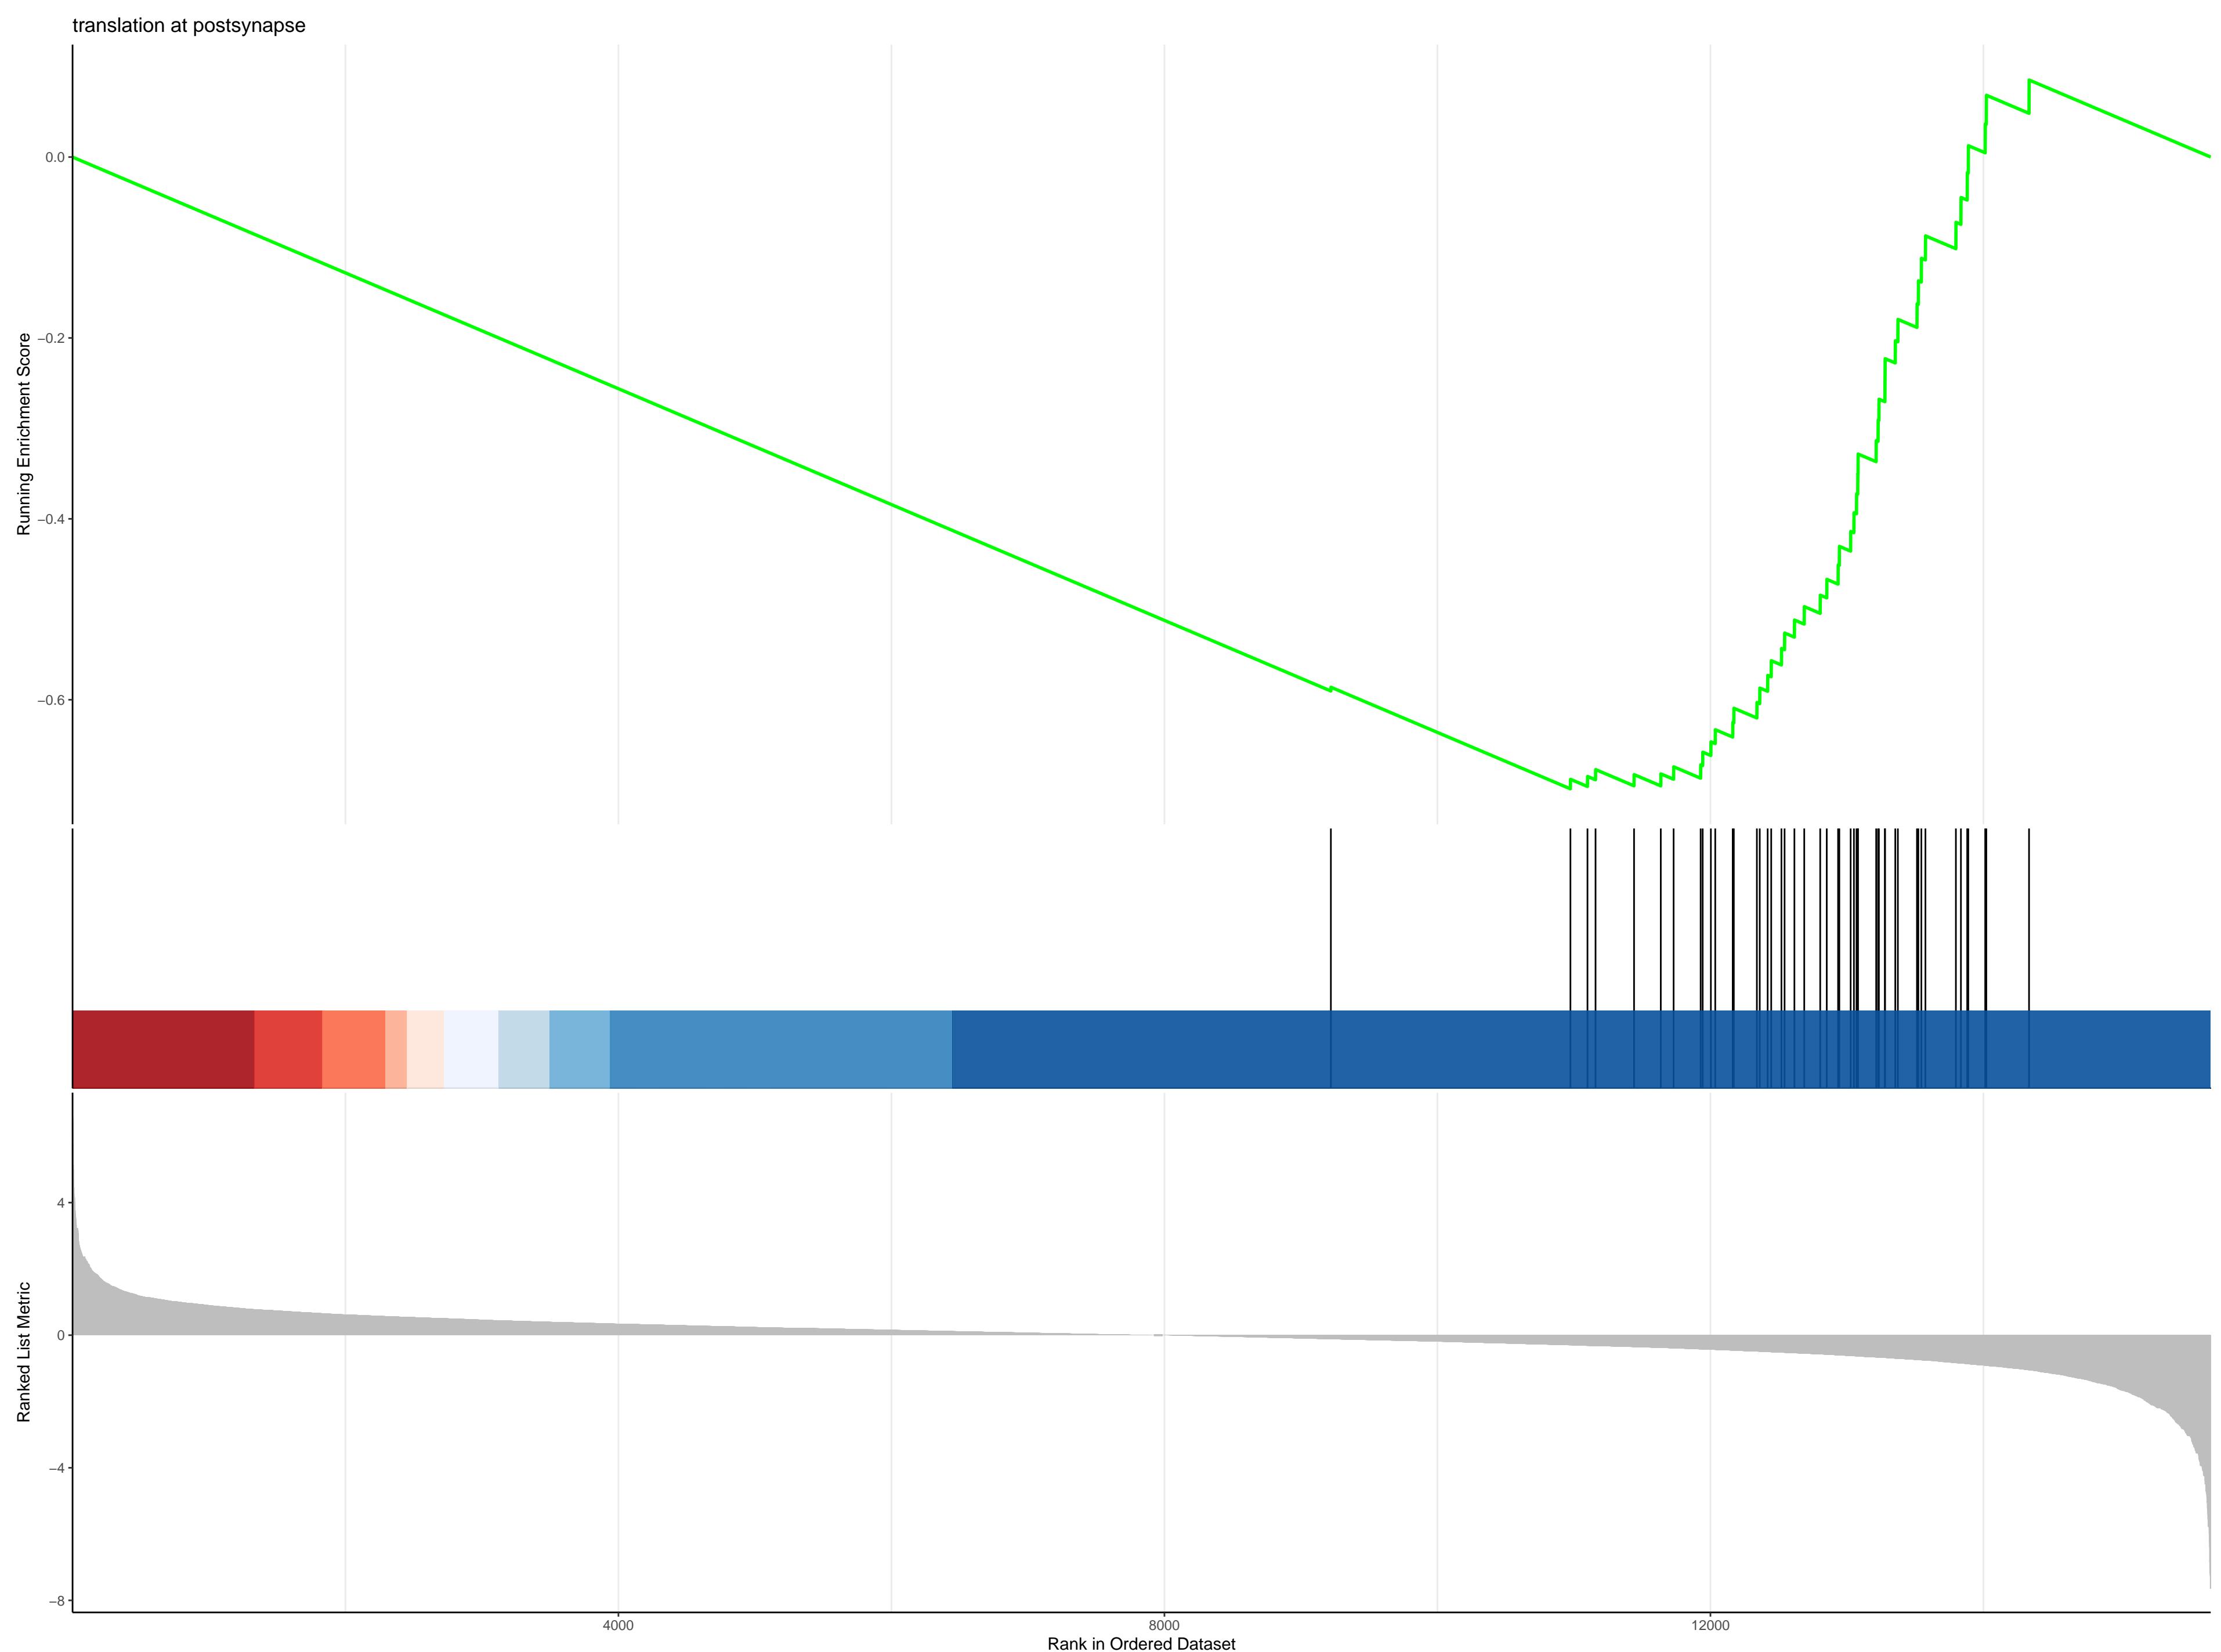

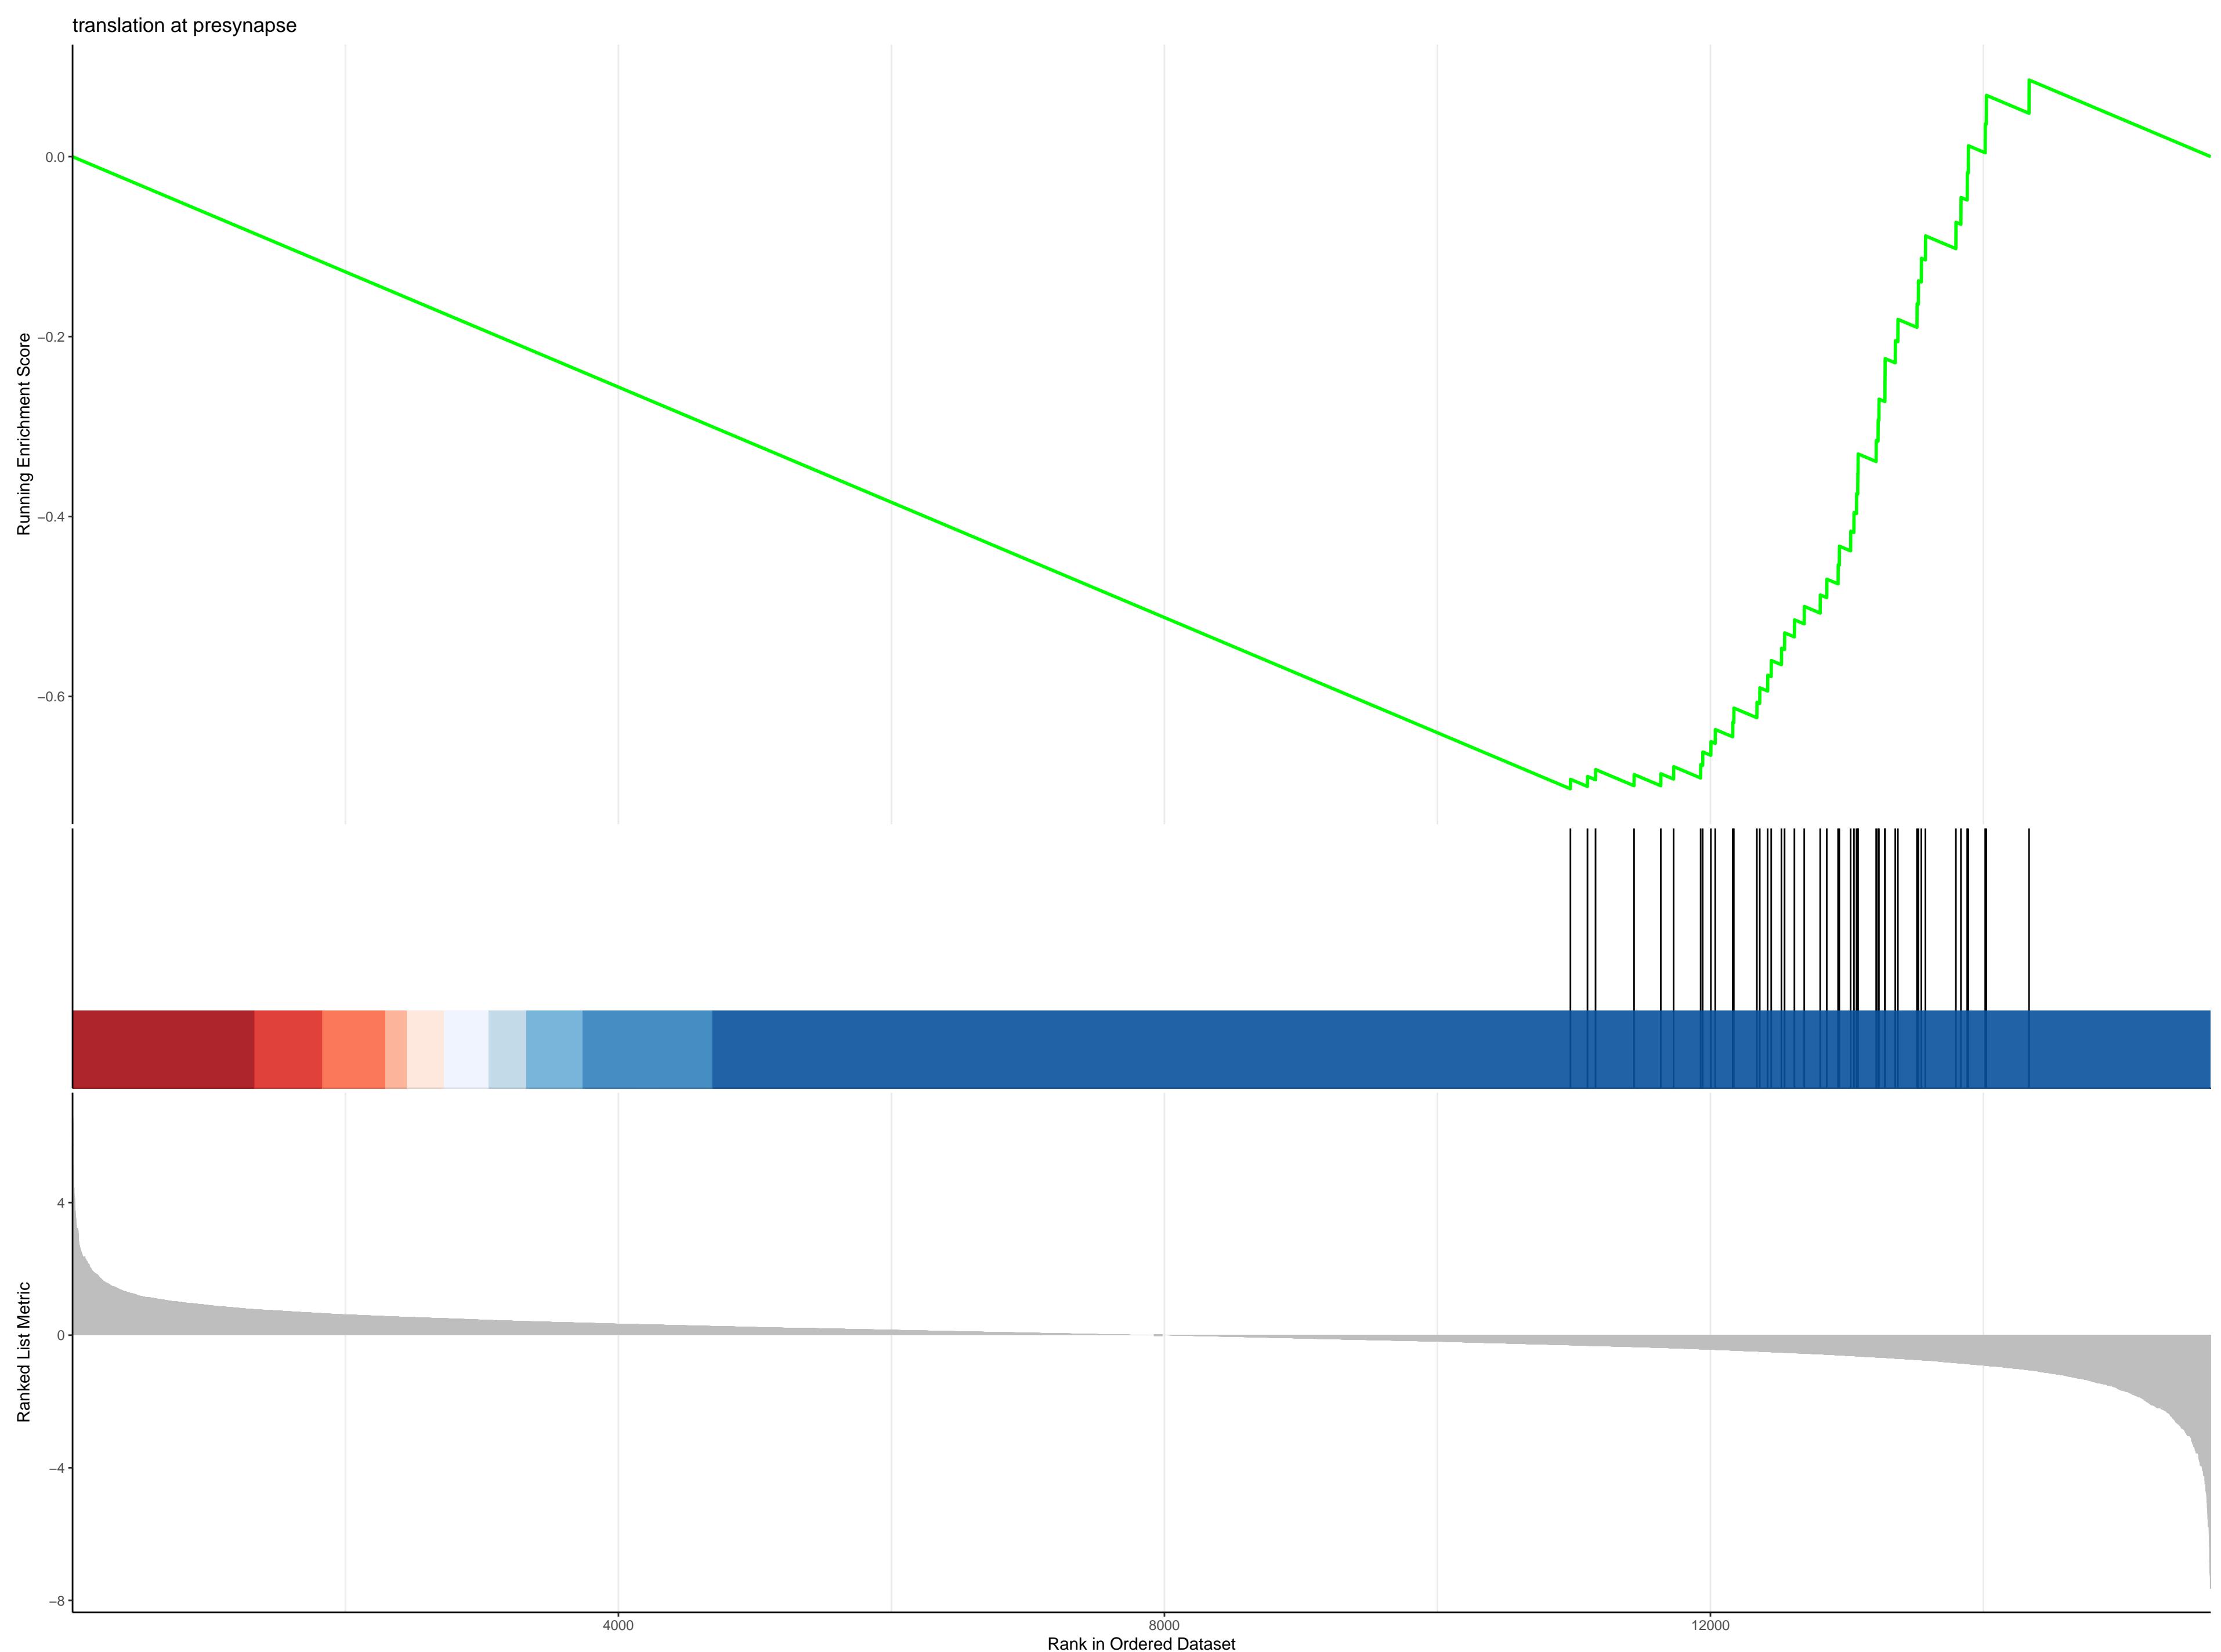

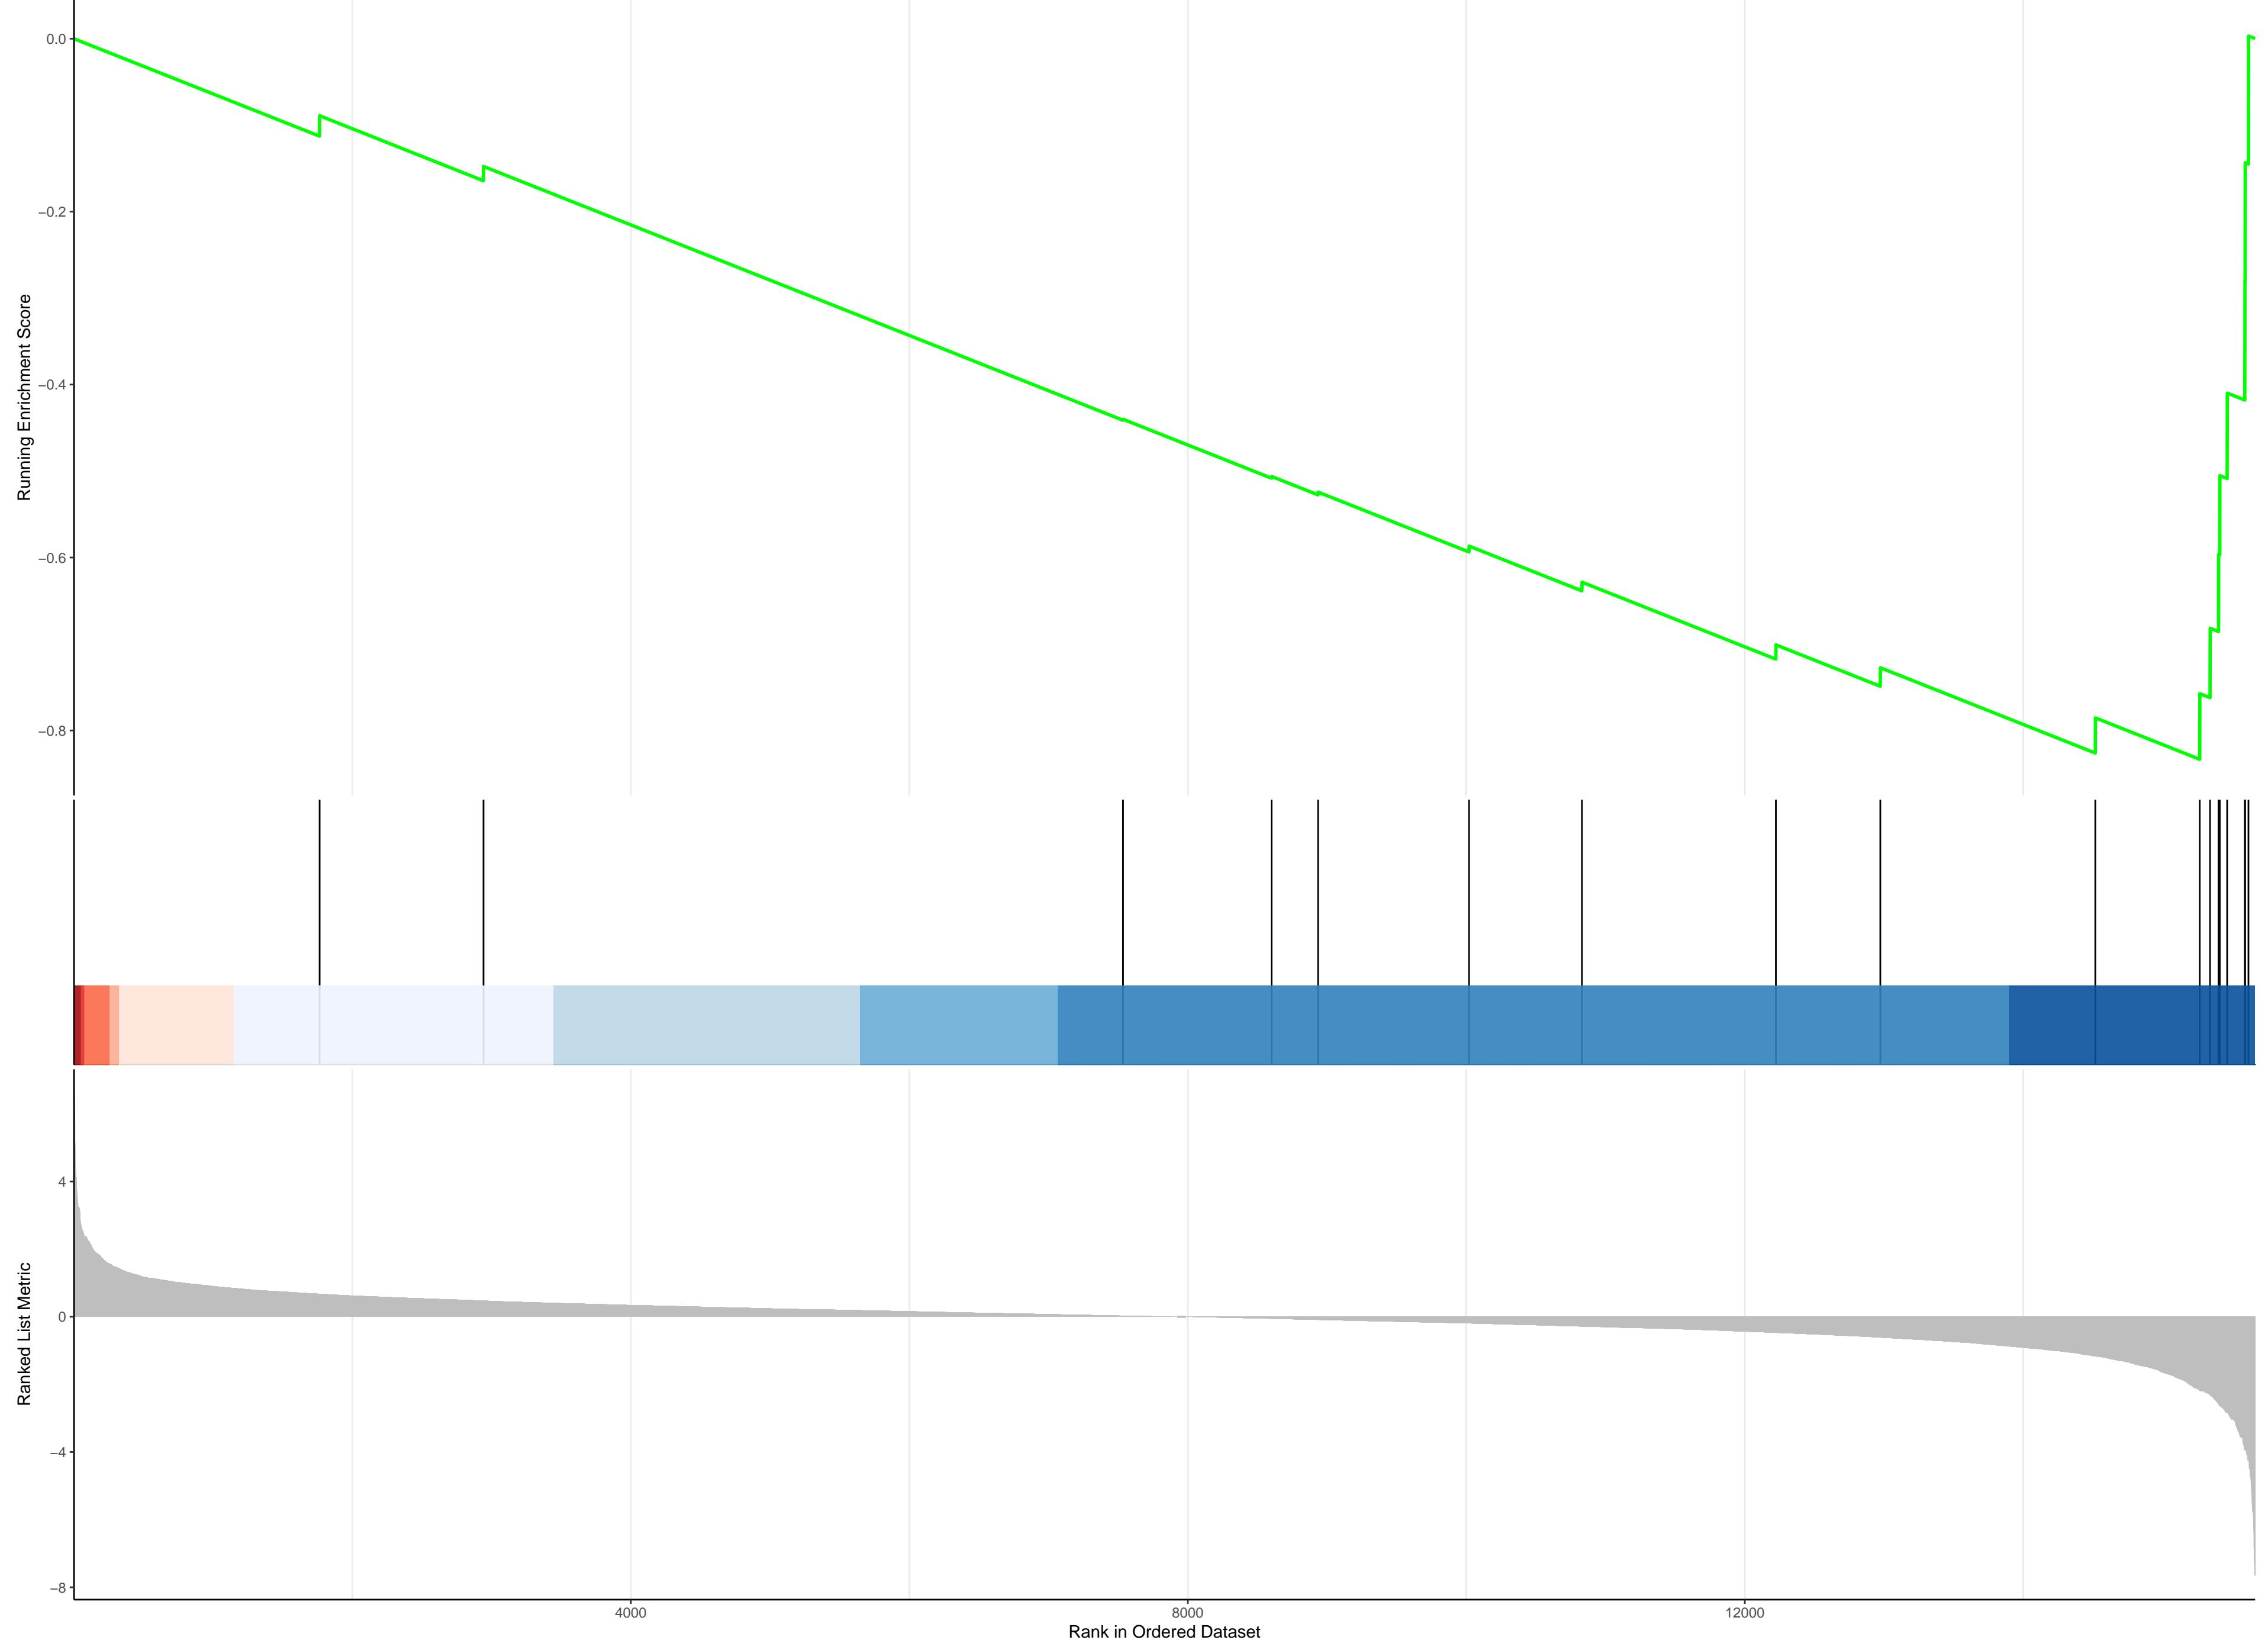

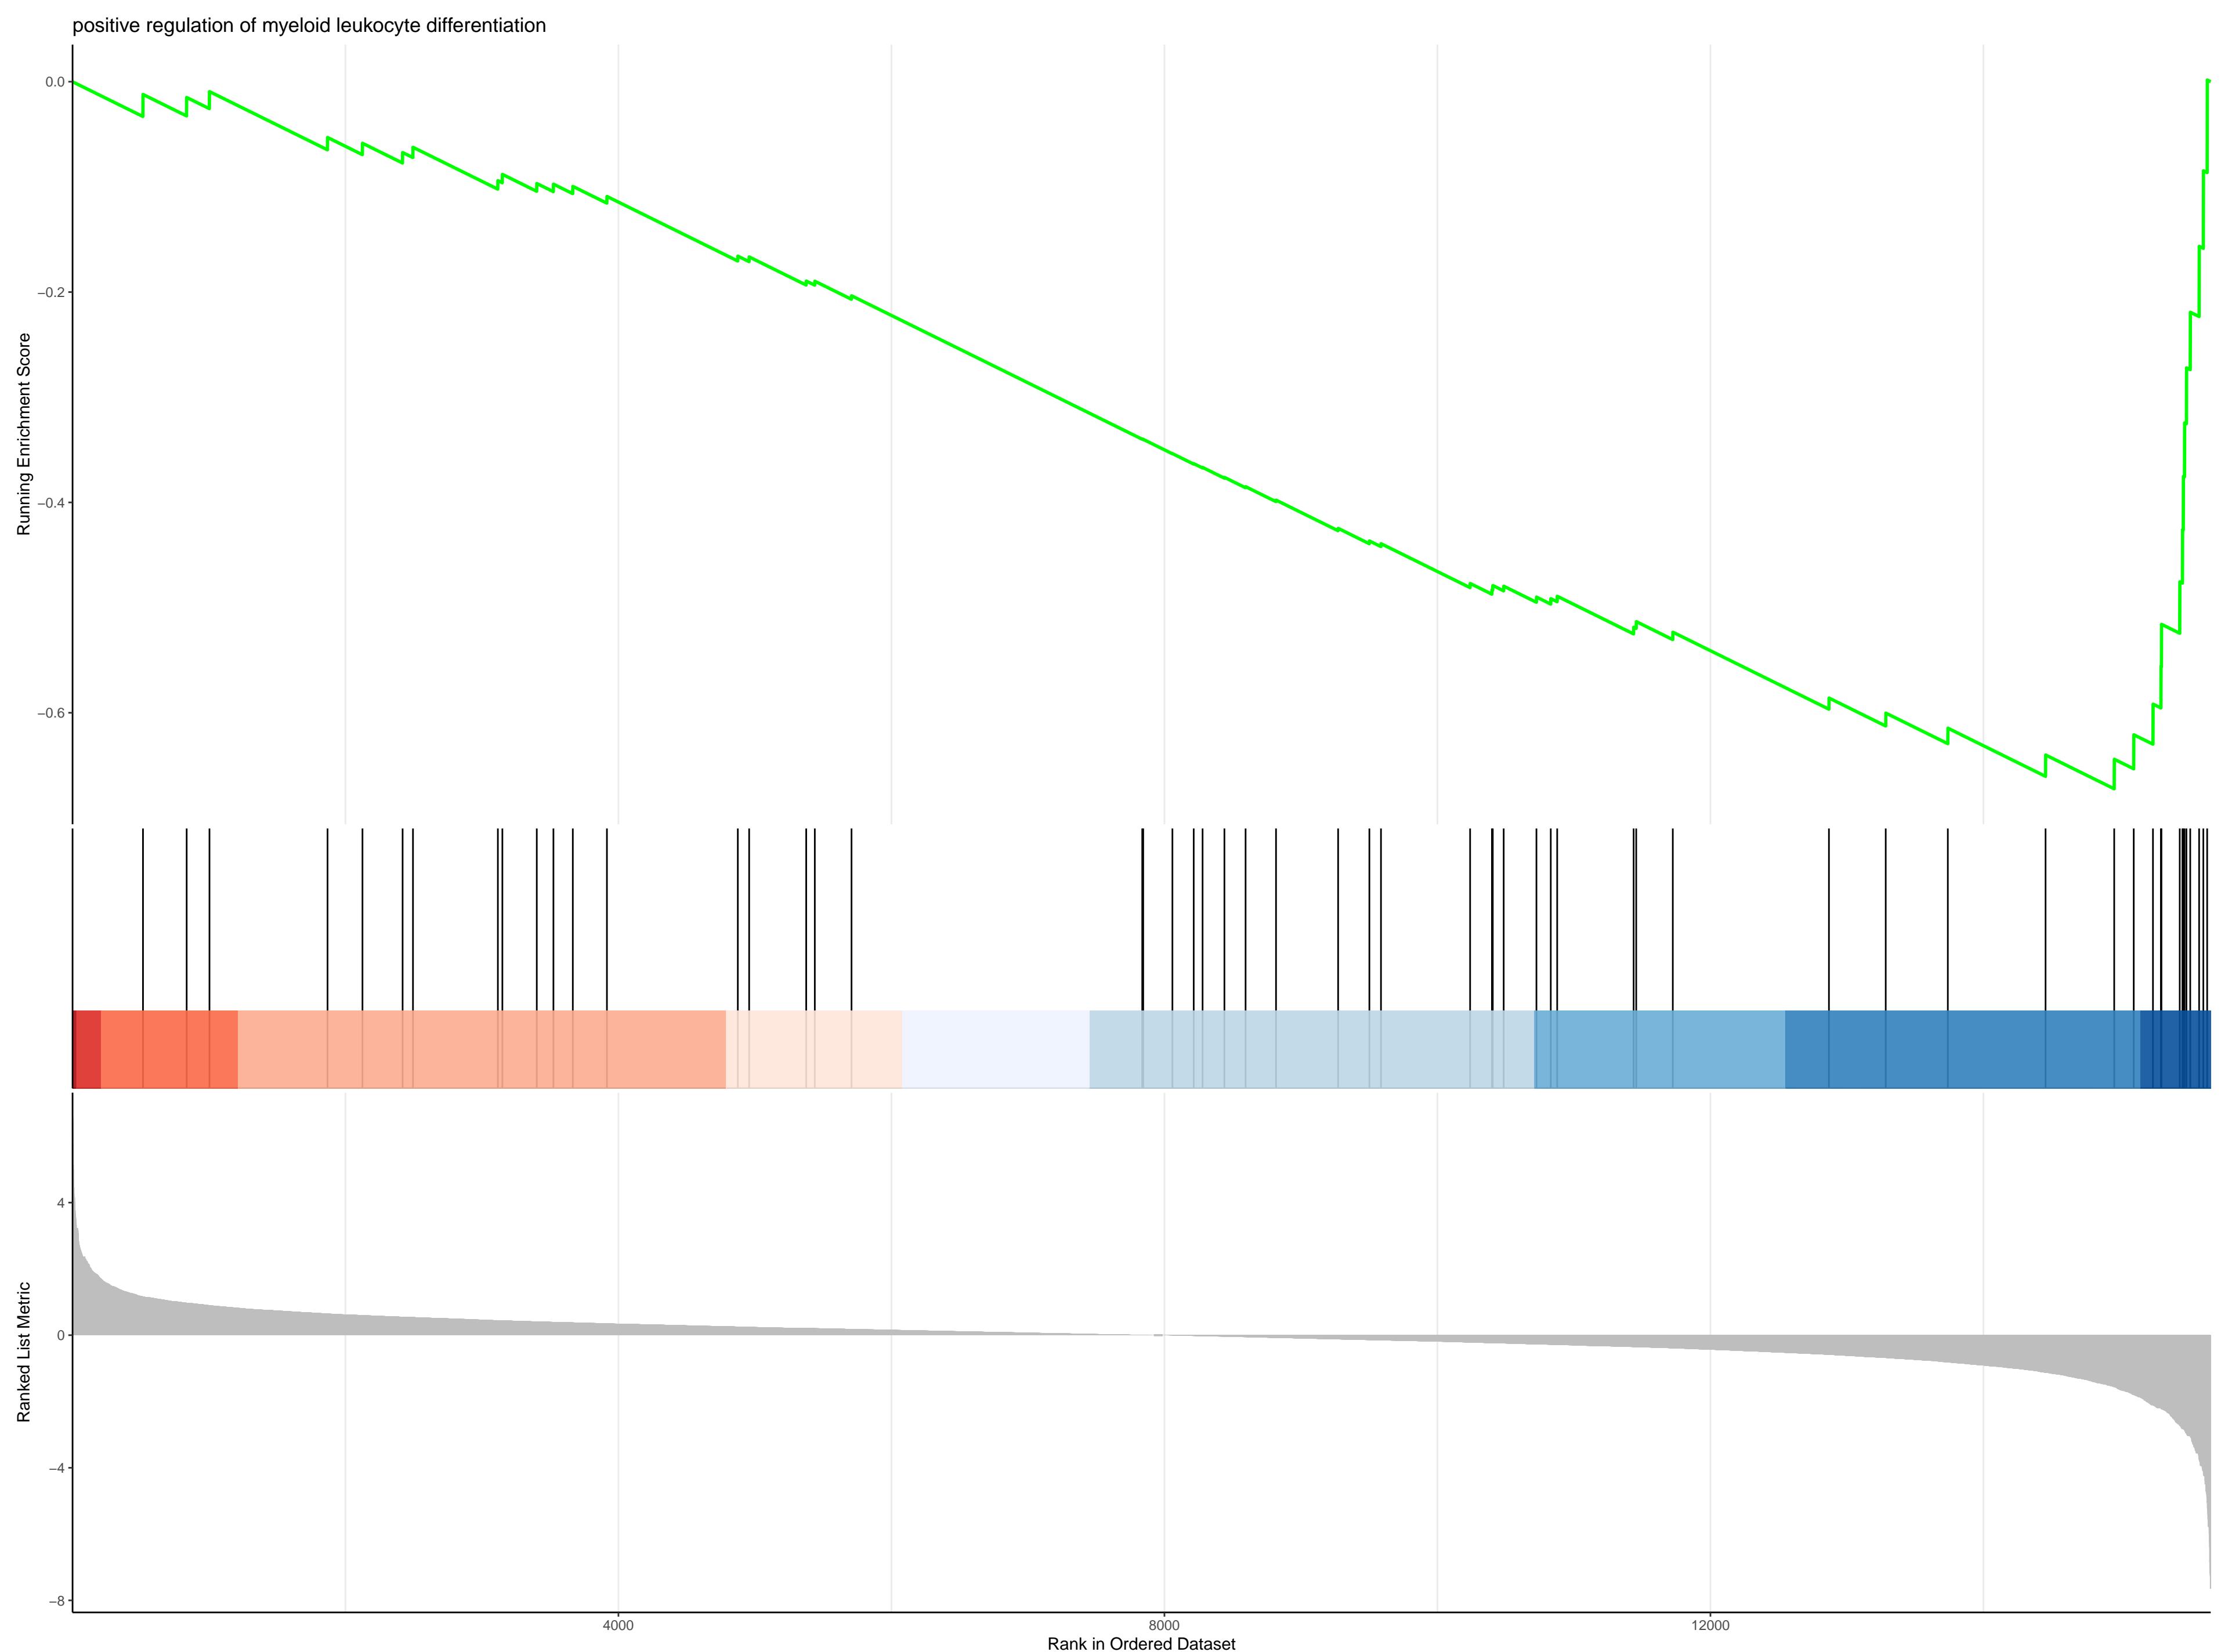

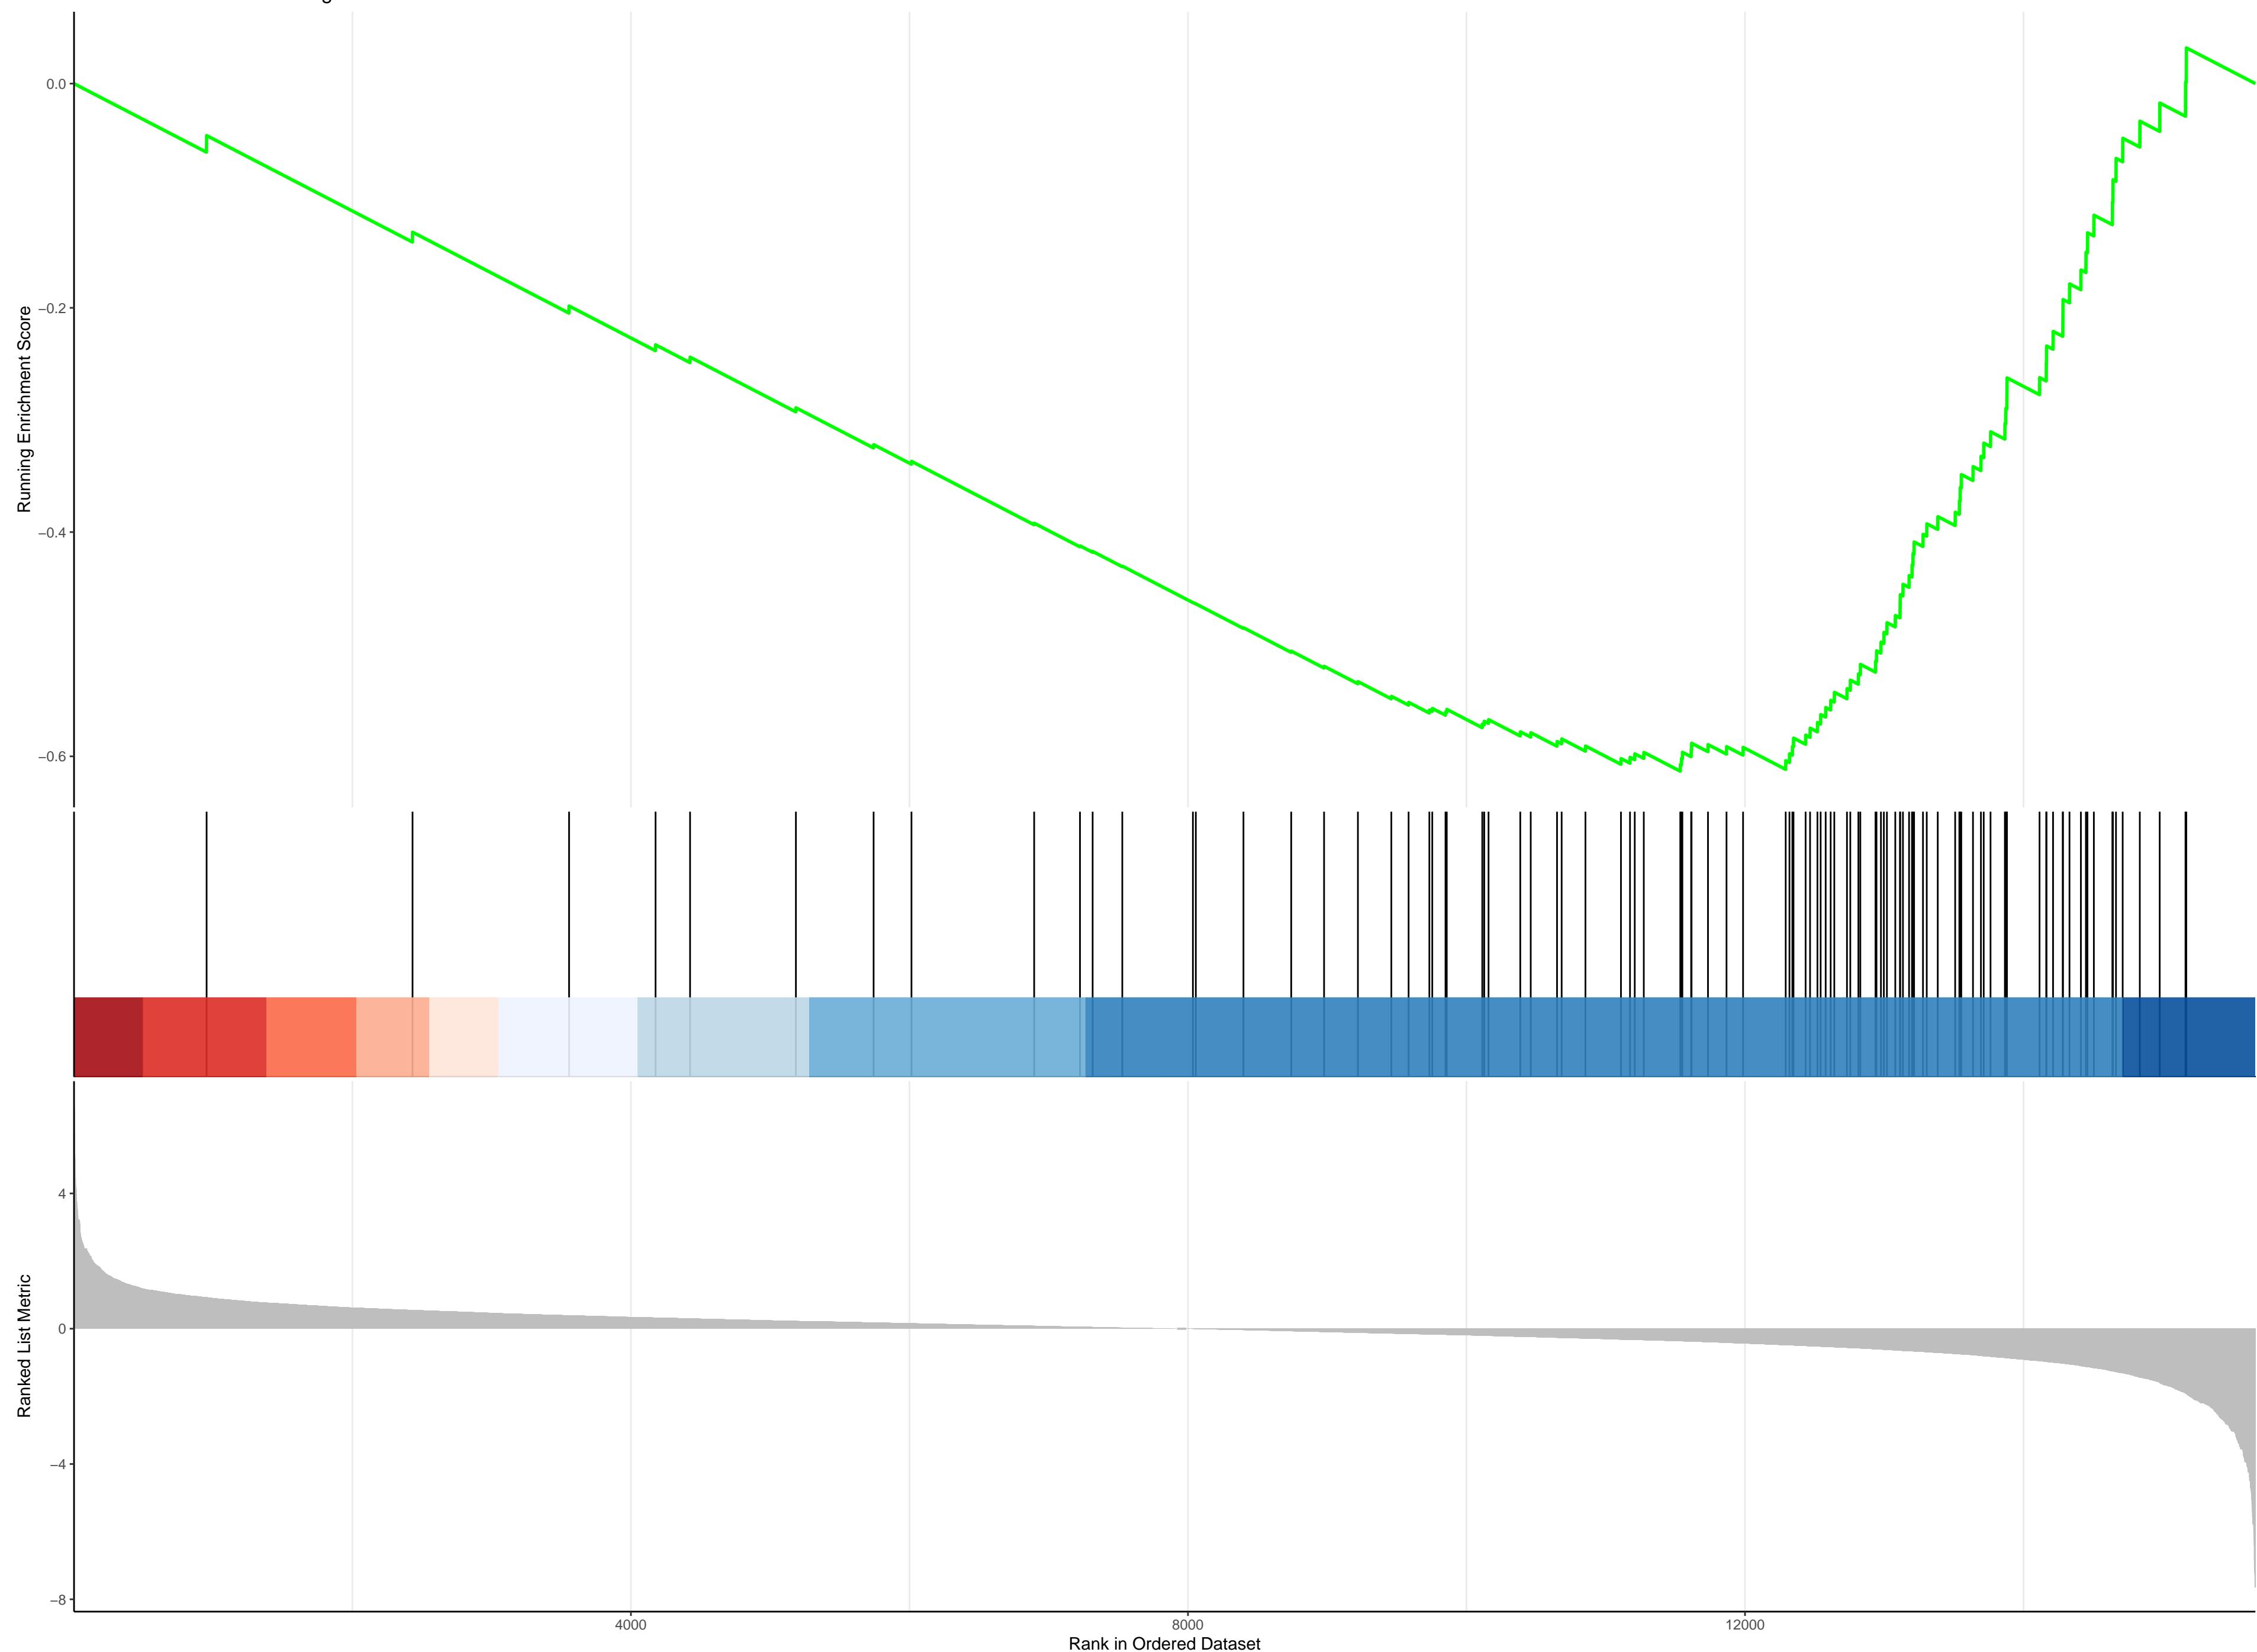

antigen processing and presentation of exogenous peptide antigen via MHC class II

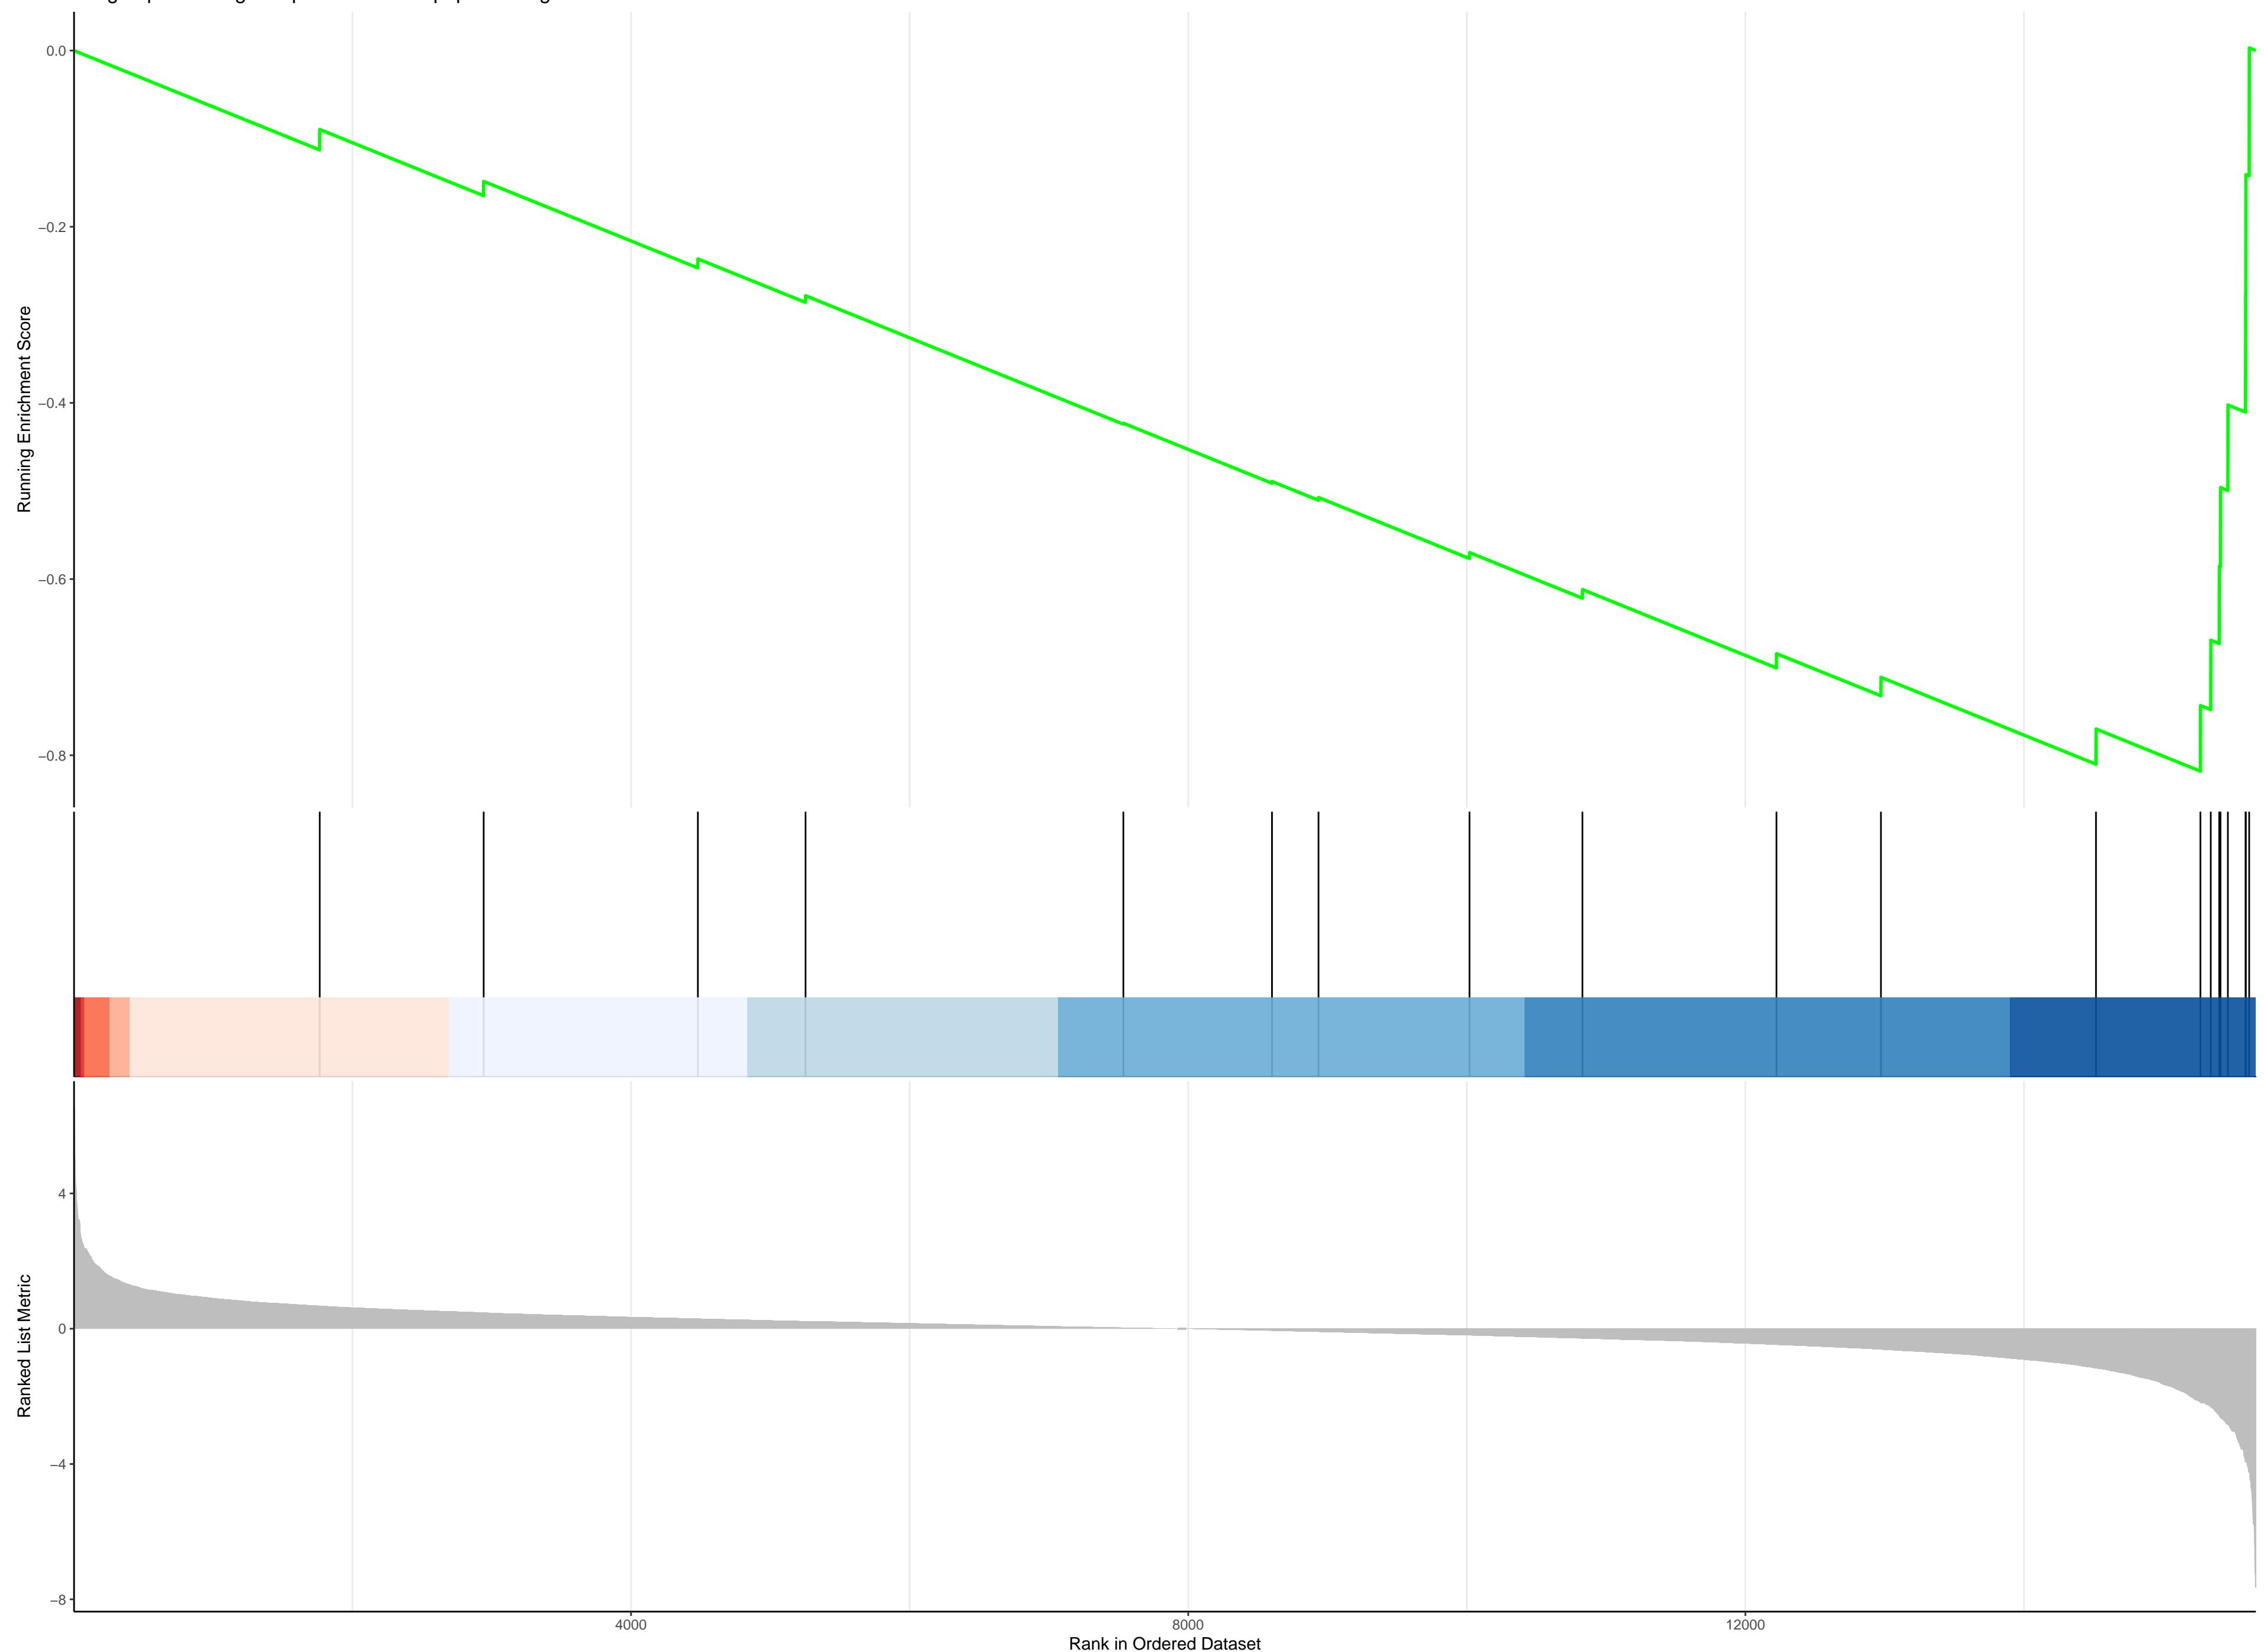

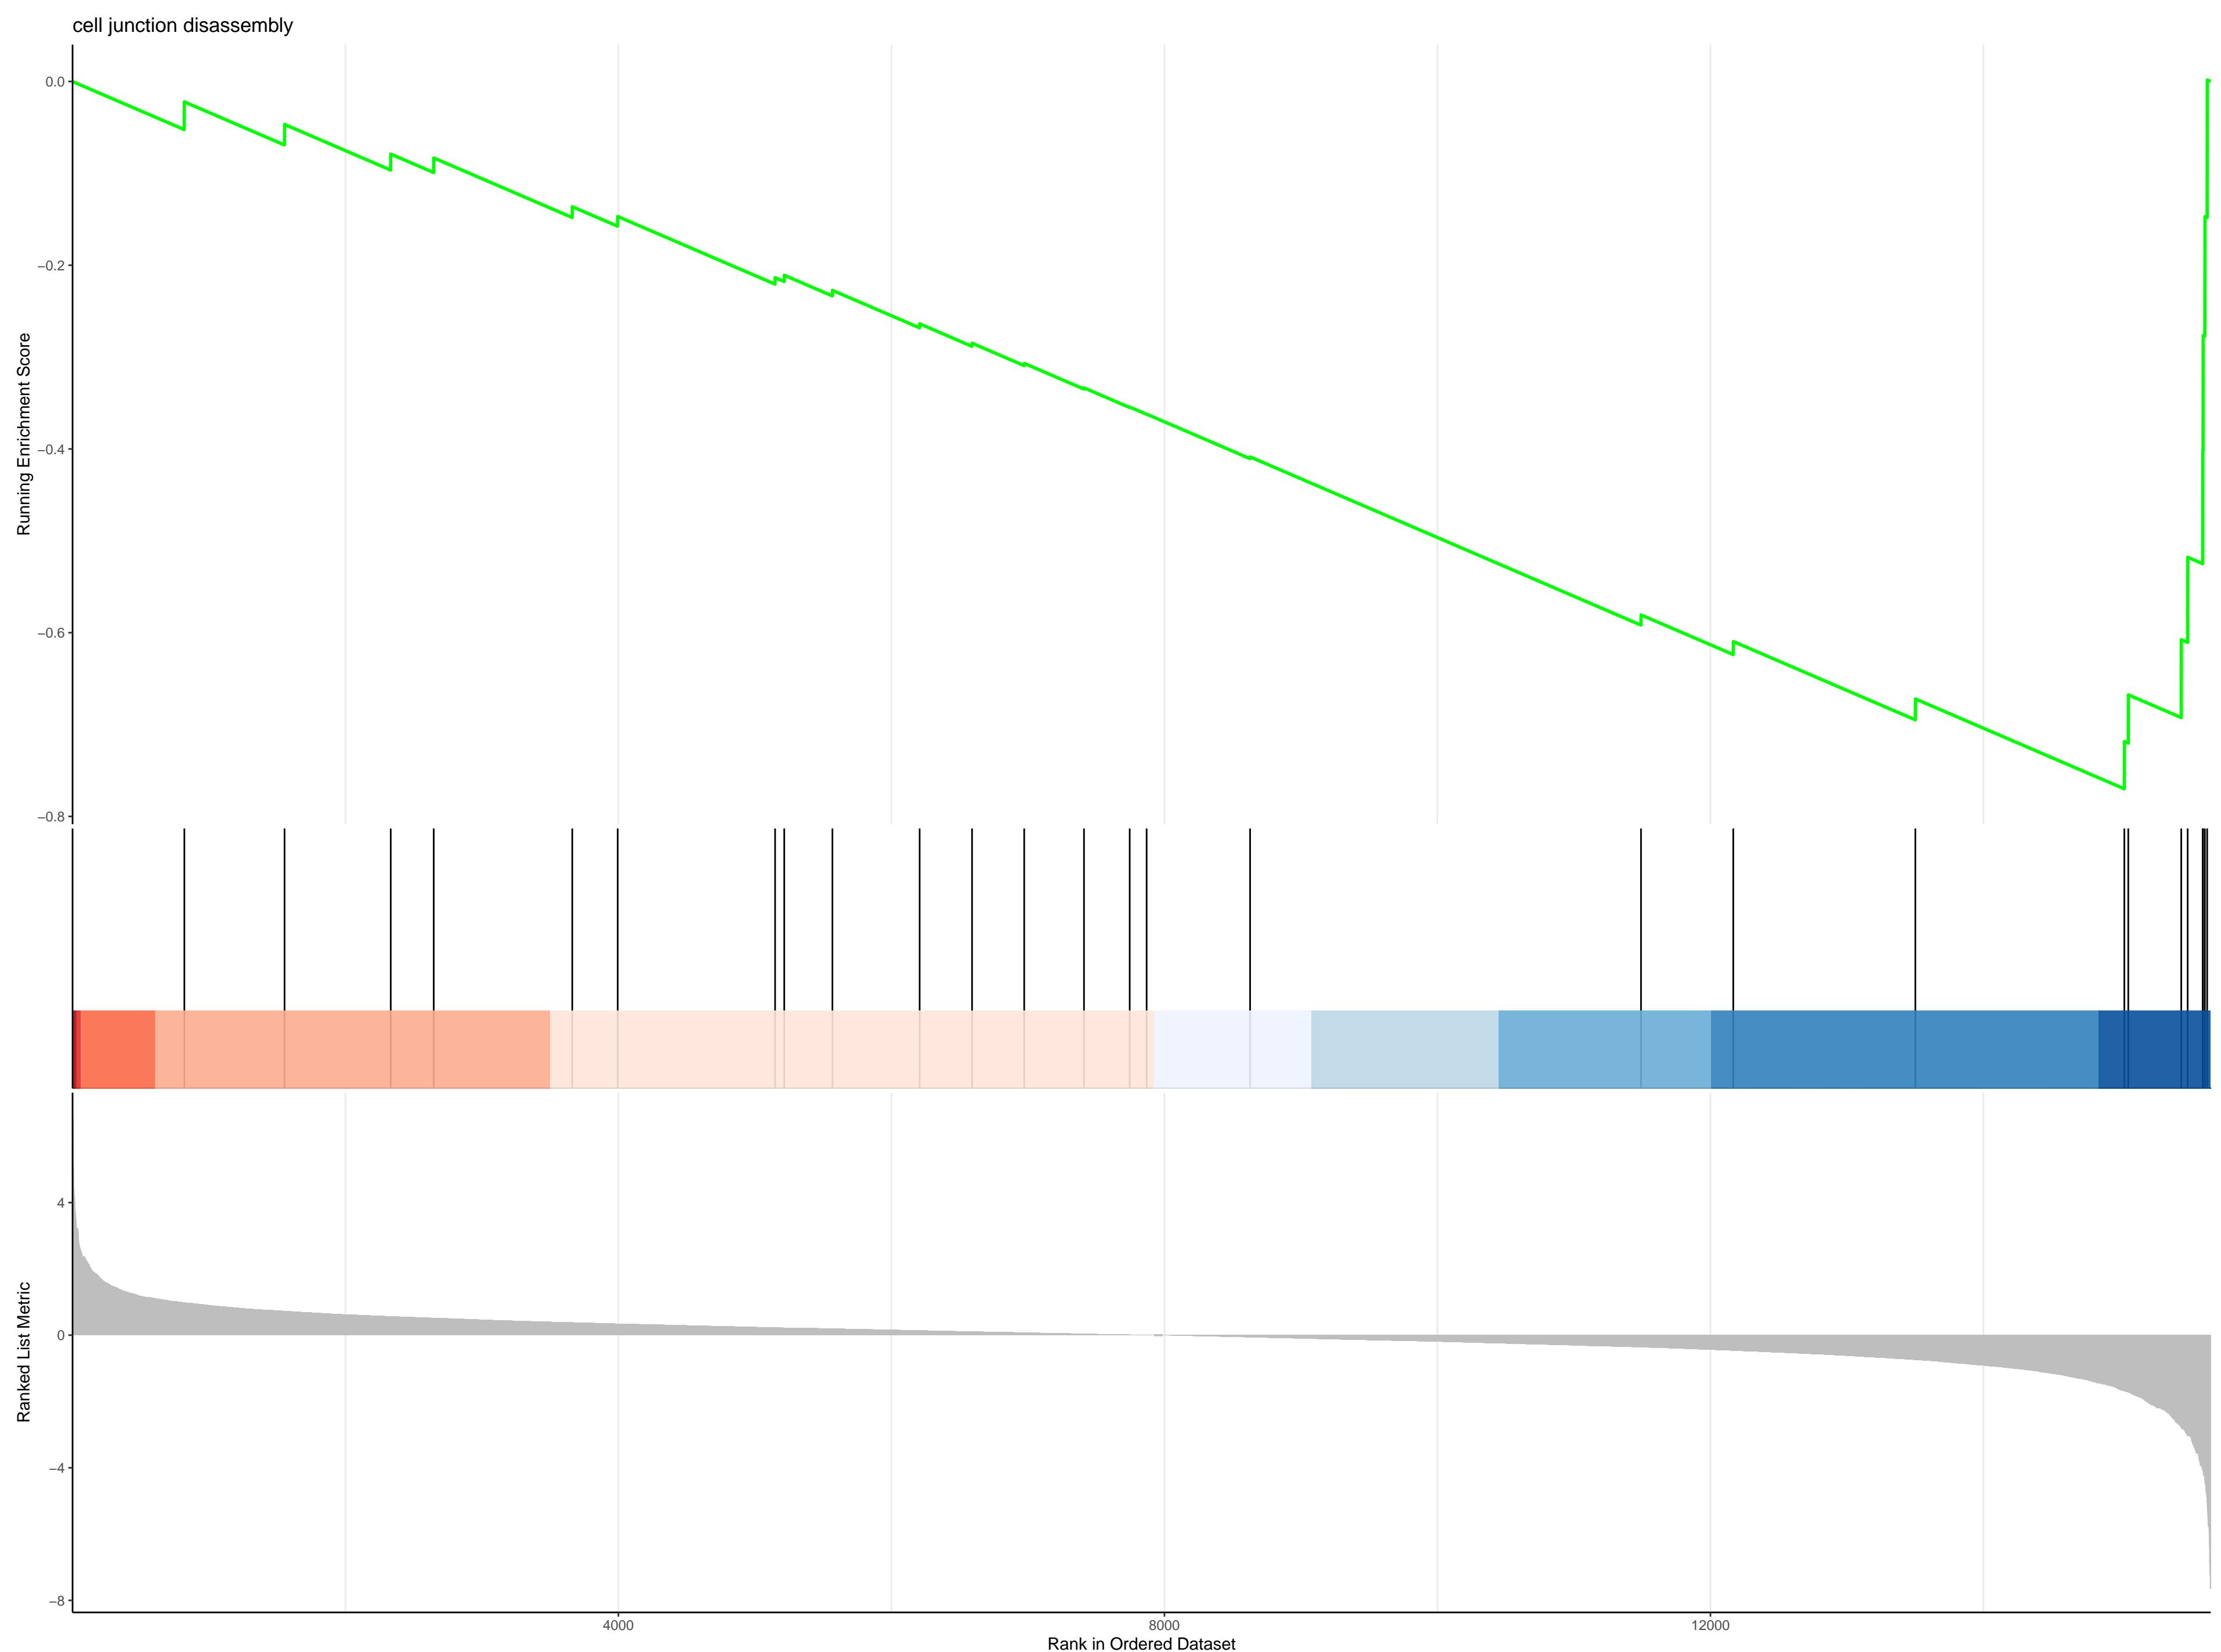

## ribosomal small subunit biogenesis

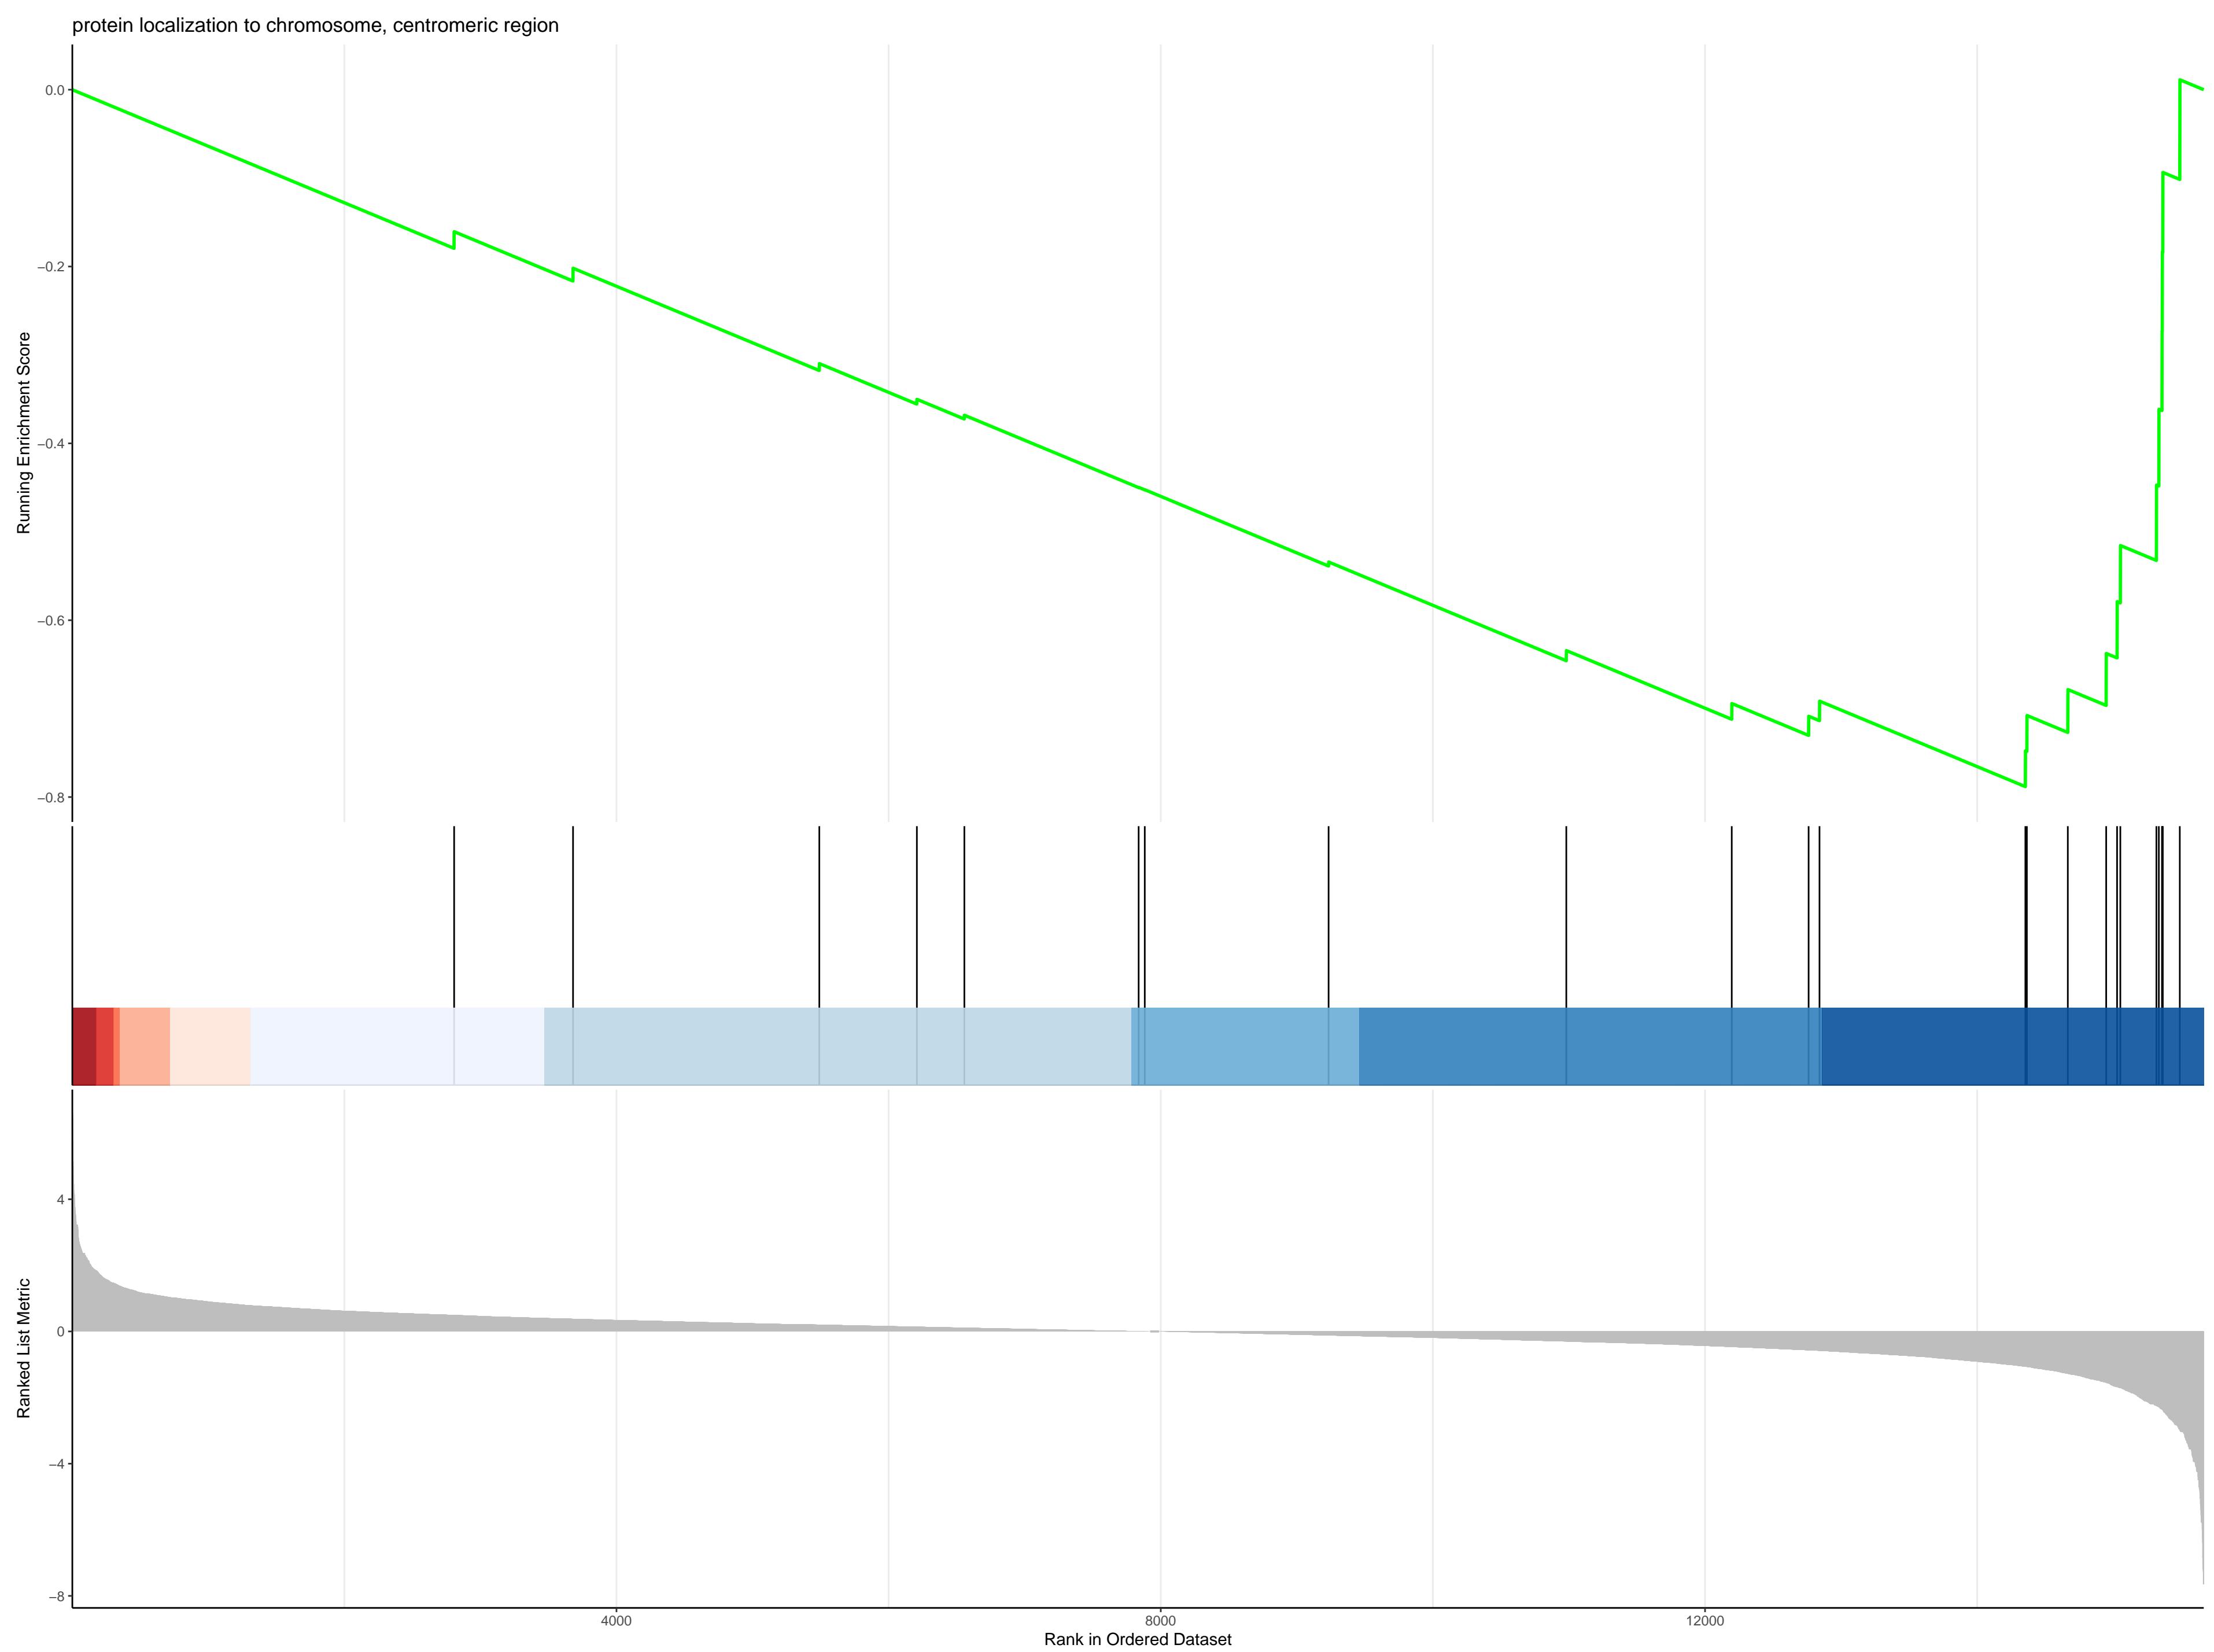

antigen processing and presentation of peptide antigen via MHC class II

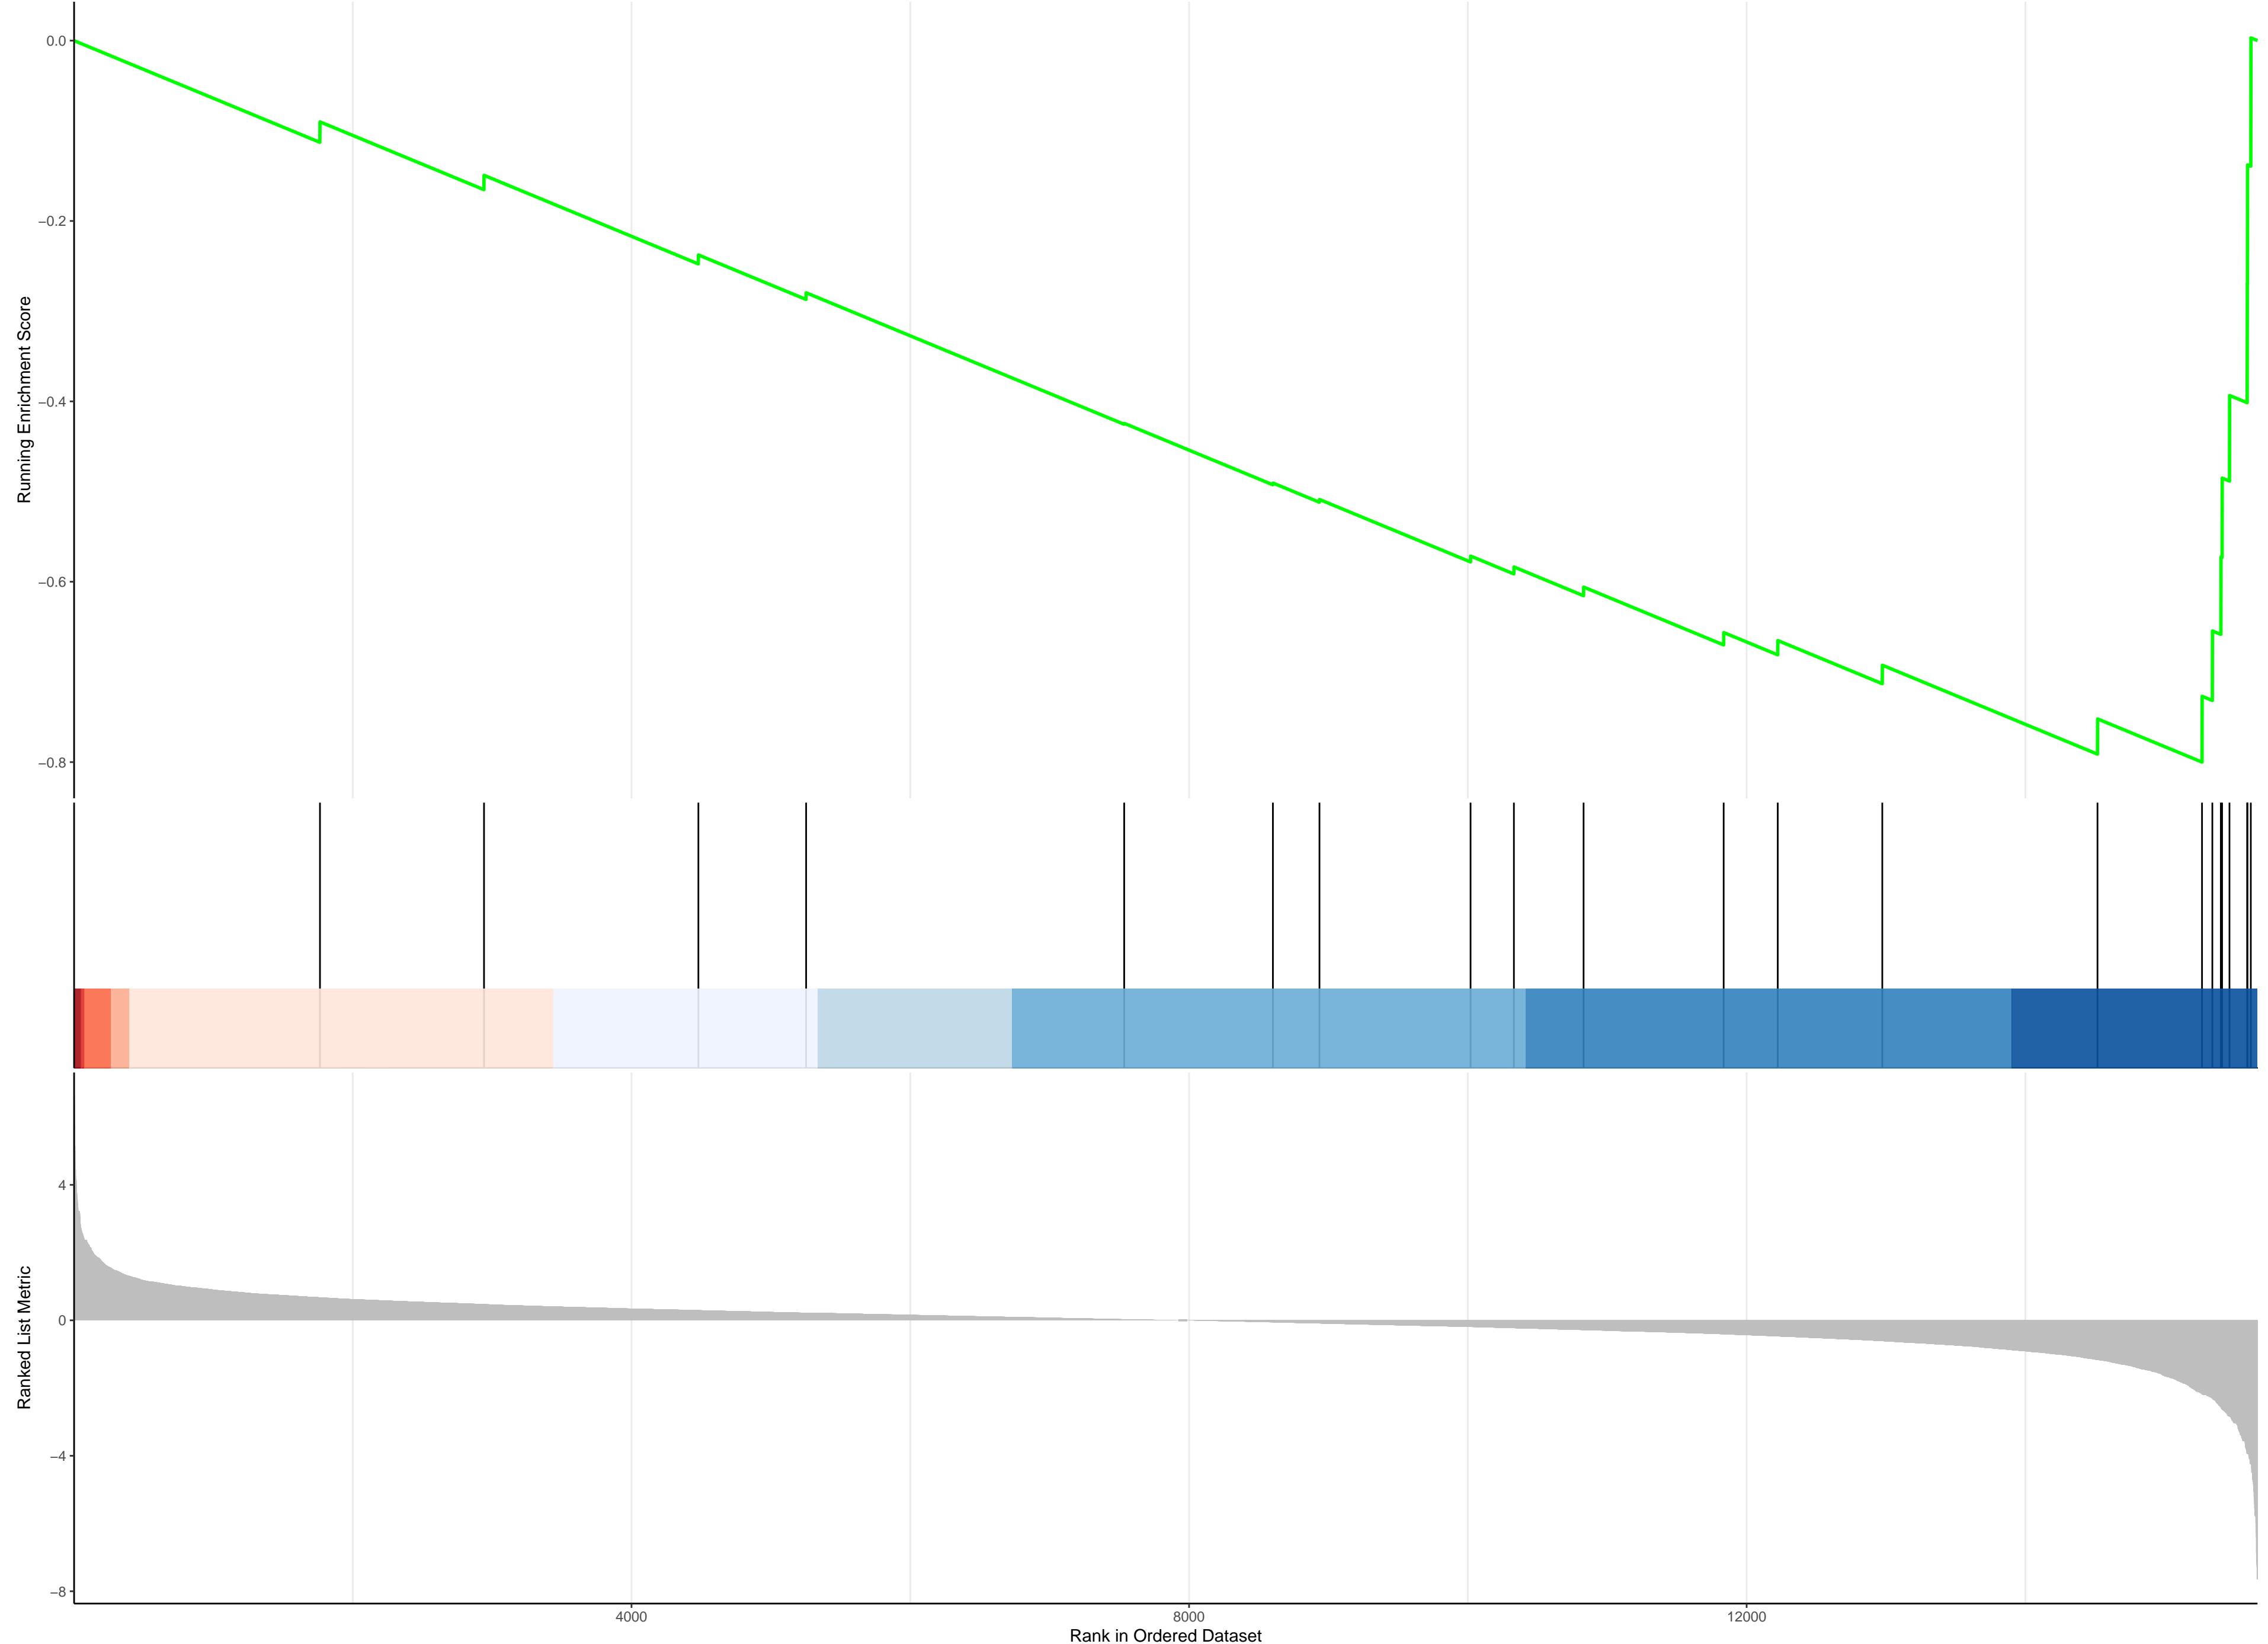

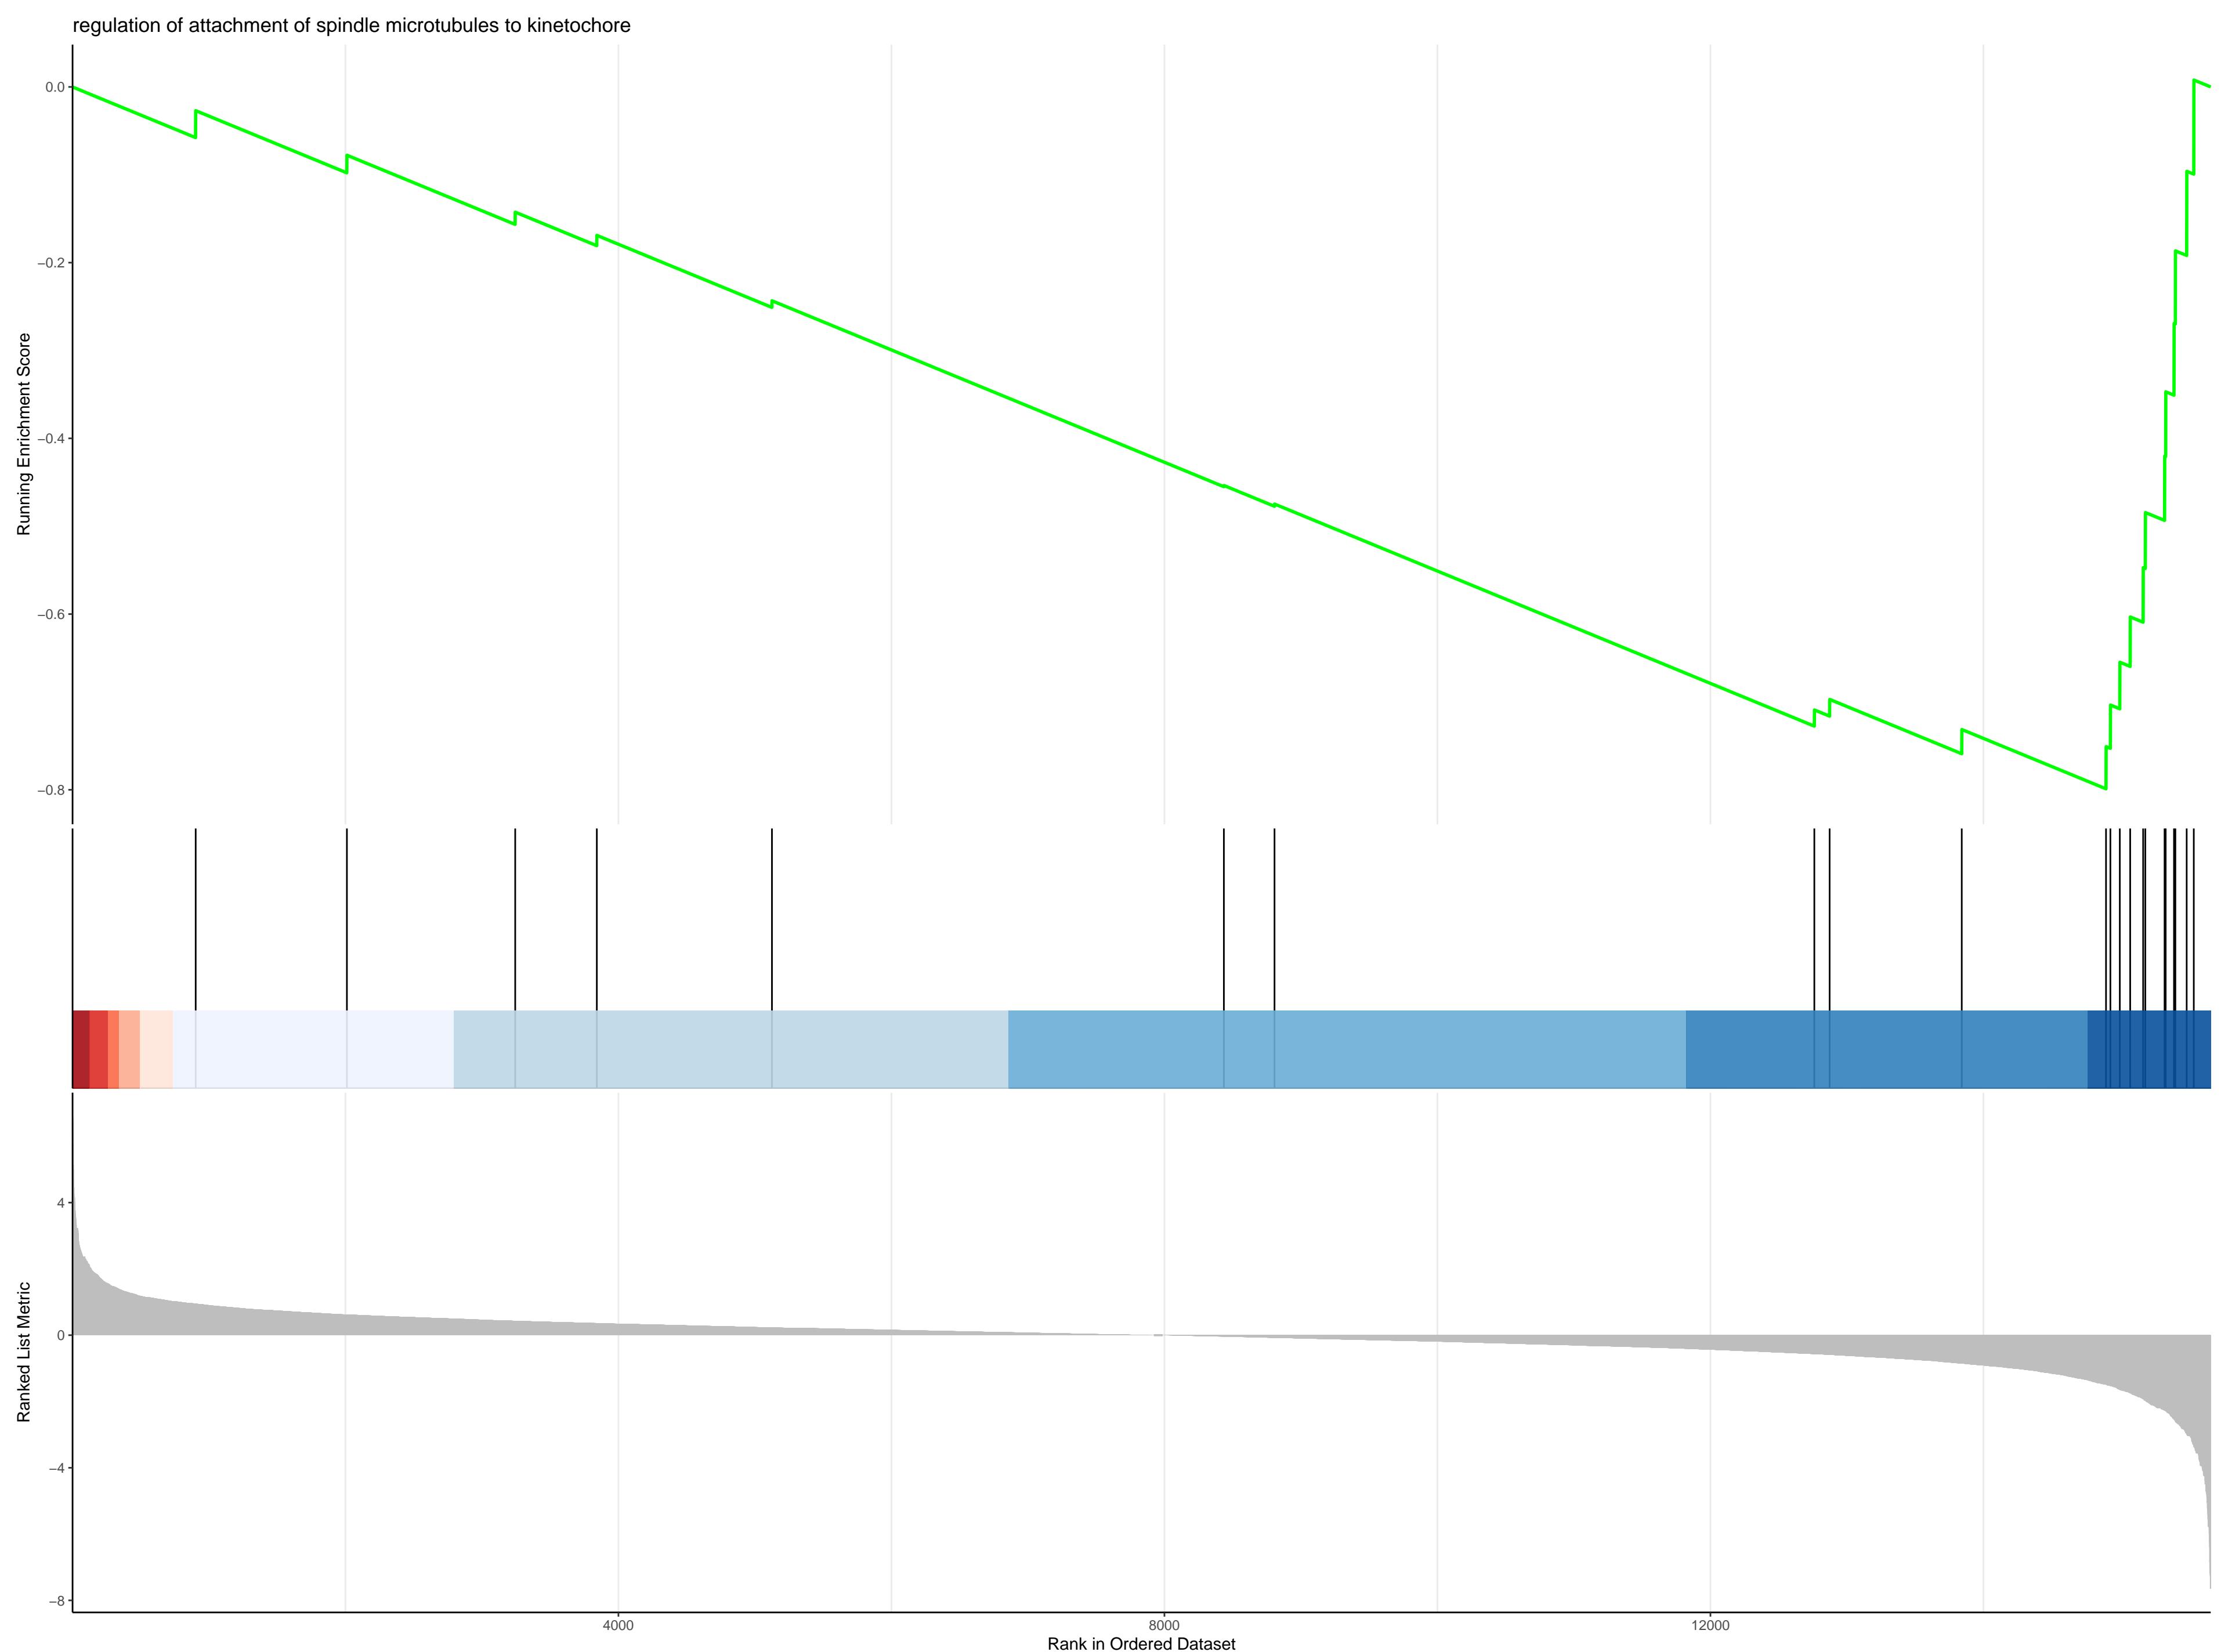

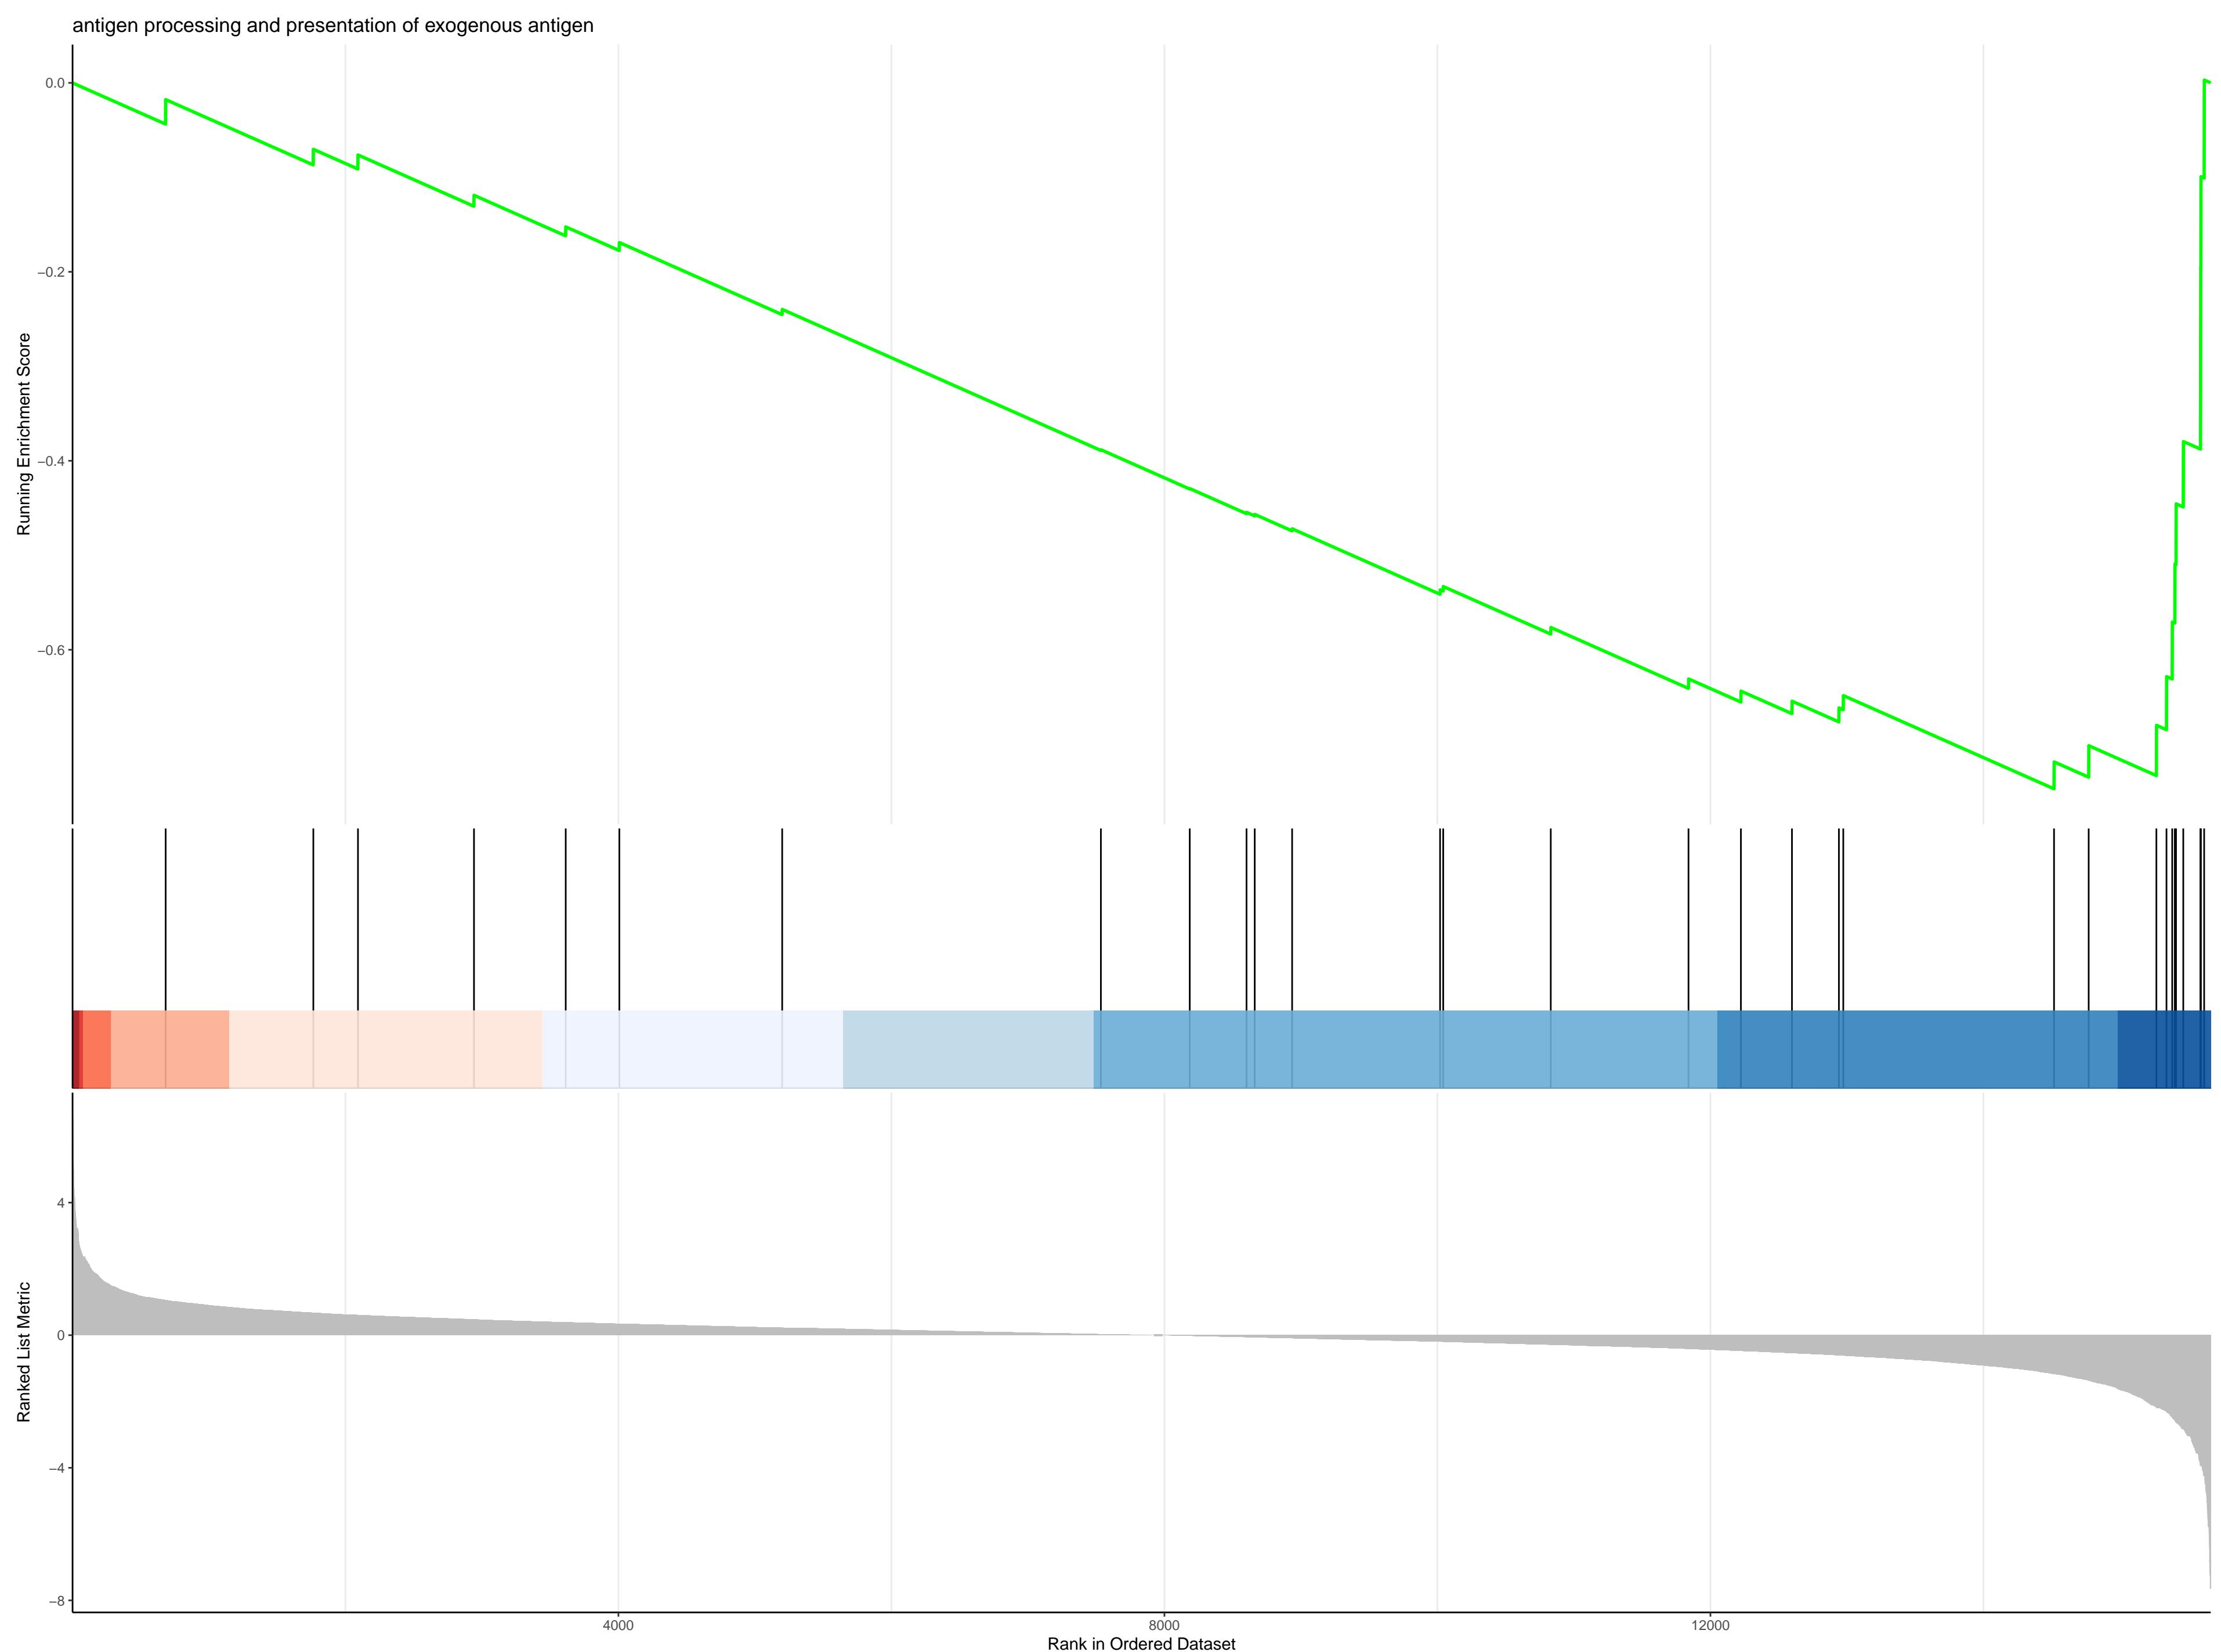

protein localization to chromosome, centromeric region

antigen processing and presentation of peptide or polysaccharide antigen via MHC class II

antigen processing and presentation of exogenous peptide antigen
